POETRY.

LINES

WRITTEN ON VISITING THE CEMETERY NEAR FRANKFORT.

A sudden passage from the stately domes,
The busy marts, of men—unto their graves!
Man—man—most bitter mockery! what art thou?
Where hast thou, say, thy dwelling place—thine own—
Such one, as for an instant, thou may'st *claim*;
Secure from change—beyond the sway of Death?
Oh! these are questions which this solemn spot
Doth answer chillingly, as o'er the brain,
And sickening heart, doth pass the awful truth.

I said this place was solemn—yes, 'tis so—
And yet how beautiful—a beauty which
Yon glittering, but fev'rish Capital,
With all its moneyed pomp, possesseth not.
Look round, and see the scented flow'rets spring
Above the graves of hushed humanity.—
Behold the tombstones garlanded with wreaths,
Bright coronals of fadeless evergreen—
The last gift this, of mourning relatives
Unto departed worth:—a type, it may be
A hopeful earnest, of that *heavenly* crown,
The promised guerdon from almighty love.

Doth it not, almost, to the feeling breast,
Snatch from the spectre-foe one half his sting,
To think how calmly here repose the dead,
Their earthly labours over! no more pain—
No carking care—no withering grief—all's past—
And one long sleep of peace is theirs for ever.

Let me not quit this scene, my mother dear,
Without one silent prayer, for thee—amid
The coldness of this rugged world, how oft
Doth thy son's heart yearn, for those tender looks
That dwelt upon him in his childhoods days;—
How oft doth he recal that gentlest voice,
Whose notes are ever present to his ear!
In vain—in vain—the world doth hold thee not—
My angel-mother's spirit is in heaven.

THE FIRST SEPTEMBER MAIL.

(EXTRACTS FROM LATE PAPERS.)

TOTAL LOSS OF THE POTATO CROPS—MISERY AND STARVATION.—The accounts from Ireland of the total loss of the potato crops, and the wretched condition of the people are truly heart-rending. It is acknowledged by every one that the potato crops have become unfit for human food.

The following rather startling statement appears in the "Mayo Constitution":—"We have received from our various correspondents during the past week, fearful accounts of the total destruction of the potato crop. The disease has commenced and fatally terminated in the short space of a fortnight; and, if the accounts be accurate, one short month will see the potato extinct. This is a fearful consideration—one which demands serious attention from the government and every lover of humanity. Already has the effect of this great cause been evinced, for we have heard of a large concourse of people, numbering upwards of 2,000, assembling at Westport, and proceeding to the seat of the Marquis of Sligo, for the avowed purpose of demanding work and food. The assembled concourse not content with a promise from the noble lord of 'prompt relief and employment for his own tenantry, if any were among them, and a faithful representation of the condition of the others to the government,' they attempted to extract a promise of no rents being demanded. It is unnecessary to say that the noble Marquis told the leaders of the gathering that, though his lordship was determined to discharge his duties as a landlord, he was equally determined to establish his rights. A multitude of people also assembled in Mayo, exceeding, we should think, 5,000; they marched peaceably and orderly, and, after walking through the town, they assembled on the green, where a meeting was held. The assemblage of such a vast number of people, declaring themselves on the brink of starvation was truly deplorable—a fact the truth of which we see no great reason to doubt, and we therefore feel compelled to call on the government to step forward at once with immediate—instant relief."

Stimulated by hunger, hundreds of half-famished creatures, old and young, marched on the 21st into the little town of Carberry, in the county of Cork, carrying on their shoulders several instruments of husbandry, to denote their want of employment. They were met by the priest; who prevailed upon them to return, assuring them that every exertion was to be made for their relief, and warning them that the consequences of any attempt at outrage would recoil upon themselves.

The Belfast Chronicle says, that "The total destruction of the potato crop is now evident, and, in consequence, considerable excitement and speculation have arisen in our market, and all kinds of grain have considerably increased in value. Indian corn is selling at 10s to 20s per ton advance."

