Pure Juice of Fruit

Most of the summer beverages are mere stuff and are neither thirst-quenching nor refreshing—while many of them are quite injurious. On the island of Montserrat the Lime is cultivated and the pure fruit juice pressed out, bottled and sold all over the world under the trade mark name

Montserrat

It is pure, wholesome and refreshing. Beware of imitations. "Montserrat" is sold by all druggists and grocers, and is always to be had where summer drinks are sold.

If a Lime Juice Cordial is required "Limetta" will be found the finest article of its kind on the market

ST. JOHN, N. B., AUG. 22, 1896.

THIS MORNING'S NEWS.

CANADA.

Hon. C. F. Geoffrion was sworn in Friday as a member of the government without portfolio.

R. G. Dun & Co.'s review says the failures for the week have been 27 in Canada, against 43 in the corresponding week last year.

A return of the imports for the month of July shows an increase of $290,304 in dutiable and $387,125 in free goods entered for consumption, as compared with the corresponding month last year. The amount of duty collected increased $58,216. The value of goods, the products of Canada, exported during July, declined from $11,548,340 to $10,941,196, as compared with the corresponding month last year. The most marked decline was in the export of fishery products, which dropped 32 per cent., and animals and their product 22 per cent. There was an increase of 10 per cent. in exports of the forest.

UNITED STATES.

Mrs. Wilson Terry, of Stillwater, N. Y., drowned her two-months-old child Friday morning and then committed suicide by drowning in Champlain canal. Illness had unbalanced her mind.

It is said the Western Union Telegraph Company controls at present the American Bell Telephone Company. The combination of the two concerns will mean an almost impregnable monopoly of both the telegraph and telephone business in the same hands.

FOREIGN.

A conspiracy is on foot in the Philippine Islands to secure independence from Spain. The Spanish forces in the islands number 864 officers and about 20,000 men.

The Sultan of Turkey having been informed that a great number of Jewish families who emigrated from Russia to the United States intend to establish themselves in Turkey has sent out an order declaring access to the empire is expressly forbidden to Jewish emigrants.

MINOR LOCAL MATTERS.

The Sons of England held a social entertainment on Friday evening. A lengthy programme was carried out and the president, Mr. John Walker, occupied the chair.

The residence of Mrs. Thornton, Veazie street, St. Stephen, was burned Friday. The barn, shed and house were totally destroyed. Insured for $2,000.

Try that justly celebrated five cent cigar, Stonewall Jackson, at Louis Green's, tobacconist, King street, and you will be convinced that they are superior to many so-called ten cent cigars.

The firemen on Friday evening accepted the invitation of the Sussex firemen to take part in their sports on Sept. 1st. They will take part in the hose cart race, and twenty men from St. John will go up.

Mr. Patrick Kane's horse, attached to an express wagon, ran away on Friday afternoon and collided with Alderman McGoldrick's carriage, throwing the horse and badly damaging the carriage.

Mrs. Sanford Ryan, of Moncton, was thrown from a carriage Thursday night and very seriously injured. Mrs. Wallace Parker was thrown from her carriage at Sunny Brae, Westmorland Co., Friday, and seriously injured.

Joseph Johnson, an up-river resident, tried to jump on board the Olivette on Friday when a few feet from the wharf, and fell into the water. He was rescued by Mr. Orchard, who hauled him out with a pike pole.

Notice is given of application for the incorporation of a company to manage the Hotel Aberdeen. The applicants are: G. R. Pugsley, R. G. Leckie, W. E. Vroom, C. N. Skinner, Wm. Pugsley, J. M. Smith, Max Ungar, C. F. Woodman, R. B. Humphrey and D. A. Pugsley.

Prejudice. — Smokers who are under the impression that they cannot get a good cigar for five cents should try the old reliable Stonewall Jackson. Though costing more than any other five cent cigar manufactured in Canada they have enormously the largest sale. Sold by all dealers who are satisfied with reasonable profit. H. Jacobs Co., Manufacturers, McGill street, Montreal.

At Boston, Mass., on August 5th, at St. James' church, by Rev. Father McQuade, Mr. William H. Dotts, of Pennsylvania, was married to Miss Mamie E. Fitzgerald, of Boston, formerly of Millstream, K. Co. The bridesmaids were: Miss M. McDuff, cousin of the bride, and formerly of St. John, N.B., and Miss L. Farrell, of Boston. The groom was supported by Mr. Thomas Kelley and Mr. Harry Mathers, of Boston.

