

Books and Exchanges.

We have just received a Treatise on "The Philosophy of Art," written by our esteemed friend, Dr. Moore, of Stanley, and published at the office of the St. John Sun. From a superficial glance, which is all we have had time to give to it, we find it bristling with rare penetration, a keen insight of Art and Nature and deep philosophical research. It is a little volume well worth reading and a valuable contribution to the literature of the day. We hope ere long that the learned doctor will see his way clear to embalm in more enduring form the several splendid treatises he has written from time to time. The world would be the richer for it.

CAPITAL REDIVIVUS.

We have on our table the first number of Mr. Cropley's resurrected Capital, which is a 16 page monthly of interesting literature and passing events. The Capital brings to us memories of long ago, which have sunk deep into our heart and given us a warm feeling for its success and that of its editor who we are proud to count among our best friends. Indeed he was among the first who extended to us a helping hand and gave us recognition and encouragement when we first settled here. Mr. Cropley has also had his troubles and knows the sharp sting of "friends remembered not." He speaks plainly but moderately and without any vindictiveness of the wrongs he has suffered from his political party and former friends.

It is nicely gotten up and its typographic appearance is perfect. We heartily wish Mr. Cropley the largest measure of success in this as well as in all his ventures.

Among the Kids.

Half the kids in town have called and paid their respects to young Martin. If he lives to grow up and they show him as much affection as they have us we shall be more than gratified.

Eldon Merrithew has purchased a new wheel and may be seen any day spinning along the streets on it. He is very naturally proud of his new acquisition and quite an expert.

Alexander Thompson has fitted up the room over the kitchen in his father's house as a gymnasium and has in it a good array of Indian clubs, performing bars, and all the paraphernalia necessary to the business. We have often been invited to his room and are alike charmed by his skill in athletics and his pleasant manly and affectionate disposition.

Oh! So Tired.

Many people are tired, worn out and weary in spring time, when they could easily be strong, vigorous and healthy by using Burdock Blood Bitters, which removes all morbid effete matter from the system and restores robust health.

It Was Ever Thus.

"When the cat's away the mice will play" is an old saying, yet we have ample evidence of its truth in the present day. For instance: while one of our own soldier laddies is away in Halifax, his wife takes advantage of the "miles" that separate them to indulge in the pleasure of keeping company with one of the "Royal" Berks. This goes to show the inconsistency of human nature, here is a man who is supposed to be ready and willing to fight, yes even die, to maintain the Queen's laws, deliberately breaking the laws of God and propriety, while on the other hand the woman is breaking the strongest bond that binds man and wife—fidelity. Now this is a shame and disgrace to our fair city, yet it is a fact, and is to be hoped that the parties concerned will take this to heart and set a nobler example for the young people of the city.

WANDERING WILLIE.

We very thankfully acknowledge the receipt of \$1.00 from Rev. Father O'Leary of French Village, which pays his subscription ahead for several years. Father O'Leary is a warm personal friend of ours, as was dear, good, old Father McDevitt, Fathers Chatillon, Savage, and the present Father Casey, also Fathers Bradley and Farrell of Newburgh and Petersville. We cannot be very bad when such men have taken and take such an interest in us. Not only the priests of our own church, but the ministers of various congregations, have befriended us, among them we might mention good Rector Roberts and Rev. Mr. Payson and others. We speak of both the priests and ministers on account of their merits as men, and not because of their religious convictions.

We are indebted two letters deep to our sincere heart-friend, Henry Harvey Stuart, and thank him heartily for the kind interest he has always taken in our behalf, which is all the more remarkable considering the diversity of our opinion and tastes.
