to inquire into the expediency of extending the jurisdiction of this State over what has hitherto been denominated the disputed territory, to the North West angle of Nova Scotia (or New Brunswick) as described in the treaty of 1783—to report forthwith.

Mr. Moore, in explanation of his order, read the resolution passed by the Senate of the U. S. at the last session, and said, the resolution of the Senate of the United States passed July 4, 1838, recognizes to the fullest extent the claim of the United States to the territory which is the subject of the order, and the Senate entertain a perfect conviction of the justice and validity of the title of the United States to the full extent of all the territory in dispute between the two powers.

Mr. WHIDDEN of Calais supported the order by a few remarks.

The order was adopted.

By the Commissioners for Managing and causing to be levied and collected Her Majesty's Customs and other Duties.

NOTICE TO REGISTERED OWNERS OF BRITISH SHIPS.

By an Act passed in the 1st and 2d year of the Reign of Her Majesty Victoria, cap. 113, the owner or owners of any British ship or vessel which shall have been lost, or taken by the enemy, or burnt or broken up, or otherwise prevented from returning to the port to which such ship or vessel belongs, or which shall on any account have lost or forfeited the privileges of a British ship, shall immediately upon obtaining knowledge of any of the circumstances aforesaid, give notice in writing of such circumstances to the Collector or Comptroller of the Customs at the Port of Registry of such ship or vessel, and in case any British registered ship or vessel shall have been absent from the Port of Registry for the space of three years, the owner or owners of such ship or vessel shall in like manner give notice in writing to the Collector and Comptroller of the Customs at such Port, stating therein the cause of such absence, and that the said vessel has not forfeited her privileges as a British ship, and every such owner or owners failing to give such notice in either of the cases aforesaid, or making any untrue statement in respect to any such ship or vessel, shall forfeit the sum of *Five Pounds*.—And by the conditions of the Register Bond required under the 3d and 4th W. 4, cap. 55, sec. 20, the Certificate of Registry of a British vessel is to be delivered up to the Collector and Comptroller of Customs within One Month after the arrival of the Master in any of the Ports of Her Majesty's Dominions, to be cancelled in case the vessel for which it is granted shall be lost, or taken by the enemy, burnt or broken up, or otherwise prevented from returning to the Port to which she belongs; or if such vessel shall have been sold in the whole or in part to Foreigners, and the vessel shall be within any of the Ports of Her Majesty's Dominions, the Certificate of Registry is to be delivered up in like manner, within seven days after such sale; or if such vessel shall be in any foreign port when such sale takes place, the Certificate of Registry is to be delivered to the British Consul resident nearest to such foreign port, or if such vessel shall be at sea when such sale takes place, the Certificate of Registry is to be delivered up to the British Consul at the port to which the vessel shall first arrive after such sale, on forfeiture of the penalty of the said Bond. By order of the Commissioners,

C. A. SCOVELL, *Secretary*.

Custom House, London, September 11, 1838.

CANADA GOVERNOR.—We saw a private letter yesterday, dated London, Dec. 14, which says:—"It is spoken of in the highest circles here, and by those who are certainly conversant with the intrigues of State, that the Duke of Wellington has been asked to accept the Governorship of Canada! Certain it is that he has had many special interviews with the Queen of late!—*New York Herald*.

RUSSIA, AMERICA, CANADA, AND ENGLAND.—In regard to the connivance between this government and the rebels, and the understanding between both and the Russian government on the subject of the Canada invasions, public opinion seems much divided in England. The London *Times* of the 14th, says:—There has always been a sort of political coquetry carried on between the United States and Russia, the bond and cement of their courtship being, of course, a common sentiment of kindness towards Great Britain.

We do not by any means affirm, for we have not evidence to prove, that Mr. Van Buren has had a share in the tamperings of the Russian agents with and in favor of the rebels against the Crown of England, or with foreign incendiaries and marauders upon her soil; but there are proceedings which look very like connivance, in this affair.—*Ibid.*

WESLEYAN CENTENARY.—We noticed the great meeting at Manchester, at which upward of £46,000 had been subscribed, and also the meeting at London, at which £10,000 were added to the subscription. It might be proper to state that at the Manchester meeting there were many of the leading methodists of London then present. Subsequently a meeting was held at Bristol, and £6473 18 subscribed. The total amount of subscription up to the 12th of December, was £67,000 or $297,480.—*N. Y. Com. Adv.*

NEW-YORK, JAN. 11.—*Heavy Freight Bills.*—The packets which have arrived this week, have brought immense freights. The United States was full, even to her cabins. The Garrick, arrived yesterday, has a cargo of the estimated value of one million of dollars, and a freight bill of £3230, or $14,341. All the ships from Havre have full cargoes, of great value. A letter from Havre says that there were not ships enough in that port to receive the goods ready for shipment to this country. The ships which have recently arrived at Philadelphia have full cargoes; the freight list of the Monongahela was about £1300, and that of the Susquehanna upwards of £1800.—*Com. Adv.*

From "Bennett's" Herald, January 12.

