POETRY.

[FOR THE COURIER.]

SOBER JOYS.

I hate the senseless giddy round
Of riot, rout, and noise :
To me more dear the sight—the sound—
The scene of sober joys.

Domestic Peace ! thou goddess chaste,
Come with thy cheering powers—
With all the joys that crown thee, haste
To cheer my lonely hours.

Come thou from city, mountain, vale,
With bliss that never cloys—
Oh ! ride upon the ambient gale,
To give me sober joys.

Tho' wide around has nature flung
Her blessings, large and free ;
Yet still the whisper of thy tongue,
How sweet its melody !

The spot, the hour, my present fate,
Which now my soul employs—
Tho' sad, and lorn, and desolate,
Still point to sober joys.

THOMAS R. DUFF,
Master of Ship "Lord Wenlock."

Saint John, June 2, 1846.

VARIETY.

QUEBEC, May 15.—The sea-going Steamer St. George left here on Thursday evening with provisions for the sufferers by the late fire in Saguenay. She took down 300 barrels of flour, beef and pork, furnished by the Government, and forty barrels of potatoes and seed-wheat from the Catholic Bishop.

PREPARATIONS IN THE UNITED STATES FOR NAVAL WARFARE.

Increase of the Navy—Thirteen Iron vessels proposed.—The augmentation of the public defences will not be confined to the Military alone. An order was taken at the last meeting of the Committee of Naval Affairs of the House, for the construction of twelve iron steamers, and one sixty-gun ship of iron. The steamers are to be of 1,500 tons burthen, and to carry 6, 10, or 12 inch guns, equal to a battery of 32-pounders. The whole will involve an expenditure of about $7,000,000.

DROUGHT AND FAMINE IN NORTHERN BRAZIL.—A letter received by a gentleman in this city dated Aracaty, Feb. 20, gives a heart-rending description of the sufferings of the inhabitants of portions of Northern Brazil. At Aracaty, in consequence of the protracted drought, the trees were withering, and the people were famishing for want of food. The writer says—"Should the drought continue until May or June we shall have few persons left here. They have already begun to flock to Pernambuco, the capital ; and if opportunity offers, all that remain will immediately follow."—The writer was at Ico on the 9th February, and he there saw families who a short time since enjoyed abundance, begging from door to door. "They appeared," he remarks, "more like skeletons than anything else. Many were dying in the streets from want, daily ; and the deaths were so numerous that the amount of mortality could not be estimated." Articles of first necessity had risen to an exorbitant price. A quarter of flour (half a bushel) could not be obtained for less than 24 mil reas, or $12; and biscuits, weighing half an ounce, sold for 30 reas each. Salt, which a short time previous was selling at 8 milreas, was held at 16 milreas. In the districts of Inhamum, Croto, the Province of Parahyba, and the neighboring country excepting the sea-coast, the distress was great beyond description, and the inhabitants were perishing of hunger in all directions.—*Balt. American.*

FROM THE COAST OF AFRICA.—The brig *Pauline*, Captain Yarrington, arrived at Boston on the 24th instant, from Bonavista, Cape de Verd Islands, and Goree. Capt. Y. reports that he touched at Bonavista on the 18th of March, and he learnt from the shore that the yellow fever and black vomit was raging as bad as ever, and that from four to five hundred of the inhabitants had died; and that all the principle inhabitants had left the Island. It commenced in October last. An English steamer that stopped there lost from seventy to eighty men. The English Colonies have sent three vessels with provisions to the poor; and 2000 bushels of Corn were collected on the Islands and deposited at Saint Nicholas.

The Governor had ordered a Portuguese man-of-war to go and take on board all provisions sent there, as all vessels are quarantined thirty days from island to island. The Governor has also put an extra duty on tobacco of about 2 cents per lb., making the duty 10 cents per lb. Pork, beef, hams, and a great many other articles are prohibited.

Capt. Yarrington also reports that the small-pox was raging at Goree, April 25th, the day he left that port, and that 200 of the inhabitants had died in about twenty days; and every family had three or four sick with the disease. The hospital was nearly full with sick persons. It was brought there by a French steamer from the river Gaboon, which had lost nearly all hands. There were twenty ships of war, six steamers, three large ships with cargoes of coal, and two iron brigs used for water boats, lying at Goree when the Pauline left. The island contains 6000 to 7000 inhabitants.

