ments as I may have occasion to request reference to, will be forwarded to you herewith. It is stated that a road has been opened from Bathurst to the timber groves above the Falls, a distance of thirty miles, and from the manner in which that statement is made, it may be inferred that that road has been made for the exclusive purpose of getting supplies thereto, and that the whole of the labor expended thereon would now be sacrificed, in consequence of this Reserve; but that is not by any means the case, as will appear when His Excellency is informed that parties lumbering in any part of that river below the falls, or upon its tributary the Pabineau, never attempt to convey any part of their supplies from Bathurst upwards by water, nor is it possible from the rapidity and rocky nature of those streams, the greater part of the Nepisiguit from the falls downwards being literally a succession of minor falls, and consequently that road from the falls downwards continues to be as useful to the parties engaged to that extent as it ever has been.

In reference to the Northumberland Petition, a Reserve has been granted to me, on the North West Branch of the River Miramichi, from the upper Falls upwards; on this reserve that Petition does not remark, nor is there room to do so, the facts being, that formidable are the obstructions which present themselves on that river from the said falls upwards, as the most enterprising man that ever lumbered on the river, dared not venture to haul a stick of timber into it above them, to be run or drawn over them, and that all the timber that could be procured within three or four miles at either side of the River above the said Falls had been manufactured and hauled into the river at a landing below thence, before the Reserve was extended to me. In support of the statements herein made, relative to the obstructions on this reserve, reference being had to the deposition of Mr. George Taylor, who is known to be an active, industrious and enterprising Merchant, and master lumberer, at Miramichi.

I would further beg leave to state, in reference to this reserve, that when Sir Howard Douglas administered the Government of this Province, an application was made to the Government by Richard M'Laughlin, then lumbering to a large extent in Miramichi, for a Reserve above those Falls, which application was sanctioned by Sir Howard, but Mr. M'Laughlin never attempted to work on it, he probably having become intimidated on actual observation of the difficulties to be contended with; reference being had to his petition in the Crown Land Office.

With regard to the monopoly complained of in both petitions, such monopoly as far as I am concerned, is more ideal than real, inasmuch as I am ready to grant, and have been offering to grant, to any solvent man, as well, either in Gloucester or Northumberland, leave to manufacture timber on either of the reserves extended to me, upon exactly the same terms that such lease would be granted if no such reserve had existed, with only this exception, that the party obtaining such leave, should defray an equitable proportion (taking into consideration the quantity he may manufacture) of the expences which may be incurred in removing the obstructions and rendering the rivers navigable for timber.—In support of this statement upon the subject of monopoly, reference being had to the deposition of Robert Morrow, and to the original agreements actually entered into with Cuppage & White and George Taylor.

As to the effect that having those reserves extended to me, or to other capitalists, can possibly have upon the export of lumber from the Province, the views entertained and expressed in both petitions, are certainly fallacious; and in support of this position, I would refer to the Commissioner of Crown Lands and to your own office as to whether applications have not been made and duty paid by me upon both these reserves, since they were granted to me, for a greater quantity of timber, than had ever been applied for or duty paid upon in an equal length of time, prior to such grants, and in establishing this position I conceive I fully meet the paragraph of the Northumberland Petition which relates to the effect that the Petitioners supposed it would have upon the settlement of that part of the Country, as a greater quantity of timber certainly cannot be supposed to be manufactured by a fewer number of hands than a lesser quantity. Another circumstance I would here add, which is that both these Reserves have been granted to me upon express understandings that I was to apply for and pay duty upon large quantities of timber upon them severally annually, whether I should have it manufactured or not, and that upon this would depend my holding them for the terms limited.

As to the quantity and quality of timber contained in these Reserves, I acknowledge it to have been my only inducement to apply for them from my desire to have it manufactured and exported, and I feel confident it will be admitted that I offer every reasonable facility for its manufacture and export, merely wishing, as will appear on reference to the accompanying documents, (which, when perused, I would request may be retured to me as being the originals) to equalize the expense which must be incurred, between the parties interested in its manufacture, and to guard against illiberal persons taking advantage of the industry and outlay of others without making any remuneration whatever, or return for such industry, outlay and labour.

