FIRE INSURANCE.
E. DEW. RATCHFORD, AGENT for the ÆTNA INSURANCE COMPANY, of Hartford, Connecticut, continues to issue policies, and renewal receipts, for Insurance on Houses, Barns, Stores, Mills and other buildings, Vessels in port, or on the stocks, Household Furniture, Farmers' Stock and Utensils, Merchandize, Machinery, and every other description of property, against *Loss or Damage by Fire*, on liberal terms.—It is a notorious fact, that the subject of insuring against fire, does not receive from the inhabitants of this Province that attention which its importance demands; and the premiums, *for fire insurances particularly*, bear so very small a proportion to the value of the property insured, that much less sympathy is felt for those sufferers who may have neglected to avail themselves of the means of providing against such calamities.

The capital of this Company, $200,000, has *all* been *paid in*, and invested in the best securities; independently of which, a SURPLUS FUND of more than $35,000 has been set apart to meet the occasional claims for losses, and the stock bears a high premium.

The Agent will at all times attend personally to the survey of buildings on which insurance is desired within the City; and applications in writing (post paid) from all other parts of the Province, describing the situation and the property to be insured, will receive prompt attention.
Saint John, N. B. 12th November, 1831.

Some are also in the practice of mixing inferior snuff with their genuine Maccoboy snuff, and selling it as first quality. Others are also in the practice of filling empty jars with the subscribers' label on them with inferior snuff, and selling it as their manufacture. Their motive in making this publication, is to guard their customers against the deception practised upon them. P. & G. LORILLARD.

HEALTH SECURED BY MORISON'S PILLS,
The Vegetable Universal MEDICINE *of the* BRITISH COLLEGE OF HEALTH,

WHICH has obtained the approbation and recommendation of some thousands, in curing Consumption, Cholera Morbus, Inflammations, Bilious and all Liver Diseases, Gout, Rheumatism, Lumbago, Tick Doloreux, King's Evil, and all cutaneous Eruptions—*and keeps unalterable for years in all climates*—forming at pleasure the mildest aperient, or by increasing the dose, the briskest and most efficacious purgative, capable of giving relief in all cases.

General Observations.—Six years' use of these Medicines by the public, has proved their efficacy and virtues, and the truth of Mr. Morison's, the Hygeist's theory, as to the cure of diseases. In no one instance have they failed, when persevered in; and invalids should reflect that it is only perseverance that can root out an old established disease; but fevers of all kinds, small pox, measles, and colds, are effectually cured by them in a few days, their operation being agreeable to nature. These Pills cure in all diseases, and can in no way be overdone. Experience, which is the touchstone of all human knowledge, has verified this, both at home and in the West-Indies. These Medicines cure by purging, and yet the weak, the feeble, the infirm, the nervous, the delicate, are in a few days strengthened by their operation, because they clear the body of its bad humours; they invariably too procure sound sleep. They are the safest and most efficacious Medicine to take to sea—preventing all scurvy. costiveness, &c.

The operation of this (in every case) mild Medicine, which conveys immediate conviction of its utility from the first dose, is as beneficial *to the mind as the body;* first calming, then curing all *mental derangements, eccentricities, nervous affections, irritableness, and restlessness, from whatever source:* complaints which have heretofore not been properly understood, as the Hygeist has found them all to proceed from acrimonious humours in the blood, and, *happily for the present and future race of mankind*, discovered a *cheap* and *universal* mode of *purifying, curing*, and *preventing.*

The being cured of any disease, infirmity, or sore, is now no more a dubious or uncertain procedure—perseverance in the Vegetable Universal Medicines will always restore nature to her due course. The literary and sedentary of both sexes, whose pursuits so much impair the acuities, will find a sure remedy in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old age will be attained by the use of them, and passed free from pain and infirmities.

For the proper understanding of the human body and its diseases, read Mr. Morison's new medical work—*Morisoniana*; or, *Family Adviser* of the British College of Health, lately published by Sherwood & Co. 23 Paternoster Row, which gives a full description of all diseases with correspondence and cases of cure—shewing the universal good effect of *Morison's Pills.* From it may be learned the sure way preserving of health and curing all our diseases.

The *Vegetable Cleansing Powders* are of great assistance to patients, and facilitate the evacuation of bad humours; they soften, cleanse, and detach the acrimonious phlegms; they are cooling and allay the thirst. One, two or three powders may be taken throughout the day mixed in half a wine glass of water.

Some persons imagine that one Medicine, ready prepared, cannot be suitable for all cases, especially for severe diseases—they will be undeceived if they try. Cholics, Inflammations, Bilious attacks, Asthma, &c. &c. fly before them, if taken in large doses—12, 15, or 20.

Mr. ANDERSON wishes further to state, for the benefit and consolation of the afflicted, that he is daily made acquainted with extraordinary cures in this City, and also in the Country, which have been entirely produced by the above invaluable preparations; these documents can be examined at his store in St. John-street—where may be had, all sorts of Gentlemens' Clothing, Boots, Shoes, &c.

N. B.—Mr. A. is anxious to caution invalids against the use of any Medicines sold as "*Morison's*," by any other person than himself in the City of St. John, he being the only Agent appointed, and in direct communication with the British College, consequently none can be obtained from or vouched for by Messrs. Morisons, except those sold at his store in Water-street, or by Country Agents duly appointed by him. WILLIAM ANDERSON.
St. John, January 26, 1833.