A writer in the *Globe* estimates the value of the potato crop of the United Kingdom at £23,500,000, and sets down the loss to Ireland, in consequence of last year's failure, at £10,000,000. The *Cork Reporter* calculates that out of 130,888 acres planted with potatoes in that county, 100,666 are already blighted and destroyed. No means exist of testing the accuracy of these calculations, which are much higher than our own; but the mere fact of such enormous estimates being made is sufficiently expressive of the gravity of the question.—*Daily News.*

Sir James Murray, M. D., Dublin, states his conviction, founded on many experiments and much laborious investigation, that the cause of the disease is atmospheric, or rather electric, and may be guarded against by wire conductors, at an expense of 5s. or 6s. an acre. Mr. John Murray, the celebrated chemist, concurs in this view, and recommends the erection of paragreles.

The accounts we continue daily to receive from all parts of Ireland leave no room to doubt the failure of the potato crop. From the Giant's Causeway to Cape Clear, from Limerick to Dublin, not a green field is to be seen. The disease having attacked the plant at a much earlier period than it did in 1845, the root has been arrested in its growth, and prevented from arriving at maturity. Thus, what was last year but a partial destruction, is now a total annihilation; and it is become a very general belief that the month of December will not find a single potato in the country.—*Times.*

DISEASED BEAN CROPS IN SCOTLAND.—We regret to state that disease has appeared in the bean crop, and we fear will occasion considerable loss. It resembles in some degree the disease which has attacked the potatoes; the leaves become black, and the crop, at an early period, assume the appearance of a premature ripening.

THE EVANGELICAL ALLIANCE.—The conference of this body, held in London, was attended by delegates from the Free Church of Scotland, the Wesleyan Methodist connexion, Presbyterians of all descriptions, some from the Established Church of England, from France, Italy, Germany, and Russia, whilst sixty came from America. Among the delegates, those from the Wesleyan Methodist body and the Free Church of Scotland were the most numerous. The deliberations were conducted with closed doors, a proposition for the admission of reporters having been formally discussed and negatived by a large majority. From the official report of the proceedings, we learn that various committees have been appointed to carry on the preliminary business for the formation of the "Alliance." Into this alliance only those persons are to be admitted who hold what are generally understood to be Evangelical views; but these are not to be regarded in any strict sense as a creed or confession, nor is the "Alliance" to be considered an alliance of denominations, but of individual Christians, each acting on his own responsibility; neither is it contemplated that it should assume the character of a new ecclesiastical organization. Branches are forthwith to be established for—1. The United Kingdom of Great Britain and Ireland, exclusive of the British Colonies. 2. The United States of America. 3. The kingdom of France.—4. The north of Germany. 5. The south of Germany and German Switzerland; and additional branches are from time to time to be recognized as such by the concurrence of any two previously existing branches. Among these branches official correspondence is to be maintained, and annual reports of their proceedings mutually interchanged. Conferences are to be held every seventh year, or oftener, at the call of two branches, one on each side of the Atlantic.

At the first public meeting at Exeter Hall, which large building was crowded in every part, Sir Culling Eardley Smith presiding, the great principle was laid down that slight differences on minor points ought not to prevent nations from joining in this great effort to promote Christian union. This principle was set forth and defended in powerful speeches by Rev. Mr. Bickersteth, (of the Church of England,) Rev. Dr. Beecher, of Cincinatti, Professor Tholoch, of the College of Halle, Hon. and Rev. Baptist Noel, (Church of England,) and others.

Resolutions of the following purport were adopted:—Recommending that the first Lord's day in every year should be observed by the members and friends of the Alliance throughout the world as a season for concert in prayer on behalf of the objects of the Alliance; that orthodox Christians of all sects should exercise Christian charity toward each other, pledging themselves in their controversies to avoid all rash or groundless insinuations, and to maintain the meekness and gentleness of Christians by speaking the truth only in love.

