MARINE INSURANCE COMPANY.

Committee for August:

John Ward, President.

Thomas Barlow, David Hatfield, John V. Thurgar. James Kirk.

THE Election of Directors of the Marine Insurance Company, for the present year, having taken place at the Annual Meeting of the Stockholders, on the 5th instant, agreeably to the Act of Incorporation;—Notice is hereby given, that the Business of the Company is continued, and Risks taken upon the most eligible terms.

By order of the President and Directors,

THOMAS HEAVISIDE.

St. John, 24th July, 1830. *Sec'y.*

By arrivals at St. Andrews and this port, London papers of the 1st and Liverpool to the 3d July, were received. Parliament was engaged in the discussion of some necessary measures previous to its dissolution, which, it was expected, would take place about the 20th July.

A report prevailed in London, at the latest date, that the French had taken possession of Algiers. No authentic intelligence of the fact had, however, been received.

The Ministry.—Rumours are afloat that changes in the Ministry are contemplated. There is, however, no sufficient authority to justify us in supposing they will be to any considerable extent, as it is stated that His Majesty has expressed himself perfectly satisfied with those at present in office. It is more than probable, that Mr. Goulburn, the present Chancellor of the Exchequer will retire, and it is confidently stated that Mr. Huskisson and some of his friends will again be called to office. In a late speech on the Sugar Duties bill, Mr. H. alludes to the incompetency of the Chancellor, in the following strong terms:—"I say, Sir, it is the duty of a government to digest its plans better, and when they are thus digested, to be more steady in its resolves. They ought to come to Parliament with a fit, and proper, and well-digested system of action. Their measures should be prepared in such a manner as to effect the least possible mischief to the commerce and the existing arrangements of society whenever change is rendered necessary; and when the means of that change are acted on with wisdom and foresight, they should be rigidly adhered to. In the great concerns of the general policy of this country, whether foreign or domestic, it is not fitting that temporary difficulties should be ever met by temporary expedients.—We cannot manage the extensive and complicated transactions of Government in the same manner as we would manage an army, and put forth a law one day as a kind of advanced guard, which may be ordered to draw back the next day.'

Boundary Line.—By a paragraph in another part of our paper, it will be seen that the Editor of some obscure paper in the State of Maine, has set up a cry, that *General* Webber, who has been appointed by the American Authorities, to take the census in that region (the disputed territory), has been forbidden to perform that duty; and that the Governor of this Province has issued a Proclamation threatening him with arrest in case he proceeds, and imposing severe penalties on the people should they aid or assist him. As this is the first we have heard of a Proclamation being issued on the subject, and as such measures are taken *secretly*, we have no hesitation in saying that the whole is a fabrication, got up to serve some political purpose, and for which the high military officer in question, who, it is stated, has been deterred from the performance of his duty, would, were he a British Subject, and lawfully in the discharge of it, be cashiered and disgraced for being so easily alarmed.

At a Common Council, held on Saturday last, S. G. Hamilton, Esq. was appointed a Health Officer for this Port, in addition to the two Gentlemen already in office.

We understand the above appointment has been made in consequence of its having been represented at the Common Council, by His Worship the Mayor, that a difference of opinion existed between the Health Officers of this Port, relative to the discharge of some Emigrants from Partridge Island, although he had in his possession, at the time, a Letter signed by both those Gentlemen, containing an assurance that such was not the case, being an answer to one received from himself on that subject, but which was withheld. The above mentioned Letter was not produced until one of the Health Officers, having accidentally heard of the proceeding, went to the Common Council, and requested that the correspondence might be read.

On Saturday evening last, the new Lamp in the Light House on Partridge Island, was lighted for the first time. It contains eight burners, with the same number of reflectors, and will only require 260 gallons of oil per annum, being 640 gallons less than the quantity consumed by the old one, while the light emitted is far superior. The new lanthorn is the workmanship of Mr. David Hogg, and the lamp and reflectors were made by Mr. E. Stephen, who constructed similar ones for the Beacon Light. These articles are highly spoken of, and do great credit to the ingenious mechanics who constructed them.

On Wednesday evening last, Mr. Walls, the blind Harper, gave the first public exhibition of his talents as a performer on the Irish Harp, to a large and very respectable assemblage of Ladies and Gentlemen in the Masonic Hall. Many of the airs were played in a manner that displayed much skill and judgment in the performer, and were received with marked approbation by the audience, who retired from the Hall apparently well pleased with the evening's amusement.

Accident.—Yesterday afternoon, a boat with two men in it was upset, by bad management, while beating up towards the Falls. Fortunately, however, it was observed; and through the timely aid of Capt. Otty, then near the spot, one of the men was rescued from a watery grave—but the other sunk before assistance could be rendered. To such as take pleasure in sailing excursions, this should serve as a caution, in respect to the proper management of their boats; particularly in this Harbour, where there are such strong tides.—In the above instance, we learn, the sails were made fast, instead of their being kept in the hands, in order to being *let go*, when circumstances might require it.