Hay Fever and Catarrh Relieved in Ten to Sixty Minutes.

One short puff of the breath through Blower, supplied with each bottle of Dr. Agnew's Catarrhal Powder, diffuses this Powder over the surface of the nasal passages. Painless and delightful to use. It relieves instantly, and permanently cures Catarrh, Hay Fever, Colds, Headache, Sore Throat, Tonsilitis and Deafness.

Sold by H. J. Dick.

In the light of modern inoculation by the injection of blood from the immune, it has been suggested that it may be possible to protect African explorers by blood from the healthy natives. In the case of Stanley it is known that he submitted to the transfusion of native blood some fifty times in the practice of the rite of blood brotherhood, and it is not impossible that to this was due his exemption from the fatal fevers of that climate.

How To Cure Corns.

Easy? Yes, if you go about it the right way. Get the best always. Putnam's Painless Corn Extractor never fails to cure. Acts in twenty-four hours and causes neither pain nor discomfort. Putnam's Corn Extractor extracts corns; it is the best.

A tourist in Switzerland who was about to make the ascent of a mountain thought best to ask some questions as to the capabilities of his guide. "Is he a thoroughly skilful climber?" he asked of the hotel-keeper. "I should say so!" exclaimed the innkeeper. "He has lost two parties of tourists down the mountain-side and escaped without a scratch both times."—*London Punch.*

Relief in Six Hours.

Distressing Kidney and Bladder Diseases relieved in six hours by the "SOUTH AMERICAN CURE." This new remedy is a great surprise and delight on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy.

Sold by H. J. Dick.

Books bound in the skin of departed friends are said by the London *Figaro* to be the fashion now in Paris. So are cigarette cases, tobacco pouches, pocketbooks and prayer books made of the skin of notorious criminals.

IMPERFECT SIGHT and eye troubles can be remedied by properly adjusted spectacles. Chas. A. Russelle, graduate optician, 85 Germain street, tests the sight free of charge and adapts spectacles and eye glasses to suit all defects of vision. Prices reasonable, satisfaction guaranteed. 9 a. m. to 8 p. m.

THE DARK NIGHT!

IF YOU WOULD AVOID ITS TERRORS AND SUFFERINGS

Be Wise and Use Paine's Celery Compound.

The dark night of sorrow, suffering and terror has come to many a man and woman in our midst, and hope has almost fled from the troubled and anxious heart.

The shadows and small clouds, or, in other words, the symptoms of disease that were noticed and felt some time ago, were disregarded, and the sufferers now find themselves completely overwhelmed, and are calling for succor and release.

To the disease burdened we would say, despair not. You may renew life and establish a condition of health that will cause your friends amazement and wonder. Paine's Celery Compound will do the good work for you. It restores lost vigor and vitality, gives new, fresh blood, braces up the nerves, and builds up flesh and muscle.

Paine's Celery Compound—the century's wonder—is no new and untried remedy. It has been tried and tested for years and has proved triumphant in the most obstinate cases. It has saved life after all other medicines failed and has the approval of the best medical men on this continent.

If the shadows of disease are hovering over you, if you are not as bright, energetic and strong as you were some weeks ago, a few doses of Paine's Celery Compound will tone up your whole system, cleanse the blood, correct indigestion, sharpen the appetite and give you a vim and vigor that you will thoroughly appreciate.

By all means give Paine's Celery Compound a fair and honest trial at this season and you will be compelled to sing its praises as thousands of others have done. Get the genuine "Paine's," as there are vile imitations.

SHIPPING NOTES.

CHARTERED.—Bqe. Samaritan, now due at Middlesboro, has been fixed to load general cargo there for Japan at 18s. per ton.

ASHORE.—The big American schooner Governor Goodwin is ashore on Princes Island. She is 212 feet long, 40 feet beam, and 1,459 tons. Her New York agents say she had a full cargo of case oil consigned by the Standard Oil Co. Captain Charles C. Oakes, of Yarmouthville, Maine, commanded the Goodwin, and with him was a crew of nineteen men, most of whom were foreigners.

