Re-acting Water Wheel, IMPROVED.
THE Re-acting WATER WHEEL, originally invented by Dr. BARKER about 90 years ago, and since improved by Messrs. Parent, De la Cour, Segner, Euler, Bernoulli, Waring, Ramsey, Ewart, Wing, & Turner; but very recently improved by the subscriber, (so as to resemble the original in nothing but the principle), is now getting into general use in the Provinces and the adjoining States, for moving all kinds of Machinery; and may be procured of any desired power, at the Foundry of Messrs. HARRIS & ALLAN, of this City, where the latest improvements may be investigated, and any information given regarding them.
From the manner in which the improved wheel is now hung, the difficulties heretofore existing and complained of by the wearing away of the foot, and jamming of the false bottom, are completely overcome and for ever obviated; and the wheel is supplied with oil, and will continue in motion under water, notwithstanding any unusual rise of back-water, freezing of the surface water, or being thrown off the perpendicular, from the heaving of the building by frost or otherwise.
The wheel has been surveyed, Plans and Specifications for all sorts of Machinery, at moderate terms, by applying at Harris & Allan's Foundry, or to the Subscriber in this vicinity.
JAMES ELLIOTT.
St. John, November 15th, 1834.

CLARK'S IMPROVED WATER WHEEL.
THE Subscriber respectfully invites public attention to his Patent Improved Water Wheel, for propelling Mill or other Machinery. A great advantage of the Improvement, and one which is much required in this Province, is, that one-third the quantity of water required by other wheels is sufficient to propel it, while the power is greatly augmented. It also possesses the peculiar advantage of working equally well with back water. Persons desirous of procuring wheels constructed on this principle, are requested to apply to Messrs. Harris & Allen, Portland, or to the Subscriber, at the residence of Mr. John S. Clark, in Carleton, for further particulars, where also plans may be seen; and those who are about erecting machinery requiring much power, will do well to inspect the Patent Improvements submitted, before making their arrangements.
R. F. assures his Friends, that the Re-acting Wheels have been proved practically in this Province, and that apart from the pretended improvements which individuals may have adopted to them, which are of little or no utility. The wheel, in the simplicity of Mr. Turner's construction, is a desideratum which has been long and much wanted by all persons connected with Water Mills, from their capabilities of going during Winter, when all others are stopped by frost.
October 18th, 1834.

ADVERTISEMENT.
FOULIS having been appointed Agent by Mr. Turner, the original Inventor and Patentee of the Re-acting Water Wheel, begs leave to acquaint the Public, that any orders transmitted to him will be punctually attended to.

ETNA INSURANCE COMPANY, Of Hartford, Connecticut.
THE subscriber having been appointed Agent for the above Insurance Company, will issue Policies and Renewal Receipts (on Policies issued by the former Agent, E. D. W. RATCHFORD, Esq.) for Insurance on Dwelling Houses, Stores, Mills, Factories, Barns, Vessels and Cargoes while in Port. Vessels on the Stocks, Household Furniture, Merchandise, and every other species of insurable personal property, against—
LOSS OR DAMAGE BY FIRE,
at as low rates of premium as any similar institution in good standing.—Will give personal attendance to the survey of premises &c. in the City and vicinity, on which Insurance is desired, free of charge to the assured.—Applications in writing (post paid) from all other parts of the Province, describing the situation and the Property to be insured, will receive prompt attention; and the correctness of which description shall on all occasions be binding on the part of the applicant.
The ETNA INSURANCE COMPANY was incorporated in 1819—Capital, \$200,000, with liberty to increase the same to half a million of dollars. The Capital has been all paid in, and invested in the most judicious manner, of which a Surplus Fund of more than \$35,000 has been set apart to meet the occasional claims for Losses, and the Stock bears a high premium. The reputation the Office has acquired for promptness and liberality in the adjustment of Losses, requires no additional pledge to entitle it to a liberal share of public patronage.
