DEFERRED ARTICLES.

From the Royal Gazette, June 12.

PROVINCIAL APPOINTMENTS.

Bliss Botsford, Esq. and Moses Welling are appointed Commissioners to see that the conditions of the Legislative Grant to encourage the driving a Stage between the Bend of Petticodiac and Shediac are complied with.

George L. Hannington and Moses Welling are appointed Commissioners for building a Wharf at Shediac; towards the expense of which the sum of £100 has been granted.

James Ketchum and George Hayward Esquires, are appointed Commissioners for expending the sum of £2,500 upon the West side of the river Saint John, between Fredericton and Woodstock, as specified in the appropriation for the Great Road from Fredericton to the Canada Line.

Lauchlan Donaldson, John Ward, jun. and Timothy R. Wetmore, Esquires, are appointed Commissioners for the proposed Canal across Grimross Neck.

CANADA AFFAIRS.—The resignation of the Ministry in England will, probably again delay the settlement of the affairs of Canada. We think the Union of the Provinces one of the most dangerous measures which was ever proposed as affecting the future security of the North American Colonies. It is time however that the Home Government and Parliament should relieve the Colonies from the long continued uncertainty which has had, and still has, so much influence in producing our misfortunes, so that industrious and enterprising people may conduct their efforts with some degree of confidence in future quiet and security.

Letters received from London, by the *Great Western*, state that the Ministerial plan for the Union of Upper and Lower Canada is not to take effect until 1841.—*Quebec Gazette.*

QUEBEC, June 3.—AGRICULTURE.—The last week has been entirely lost for agricultural operations, owing to the stormy state of the weather and continued rain. It ceased on Saturday and has since been cloudy and cold. Indeed, during the whole of the late rain the thermometer has rarely been above 50 degrees, Farenheit, and has been down to between 35 and 45 degrees, at which latter degree it stood this morning. Vegetation, on the 3d June, within eighteen days of the period when the days begin to shorten, is uncommonly backward, fully a fortnight later than usual. The leaves of the forest trees are not yet spread, and the earliest blossoming wild fruit trees have their blossoms but just open. The cattle are only beginning to have sufficient feed in the pastures. Potatoes planted more than a month ago are but a little above the ground, and oats, a fortnight in the ground, are just coming up; the blade of the young grain is getting of a pale green from the wet and cold. In some parts low land has suffered by the overflowing of the rivers and streams. If the weather should get fine and warm, the injury will, however, not be so great as was feared.

Among the losses which have been occasioned by the rising of the waters in the rivers, we hear of the following:—

The bridges at Montmorency, Ste. Anne du Nord, St. Paul's Bay and Malhaie, Graves' Bridge, over the Jacques Cartier, and Meunier's and Voyer's Bridges at Lorette, are carried away.

On the North Shore, at St. Paul's Bay, several houses have been carried away entirely by the waters of the Gouffre; parts of them were seen in the St. Lawrence by vessels from below. The inhabitants on the low lands on the banks of the river at Valcartier, were obliged to leave their houses and take refuge on the higher grounds. A barn belonging to Mr. Lawrence Carrigan, with 400 bundles of hay was brought six miles down the river and lodged on an island, and the crops and fences much injured. There has been a great loss of saw-logs and other timber which has been carried out of the small rivers and booms into the St. Lawrence, on both sides of the river.

QUEBEC, June 4.—H. *M. S. Racehorse*, Hon. Capt. Harris, 14th May, from Plymouth, arrived yesterday.

The *Racehorse* has brought out 54 seamen for service on the Lakes, and the following officers proceed for the same destination this evening:—

Mr. Joseph Marsh, Purser; Dr. Martin, Assistant Surgeon; Lieutenants C. J. Williams and George Western.

We understand that the British Government, fully sensible of the necessity of effectually removing from this Colony those persons implicated in the late rebellion, whose lives have become forfeited, but have been spared, has despatched a vessel expressly to receive them on board and convey them to New South Wales.—*Montreal Transcript.*

The losses of the General Government of the United States by defalcations, since the commencement of their Constitution, amounts to upwards of *Eighteen Millions of Dollars.*

It appears from an American paper called the *Vicksburgh Sentinel*, that there had been a popular insurrection in Decatur (Mississippi) during which the mob set fire to the Bank and caused its utter destruction, together with all the Books and papers connected with the establishment. The account says, "so exasperated are the populace that both the lives and property of the Directors are considered in imminent danger.

THE BRITISH MINISTRY.—The following table will show the names of the present ministers who constitute the British Cabinet, with their titles, and salaries expressed in pounds sterling:—

Wm. Lamb, Viscount Melbourne,—First Lord of the Treasury,	£5,000
Charles C. Pepys, Baron Cottenham,—Lord Chancellor,	14,000
Henry Petty, Marquis of Lansdowne,—Lord President of the Council,	2,000
J. W. Ponsonby, Viscount Duncannon,—Lord Privy Seal,	2,000
Right Hon. Thomas Spring Rice,—Chancellor of the Exchequer,	5,000
Lord John Russell,—Secretary of State for the Home Department,	5,000
Lord Palmerston, Viscount Palmerston,—Secretary Foreign Department,	5,000
Henry Phipps, Marquis of Normanby,—Colonial Secretary,	5,000
G. E. Kynymond, Earl of Minto,—First Lord of the Admiralty,	4,500
Sir J. C. Hobhouse,—President of the Board of Control,	3,500
Sir Charles Poulett Thompson,—President of the Board of Trade.	2,000
Viscount Howick,—Secretary of War,	2,500
H. R. Vassal Fox, Baron Holland,—Chancellor of the Duchy of Lancaster,	4,000

The Marquis of Normanby has lately been removed from the Government of Ireland, where his salary was £20,000, to succeed Lord Glenelg in the Colonial Department. His administration in Ireland is severely censured by the opposition.