THE WILDCROFT.—The temporary repairs to the steamer Wildcroft are estimated to cost about $5,000. An English tender to repair the vessel, it is stated, was $19,000. The owners claim that this figure was so low it induced them to order the vessel home for permanent repairs. The opinion of experts in Halifax, disinterested persons, is that permanent repairs in this case could be made cheapest at Halifax.—*Halifax Mail.*

A MAINE SHIP LOST.—Cablegram received from Santa Catharina says the American ship Willie Rosenfeld, commanded by Captain Dunphy, which sailed from New York April 26th for San Francisco, foundered 400 miles off the coast. The Rosenfeld was owned by Arthur B. Sewall & Co., of Bath, Me. The ship had a general cargo valued at about $100,000. The crew are saved.

KOOTENAY CURE.

CONVINCING HOME TESTIMONY—RHEUMATISM OF 18 YEARS CURED.

Mr. R. J. Logan, of St. John, N. B., writes us that he had rheumatism for 15 years, and during that time used barrels of liniments and spent many dollars without getting cured; that the pain was so severe at times in his shoulders that he walked the floor all night. He took two bottles of Ryckman's Kootenay Cure and was completely restored to health. He says that life at the present time is worth living owing to Kootenay Cure, and he recommends the medicine to all rheumatic sufferers.

For sale by leading druggists. Write for pamphlet of sworn statements of cures. S. S. Ryckman Medicine Co., Hamilton, Ont.

For sale in St. John by Geo. A. Moore, Samuel Watters, G. W. Hoben, druggists. Canadian Drug Co., wholesale agents.

WITH THE BAPTISTS.

Annual Meetings in Connection with the Convention.

BERWICK, N. S., Aug. 21.

The annual meeting of the Baptist Institute was held to-day, with the president, Rev. E. O. Reed, Berwick, in the chair. The exercises were opened in the usual way with singing and prayer. After the reading of minutes of the last meeting the following officers were elected for the coming year:

President—Rev. J. A. Gordon, St. John.

Vice-presidents—Rev. J. W. Brown for Nova Scotia, Rev. J. M Corey for P. E. Island, H. C. Creed for New Brunswick.

Secretary-treasurer—Bro. Nobles.

Executive committee—Rev. Wm. Price for P. E. Island, Rev. Isa Wallace for Nova Scotia, Rev. Mr. Daley for New Brunswick, together with the officers.

The subject of the establishment of a summer school of theology was discussed at some length, and the following resolution passed:

Whereas, Correspondence has been presented by a committee from the governors of Acadia University relative to the establishment of a summer school in these provinces, with the suggestion that it might take the place of the institute;

Resolved, That this body express its sympathy with such movement, and appoint a committee to confer with a committee from the governors, and report.

The following were appointed as the committee: Rev. Messrs. Gates, G. R. White, Gordon, Price, Trotter, Nobles, McDonald and S. McC. Black.

The institute listened to an eloquent paper by Rev. J. D. Freeman, of Fredericton, on Conviction as an Element of Power in Preaching.

Rev. L. Trotter gave an address on English Hymnody. Hymns should teach the truth. England is richer in hymns than any other country. Go back four hundred years and there were only Latin hymns, but with the reformation came an outburst of psalmody.

The W. B. M. U. in session Friday afternoon received a formal welcome from Pastor Simpson's wife, and was responded to by Mrs. Crandall. Mrs. Manning, the president, in her annual address made a powerful impression. J. F. Parsons, on behalf of the convention, welcomed the Union, and W. V. Higgins gave an address on the Telegu country.

The Y. P. U. met this evening, George McDonald presiding. Rev. F. Beales, secretary, reported 182 societies, with an estimated number of 6 310. The maritime union has for the fourth time won the literature banner in competition with the whole United States.

AN OLD FAVORITE WITH NEW FEATURES.

It is announced that the publishers of the old standard eclectic weekly, *Littell's Living Age*, founded by E. Littell in 1844, are about to introduce several new and valuable features in their magazine. The most important of these is a Monthly Supplement, given without additional cost to the subscribers, which will contain Readings from American Magazines, Readings from New Books, and also a list of Books of the Month.

It is also proposed to extend their field by giving occasional translations of noteworthy articles from the French, German, Spanish and Italian reviews and magazines.

A year's subscription to *The Living Age* will then include more than thirty-five hundred pages, filled with the best things in current periodical and general literature, and making four large volumes, for only six dollars.

Each of the weekly numbers of the magazine contains sixty-four pages. Fiction, travel, essays, biography, poetry, and a wide range of general discussion and information are included in the contents.