FROM VERA CRUZ.—An arrival at New-York from Havana brings news from Vera Cruz to 1st inst. The Express has the following extract from the hostile proclamation of President Paredes:—

"The old injuries and offences which have been repeated ever since 1836 by the Government of the United States against the Mexican people, have been consummated by the act of sending a Minister to be accredited near our government, with the character of resident, as if the relations between the two republics had not not been altered by the act of incorporating Texas. At the same time, when Mr. Slidell presented himself, the troops of the United States occupied our territory, their squadrons threatened our ports, and preparations were made for occupying the Californias, of which the question of Oregon is only a preliminary ; and I did not admit Mr. Slidell because the dignity of the nation repelled the new insult.

"In the meantime the army of the United States was cantoned at Corpus Christi, and occupied the island of Padre Vayin ; afterwards marched towards St. Isabel, and the *flag of the stars* waved on the left bank of the Rio Bravo del Norte, opposite the City of Matamoras, after taking possession of the river with their ships of war. The town of Laredo was surprised by a party of their troops, and a picket of ours, on the watch, was disarmed. Hostilities then, have been commenced by the United States of America, in making new conquests upon our territories within the boundaries of the departments of Tamaulipas and New Leon ; and also by the advance of troops upon Monterey in upper California."

After these expressions he attributes the responsibility of a war, between the two nations to the Americans ; and, much more, when they had intimated to the troops of the United States that they must recede to the other side of the Neuces, the ancient boundary of Texas, it was rejected. The President afterwards solemnly declares that he does "not decree war ; for it belongs to the Congress, and not to the Executive, to resolve, definitely upon the reparation which the conduct of the Americans demand."

"But *the defence of the Mexican territory*, (he continues) *which the troops of the United States invade*, is an urgent necessity, and my responsibility will be immense before the nation, If I do not command the repelling of the force that invades it *as enemies ; and I have commanded it*. From this day *will commence* DEFENSIVE WAR, and all points of our territory that shall be invaded, or attacked will be defended with all our strength."

LATER FROM MEXICO.—We find in the New-Orleans Picayune of the 16th, eight days later accounts from Mexico, brought to that port by the Sardinian brig Providenzia, Captain Tonelate, which vessel left Vera Cruz on the 4th instant.

She brought over as passengers, Lieuts. Noland and Middleton, of the United States Navy.—The news by this arrival is not of great importance, as no revolution has yet occurred in Mexico.

No one thinks the present force in the Gulf at all adequate to make an attempt upon San Juan de Uloa, with any reasonable hope of success. It is in a most perfect state of defence, and mounts a large number of sixty-eight pounders. Its munitions are by no means of the same character as they were when the French attacked it ; its power to do harm has been immeasurably increased.—Nor do we find that its capture and possession are regarded by military men as a matter of such first-rate importance as to authorize heavy sacrifices.

El Republicano furnishes a well-executed map of the ground occupied by the Mexican forces at Matamoras, as well as of the American position. The new Mexican works are said to be very strong and to have been erected by Mejia agreeably to the designs of Senor Tola, a Colonel of the Engineers. El Republicano says the American army will encounter its grave, if it shall dare to attack Matamoras, and it thinks it quite impossible for it to cross the river in the face of the troops now collected at Matamoras.

The attempt made by General Alvarez in the South, against the Government, is said by a Government paper to have been misrepresented ; it was a domestic brawl, having nothing to do with general politics. Gen. Alvarez had made use of the funds intended for the expedition against California. The papers on each side censure him.

Gen. Urrea was at Durango on the 4th of April. The papers acquit him of the suspected intent of separating the Northern Departments from the Central Government.

El Tiempo, of the 27th, announces that Sr. D. Francisco Lerdo, the Secretary of Gen. Almonte, who was sent back from Havana for further instructions, has been arrested by order of the Government and committed to San Juan de Ulua.—The reason assigned is, that papers were found upon him which excited suspicion as to the true object of his visit to Mexico. The arrest is by some regarded as problematical. Be it true or not, it shows the direction of men's minds in Mexico.

The dates from Mazatlan are to the 4th of April. General Guttierez had arrived there, and the confidence of the Mexicans was a good deal restored; still they apprehended most seriously a blockade by the American squadron. The British ship of the line Collingwood, Admiral Sir George Seymour, arrived at San Blas on the 4th April.

By this arrival we have received the following letter, which furnishes information in regard to our squadron, the state of California, &c. It is not very late, but presents the best account we have of affairs on the Pacific coast. It is from a gentleman whose intelligence may be relied on :

MAZATLAN, 10th March, 1846.