My having made applications for these reserves, was done at a time when the government expressed a disposition to grant them, and upon my procuring them, I used my endeavours to get good men to participate in the enterprize, with some of whom I have entered into contracts, and upon the pledge of Government to me, extended my assurances to them for a term of years as an inducement to them to enter into pledges with me, and having so pledged myself would be most awkwardly situated in being compelled to retract those agreements, and to break faith with the parties who had incurred expences in explorations for their own satisfaction, in addition to the explorations and surveys executed at my expence; reference being had to an agreement with Cuppage & White, men of respectable standing as lumberers in Miramichi: and notwithstanding that the other contracts submitted do not stipulate for a number of years, yet the contracting parties engaged under the full confidence, that, in the general course of all business a preference would be extended by us to them annually, upon equal terms as long as they shall continue to act honorably.

This simple narrative of well supported facts I beg leave to submit in reply to both those Petitions, and feel confident on a patient perusal and comparison of these facts with those Petitions, it will be evident that the many grievances complained of in granting these reserves, as far as I am concerned, instead of being in any way pernicious to the general interests of the Province, is a decided benefit as bringing into consumption, paying the Casual Revenue, and preparing for exportation a large quantity of a superior article, which would otherwise, as it has done, from the first settlement of the Province, lay dormant, no person, whatever, having ever attempted to hazard capital sufficient to enable him to procure or drive it.

I have the honor to be, Sir,
Your most obedient servant,
JOS. CUNARD.

Memorandum of Agreement, made this tenth day of June, in the year of our Lord one thousand eight hundred and thirty-one, between George Taylor, of Chatham, in the County of Northumberland, of the one part, and Joseph Cunard & Company, of the same place, of the other part.

Whereas the said Joseph Cunard & Co. have obtained from Government a Reserve or privilege to cut pine timber above the North West Falls of the Miramichi River; and whereas the said Geo. Taylor is desirous of being allowed to cut to the extent of two thousand tons on the said Reserve, and the said Joseph Cunard & Co. is willing to allow him this privilege as follows, viz.—That the said George Taylor shall forthwith pay the amount of tonnage on one thousand Tons now applied for by the said Joseph Cunard & Co. with such Commission on placing the funds in Fredericton, and agency, as they may pay, and postages, with an equitable proportion of the expences incurred and that may be incurred in clearing the obstructions on the said Falls, and also the amount of tonnage, commissions, and agency, as aforesaid, on such further quantity as the said Joseph Cunard may pay for to be cut by the said George Taylor.—In witness whereof the said parties have hereunto set their hands on the day and year first above written.

GEORGE TAYLOR,
JOS. CUNARD.

Memorandum of Agreement made this twentieth day of August, in the year of our Lord one thousand eight hundred and thirty-one, between George Taylor, of Miramichi, in the County of Northumberland, Lumberer, of the one part, and Joseph Cunard & Company, of the same place, Merchants, of the other part,—*Witnesseth*,—

That, on the tenth day of June last past, the said Joseph Cunard & Co. granted permission to the said George Taylor to cut two thousand tons of pine timber above the North West Falls of Miramichi River; and whereas the said George Taylor finding it by no means safe to lumber above the said Falls, without hazarding the loss of the timber, if he made the said quantity there, from the impracticability there appears to get it over the said Falls, with the consent of the said Joseph Cunard & Co. he relinquishes the chance or privilege, and the agreement entered into on the twentieth day of June is hereby canceiled ; and whereas the said George Taylor having all his men, oxen, provisions, and utensils ready to commence on the North West Falls, and being afraid to undertake the manufacture of timber there, determined upon moving them over to the said Joseph Cunard's reserve upon the Nepisiguit Falls, the said Joseph Cunard & Company hereby extend a similar privilege to the said G. Taylor to cut to the extent of two thousand tons of white pine timber on the said Nepisiguit reserve, and the said George Taylor agrees to pay the said Joseph Cunard the rate of tonnage they pay to Government for such quantity as he may there cut, with a fair and equitable proportion of such expences as have been already incurred, and that may be incurred, in removing obstructions from the said Falls, it being expressly understood that the said George Taylor shall comply in all respects with the regulations made by Government, to be observed by persons applying in other places for License to cut pine timber.—In witness whereof the parties have hereunto set their hands on the day and year first above written.

GEORGE TAYLOR,
JOS. CUNARD.

Northumberland, ss.

