AMBITIOUS VIEWS OF THE UNITED STATES OF AMERICA.—It has been already stated that the people of Texas, a part of the kingdom of Mexico, have proclaimed a constitution of their own, or, in other words, have declared their independence. This, in itself, would be a matter of no very serious import; but there are persons well acquainted with the country who see in it the commencement of a great project meant to extend the territory of the United States, to which Texas closely adjoins, in that quarter, and finally to incorporate the whole of Mexico with the Union. Negociations for this province have been on foot between the two countries for some time; but all propositions for alienating it have been rejected in succession by the various Governments which, within these few years have ruled over Mexico. The current imputation in the United States is, that negociation having failed, recourse is had to stratagem, and that this establishment, by the people of Texas, of a government of their own, is done with a secret understanding, and is but the prelude to the voluntary adhesion of that province to the great Republic of the West. As a government, that of President Jackson disclaims all ambitious views, but it is not likely to resist the acquisition, by such means, of this valuable province.—*London paper.*

THE above Company have, by Letter of Attorney, bearing date 20th July instant, appointed the Subscriber their Agent for the Provinces of Nova-Scotia and New-Brunswick, and he is now ready to afford to all persons the most ample information as to the character of the said Company, as well as the advantages to persons insuring therein in preference to Offices in London, the rates being lower, the facilities of effecting insurance more certain and prompt, and a greater licence, by the terms of their policies, to travel in the United States of America and the British Colonies, without payment of extra premium. The Agent is also prepared with some valuable publications which clearly illustrate to the most prejudiced mind the many substantial advantages to almost all classes and conditions of persons to be derived from Life Insurance, and he will be ever ready to exhibit and explain the same to any who may be desirous of availing themselves of such advantages. The names of the Trustees (whose standing and wealth are known generally in Halifax,) are a sufficient pledge for the responsibility of the above Company.