Within these last few weeks, property, which it is conjectured may yield little less than £100,000, has been bequeathed to found a university in Manchester. To this sum, it is expected, another £100-000 will be added by public contribution, and in a few years Manchester may possess a university which, while not inferior to any existing establishment in its means of general education, will at once take, as regards practical science, an unrivalled position.—*Cambridge Advertiser.*

FORGERY.—Capt. Thomas Richardson, chairman of Tenbury, Worcester and Ludlow Railroad Company, was under arrest in London, charged with altering a check of the Company for £10 so as to make the sum £5000, which amount he drew from the bank of Coutts & Co.

Two tablets, commemorative of the exertions of the *Times* newspaper to expose a remarkable fraud on the mercantile public, were formally inaugurated last week, by the Lord Mayor of London and a deputation from the Common Council, one at the Royal Exchange, the other at the *Times* office.—*Liverpool Mercury, September* 4.

The Earl of Stair has been appointed Keeper of the Great Seal of Scotland.

A Paris journal gravely asserts that Scotland feels herself degraded as the vassal of England; that she is cruelly oppressed by England; that the reading of the novels of Sir Walter Scott has revived the patriotism of her people and that they are determined to throw off the English yoke.

On the 21st ult. the second Chamber of the Grand Duchy of Baden decided in favour of a measure for emancipating the Jews by a majority of thirty-six to eighteen.

EARTHQUAKE IN TUSCANY.—*Marseilles, August* 19.—By the Virgile, just arrived from Naples and the Italian coast, we learn that on Friday, the 14th inst., a most violent earthquake was felt in Tuscany. The village of Orciano, about twenty miles from Leghorn, has suffered considerably; of 120 houses, only two remain standing; 59 persons were killed and 65 wounded. Most of the houses at Leghorn have large cracks in the walls. The flags of the pavement were raised, but closed again immediately. The event caused great anxiety at Leghorn, and the people took the precaution of sleeping in the fields outside the town. At Pisa, the church of St. Michel was thrown down. An hour previous the church was crowded, and the door was scarcely closed when the roof fell in. The shock lasted for three seconds, and was followed by a muffled and awful sound, like the report of a distant cannon, and people staggered in the streets.

A letter from Leghorn, on the 17th, says:—"Our town has just been thrown into great alarm by an earthquake. On the 14th, at ten minutes to one p. m., the first shock was felt, preceded by a rumbling noise. The shock lasted seven or eight seconds. The oscillations seemed to be at first perpendicular, as if the ground was raised in a direction South-east to North-west. The inclination of the houses was such at that moment that it was difficult to stand upright in them, and the cracking of the walls and beams warned the inhabitants, who rushed into the streets. In the country the effects were more disastrous, principally in the Maremme, where ancient traces of volcanic eruptions are numerous.

Whole villages were destroyed in the districts of Taulia, Lorenzina, Orciano and Casciano. At Volterra a state prison fell in, burying some of the prisoners in the ruins. The number of lives lost is estimated at 38, and 140 wounded, some dangerously. Various natural phenomena occured. Near Lorenzana and at Treiona muddy and boiling water issued from the earth; a lake was formed in a hollow. All the villas on the hills near Pisa have suffered considerably. For the four last days the ground has not ceased to shake at intervals. In the present shaken state of the houses, another powerful shock would be the ruin of Leghorn. Part of the population has left the town. Others live in tents, or have sought refuge in boats.