From information received by the Juanita from Upper California, which arrived here a few days since, it appears that the *Asamblea* of that department at its next session, intended to declare itself independent of Mexico. The *Asamblea* will have to be convoked by the Governor in April.

An English whale-ship arrived off this port two days ago, from San Francisco, California ; the object of her touching here was to leave a letter for the British Consul at San Blas, sent by that at San Francisco. The Captain received the sum of £22 for the letter. It is supposed that it is in relation to the arrival of Captain Fremont. The English are quite in a funk about California and Oregon.

List of Vessels of War of the United States in Port.—U. S. frigate Savannah, Commander Sloat; U. S. frigate Constitution, Captain Percival ; U. S. ship Levant, Commander Page; U. S. ship Portsmouth, Commander Montgomery; U. S. ship Erie, Lieut. Turner; U. S. schr. Shark, Lieut. Commander Howison.

Expected—Sloop Warren, Hull, from Panama, with the mail. The Cyane, Mervine, sailed 22d ult. for Sandwich Islands, with the object of communicating with Com. Stockton, expected there this month.

Our forces on the Pacific side are very respectable—adequate and ready for any service. The following are the names of the British ships sent to watch us and protect British trade :—Fisguard, 36; Talbot, 26; Modeste, 22; Frolic, 18.

In the event of a war with Mexico, our movements on this side will no doubt create great interest, both at home and abroad. It, of course, is clearly understood we are to take California—perhaps this place may fall into our hands.

WM. W. EMSLIE,
Boot and Shoe Maker,
North Side KING STREET, second shop below Germain Street,

MOST respectfully tenders his sincere thanks to his friends and the public generally for the liberal patronage they have hitherto afforded him, and begs leave to hope that after an experience of nearly 28 years in this Province, with a determination to exert himself to the utmost of his abilities, a close attention to punctuality, and a constant desire to meet the wants and wishes of a discriminating public, this patronage will be extended.

He continues to manufacture all kinds of Ladies', Gentlemen's and Children's BOOTS and SHOES of the most approved workmanship and style, of the latest fashions, and of the best materials which can be found in the Province. Gentlemen's Boots, when required, made with elastic Spring Shanks, also manufactured here, to give a preference to home, or native manufacture being Mr. E's principle, convinced that such are much cheaper in the wear than spurious foreign articles made only for sale.

Mr. Emslie would call the attention of the public to his present general assortment of fine and strong BOOTS and SHOES, as a sample of what he can do. All orders punctually attended to.

Health for All !

PATRONISED BY THE GREATEST NOBLES IN THE LAND.

Holloway's PILLS !

Copy of a letter from His Grace the DUKE OF PORTLAND *to Mrs. Ann Mellish (one of his tenants), whom his Grace was pleased to send as a Patient to the Proprietor of this extraordinary Medicine.*

"Madam.—If Mr. Holloway will undertake to Cure you perfectly, when the cure is complete, I will undertake to pay him £2 10s. You may shew him this letter. SCOTT PORTLAND."
Welbeck Abbey, May 31, 1842.

Copy of a letter from the Most Honorable the Marquis of Westminster, K.G.

Lord Westminster has just received Mr. Holloway's Medicine, for which he returns him his best thanks. *Eaton Hall, Cheshire, Feb.* 2.

This inestimable Medicine, being composed entirely of Medicinal Herbs, does not contain any mercurial, mineral, or any other deleterious subtances. Benign to the tender infant, or to the weakest constitution, prompt and sure in eradicating disease from the most robust frame, it is perfectly harmless in its operations and effects, while it *searches out and removes Complaints of every character*, and at every stage, however long-standing or deeply-rooted.

OF THE THOUSANDS Cured by its agency, many who were on the verge of the grave for a considerable period, (by *persevering in its use*) have been RESTORED to Health and Strength, after every other means had failed.

ALL DISEASES, (and whatever may be their symptoms, however they may declare themselves, yet one cause is common to them all, viz. a want of purity in the blood and fluids), are Cured by this *Wonderful Medicine*, which cleanses the stomach and bowels, while its Balsamic qualities clear the blood, give tone and energy to the nerves and muscles, invigorate the system, and add strength to the bones and sinews.

THE AFFLICTED need not give himself up to despair, as one without hope, but let him make a proper trial of the MIGHTY POWERS of this astonishing Medicine, and he will soon be restored to the blessings of Health.

TIME should not be lost in taking this remedy for any of the following Diseases :—