To new subscribers remitting before Nov. 1st (in which month the first of these new features will be introduced) will be sent gratis the intervening weekly issues from date of payment. Address, The Living Age Co., 13½ Bromfield street, Boston, Mass.

Piles Cured in 3 to 6 Nights.

Dr. Agnew's Ointment will cure all cases of Itching Piles in from 3 to 6 nights. One application brings comfort. For Blind and Bleeding Piles it is peerless. Also cures Tetter, Salt Rheum, Eczema, Barber's Itch, and all eruptions of the skin. 35 cts.

Sold by H. J. Dick.

The city of Paris has just voted a sum of $2,000,000 for the establishment of homes in Algeria, Tunis and Corsica for the consumptive patients of the metropolitan hospitals. The homes are to be arranged in accordance with the new theories concerning the necessity of isolated patients in the last stages of the malady from those who are not altogether beyond the hope of recovery.

MILLINERY SALE.—Mme. Kane in order to clear out the balance of her spring millinery is making special reductions for the next few days. As Mme. Kane makes a point of having the latest novelties in fine millinery, this sale should be interesting to all the fair sex.

At a recent wedding in an English town the officiating minister asked how the name of one of the witnesses was spelt, to which he received the reply, "McHugh." The minister then inquired how it was that the witness spelt his name in that way when his sister spelt hers "McCue," to which the witness responded. "Please, sir, my sister and me didn't go to the same school."

KUMFORT DIARRHŒA CURE, ten cents cures diarrhœa, dysentery, cholera morbus colic, etc. For sale by all druggists and dealers.

Hamburg has run ahead of Liverpool and is now the chief port of Europe, if German statistics can be believed.

DOMINION PARLIAMENT.

EIGHTH PARLIAMENT—FIRST SESSION.

House of Commons.

OTTAWA, Aug. 21.

In reply to Mr. Wood, of Brockville, Sir Henry Joly said it was not the intention of the government to alter the rules regulating the selection of grain standards in the Northwest this year, nor was it intended to adopt the metric system of weights and measures in lieu of the present.

Mr. Laurier informed the House that the correspondence regarding the resignations of the late ministry would be brought down with His Excellency's consent after the address had been passed.

This did not suit Sir Charles Tupper, as he wanted this correspondence laid on the table before the address was moved.

Mr. Laurier took the ground that if the opposition were going to move in this matter they must do so by separate and distinct motion, and he therefore must decline to bring down the correspondence until the address had been passed.

Mr. Haggart drew the attention of the government to an interview reported in a Chicago newspaper purporting to have taken place between a correspondent and Mr. Laurier regarding the attitude of the Liberal leader towards the United States in the matter of reciprocity, and regarding other matters of an international character. He wished to know if the interview was correct. In reply Mr Laurier stated that the interview was substantially correct.

Sir C. H. Tupper gave notice of motion for copies of all returns and reports showing the effect upon the receipts and expenditures of the government railways by the operation of the River du Loup, St. Charles Branch, Oxford and New Glasgow Eastern Extension, Cape Breton and other additions to the Intercolonial railway, as originally constructed and operated.

Sir Charles H. Tupper also gave notice of a bill to further amend the election act.

Mr. Haggart will move for a return showing the name of every official of the government dismissed and superannuated by the government since July 11, 1896.

LITERARY NOTES.

Messrs. Flood & Vincent, Meadville, Pa., publishers of the text-books of the Chautauqua Literary and Scientific Circle, announce the following volumes, which will constitute the Chautauqua course of reading for the French-Greek year, 1896–97, which begins in the early autumn: "The Growth of the French Nation," by Prof. George B. Adams, of Yale University; "French Traits," by Mr. W. C. Brownell, of Scribners'; "A Study of the Sky," by Prof. H. A. Howe, Director of Chamberlin Observatory, University of Denver; "A Survey of Greek Civilization," by Prof. J. P. Mahaffy, of Trinity College, Dublin, Ireland; "A History of Greek Art," by Prof. Frank B. Tarbell, of the University of Chicago. With the exception of Mr. Brownell's "French Traits," these volumes have been specially prepared for the Chautauqua Reading Circle.