LONDON, Sept. 4.—We lament to state, that our private letters from Leghorn announce, that on the 27th ult., at 50 minutes past 9 o'clock in the morning, another shock of an earthquake was felt in that city which caused considerable damage. The weather was intensely hot and cloudy, and further mischief was apprehended. As a measure of precaution, the authorities had ordered several houses to be abandoned, which had been more or less injured.—*Times.*

A NOVEL BEEHIVE.—Some time since a swarm of bees alighted on the head of one of the ornamented lions in front of Viscount O'Neill's residence, Shane's Castle. They proceeded down his throat, and are at present strong and hearty, and seem "secure from every harm."—*Dublin Freeman.*

A NOVEL ENTERPRISE.—An expedition which promises the most important results both to science and commerce, is at this moment fitting out for the purpose of navigating some of the most important unexplored rivers in South America. It is to be under the command of Lord Ranelagh. Several noblemen and gentlemen have already volunteered to accompany his lordship, and the enterprising and scientific band, it is said, will sail as the necessary arrangements shall be completed.

The Steamers Atlantic and Oregon are making trials of speed on the waters of the Sound. The former arrived at Allen's Point from New-York, last Saturday night at eleven o'clock, in the short space of six hours—followed by the Oregon, which arrived at Stonington about twelve. Both boats were crowded with passengers. The Atlantic left the dock a little ahead of the Oregon, and increased her distance somewhat during the run.

The following additional notice respecting the Light House recently erected on the Southern part of Bermuda has been published by order of the Commissioners of Light Houses of that Island:—On the night of the 5th May, the Master of *H. M. S. Vindictive*, (Flag Ship,) was sent out in the *Gleaner*, Steam Tug, to ascertain at what distance the Light could be seen, and he reports that from a position 1-3 of a mile N. by E. from the North Rock the Light-house being in a line with the said Rock, he steered off six miles N. by E. before losing sight of the continual light that is seen between the Flashes; 5½ more before losing sight of the flashes from the deck; and 5 more till the Light was lost sight of from the vessel's mast-head—and were only then lost sight of by their sinking below the horizon. They were bright and brilliant the whole time. The intervals between the flashes about 62 or 63 seconds. The night was fine, wind moderate from the Northward, with a bright Moon.

WORMS IN CHILDREN.

Of all diseases to which Children are exposed, none are more fatal to them than Worms. Unfortunately, children are seldom free from them, and as they unite the symptoms of almost every other complaint, they often produce alarming effects without being suspected. Worms are not only a cause of disease themselves, but by their irritation aggravate all other diseases, wandering from one part of the body to the other, winding themselves up into large balls, and obstructing the bowels and frequently the throat, causing convulsions and too often death. To remove these troublesome and dangerous inhabitants of the stomach and bowels, which so often impair the health and destroy the lives of children, use JAYNE'S TONIC VERMIFUGE, a certain and safe preparation for the removal of the various kinds of Worms, Dyspepsia, Sour Stomach, Want of Appetite, Infantile Fever and Ague, and Debility of the Stomach and Bowels, and organs of Digestion. Prepared only by Dr. Jayne, No. 8, South Third street, Philadelphia.

JAYNE'S EXPECTORANT always cures Asthma; two or three large doses will cure the Croup or Hives of children in from fifteen minutes to one hour's time. It immediately subdues the violence of Whooping Cough, and effects a speedy cure. Hundreds who have been given up by their physicians as incurable, with Consumption, Spitting of Blood, and other Pulmonary Affections, have been restored to perfect health by it. It never fails in giving relief.

THE HAIR.

BALDNESS AND LOSS OF HAIR are caused by a want of healthy action in the vessels which throw off the perspiration from the head. When these vessels are weak and diseased, the perspiration is thick and clammy, and adheres to the mouths of the pores, and clogs them up, and dries and forms scurf and dandruff. Less blood is then carried to the roots of the hair, and for want of which the hair has not sufficient nourishment, and consequently becomes dry and harsh, and begins insensibly to fall off, which, continuing to increase, eventually produces baldness. Restore the capillary vessels of the head to their former healthy circulation, and fine silky *new hair* will make its appearance, which will increase in quantity and volume, until the hair becomes thick and healthy. JAYNE'S HAIR TONIC is the only preparation that has ever been known to produce *new hair on bald heads*, which it has done in innumerable instances, and will seldom fail if properly and perseveringly used.