Erratum—In our last, in the article alluding to letters having been received from the Agents for the Province, second paragraph, for "*manufactured*," read "*unmanufactured*."

The following Letter just received from Admiral Colpoys, commanding on the Halifax Station, will be read with much pleasure by all who feel an interest in our Maritime affairs. The appropriation made for the object referred to, by the Legislature at its last Session, and the readiness with which the Admiral has entered into the subject, gives every reason to expect that effectual steps wi'l immediately be taken to carry the projected design into effect.—*Gazette.*

H. M. Ship Winchester, at Halifax, 5th August, 1830.

Sir,—With reference to your Letter of 10th of April last, which only reached me after my arrival at Halifax, I beg to acquaint you that I have directed Captain Jackson, of His Majesty's Sloop Hyacinth, to make a survey, as you have suggested, of the Old Proprietor Rock, with a view of enabling the Chamber of Commerce at St. John, to decide on the practicability of erecting a Stone Light House on that Rock, or whether it offers a sufficiently secure anchorage for a Floating Light.

Captain Jackson will communicate with you on this subject, and should he require the assistance of a small vessel to prosecute the survey, I have no doubt of its being readily afforded him.

I have only to add, that it will at all times give me much pleasure to co-operate in any measures which may be taken for the advantage of the navigation in the Bay of Fundy, by rendering such aid as the means within my reach enable me to furnish.

I am, Sir, your very obedient Servant,

E. GRIFFITH COLPOYS, Vice-Admiral.

L. Donaldson, Esquire, President of the Chamber of Commerce, at Saint John, N. B.

H. M. Ship *Hyacinth*, Capt. Jackson, lying off this Port, fired 68 minute guns, with yards peaked and colours half mast, on Wednesday last, on the occasion of the demise of the Crown. On the same day, Capt. Armstrong's Company of Artillery, at Saint Stephen, were called out, and discharged 68 minute guns.—*Saint Andrews Herald.*

It has been suggested to us that as Saturday the 21st inst. is King William's Birth day, that it would be desirable that he should be proclaimed King on that day throughout the Province, we heartily concur with the proposition.—*Ibid.*

Coroner's Inquest.—On the 7th instant, an Inquest was held by Solomon Perley, Esq. at Burton, Sunbury County, upon the body of John Clemmons, said to have formerly belonged to the 74th Regiment. Verdict—Accidental death by drowning.—*Royal Gazette.*

Erratum—In the Militia General Orders of the 25th July.—1st Batt. Queen's County, read, Lieutenant Marcus Peters to be Captain, vice Smith, *who retires with his rank.*

SERMON ON THE DEATH OF HIS MAJESTY GEORGE THE FOURTH.

*** At the request of the Members of the Scottish Church Corporation, and other respectable individuals, the Rev. Dr. Burns will deliver a Sermon To-morrow (Sunday) evening, on occasion of the death of His late Majesty, the substance of which was delivered on the forenoon of Sabbath last.—A Collection will be made in aid of the funds of the Church.—Service will commence at 6 o'clock. *August* 14.

MARRIED,

On the 5th inst. by the Rev. Dr. Burns, Mr. James Robertson, to Miss Esther Rogers, both of Hampton Parish.

On Tuesday morning last, by the same, Mr. Bernard Kirkpatrick, to Miss Ellinor Cochrane, both of Portland Parish.

At Northampton, on the 29th ult. by the Rev. S. D. L. Street, Mr. James Grew, to Hesther, second daughter of Mr. James Sharp.—At Woodstock, on the same day, Mr. Charles Peabody, to Nancy B., daughter of Mr. Michael Smith, all of that place.—At Wakefield, on the 31st ult. Mr. David Weare, to Hester Ann, second daughter of Mr. David Campbell, of that place.—At Northampton, on the 3d inst. Mr. George Hillman, of Woodstock, to Mary, daughter of Mr. Isaac Miller, of the former place.

DIED,

On Saturday morning last, Andrew, eldest son of Robert W. Crookshank, Jun. Esq. aged 6 years.

On Thursday evening, after a lingering illness, Elizabeth, eldest daughter of Mr. Thomas Nisbet, in the 19th year of her age.—The Funeral will take place To-morrow (Sunday) at 1 o'clock.

At St. Andrews, on Monday last, John Campbell, Esquire, aged 63. Mr. C. was a native of Argyleshire, Scotland, and emigrated to this Province in 1784. He was for many years a Justice of the Peace for the County, and for nine years past was a Justice of the Inferior Court of Common Pleas. For upwards of thirty years he was engaged in Mercantile pursuits from which he retired several years ago, with a competency. He was twice elected a Representative for Charlotte County, in the House of Assembly. He has left the world with the character of being a man of honest intentions, and warm hearted, and died in full confidence of a happy eternity.

