WOODSTOCK, June 1.—We have had heavy rains with very little intermission since last Tuesday. Creeks and other tributaries to the St. John have risen to an unusual height, doing much injury to the lumberers. Yesterday morning the Boom on the Meduxnikick broke, when a large quantity of timber was let loose and went down stream: it will probably be a total loss. We have heard that the lower boom on the Restook has given way, and that upwards of 4000 tons of timber had gone adrift. We fear that much injury will be done in the lower part of the country, in consequence of the great rise of water in the river. There was so little prospect of a high freshet this season, that we presume the farmers on the low lands were nearly done cropping. We shall be happy to find that our fears have not been realized.—*Times.*

QUEBEC, May 25.—We are happy to learn that several persons lately engaged in putting fire to dwelling houses and barns on our frontier, near the lines, have been apprehended by a party of Col. Dyer's corps, and will be brought to town as prisoners. The number taken, we understand to be eight, among whom is Bonaventure Viger the instigator of the attack upon the Montreal Cavalry near Longueil, in 1837, and one of the prisoners transported to Bermuda by an Ordinance of the Earl of Durham.

The Grand Jury of the Assizes of the Newcastle District have presented the Report of the Earl of Durham as a libel on the Province of Upper Canada.

At a Garrison Parade held on Monday the 13th inst. at Niagara, the sentence of 14 years' transportation, and to be branded with the letter D, was promulgated against one of the soldiers of the 3d battalion of Incorporated Militia caught in the act of desertion.

In the town of Hamilton, U. C. a lot of forty acres of land was sold in 1832 for £600.—Within five years afterwards this lot had so much increased in value that it was worth £40,000—and found a ready sale at £1000 per acre.

The Toronto Colonist of the 22d instant says:—It has been reported in town for the last week, that His Excellency Sir George Arthur has resigned the Government of Upper Canada, and that his resignation has been accepted. It is further stated that the Hon. Fox Maule is to come out as successor to Sir George Arthur. Mr. Maule is the eldest son of Lord Panmure, and nephew of the late Earl of Dalhousie, sometime Governor General of British North America, to whose staff Mr. Maule was attached as aid-de-camp; and during Lord Grey's administration, he filled the office of an Under Secretary of State. He is at present a member of the House of Commons.

An Iron Steamboat from London.—The steamer Robert F. Stockton, built in England for the Delaware and Raritan Canal, arrived here yesterday from London. She had a long passage, having left on the 8th of April. The Robert F. Stockton came from London to New-York without the aid of steam—her sails brought her here. We are told that she is the first iron vessel of the kind ever seen here; although a large iron steamboat is now building at Pittsburg. The London steamer is built entirely of iron, the pieces being rivetted together—is rated 15 tons, and is 71 feet long, while her breadth at midships is only 10 feet. It was this disproportion which caused the voyage to be considered so hazardous. The steam engine is placed at the stern, which Captain Crane considers an advantageous mode of construction in steamboats intended for the open sea. The Post learns, that her departure from London was looked upon as an act of great temerity in Capt Crane, whose success, however, has fully justified his reliance on his own skill, and the capacity of his vessel to brave the storms of the Atlantic.—*New York Express.*

Catholic Cathedral.—We understand that subscriptions are in progress for the erection of a magnificent Roman Catholic Cathedral in the western part of the metropolis, in the Gothic style, to be decorated in the interior with the most finished specimens of the arts of painting and sculpture, to contain ten thousand persons, and to form externally one of the noblest architectural ornaments of the empire. It is said that the Pope is to come over to consecrate the Cathedral when finished, and it is calculated that the edifice will altogether cost about £150,000.—*London Colonial Gazette.*

A deputation from the Highland Society of London, consisting of the Marquis of Breadalbane, Sir George Murray, Captain R. C. McDonald and Mr. John McDonald, waited on the Marquis of Normanby at the Colonial Office on Monday, on the subject of education on British principles in Nova Scotia, New Brunswick, Prince Edward Island, and Cape Breton.—*English paper.*

REPORTED CAPTURE OF ST. JOHN BY THE AMERICANS!—The following is the explanation given by Captain Hippisley, of the report, said to have been made by him to a vessel at sea, of the taking of St. John by the Americans:—

To the Editor of the Shipping and Mercantile Gaz.

Gloucester, May 10, 1839.

SIR,—Having to my great surprise perceived a paragraph in the 'Shipping and Mercantile Gazette,' which if uncontradicted might prove injurious to myself as well as prejudicial to that respectable portion of the public with whose interests my own is so nearly allied, I beg leave to state the circumstances under which the mistake has in all probability arisen. On Thursday, the 2d day of May, being then in the Bristol channel and a pilot on board, I passed in the George the ship Champion, the master or pilot of which vessel inquired where we were from, and on being told St. John, N. B., with the time we had been out; the master, (as I suppose) enquired what news. Not having time to enter into details, I replied that "the Yankees had taken possession of the disputed territory," but added that things had been amicably settled till advices could be obtained from our Government. When the Champion first hailed the George she was under our stern, and I hail to raise my voice to its highest pitch in answering his question. I remarked at the time that he would not be able to understand what I said at the distance. The above is the plain unvarnished facts, almost the literal words that took place. In conclusion I would say, that I by no means wish to make any personal reflections, but surely it does not require much philosophy to see at first sight the absurdity of my making such a report, for if the Americans had taken possession of the City of St. John, they must have been much less vigilent than they are in general upon more unimportant occasions, to have allowed the George to leave the port. I am, Sir, very respectfully your obedient servant,

EDWARD HIPPISLEY,
Master of the barque George.

A CARD.

THE Subscriber gratefully returns thanks to the public generally for the preference which they have given him in his office as a Marshal of the City. He would refer persons unacquainted with him to those who have favoured him with their business as to the punctuality of the payment of any monies which he may have collected from time to time; and he also promises to continue that punctuality, and, by so doing, to merit a greater share of business. He has commenced Boarding at Mr. S. G. Deforest's, *New-Brunswick House*, where he may be seen; or, if papers are left at No. 6, King-street, they will be punctually attended to.
