Arrived at Weymouth, schr. ——, Trask.—Brought in Captain and crew of the barque Milo, bound to Savannah, sunk in lat. 20 32.

We understand that the barque Mearns, from Dalhousie, with a cargo of timber, has been cast ashore on a reef off Bonaventure Point. It is expected she will be a total wreck—crew saved. —*Miramichi Gleaner, Dec.* 13.

Pictou Dec. 14.—The harbour remains perfectly open and free from ice, and the Prince Edward Island Mail Boat continues to ply as usual. The outward bound shipping have all left the port, except the barque Blessing, and brig Squirrel, which are nearly ready for sea. The coasting vessels have all arrived in safety.—*Bee.*

Cork, Oct. 20.—Arrived, the John Pedder, Atkinson, St. John, N. B.

Liverpool, Oct. 26.—Entered for loading, Seagull, Foreman, St. John; Lanark, Pennington, New-York; Samuel, Jamieson, and Albion, Brown, Savannah.—31st, James, Goodwin, St. John.—*Nov.* 1st, Beverley, Lawson, do.

Newcastle-upon-Tyne, Oct. 29.—Arrived, Agnes, Forster, St. Andrews.

Gloucester, Nov. 1.—The Emeline, Pettingell, from Pugwash, bound here, has arrived in the Severn.

Milford, Oct. 31.—The Hope, Davies, from St. John, N. B. which put in dismasted yesterday, must discharge to repair damages.

Dundee, October 29.—Five more of our whalers have arrived during the week:—The Dorothy, Davidson, and Horn, Thoms, clean; the Princess Charlotte, Adamson, two fish; the Ebor, Cumming, three fish; and the Friendship, Sturrock, fourteen fish. Capt. Davidson attributes the want of success this year chiefly to the uncommonly mild and calm state of the atmosphere during the middle of the season, which prevented the breaking up of the ice—thereby keeping vessels from getting to the proper fishing ground till it was too late in the season to attempt it with safety.

New Lighthouse.—It is proposed to erect a lighthouse at St. Catharine's Point, Isle of Wight, as a guide to ships going up channel. At present, after passing Beachy Head, ships frequently get embayed or set in by the strong floods, so that they cannot discover this dangerous point. The loss of the Clarendon happened in this way, and it is to be hoped that no delay will occur in erecting this important and necessary beacon, which will show the extreme points of the island to the eastward.