The Macmillan Company announce "The Life of Richard Cobden," written by John Morley, to be published in the autumn. After a brief narrative of Cobden's early life, of his commercial and mental progress, and of his early travels, special attention is given to his life in Manchester and the long fight against the corn laws, which first gave him fame. His life in Parliament, his correspondence with Sir Robert Peel, and later with Mr. Bright and other public men, together with his own intimate knowledge of all that was of most importance in English history during a half century which saw the Crimean war, the Indian mutiny and the American civil war, furnish rich material for a biography which must be interesting, even in less capable hands than the author's. In Mr. Morley's hands the book will be of unusual importance as well as of supreme interest.

"The Definition, Object and Sphere of Taxation" will be treated by David A. Wells in Appleton's "Popular Science Monthly" for September. Many popular errors as to the nature of taxation, some centuries old, will be pointed out in this paper. The number will also contain an abstract of the recent studies of Enrico Ferri on "Homicide" among both savage and civilized men, with some cosideration of "crime among animals."

"McClure's Magazine" for September will contain a paper on Dr. W. T. G. Morton, the discoverer of anæsthesia, by his wife. Dr. Morton's discovery established painless surgery, and Mrs. Morton's paper is the intimate personal history of a heroic battle for a new idea. It has special interest at this time, because in October there is to be a public jubilee in honor of Dr. Morton's priceless service to humanity. The paper will be fully illustrated.

Mothers

Anxiously watch declining health of their daughters. So many are cut off by consumption in early years that there is real cause for anxiety. In the early stages, when not beyond the reach of medicine, Hood's Sarsaparilla will restore the quality and quantity of the blood and thus give good health. Read the following letter:

"It is but just to write about my daughter Cora, aged 19. She was completely run down, declining, had that tired feeling, and friends said she would not live over three months. She had a bad

Cough

and nothing seemed to do her any good. I happened to read about Hood's Sarsaparilla and had her give it a trial. From the very first dose she began to get better. After taking a few bottles she was completely cured and her health has been the best ever since." MRS. ADDIE PECK, 12 Railroad Place, Amsterdam, N. Y.

"I will say that my mother has not stated my case in as strong words as I would have done. Hood's Sarsaparilla has truly cured me and I am now well." CORA PECK, Amsterdam, N. Y.

Be sure to get Hood's, because

Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists. $1. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills are purely vegetable, reliable and beneficial. 25c.

MARK THE DIFFERENCE

Between Diamond Dyes and Imitations.

To the thrifty and economical housewife Diamond Dyes offer advantages and results that no other dyes can guarantee.

The Diamond Dyes that all chemical experts pronounce to be purest and best, possess more than double the dyeing strength of all other dyes. The colors are made to endure in spite of soap, rain or sun.

Diamond Dye colors are brilliant and bright; imitation dyes give dull and blotched colors. Diamond Dyes are prepared scientifically; imitation dyes are prepared and mixed without regard to the user's interests; the fact is, they are made to deceive and swindle the unsuspecting.

If you would dye well, easily and successfully, you must use the "Diamond." Tell your dealer plainly that you have no use for miserable imitation dyes.

A GOOD RECORD.

[From the Canadian official organ.]

The total amount of beneficiary money received by the Grand Council of the C. M. B. A. of Canada, from its branches, from 1st July, 1894, to 30th June, 1896, inclusive, was $304,534.29.

From this sum $15,232 06 was transferred to the Reserve Fund of the association and $289,057.57 was paid to the widows, orphans or heirs of our deceased brothers.

During the same term of two years $21,084.23 was received for General Fund. Out of this sum not quite one-tenth was applied each year for salaries, showing that the C. M. B. A. is the most economically conducted, as far as salaries for the officials in its head office is concerned, of any association of its kind, doing such an amount of business, in Canada.

A FIBRE CHAMOIS AD.

Men as a rule care more for comfort than for style, still no man is averse to a neat, well-hanging coat that keeps its shape through all kinds of knocking around. This is one of the extras that Fibre Chamois furnishes when used as the interlining in men's clothing. It not only makes garments thoroughly weather proof, providing a healthful warmth which can't be penetrated by the severest wind or cold; but its flexible spring and stiffness make the coat or vest fit well and keep its proper hang till worn completely out. And the beauty is that it is so light you wouldn't know you were carrying anything extra around, and so cheap that it is in everyone's reach.

Women were for the first time officially acknowledged to be members of the government in the invitations sent out by the Queen to Princess Maud's wedding. The list read: Members of the government, Prime Minister and Secretary of State for Foreign Affairs, the Marquis and Marchioness of Salisbury, Lord High Chancellor, the Lord and Lady Halsbury, Lord President of the Council, the Duke and Duchess of Devonshire, and so on.

