were collected at the spot in a very short time; but, alas! only to witness the lifeless corpse of a most valuable member of our society. On the melancholy tidings reaching this city, several of his most intimate friends repaired to the place of the accident, in hopes that the report might have been exaggerated, but they had the mournful duty to perform of conveying his remains to his residence in this city, inexpressibly shocked at the untimely fate of so worthy an individual, who, in the full enjoyment of health and vigour, and wealth had been snatched so suddenly from the world. His upright character as a man of business, and his humane and charitable disposition as a Christian, will be long remembered with affectionate regret. He was an alderman in this City and a Major in the Kingston Regiment of Militia. His remains were yesterday interred in the Churchyard of this City, beside his brother, who was buried there in the year 1804. The funeral was attended by the members of the Corporate Body, and by a numerous body of the most respectable individuals of this City.

LOWER CANADA.—We learn from the late Canadian files, that the Surveyor-General, Mr. BOUCHETTE, the author of the Map and topography of Lower Canada, intends shortly going to England, to superintend the publication of his New Maps, and new Work, comprising the numerous additional settlements opened since 1815, and laying down the new division of the Province, and new nomenclature of the counties, established by the Bill to increase the representation, transmitted last winter for the sanction of HIS MAJESTY, and daily expected to become a Law. Mr. BOUCHETTE'S new work will consist of three volumes; his Maps will extend to four, comprising 10—a general Map of the Province, and parts of the adjoining Provinces and the United States, with separate Maps; 20—of the District of Montreal; 30—the Districts of Quebec and Three Rivers; and 40—the Gaspe District.

INTERESTING.—Capt. LAMBLY, Harbour Master, left Quebec last month, in order to inspect and report upon the Coast of Anticosti, where, as all our readers will recollect, the unfortunate crew of the GRANNICUS, lost their lives last winter.

NEW PUBLICATION.—An English Work, has just been re-printed in New-York, under the title of "Domestic Duties; or instructions to young married Ladies, on the management of the Household, &c." by Miss W. PARKS. Amid the variety of subjects, discussed by that authoress, is the following useful HINT, on the constant practice of *shopping*:—

"Those who are fond of Bargains, lose more time in hunting after them, than the difference of the price in the articles they purchase, can compensate, were even the principle on which they act, a proper one. This ranging from shop to shop, has given origin to a fashionable method of killing time, which is termed *shopping*, and is in truth, a mean and unwarranted amusement, at the expense of the tradesmen and shopkeepers, who are subject to it."

TWO STRANGERS!—During the present week, we have had in possession two late numbers of the SYDNEY GAZETTE, from the remote Settlement of Botany Bay. It is not often we receive files from our correspondents there; and therefore we beg to communicate this as being *something new*. We have made no extracts from them, their contents being of a local nature.

MONEY!—The Editor of the UNITED STATES' GAZETTE, in acknowledging the receipt of a few half dimes of the new coinage, there in circulation, ludicrously observes, *they are beautiful pieces, what there are of them!* But we are not so fortunate as this; and were we to SEE a dollar, in this *golden age*, we would scarcely *recognise* it. We judge better [illegible]

MELANCHOLY OCCURRENCES.—On Monday morning last, as Mr. CALVIN CAMP, in company with a Mr. DAVIS, a ship-carpenter, was crossing the Oromocto in a canoe, about three miles above the entrance of the River, he accidentally fell out, and, melancholy to relate, was drowned. He has left a wife and seven children, to lament a loss, which can never be repaired. Mr. C. was an industrious Farmer; and as he lived respected, his sudden death is universally lamented, by that community, of which he was for many years a member. During the Thunder Storm, on Saturday morning last, the same individual, had six stacks of hay, belonging to him, struck by Lightning, which were entirely consumed.

Another accident, somewhat similar to the above, occurred on Friday last, at the Parish of Douglas, about 8 miles above Fredericton—a Mr MANSON was accidentally drowned. It appears, Mr. M. and another person were in a canoe, returning with some Wool, from a Carding Mill, and while in the act of adjusting it, the canoe unfortunately upset, and the consequence was, both were precipitated into the water. The other person being rather skillful, in swimming, desired Mr. M. to take hold of him, but he did not do so. He then took hold of Mr. MANSON, who appeared to make no effort whatever to save himself; and after repeated endeavours, until nearly exausted, and in great danger of perishing himself, he did not succeed in saving Mr. M. The diseased was a man, much esteemed, and greatly regretted.

