The day closed with feasting, dancing and singing. Though many "pale faces" were there, many others were prevented from attending, from the unpleasant state of the weather.—*Easport Sentinel.*

MOURNERS,
GENTLEMEN OF THE BAR,
In Full Robes.
CITIZENS.

We scarcely recollect seeing on a similar melancholy occasion, such a vast concourse of people,—nor do we believe, from the numerous instances of sorrow depicted on the countenances of those who had known the Judge for many years, and admired his Judicial, political and social character, and the expressions of all, who were acquainted with him only from common fame,—that any man in this country was ever consigned to the tomb, more justly and generally regretted.

During the time that was occupied in going through with the ceremony, about two hours, business of all kinds was suspended, the stores and shops were closed, and every other feeling was demonstrated, to mark the high estimation in which the deceased was held by the community. The ships in port wore their colours half mast.—*Observer.*

At a Meeting of the Members of the Bar, resident in Fredericton, held at the Attorney General's Office on Monday the 25th day of August, 1834, in consequence of the death of the late Honorable Mr. Justice BLISS;

The Attorney General in the Chair.

It was moved by the Advocate General, and unanimously *Resolved,* That the Members of the Bar do attend the Funeral in full robes, wearing Crape Hat Bands in the usual form of Mourners, and also that they wear Crape on the left arm until the end of Michaelmas, as a mark of the high respect they entertained for him during his life.

And further *Resolved,* That notice of the above Resolution be given to the Members of the Bar resident in other parts of the Province, and be also published in the next Royal Gazette.

GEORGE SHORE, A. G. M.

TO CORRESPONDENTS.—"*Peter Pepperem*" and another letter from "*Simeon*" respecting the Militia Court Martial, came too late for to-day.

A correspondent suggests to the Board of Health the propriety of taking some step to have the *City Militia trainings* avoided for the present year. As we see by the Halifax papers, that the *Races* in that place were thought to be a predisposing cause to the disease now raging there, we have every reason to believe, that if a proper representation of the effects of the Militia trainings in this city were made to the Lieutenant Governor, he would not hesitate to accede to the general wish of our citizens, by removing a cause, which, it is too much to be feared, would, this season, be attended with a dreadful effect. From the alacrity with which the Board of Health have hitherto attended to useful suggestions, we think this hint will not be lost upon them.

CHOLERA MEDICINES put up in small packages, with concise printed directions, will be kept constantly on hand.

In consequence of the Asiatic Cholera having appeared in Halifax, the Subscriber, after carefully examining the most scientific documents on the subject, has been induced to draw up a code of directions for the prevention and treatment of the disease, in order that those who live at a distance from medical assistance, may be enabled to render prompt aid until they can procure medical attendance. As this awful disease runs its course, and often ends fatally in a few hours, it is absolutely necessary for families to supply themselves with all the most approved medical remedies, that no time may be lost on the first appearance of the malady; for in fact, if the patient attends to the *premonitory symptoms,* and applies the proper medicines, he will almost always be successful in preventing the disease; or at all events, rendering the attack much more mild and manageable.

Board of Health.

At a Meeting of the Board of Health for the City and County of Saint John, held at the Mayor's Office, on Friday the 29th August, 1834.

"WHEREAS in consequence of the ASIATIC CHOLERA prevailing in *Halifax,* and the restrictive measures adopted by this Board with regard to Passengers arriving off the Harbour, from that Port, via Annapolis and Digby, there is reason to apprehend that the Land communication with this City on the Great Road leading to the Nova Scotia Line will be much increased, both by persons now in Halifax, whose place of residence is here, returning to their homes, as well as others desirous to leave the Town during the prevalence of the disease, to avoid infection;—And whereas it is considered highly necessary and proper by this Board, that precautionary measures should be taken to examine, purify, and fumigate all such persons who may have left, and not yet arrived: or shall hereafter leave Halifax by Land and intend to come to this City, together with their clothes and baggage of every description, at some distance from the Town before they be allowed to enter therein,

Therefore Resolved, that two persons be appointed by this Board, to perambulate the Mill Bridge or Aboideau so called, at the entrance of the City from the Great Marsh, there to keep watch alternately, by day and night, and to stop all foot passengers, carriages, and vehicles of every kind, attempting to come into the Town over the said Bridge or Aboideau, strictly interrogating all such foot passengers, as well as all persons in the carriages and vehicles before mentioned, as to the place from whence they came, and in case of it appearing, that any of the said passengers or persons whether on foot, or in carriages or vehicles as aforesaid, are from Halifax, or its immediate vicinity, then the said foot passengers and all those in the said carriages or vehicles, whether from Halifax, its immediate vicinity or not, (in case one of the passengers be from Halifax, in any of the said carriages or vehicles,) are in no case to proceed any further, until the said person or persons so stopping any of the parties aforesaid, shall report the same to Dr. COOK, who will repair to the place, and there or at some house in the vicinity, thoroughly fumigate and purify any person or persons so detained as aforesaid, together with his, her, or their baggage and clothes, and when so fumigated and purified, the said party or parties shall not enter the City until permission be first obtained in writing from the said Doctor.

Resolved, that the two Persons, or either of them, so to be appointed by the Board, shall have full power, and they are hereby authorised, to keep and detain all such passengers as aforesaid, as may give an account to him or them, of their being from Halifax, or its immediate neighbourhood, or that they may have undoubted reasons to suppose are from that quarter; and in case of false or untrue answers being given by any traveller or passenger as to the place from whence they respectively came, to questions put by the person or persons to be appointed as aforesaid, or any concealment made, or misinformation given, by which any party or parties may enter the Town without undergoing such process as aforesaid, on the same being reported to the Board, the legal penalty of ONE HUNDRED POUNDS will be rigidly enforced, and the said party or parties will be sent out of the City.

Resolved, that all mails, letters, packages and papers, from Halifax, or any part of Nova-Scotia that may be intended to be brought into the City, by the said Land Route be stopped and detained at the same place, and there undergo the like process of fumigation and purification before they are allowed to be carried thereto.

And further resolved, that no person from Halifax shall presume to take up his abode in any part of the County of Saint John, until he, or she, shall have first reported himself or herself at the Bridge or Aboideau as aforesaid, to the persons, or one of them there stationed, and have undergone the requisite fumigation as aforesaid. And no letters, papers, or packages shall be opened or distributed within the said County of St. John, from Halifax, until they have respectively undergone the same process, under a similar penalty in both cases.

Mr. Thomassin,

IN returning thanks to the Ladies and Gentlemen of Saint John for the success that he has met with since his arrival in this City, respectfully informs the public, that it is his intention, immediately to commence a second Quarter.

As Mr. T. is informed that many persons who desire to commence, hesitate, through the fear that he will not remain in Saint John a sufficient length of time for them to perfect themselves in a language so much esteemed by the lovers of a polite education, he would acquaint such, that in consequence of engagements made with pupils and Ladies connected with schools, he anticipates a long stay in this City.

By the LANCASTRIAN SYSTEM, Mr. Thomassin purposes to commence a course of *fifteen lessons,* for young pupils who study the French language in different schools, and guarantees that, after this short course on the above system, they will possess an exact pronunciation, the difficulty of obtaining which is the pupil's chief impediment to a perfect knowledge of the French Language: for this course, independent of his regular school, he can receive together twenty pupils over 10 years of age.

☞ For terms of tuition, and days of attendance, application must be made to him at his school-room, No. 3, in Mr. Bragg's building, or at Mrs. Cook's Boarding House.