Robert Morrow, of Miramichi, Clerk and Book Keeper to Messrs. Joseph Cunard & Company, deposeth and saith :—

That the said Joseph Cunard & Co. have, since the reserve on the North West Branch of Miramichi and Nepisiguit rivers above the falls were given to them by Government, used every possible inducement for persons of enterprise and means to go above the said falls to get timber, but owing to the difficulty and danger, and as these persons conceive, impracticability of doing so, without hazarding all they are worth, and perhaps their total ruin, they have hitherto been unsuccessful, and cannot this year get any one to attempt lumbering above the North West Falls ; deponent further saith, that similar means have been used to induce persons to go above the Nepisiguit falls, and have been equally unsuccessful, except in the case of George Taylor, who from necessity to prevent his sustaining a very heavy loss, has attempted the Nepisiguit; deponent further saith, that the application of others on the reserves for timber are persons who have hauled it out below the said Falls, consequently not exposed to the difficulties set forth, but these quantities are very limited.

Northumberland, ss.

George Taylor, of Miramichi, in the County of Northmberland, deposeth and saith,—

That in the Spring of this year he agreed with Messrs. Joseph Cunard & Co. for privilege to cut about two thousand tons of pine timber above the North West Falls on the reserve granted by Government to the said Joseph Cunard, and after taking provisions, oxen, implements and men, sufficient to cut the said Timber, on minutely examining the obstructions and difficulties was deterred from making the attempt, feeling fully satisfied that the timber could not be got over the falls till a large amount is expended in clearing away the said obstructions, and in attempting it in its present shape would prove ruinous to him, abandoned all idea, and moved all the provisions, oxen, implements, and men over to the Reserve above the Nepisiguit Falls, where there is much difficulty in getting the timber over, and much loss by the timber getting broken in going over the Falls, but even this, in addition to an outlay of three hundred pounds, and and an actual loss of one hundred and seventy pounds : Deponent from the arrangements made for lumbering on the North West Falls, was obliged to undertake or abandon entirely going into the woods, after going to an enormous expence in fitting out his party.

GEORGE TAYLOR.

WM. JOPLIN, J. P.

Gloucester—to wit :

Donald Ferguson and Donald McGilvery, of the Parish of Bathurst, in the County of Gloucester aforesaid, Lumberers, maketh oath and saith:—

That they had a lumbering party above the falls, on the Big River of Nepisiguit, last season, to the extent of about eight hundred tons; that the loss and damage they sustained in consequence of the obstructions in the Falls of the said River, by their timber getting broke and injured, was not less than about four hundred tons: they do further depose and say, that were they offered a premium of four hundred pounds, by going above the said falls of said River, this season, to lumber, in preference to the Middle River of Nepisiguit aforesaid, where they now are lumbering, and are supported on the same terms, (although not a good River,) that they would not accept of it; they further depose and say, in their opinion, that persons only possessed of moderate means can never do any good by lumbering above the Falls, on the said River, until the obstructions on the said river are removed; and also do further state that, in their judgment, it requires capital combined with perseverance to remove the obstructions on the Falls of the said River, which proves so injurious and detrimental to timber, which may be made above the said falls on the said River.

An Inquisition was held on the 24th ultimo, at Fredericton, on view of the Body of JOHN PATTERSON, a coloured man.—It appeared that the deceased had slept in Mr. Staples' kitchen; that in the morning, about five o'clock, he was discovered by the servant man with his clothes nearly all burnt off him, and his body very much burnt—his clothes having by some accident taken fire during the night. He lingered for about two hours, when he died. Verdict—"Accidental death, by being burnt."

CORRUPTION AT ELECTIONS.—In the House of Commons, on the 12th March, Mr. Ellice moved for leave to introduce a bill to indemnify certain persons who might be summoned to give testimony respecting bribery practised at the late Stafford election. In support of his motion Mr. E. stated, that of the 526 votes in favor of the member returned, 524 had received sums of money, varying from four to six pounds. The motion was then agreed to.

Mr. Stuart's "Three years in America" has, we find by the London papers, already reached a second edition, and "even that," says the Spectator, "is nearly exhausted." The same paper has this remark as to a statement in Mr. S's. book: "Mr. Stuart did not see a beggar in Boston, or a person that was not well dressed. His observation just comes contemporaneously before the public with a paragraph in the country newspapers, which tells that at Old Boston, in Old England, where the population amounts to 13,000, upwards of 5000 are paupers in the receipt of parish pay."

TO CORRESPONDENTS.—We give insertion to the communication of '*A Friend to Truth*,' without vouching for the correctness of the statements it contains, and not being familiar with the hand-writing of the author, we cannot make the necessary enquiries of him.—Mr. *Tottles* must be patient; his communications would be received with a greater degree of pleasure by us, if the postage were at all times paid. It is hardly fair that we should pay for a letter the contents of which are neither of importance to us nor interesting to the public.