QUICK AND MAGICAL RESULTS WHEN LACTATED FOOD IS USED.

The best Canadian physicians daily prescribe and recommend health-giving Lactated Food.

In the hot summer weather, every baby should be fed on this satisfying and nourishing food. It is a shield and defence against all the fatal summer ills that send so many little ones to the grave.

Lactated Food gives sweet sleep and rest to the cross and peevish baby. After a few weeks use of this wonderful food you see magnificent results—plump limbs, chubby faces, firm flesh, hard muscles and rosy complexion.

Dear mother, if your little one is weak, frail and half dead this summer, just try a tin of Lactated Food, and you will soon note a happy change.

DEATH OF DR. ANNIE DICKSON.

She was a Bright Graduate of Queen's Medical Faculty, and a Noble Woman.

[Kingston, Ont., Whig, Aug. 17.]

On Saturday night death visited the residence of Mrs. Dickson, Johnson street, and removed one of Kingston's brightest and most noble women, the late Dr. Annie Dickson, who passed away after an illness of two weeks' duration. She graduated in medicine in Queen's University in 1888 and successfully conducted a medical practice in Brockville, Brantford and Kingston. Owing to decline in health she retired from active practice. Some time ago she went down to Bostwick Island with her relatives to spend the summer months at her brother's house. Two weeks ago, in company with a number of friends, she went out on a trip in a sail boat and became wet from the waves which dashed over the craft. It was some time before she could change her damp clothing and cold resulted which developed into typho-pneumonia. Miss Dickson's medical knowledge made her fully aware of the danger her life was in, and she told her friends from the first that she would not recover. During her life Dr. Dickson was an active worker of St. Andrew's church, a member of the Poor Relief Association, a talent worker in the church, and a member of the Woman's Foreign Missionary Society. At her own request the funeral, which took place this morning, was of a private nature. The pall-bearers were: The Rev. Professor Marshall, Rev. W. Muckleston, Perth; Dr. Rogers, Messrs. C. F. Smith, J. Montague Strange and F. Dobbs. The service was conducted by Rev. Dr. Bell, at the residence of the deceased. By the death of Dr. Dickson the members of St. Andrew's congregation have lost an active worker, and the citizens in general have lost a true friend, whose many deeds of charity have made her beloved by all who knew her.

[Miss Dickson was a daughter of the late Prof. Dickson, president of the College of Physicians and Surgeons at Queens, and sister of the wife of Rev. Dr. Bruce. She visited St. John on one or two occasions and made many friends, who will regret to hear of her death.

THE FLANNELETTE WAR.

[Dry Goods Review, Montreal and Toronto.]

The leading subject of conversation in the trade during the past ten days has been the cut in flannelettes. The facts briefly are that when the mills of Wm. Parks & Son, Ltd., decided to manufacture flannelettes some time ago the price of the Colored Cotton Co. for the same was quoted at 6½c. The Parks makes, being of lighter weight, were put on the market at 6c., and large orders were at once placed, as the goods were exceedingly fine and promised to sell well. The Cotton Co., it was understood by the trade, would meet the price of the rival mill and even go a little under. When the company, however, cut the price of 32-inch flannelettes to 5c. the surprise was great. Wholesale houses began immediately to quote lower figures on these lines, and retailers who had bought at the old figures complained that it was not fair to them.

The *Review* voices the opinion current on all sides in deprecating a cut like that to 5c., which, there is every reason to suppose, means a dead loss to the mills. The result is to paralyze a good many staple lines, while the net effect to trade all round is injurious. The retailer feels it difficult to buy at present figures, because one break may lead to another, and, although the prices on raw materials afford no warrant for such a thing just now, how can a retailer be sure of this?

The opinion is freely expressed that the cut is a war between the two mills, and in the Maritime Provinces Parks & Son, Ltd., have the sympathy of the trade in what is apparently an attempt to cut away below profitable values and concentrate the making of Canadian flannelettes in one company. In the west, too, we hear it said that while all were prepared for the Colored Cotton Co. to meet a rival's price, the 5c. quotation was unwise, and that Parks & Son, Ltd., are in no way responsible for the break. The *Review* has always taken the ground that business must be done on a profitable basis, and this is just as true when applied to a manufacturer as a wholesaler or retailer.