MARINE JOURNAL.

August 7. ROBERT F. HAZEN.

PROSPECTUS

OF A PERIODICAL WORK,

To be published Monthly, in Halifax, (N. S.)

ENTITLED

THE BRITISH NORTH AMERICAN

MAGAZINE,

AND COLONIAL JOURNAL.

DURING a period so fertile as the present, in the means of obtaining and diffusing the elements of education: and affording abundant resources to the intelligent and cultivated mind, in the rapid increase of Periodidal Publications, both in the Mother Country and the neighbouring States; it may well be matter of surprise, that in a Province so populous as Nova-Scotia, and in a town so advantageously situated as Halifax, no publication has appeared of ability and worth, whence the young might derive instruction and delight,—the more advanced and better informed, obtain the means of intellectual solace and enjoyment:—where the resources of this fine country, which are daily developed, could be described and recorded; and by which its improvements and capabilities might be made known to the world.

These considerations have for some time occupied the attention of the subscriber; and from the conviction that a Work of this description, must prove of great practical utility, and will meet with public patronage and support; he is induced to bring the plan under the notice of the inhabitants of these Colonies.

The situation of Halifax, with reference to the other North American Colonies, is most appropriate for an undertaking such as is now contemplated; as the means of conveying intelligence from hence, are frequent and rapid; while the monthly arrival of the English packets, and the constant intercourse by means of merchant vessels, between Great-Britain and this port, afford every facility for obtaining the latest works of interest, and other productions, from which selections may be made.

The community of interests also, which prevails among those appendages of the Parent State, renders it desirable that a Periodical should be established in the most centrical situation, whereby the mutual interchange of sentiments may be encreased,—a knowledge of each other's wants, desires and advantages ascertained,—and those feelings of cordiality cherished, which should pervade the subjects of one great and glorious empire, partaking of like privileges, enjoying similar advantages, and sharing in the same hopes.

It is with this view, therefore, that *The British North American Magazine and Colonial Journal* is intended to be established; and it is because he feels confident that it will be a work of extensive and encreasing usefulness, that its proprietor indulges in the sanguine expectation of its success.

One object of paramount importance with him will be, the selection of articles both in prose and verse, from the most approved of the numerous Periodical publications, with which the people of England are familiar; confining himself to such parts of them as may suit the taste, habits and desires of readers in this part of the world. From those much may be selected of amusement and interest, which under present circumstances cannot obtain general perusal; and thus many delightful productions of ordinary length, may be snatched from the stream of time, and be made to encrease the means of rational happiness and enjoyment.

There are also resident in these Provinces, many individuals of education and intelligence, who doubtless will lend their efforts for the advancement of an object such as is now proposed; and the Editor relies upon the assistance of gentlemen of gifted and cultivated minds, for that portion of original contributions, to which the pages of the Magazine will be readily devoted; so long as they do not indulge in controversial disquisitions, or partake of political or angry contention.

The British North American Magazine and Colonial Journal, will be published on the first Wednesday in every month; to be commenced in December, should the number of subscribers warrant the commencement of the undertaking. It will be printed on fine English Demy paper, of the size and quality of Blackwood's Magazine, and will consist of Ninety-six pages, printed with a similar type. The price will be Thirty Shillings Currency, per annum, payable half-yearly in advance. Subscriptions will be received at the Stationary Store of Mr. Spike, at the rear of the Province Building,—at the Halifax Library, and at the Free Press Office; and those who are disposed to encourage the enterprise, are solicited to intimate their intentions without delay, that the necessary arrangements may be commenced.

In thus offering himself to the Inhabitants of this and the neighbouring Colonies, as the Conductor of a work of some magnitude; the subscriber is aware that much of his time and whatever trifling talent he may possess, must be devoted to the pursuit in which he is about to engage; and he pledges himself that no exertion shall be wanting on his part, to render the intended Publication, one that will be acceptable to all ranks and denominations in society.

To encourage feelings of attachment and veneration for the government, and obedience to the laws,—to scatter the seeds of virtue, and diffuse the flowers of literature throughout the land,—to cherish and cultivate a taste for scientific and mental acquirements: and to lead the more youthful and unreflecting part of the community, to the contemplation of the wonderful works of creation, and from the study of Nature up to Nature's God, will be the undeviating aim of the Editor of the proposed volumes; and in the pursuit of these objects, he confidently solicits the countenance and assistance of the liberal and well informed portion of mankind. EDMUND WARD.

Halifax, August 3, 1830.

LETTER-SHEET BILLS OF LADING, for sale at the Courier Office. *July* 24.