CORN TRADE.—The stock of flour in this market at the present moment is of such magnitude, that one-quarter of the quantity could be easily spared for export, and without giving any cause for advance. Should an active demand spring up on the strength of the late European news, an excitement might be created which would most assuredly cause prices to be somewhat enhanced. By the steamer Royal William several large orders came out for the purchase of breadstuffs for the English market. Yesterday and to-day these orders have been thrown into the market, and about four thousand five hundred barrels were sold. Three thousand five hundred barrels were of western descriptions, and the balance of southern kinds. Perhaps the sales of shipment would be more extensive if there were vessels enough to forward the flour in. The Western brands sold at $9,00 a barrel, and the Southern, consisting of Howard-street and Georgetown, at $8,75 to $8,87½.

We undestand that it is impossible to obtain freights for a month to come, and consequently the export demand has ceased. Several large orders are now in the city from England, which will probably be forwarded to the South for fulfilment, as vessels can there be obtained with more ease.—Our advices from Baltimore inform us that a shipping demand has existed pretty extensively in that mart.

These movements have placed this country in a very enviable position with England, and in fact with Europe. The operations in Great Britain, relative to the corn laws and their abolition, will undoubtedly have a very singular effect upon the grain trade of the United States. Should they be abolished, as a large number wish, we shall be placed in the same position with the Baltic ports in supplying England with bread stuffs.

THE ROYAL WILLIAM.—The last passage of the Royal William has proved that if steam vessels but take the Southern route, they can cross the Atlantic as well in winter as in summer.—She ran down within a hundred miles of Fayal, and came up the Gulf Stream, and all 'round found the weather so mild that no fire was necessary in the cabin, except for a very short time at each end of the voyage. The sailors worked with their coats off, and bare-foot. The Gulf Stream keeps every thing warm as summer, almost up to soundings off our coast. The fact is, that the world has become so small of late, that if one feels cold here at the North, he has only just to run down to the equator and warm himself by the great fire, just as on a smaller scale a dull urchin in school runs to the fire there. There is nothing now in the way of Atlantic steam navigation. The terrors of the ocean were first subdued, and now old Boreas blows his blast and scares nobody.—*N. Y. Jour. of Com.*

FROM MEXICO.—The New Orleans papers of the 1st instant, give intelligence that Mexico has declared war against France. The news was brought by a vessel from Laguna, to which place it was conveyed by a British barque from Sacrificios. The report is that the French had bombarded and taken the city of Vera Cruz. The treaty not having been ratified by the government, Gen. Santa Anna marched to Vera Cruz at the head of 5000 men, and entered the city. Admiral Baudin learning that Santa Anna was coming, sent a party of men in boats to spike the guns in the batteries, whom Santa Anna attacked and drove off with considerable slaughter. The squadron fired on the city, dislodged the Mexicans, and took possession. Santa Anna was wounded in the leg, and General Arista was taken prisoner.

Wreck of the Mary.—Extract of a letter to the editor of the *Cork Southern Reporter*:—"This vessel, which was last from Cork, whence she sailed on Tuesday evening, went ashore at Whiting Bay, between Youghal and Ballycotton, during the gale of Wednesday. Two of the ill-fated crew, in swimming to the shore, were drowned. We saw the seventeen who survived, with the captain, (Scott); also a fine Newfoundland dog, which was on board, and by which all the eighteen were saved. As soon as the vessel struck, a rope was fastened about his neck, and he was sent ashore. It was then made fast, and the sailors got ashore along it, but the two men who perished, fell, from exhaustion, and were drowned. The sailors were all taken to the house of a man named Conyngham, just at hand, by whom and his family, all the attention which they stood in need of, was humanely paid to them.—The Mary was a new vessel, this being only her third voyage, and belonged to St. John, N. B."
