

passing on which, he was at the time under a prosecution; and Mr. Wier was very greatly interested in the late Mr. Pagan of a part must be subject of regret to many of the individuals who had so largely participated, or desired to do so, in the benefits of evils similar to those in every respect complained of, but from their localities more disadvantageous to the public should be persuaded to sit on a Committee for the investigation of such grievances. They very loudly complain of the injury resulting from the alienation of Water Privileges, yet they hesitate not to avail themselves of the benefits to be derived from such a public injury! They question the legality of disposing of these rights, yet they decline showing their participation in an abandonment of property which proves so detrimental as a precedent! The answer given to demands like these, if not in terms, is by the fairest construction of language similar to the following: The complaints made against these privileges do not apply to our grants which were bestowed on us as indulgences or free gifts; to those whom such are now offered ought not even to obtain them by purchase. The power which was very good in the Government to grant, without any valuable consideration, is now denied to the King to sell. Can a subject lawfully sue the notice of a candid and unprejudiced individual?

Another grievance of a dreadful nature consists in the extent and irresponsibility of the Commissioner's power—the simple meaning of which is, that he is not responsible to the individuals who compose the House of Assembly. For proof of this irresponsibility and uncontrollable power, let us examine the evidence adduced before the committee. Mr. James Stewart, [delicious] upon reference to the President, declares that Mr. Stewart says that a sum was remitted, upon application to the President—are not all Petitions addressed to the President or Commander-in-Chief for the time being? The Commissioner, upon reference to the President, a special reference is not exactly synonymous with a general or official application in the customary form of petition. Ed. Co. J. obtained a remission of seven pounds on his obligation for the purchase of timber, which had been cut on the lands of the Crown, and which he had sold to the Government. The Commissioner, attached by the Committee to their Report, for the following indorsement is to be seen.

“White Pine, Is. 6d.” Exclusive of the Red Pine, 20¢. J. S. Money. [It is an incontestable fact that the President endeavored to annul these Reserves, and was discovered the imposture, but was finally compelled to acquiesce in their continuance.—Ed. Co. J.] “Approved by order of the President on the above conditions.” “THOS. BAILLIE.” In the face of the very evidence which the Committee produce, in opposition to documentary proof that constant reference to the usual course of business in the Government, and in defiance of the known wishes of members of that body, they have not only acquiesced in the Commissioner being one,—have existence!

In the Gloucester petition an appeal is made on behalf of trespassers on crown land, and asserting a right to the same. It is not the fact that this is not the fact of the notice to those individuals who will fully prove; and although it is high time to adopt steps to check this growing evil, yet the utmost degree of indulgence will be shown to the trespassers. In the event, however, of the officers already made, being, in the opinion of the Government, harsher measures will become indispensable.

Let it be asked in what instance has unnecessary severity been resorted to, when trespassers against the Laws of the Country and the rights of the Crown—have also those of the public interest been detected? Upon what occasions have the provisions of the Statute in relation to the Crown Land Office no case of such a punishment can be added.

The Commissioner is indeed exposed to the censure of His Majesty's Government for not causing the laws against offenders to be enforced; but he ought, in justice to the People of New-Brunswick, to prevent the wanton destruction of His Majesty's property in his peculiar duty, and to the faithful discharge of it, all his energies and abilities should be bent; In the performance of this, however, he offers to deny that in the treatment of such extensive business errors sometimes occur, and he is so arrogant as to despise the opinions and advice of persons, who, with honest intentions, sound judgment, and friendly dispositions, may suggest any improvement in the execution of the duties, or the mode of his office;—but he does not deem it his duty to attend to the suggestions or arrangements of a public officer, and for offering opinions without being able to explain their motives, or in what manner their propositions are to be effected.

FESTIVAL OF SAINT GEORGE.—The annual Dinner of the Saint George Society in this city, took place at Mr. STAPLETON'S (Commonwealth Inn) on Tuesday last, the 23d inst. The dinner was prepared in a sumptuous style, and did credit to the taste and judgment of the landlord. Among the gentlemen present were our new Mayor, the Officers of the St. Andrew's and St. Patrick's Societies, and the presence of the President of the Society, JOHN THURGAR, Esquire, (Vice-President), took the Chair, and was well supported by THOMAS SAUNDERS, Esquire, and JAMES T. HANFORD, Esquires, as Vice-Presidents. The friendly feeling and hilarity which pervaded the company, were heightened by several excellent songs which were sung by instrumental music.