On Tuesday morning last, between 5 and 6 o'clock, the Wooden PIER, erected at the breakwater, as a Pedestal for the LIGHT HOUSE, shortly about to be raised at the beacon, at the entrance of our Harbour, was moved by the Steam-Boat ST. GEORGE, with the assistance of Men, Boats, &c. from His Majesty's Ship ROSE, to the place where it should be, and safely moored on the intended spot. We understand, immediately after, His HONOR THE PRESIDENT, and His WORSHIP THE MAYOR, proceeded down to inspect it; and we are happy to say, they were expressed themselves, as being well-eased with the Pier, and the situation it now occupies. We shall, ere long, have more LIGHT on this subject, when the Building, intended to be reared upon it, shall have been completed. The advantages accruing from having a LIGHT HOUSE, built on a spot, so suitable for it, need not be pointed out; for they must be quite evident to all who are interested in the matter. Mr. EWEN CAMERON, is the Contractor, to whom much credit is due.

BRITISH SHIPPING.—It will be observed, in another part of this Paper, that, LORD GLENELG has made a very desirable motion in the HOUSE OF PEERS, calling for a number of documents and returns, relative to British Shipping. As it was rather late in the Session, when the motion was brought forward, not much could be done to effect the object; but we hope, next Session, Mi[illegible] ters will thoroughly examine this great question, upon which so much has been said and written.

Dangerous Mistake.—It being understood that some recently published Chart of this Coast, represents Gannet Rock with a light upon it: we are requested by the CHAMBER OF COMMERCE of this place to take public notice of this mistake, for the benefit of those steering by any such Chart for a port in the Bay of Fundy, as no Light has yet been erected there;—we trust also that our brother Editors, in all parts will also notice the circumstance, in order that every means may be made use of, to prevent the loss of lives and property.—*Gazette.*

We have pleasure in copying the above notification, as we have frequently heard shipmasters, particularly those arriving here from Great Britain, express their disappointment at not finding a light on Gannet Rock. It is one thing to know that there is not a light where there really is none; but it is quite *another* to believe that there *is* a light when there is *not*;—the danger is then increased tenfold.—This subject would have been noticed before, had we obtained distinct information as to the origin of the misapprehension. It appears it was principally from Mr. LOCKWOOD and Captain NAPIER of the Royal Navy, having pointed out this spot as an eligible site for the erection of a Light House.—Our Legislature also, several years ago, authorised the placing a Light there; but in consequence of some misunderstanding which afterwards took place as to whether Gannet Rock or the Western Seal Islands were the preferable situation, the matter has never been entered upon.—This report might also aid in extending the erroneous statements alluded to. Indeed so general was the mistake that we believe the Admiralty sailing directions for the Bay of Fundy say that "a Light House is now erected on it (the rock) which is to shew a revolving light." Our wonder is that some of His Majesty's Vessels on this station had not advised the Admiralty respecting the matter before. We understand the CHAMBER OF COMMERCE have communicated the real circumstances of the case to Lloyd's as being the best channel through which information could be made general.

We understand it is intended to bring the subject once more before the Legislature at next Session.—There is some talk also respecting the placing of a BELL on Patridge Island.—Nothing surely could be more desirable in a place like this where fog prevails to such an uncommon degree.

MASONIC IMPOSTOR.—We copy the following article from the Boston Daily Advertiser;—

"A YANKEE TURK.—The Dover N. H. Republican, contains an account of an impostor who had made his appearance in that town and vicinity, stating that he was an Asiatic Turk, and had been taken by the pirates when on a trading voyage, put into an open boat and set adrift;—that he was afterwards picked up by a British vessel and carried to Quebec, whence he found his way into New-England. He called himself 18 years of age, spoke Arabic and Latin, but, as he said, was entirely unacquainted with the English. After sponging the good people out of divers sums of money, and procuring certificates from the officers of Bowdoin's College, and other distinguished persons, that he did actually speak Arabic and Latin, and appeared to be an object of charity, he was suddenly found to be a *Yankee in disguise*. It is somewhat remarkable that this fellow should have had the audacity to repeat the trick, which, if our memory serves us, he was detected in playing off some two years since, and quite as remarkable that the shrewd ones of New-Hampshire and Maine should allow themselves to be duped by a stale device, which was long ago exposed to the Community through the medium of every paper in the Country."