The ages of ministers are as follows:—Viscount Melbourne, 60; Baron Cottenham, 58; Viscount Duncannon 58; Marquis of Normanby, 42; Earl of Minto, 57; Lord Holland, 60.

We have not the means at hand of ascertaining the ages of the other members of the Cabinet.

It may be interesting to know how far some of the leaders of the opposition have got along in life; we therefore set down some of them. The Duke of Wellington is 70 years old; Lord Lyndhurst, who is son of John Copley, the distinguished portrait painter, was born in Boston in 1772, and is 67 years old; Lord Brougham is 60; Earl Durham, J. G. Lambton, 47.—*Salem Gazette.*

It is supposed that the Peel ministry was outmanœuvred by the beautiful Marchioness of Normanby. Who rules the Queen rules England, and England rules nearly all the world. Thus the Marchiones of Normanby is the greatest woman in the world at present.

Mr. Hall, the stipendiary magistrate at Liverpool, is said to have been appointed a police magistrate in London, with a salary of £1000 per annum.

Oswald Wood, Esq. has been appointed Provost Marshal of Antigua; John M. Pooley, Esq. Provost Marshal of Grenada; and George La Corte, Esq. Judicial Referee and Registrar of Deeds at Trinidad.

The Gazette of Tuesday week, announced, that the Earl of Uxbridge had been appointed Lord Chamberlain of Her Majesty's household.

The Board of Excise have come to the determination to discharge all officers who may, in future, be arrested for debt.

Mrs. Fitzroy, late Miss Rothschild, has given one pound of tea to all her husband's constituents who would accept it, and £50 besides to buy petticoats for the women.

The marriage of his Grace the Duke of St. Albans to Miss Gubbons is to take place on the 29th of May.

The thirty-ninth child of Wm. Smith, of Claddagh, Ireland, was baptised by the Rev. Mr. Fahy, in the month of April last. The father is in his 85th year, and has had four wives.

Jim Crow has met with good success in England, singing his 'nigger songs.' He receives £100 a week in London. At Dublin, his benefit brought him £350. He goes to Scotland.

A great many murders have been committed in England lately. An old lady 84 years of age, was murdered in the peaceable village of Healey-on-Thames.

Two murders in England have lately been discovered—one committed 30 and the other 40 years ago.

The Wesleyan Missionary Society celebrated their anniversary on the 29th April. They have 257 principal stations, 341 regular missionaries, and 3,600 chatechists, scripture readers and schoolmasters. The total number of members is 66,800, not including Ireland, and the regular subscriptions to the Society, during the past year, amounted to £73,537, increased by legacies, donations, &c. to £88,818.

The Emperor of Russia has decreed the abolition of lotteries in Poland, because, says the "Ukase," they exercise a fatal influence over the poor and manufacturing classes of the country.

Advices were received on the 10th inst. overland from India. The latest dates from Bombay are to the 25th March. Sir Willoughby Cotton, with two brigades of infantry, a brigade of cavalry, and the artillery had advanced towards the Bolan Pass, having left Shirkapore on the 23d February. The Shah Shoojah, with his force, was expected to leave Shirkapore the first week in March. Sir John Keane, with his division, had advanced to Larkana, between Hyderabad and Shirkapore on the 24th of February, and intended to proceed to Dadur, at the foot of the Bolan mountains.—Every thing appears to be proceeding very favourably, and Lieut. Pottinger has been restored to a good understanding with the Prince Kamram, of Herat. The Sirdars have returned from a fruitless expedition to Herat and are now stated to be favourably disposed to the British interests.

LONDON MARKET, May 16.—*Wheat.*—The letters from the south of Europe, state that the value of Wheat continued to be firmly supported in that quarter. From Leghorn we have advices up to the 1st inst. During the whole of the month of April a lively demand for Wheat had been experienced there, and sales to a considerable extent had taken place, at improving rates. The stocks on the 30th ultimo, were reduced to 200,000 sacks, or 50,000 quarters, and during the week ending the 27th of April, 52,493 sacks had been taken off the market of which 37,666 sacks were bought for the interior of the state, and 14,827 sacks for export. Our letters from Trieste are of the 27th and 29th ultimo. The price of Wheat was there also advancing; two different lots of good Bannat, consisting each of about 1300 quarters, had been taken at 38s. 6d. per quarter, free on board; and holders subsequently raised their demands to 39s.

LIVERPOOL MARKET, May 17.—*Flour.*—We had a good demand for American Flour the latter part of last week, and about 15,000 brls. sold at 34s. 6d. to 36s. chiefly 35s. to 35s. 6d. per brl.; but the demand has since subsided in a great measure, and on the 14th inst. 1500 brls. Baltimore Flour, sold by auction, at 34s. 3d. to 34s. 10d. per brl. The above are the duty paid prices, and there is nothing now doing but by retail. The duty remains at 6s. 5d. per brl. and whether it will be higher or lower hereafter, is uncertain.
