He would take this method of returning his sincere thanks to his friends for the liberal support that he has received during the last fourteen years in business, as well as to inform them that having visited London last winter, and Boston and New-York this summer, he has entered into new arrangements, by which he will be regularly supplied with every description of WATCHES, CHRONOMETERS, and all other Goods in his line, which will be sold lower than at any other establishment in this City.

Having purchased, when last in London, a splendid ASTRONOMICAL CLOCK, and one of Dent's DIPLIEDESCOPES, and other Apparatus suitable for correcting and rating Marine Chronometers and adjusting Nautical Instruments, and having expended a large sum to make his establishment efficient and accommodating to the Public; he would now cherish the hope of receiving a continuance of that patronage and support which the nature of this enterprize would warrant him to expect. He is aware of the opposition that the plain honest trader sometimes meets with from unprincipled and designing men; but the same principle which has guided him through evil report and good report, will govern him in his future efforts to serve the Public and himself conjointly.

☞ Chronometers and every description of Watches and Clocks, Jewellery, &c. repaired on moderate terms. JAMES AGNEW,
Watchmaker, &c King-street.

N. B.—Shipmasters are respectfully invited to an examination of the above-named CLOCK and Apparatus for rating Chronometers; and their patronage and support are solicited.
