JAMES T. HANFORD, Trustee for the ESTATE of THOMAS HEAVISIDE, late of the City and County of Saint John, deceased.
St. John, November 15, 1834.

DRAWING.
MRS. HALL's health being established, she has returned to the City: where she purposes re-commencing her Tuition, in Pen-ciling, Painting, Oriental Tinting, and every other species of the Art of Drawing.
Terms moderate, and known on application, at her residence, in the House of Mr. Reed, Reed's Point.
Nov. 15.

DRAWING SCHOOL.
MR. C. THOMASSIN, (teacher of French,) has determined, at the solicitations of different persons who are capable of judging of his capacities, upon giving instruction in the elegant art of DRAWING, independent of his French Lessons—he having taught for a number of years in Portland, (Me.) with great success. The system by which he proposes to teach is not that of drawing mechanically, as some teachers practice, which can give no real knowledge of the art, but is that founded on the elementary principles of natural Drawing.
He offers to teach in which he proposes to instruct in—Line-Drawing, Landscapes, Heads and Flowers—(with or without Colouring.) Having procured from the United States many necessary articles, it is his intention to open his School about the middle of next month. As he has made arrangements to devote himself to his French pupils for three days in the week, the other three will be exclusively devoted to those in Drawing.
Respectfully soliciting the patronage of the inhabitants of St. John, Mr. Thomassin begs to inform them, that he has a number of young Ladies and Gentlemen who are anxious to learn the terms of tuition made known, on application to him, at S. H. M. Kee's Boarding-house, or at his school room, No. 3, in Bragg's Building.
November 15th, 1834.

EVENING TUITION.
OWING to several applications, Mr. J. Dy-sart has been induced to commence an Evening School for the instruction of those whose avocations may prevent their attendance in the day time. As it will not be open much longer than the 1st of March, he requests immediate application, that the Quarters may be completed. Please apply at his residence, Prince William street.—Mr. D. can admit a few more pupils into his day school.
November 15.

Re-acting Water Wheel.
IMPROVED.
THE Re-acting WATER WHEEL, originally invented by Dr. BARBER about 90 years ago, and subsequently improved by Messrs. Parent, De la Cour, Segner, Euler, Bernoulli, Hargreaves, Rennie, and others, is now being improved by the subscriber, (so as to resemble the original in nothing but the principle,) is now getting into general use in these Provinces and the adjoining States, for moving all kinds of Machinery, and may be procured of any desire power, at the Foundry of Messrs. HARRIS & ALLAN, of this City, where the latest improvements may be investigated, and any information given regarding them.
From the manner in which the improved wheel is constructed, the difficulties heretofore attending and complained of by the wearing away of the foot, and jamming of the false bottom, are completely overcome and for ever obviated:—can be easily kept supplied with oil, and will continue in motion under water, notwithstanding any unusual rise of back-water, freezing of the surface water, or the loss of its power, from the heaving of the building by frost or otherwise.
Mill Saws surveyed, Plans and Specifications for all sorts of Machinery furnished on moderate terms, by applying at Harris & Allan's Foundry, or to the Subscriber in the vicinity.