One of these Miscreants paid the fraternity of this place a visit a few weeks ago; whether he was the person alluded to in the above paragraph is not certain; we however think he was not, for although there is a strong similiarity between the account which each gave of himself, yet from his appearance we could never set him down as a *Yankee*, either in or out of 'disguise.'—His height might be from 5 feet 6, to 5 feet 8 inches—dark complexion—full cheeks, hanging chin, and thin whiskers—had a scar on his upper lip, and one on one of his wrists, which he said were the marks of the wounds he had received when taken by the pirates.—Said he belonged to the Isle of France, and had been a merchant there;—That he was on his way home to Bourbon with a valuable cargo when he was captured by a Portuguese pirate or Privateer.—All on board were killed, with the exception of himself and three others, who made their escape in a boat, which after two days was picked up by a vessel bound to Quebec. His appearance was rather mean, and dress shabby—said he was 22 years of age—spoke good French and answered many questions in Masonry with readiness and precision.—This circumstance together with presenting documents purporting to be certificates from different Lodges, apparently duly executed, left no doubt on the minds of those who examined him, of his title to relief. He also shewed a list of Lodges in the Eastern States from whom he had received charity.—He said he was on his way to Halifax to increase his funds and procure a passage to England. On being asked by what conveyance he went from Quebec to the U. States, he said 'by a vessel from thence to New London.' There being no improbability in all this, a sum of money was immediately ordered him by one of the Lodges here.—About an hour or two after this, it occurred to one of the Brethren who assisted in his examination, that the *time* of his arrival at and departure from Quebec had not been enquired into;—He met him and put the question to him, when he said *he arrived on the 8th February, and sailed on the 10th March.*—The very dead of winter. This destroyed the consistency of the whole of his otherwise well-framed story. He was ordered to refund the money, which he did without the smallest reluctance, and has not been seen here since. Had he been a Yankee he would have been better acquainted with the state of the St. Lawrence in the month of March.

We have been thus particular in order to put the Craft on their guard when applied to by strangers, particularly of those whose accounts of themselves border upon the marvellous.

On Monday evening last, HIS HONOR THE PRESIDENT, arrived in Town from Fredericton, by the Steam-Boat St. George; together with HIS MAJESTY'S ATTORNEY-GENERAL, and COLONEL CREAGH, of the 81st Regiment.

POSTCRIPT.—The July Packet has arrived at Halifax, bringing London Papers, to the 3d of that month. We give such extracts, as time will admit of. Parliament was prorogued on the 24th June, when the following SPEECH was delivered by the Lord Chancellor:

"My Lords and Gentlemen,

"We are commanded by His Majesty, in releasing you from your attendance in Parliament, to express to you His Majesty's acknowledgements for the zeal and assiduity with which you have applied yourselves to the despatch of public business, and especially to the consideration of those important matters which His Majesty recommended to your attention at the opening of the session.

"His Majesty directs us to inform you, that he continues to receive from his allies, and from all Foreign Powers, assurances of their earnest desire to cultivate the relations of peace, and maintain the most friendly understanding with his Majesty.

"His Majesty laments that he has not to announce to you the termination of the War in the East of Europe; but his Majesty commands us to assure you that he will continue to use his utmost endeavours to prevent the extension of hostilities, and to promote the restoraion of peace. It is with satisfaction His Majesty informs you, that he has been enabled to renew his diplomatic relations with the Ottoman Porte. The ambassadors of his Majesty, and of the king of France are on their return to Constantinople; and the Emperor of Russia having been pleased to authorise the plenipotentiaries of his allies to act on behalf of His Imperial Majesty, the negociations for the final pacification of Greece will be carried on in the name of the three contracting parties to the Treaty of London.

"The army of His Most Christian Majesty has been withdrawn from the Morea, with the exception of a small force destined for a time to assist in the establishment of order in a country, which has so long been the scene of confusion and anarchy.

"It is with increased regret that His Majesty again adverts to the condition of the Portuguese Monarchy. But his Majesty commands us to repeat his determination to use every effort to reconcile conflicting interests, and to remove the evils which press so heavily upon a country, the prosperity of which must ever be an object of His Majesty's solicitude.

"Gentlemen of the House of Commons,

"His Majesty commands us to thank you for the supplies which you have granted for the service of the year, and to assure you of his Majesty's determination to apply them with every attention to economy.

"My Lords and Gentlemen,

"His Majesty has commanded us in conclusion, to express the sincere hope of His Majesty, that the important measures, which have been adopted by Parliament in the course of the present Session may tend, under the blessing of Divine Providence, to establish the tranquillity, and improve the condition of Ireland; and that by strengthening the bonds of union between the several parts of this great Empire, they may consolidate and augment its power, and promote the happiness of his people."

Parliament was then prorogued to Thursday, the 20th August next.

The Royal assent was given by commission to the Sugar Duties Bill, and the Customs Amendment Bill.