☞ The above valuable Medicine is for sale in St. John by Messrs. T. WALKER & SONS.

NOTICE is hereby given, That the President and Directors of the Saint John Water Company have nominated and appointed FRANCIS MANN, of the City of Saint John, Hotel Keeper, Collector of the Rate or Assessment imposed under and by virtue of an Act passed at the last Session of the Legislature, intituled "An Act further to facilitate the means of supplying the City of Saint John with Water, and for the more effectual prevention and extinguishment of Fires within the said City."

By Order of the Board of Directors.
D. ROBERTSON,
Secretary, St. John Water Company.
St. John, Sept. 10, 1846.—(4‡)

EDUCATION.

June 6.

ASTONISHING EFFICACY OF HOLLOWAY'S PILLS.

THE TESTIMONY OF A CLERGYMAN VOUCHING TO ELEVEN CASES OF CURES BY THESE WONDERFUL PILLS.

Extract of a Letter from the Rev. George Prior, Curate of Mevagh, Letter Kenny, Carrigart, Ireland, 10th January, 1846.

TO PROFESSOR HOLLOWAY.

SIR,—I send you a crude list of some *eleven cases, all cured* by the use of your Pills, I cannot exactly give you a professional name to the various complaints, *but this I know, some of them baffled the skill of Derry and this County.* In a previous letter this gentleman states as follows:—Within a short distance of my house resides a small farmer, who for more than twenty years has been in a bad state of health; Mrs. Prior gave him a box of the Pills, which did him so much good that I heard him say, for twenty years past he never ate his food or enjoyed it so much as since taking your Pills.

(Signed) GEORGE PRIOR.

⁂ The above reverend and pious gentleman purchased some pounds' worth of the Pills for the benefit of his poor parishioners.

EXTRAORDINARY CURES BY Holloway's Ointment.

CURE OF A DESPERATE CASE OF ERYSIPELIS.

Copy of a Letter from Mr. Joseph Gildon, Jun., a Farmer, East Kenal, near Spilsby, Lincolnshire, 8th April, 1846.

TO PROFESSOR HOLLOWAY.

SIR,—I have the gratification to announce to you a most wonderful cure wrought upon myself, by the use of your Ointment and Pills. I had a severe attack of Erysipelis in my right foot, which extended along my ancle, and was attended with swelling and inflammation to an alarming degree, insomuch that I was unable to move without the use of *crutches*. I consulted a very eminent Physician, besides other Medical men, but to no purpose. At last I tried your Ointment and Pills, when, strange to say, in less than two weeks the swelling and inflammation gradually subsided to such a degree that I was enabled to pursue my daily avocation, to the utter surprise and amazement of those who were acquainted with my case, seeing that I was cured so quickly. I and my family are well known here, as my father holds his farm under the Rev. J. Spence, Rector of our Parish.

(Signed) JOSEPH GILDON.

Holloway's Ointment *will cure any cases of Bad Legs, Ulcerous Sores, Bad Breasts, Sore Nipples, Cancers, Tumours, Swellings, Contracted or Stiff Joints, Gout, Rheumatism, Lumbago, Burns, Scalds, Chillblains, Chapped Hands and Lips, Bunions, Soft Corns, Piles, the Bite of Moschettoes, Sand-flies, Chiego foot, Yaws, Coco-bay, and all Skin Diseases common to Europe, or to the East and West Indies, or other Tropical climes.*

Holloway's Pills *should be taken in most instances when using the Ointment, in order to purify the blood and invigorate the system.*

☞ Sold by the Proprietor, 244, Strand, (near Temple Bar,) London; and by PETERS & TILLEY, *Provincial Agents*, No. 2, King street, Saint John, N. B.; James F. Gale, Fredericton; W. T. Baird, Woodstock; Alexander Lockhart, Quaco; James Beck, Bend of Petitcodiac; O. K. Sayre, Dorchester; John Bell, Shediac; John Lewis, Hillsborough; John Curry, Canning; and James G. White, Bellisle;—in pots and boxes, at 1s. 9d., 4s. 6d. and 7s. each. There is a very considerable saving in taking the larger sizes.