Of course, if unduly high prices have been charged for flannelettes, that is another matter, and the trade would welcome rather than resent a reduction in these goods. But it is generally believed that 5c. does not represent a profit to the mills, and is only a temporary incident in a fight between rival makers. If, however, the new price is defended as sound and reasonable, will the question not be raised whether profits in the past were not swollen far beyond legitimate figures, and will not merchants be forced to consider the utility of a policy that permitted such a condition? Surely the cotton companies are not anxious to raise this point at the present juncture. Other things being equal we have always favored Canadian industries, and regret exceedingly any occurrences that tend to create the idea that our mills do not deserve fair treatment in tariff legislation. There is no reason why flannelettes, or any class of cottons, should be confined to one mill, and any attempt to force a concern like the Parks Co. out of the market is not merely unnecessary, but cannot succeed.

The proper policy is to put prices on a living basis and stick to that.

WORDS IN SEASON

The angel of the Lord encampeth round about them that fear Him, and delivereth them—PSALM XXXIV. 7.

PETTICOAT GOVERNMENT.

[From the North American Review.]

A few months ago I was in the town of E. (Kansas.) There was a mayor who was married, and the happy pair had a little boy. That little boy was a wicked little boy. One day he was caught smoking a cigarette. Now, what should be done by sensible parents to such a wicked little boy? Why, he should be turned over and given a good hearty—you know! This is not at all what was done. The mayor's wife called up a meeting of women, made a violent speech on the pernicious habit of cigarette smoking, and it was decided to petition the mayor and ask him to forbid the sale of cigarettes within the precincts of his jurisdiction. For the sake of peace and happiness at home, the worthy mayor published an edict prohibiting the sale of cigarettes in his district. However, cigarettes can be had in the town of E., but you have to walk nearly a mile just outside the limits of the mayor's jurisdiction to find a store, where a roaring trade in cigarettes is done.

All the same, you must admit that it is a nuisance to be obliged to walk a mile, in a free country, to buy a little article of luxury that you indulge in, without ever abusing it, because there happens to be in the town a wicked little boy that once smoked a cigarette.

Rheumatism Cured in a Day.

South American Rheumatic Cure, for Rheumatism and Neuralgia, radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents.

Sold by H. J. Dick.

Three fruit stores in Jacksonville, Fla., are almost wholly supported just now by the negro watermelon trade. They are near the river front, where the melons are unloaded in great numbers, and the darkies munch so assiduously until far into the night that barrels full of remnants are carried away each morning by the street cleaners.

Public libraries, maintained by municipal corporations in England, are literary institutions, and consequently exempt from taxation by a recent decision of the House of Lords, overruling the decision of the Divisional Court and of the Court of Appeal.

Our Manufacturing Interests.

What a Hamilton Manufacturer Has to Say.

Mr. James Brayley speaks for the public good.

THE PROPER POLICY.

Our representative interviewed Mr. James Brayley, of Hamilton, at his office, 58 King William Street. Mr Brayley is an enterprising business man, and one of Hamilton's foremost manufacturers. His goods, Saddlery hardware, punches, dies, etc., are known from Halifax to Vancouver, and stand very high in the estimation of the trade.

Mr. Brayley said: "For years I have been troubled with gravel and weakness of the kidneys. I had to stand up and clench my teeth when urinating, so intense was the pain. The pains around my loins where almost intolerable, and I felt as though a cat were being pulled down my back by the hind legs.

"I went from bad to worse till at last I could not urinate at all, and had to be operated on. I had no confidence in anything, and made up my mind to suffer torture to my dying day. Reading the testimony published by the Doan Kidney Pills Co., I saw a similar case to my own, and, being in constant agony, decided to give them a trial, and got a box of the pills from Spackman's drug store, at the corner of Market Square.

"It did me no good, so I got another, and another, until I had taken four boxes, and was about giving up when relief came. I continued to take them till the pain left my back, and I am now as limber as an eel. Instead of getting up a dozen times a night I never get up more than once now. The urine is now perfectly clear and has no sediment of any kind.

I am delighted to testify in behalf of Doan's Kidney Pills, as they cured me after the last ray of hope had fled."

FINE ART PHOTOS.

WE are producing a beautiful process in Photography that all desiring the latest should see. They will stand close inspection. Only to be had at