THE REVENUE.—Up to the last night the Revenue stood as follows:—Decrease on Customs, as compared with the corresponding part of the quarter of last year, £58,000; in Excise £43,-000. Increase on stamps, £14,000; on assessed Taxes, £46,000; being a total decrease of £41,-000.

The crops.—The auspicious change which has taken place in the weather, by the descent of frequent and copious showers, followed immediately by the sunny influences, has produced a most cheering improvement on the aspect of the country and holds out the well-grounded hope of a most bountiful and healthy crop of the staff of life.

His Majesty was never in better health and spirits than at present.

It is reported that the Lord Chancellor is to go out as Governor General to India.

On Wednesday a Court of Directors was held at the East India House, when the Earl of Dalhousie, G. C. B. was sworn in as Commander-in-Chief of the Company's Forces, and second member of the Council in Bengal. Lieut.-Gen. Sir Thomas Sydney Beckwith, K. C. B. was also sworn in as Commander of the Company's Forces and second Member of Council at Bombay.

The King has been pleased to direct Letters patent to be passed under the great seal, constituting and appointing the Right Honorable Robert, Viscount Melville, K. T.; the Right Honorable Sir George Cockburn, G. C. B., Vice Admiral of the White squadron, of His Majesty's Fleet; Sir H. Hotham, K. C. B. V. Admiral of the blue squadron of H. Majesty's fleet; Sir G. Clerk, Bart. and Frederick Stewart, Esq. (commonly called Viscount Castlereagh,) to be His Majesty's commissioners for executing the Office of High Admiral of the United kingdom of Great Britain and Ireland, and the Dominions, islands, and territories thereunto belonging.

WARSAW, JUNE 19.—According to a Bulletin received here to-day, a battle took place at Shumla on the 11th of this month, in which the Grand Vizier was totally defeated, and lost all his artillery.

[Some of the London papers doubt the correctness of the above information.]

The latest accounts from Rio de Janeiro, state that a man had given himself up to the British Admiral on the Brazillian station, who said that he was one of a piratical vessel which took, north of the line, after a hard fought action, the British Packet *Redpole*, and that all her crew had been put to death by the Pirates.

Letters from Rio of the 4th May, contain the important information that Lord Ponsonby had sent an official communication to the Brazillian Government, that if an immediate settlement of the claims for spoliations of English Commerce was not made, on the 6th May, he would order the English Admiral to make reprisal on all Brazillian Ships. The sum in dispute is said to be about £400,000.—The Notification had, it is reported, exceedingly irritated and annoyed Don Pedro.

The 34th Regiment is to relieve the 81st in New-Brunswick—the 81st the 74th at Bermuda—the 74th returns to England.

It is said R. Ad. Jas. Walker, C. B. will succeed to the Jamaica Command—and R. Ad. Sir G. E. Hammond, Bart. and K. C. B. to that of Halifax and Newfoundland.—*Portsmouth paper.*

Passenger in the Steam-Boat St. John, from Eastport.—The Reverend E. Wood, Wesleyan Missionary, late of the Island of Saint Christophers.

ENTERED FOR LOADING.

June 11th. Robert Dewar, Small, Saint Vincent.
Thomas, M'Cready, Demerara.
13th. Decagon, Millgrove, St. Vincent.

CLEARED.

Ship Independence, Ewens, Kinsale, timber.
Venus, Brown, Bristol, do.
Brig Agaphea, Breen, Dublin, do.
Superior, Lawrence, St. Mary's assorted cargo.
Schr. Cyrus, Sears, Philadelphia, plaster, &c.
Freedom, Holmes, Cork, deals.

Arrived on Sunday last, His Majesty's Ship Rose, Capt. Travers, from a cruise—and sailed again this morning.

The brig George Canning, of Aberdeen, Stephen, master, out 10 days from bay Chaleur, bound to Aberdeen, ran ashore, supposed to be at St. Shots, on the night of the 17th ult. during the prevalence of an extremely dense fog, and became a total wreck. In the course of a few minutes after she had struck, she had five feet of water in her hold. The crew having taken to the boats, pulled off shore, and remained in the boats 36 hours, when they made the land about Peter's river, whence they travelled over land to Trepassy, and there procured a boat to bring them to this port, where they arrived, 14 in number (including the captain) on the morning of Sunday last.—*Newfoundlander.*

Brig Lochiel, from Sierre Leone, bound to Plymouth, was spoken on the 24th July, in lat. 20, 22, long. 25, hands sickly, and vessel leaky, was supplied with provisions.