N. B.—Directions for the guidance of patients are affixed to each pot. *July* 11, 1846.

The First Productions in the World FOR

The Hair, the Skin and the Teeth!

Rowland's Macassar OIL

IS universally acknowledged to be the ONLY ARTICLE that will effectually *produce* and *restore Hair*, (including WHISKERS, MUSTACHOIS, and EYEBROWS;) prevent it from *falling off* or *turning grey*, free it from *scurf* and *dandriff*, and render it *delightfully soft, silky, curly, and glossy.*

CAUTION!—Numerous *pernicious* compounds are universally sold as "MACASSAR OIL."—To ensure the real article, see that the bottle is enclosed in a wrapper, (a steel engraving of excellent workmanship,) on which are engraved "ROWLAND'S MACASSAR OIL," in two lines.

⁂ To further ensure the genuine article, see that the word's "*Rowland's Macassar Oil*" are engraved on the back of the envelope nearly 1500 times, containing 29,028 letters—WITHOUT THIS NONE ARE GENUINE.

ROWLAND'S KALYDOR.

This elegant and fragrant preparation thoroughly eradicates all *Pimples, Spots, Blotches, Redness, Tan, Freckles,* and other *Defects of the Skin*, heals *Sunburns, Stings of Insects,* and reduces inflammation. It imparts a *youthful roseate hue* to the most bilious *Complexion*, and renders the *Arms, Hands,* and *Neck*, transparently *fair* and delightfully *soft* and *smooth.*

It is invaluable as a renovating and refreshing Wash, during travelling, or exposure to the sun, dust, or dry piercing winds, and after the heated atmosphere of crowded assemblies.—*Gentlemen* will find it peculiarly grateful after shaving in allaying the irritation of the Skin.

ROWLAND'S ODONTO,

OR, PEARL DENTRIFICE.

A Fragrant White POWDER, of Oriental Herbs.—It eradicates *Tartar* and decayed Spots from the *Teeth*, preserves the *Enamel*, to which it imparts a Pearl-like whiteness, and fixes the *Teeth* firmly in the Gums. Being Anti-Scorbutic it eradicates the Scurvy from the *Gums, strengthens, braces,* and renders them of a hehlthy *red;* it removes unpleasant tastes from the mouth, which often remain after fevers, taking medicines, &c., and imparts *sweetness* and *perfume* to the breath.

Rowland's Essence of Tyre,

OR IMPERIAL DYE,

Changes *Red* or *Grey Hair*, Whiskers, Eyebrows, &c. to a beautiful *Brown* or *Black.*

Rowland's Alsana Extract,

Immediately relieves the most violent *Tooth-Ache, Gum-Boils,* and *Swelled Face.*

OBSERVE!—To protect the Public from fraud, *The Hon. Commissioners of Her Majesty's Stamps* have authorised the Proprietors' Signature to be engraved on the Government Stamp, thus—A. ROWLAND & SON, 20, Hatton Garden, which is affixed to the *Kalydor, Odonto,* and *Alsana.* None of these are genuine without the Stamp.

BEWARE OF IMITATIONS!! composed of the most pernicious and trashy ingredients, and which are frequently passed upon the unwary as *Genuine*, and under the lure *of being cheap.*

Be sure to ask for "ROWLAND'S" Articles.

☞ Sold at the Apothecaries' Hall, St. John, New Brunswick, by WM. LIVINGSTONE, Agent, and by almost every *Perfumer* and *Chemist* throughout the civilized world. June 3.
