## DEFERRED ARTICLES.

*From the Fredericton Sentinel, April 3.*

VOTE TO THE LIEUTENANT GOVERNOR.—It is much to be regretted that the doors were closed when the vote was passed to His Excellency, Sir John Harvey, as we understand the speeches delivered on that occasion would have been highly satisfactory to the country. We have succeeded, however, in rescuing that of Mr. Brown from oblivion, and have much pleasure in laying it before the public.

Mr. L. A. Wilmot, we understand, made a most eloquent appeal; and the speech of Dr. Wilson, than whom there is not a more independent member in the Assembly, was, we are told, replete with manly and patriotic sentiments.

We entertained the hope that we should have also obtained these, together with that of Judge Beardsley, who we believe opposed the vote; but the hurry incident to closing the Session prevented those gentlemen from committing their views to paper, and the return of the latter gentleman to his home, on account of domestic misfortune, precluded our making the application to him.

MR. BROWN'S SPEECH.

Mr. Speaker.—I consider the recalling of Sir John Harvey from this Province at this time, as a most unfortunate and injudicious measure, tending to interrupt the harmony and prosperity which the country has so fully enjoyed under His Excellency's Administration; as it is not to be expected his successor, whosoever he may be, can manage the affairs of the Colony with such unexampled success. Whoever will look back upon the history of the North American Colonies for the last ten years, will at once perceive that the most perplexing difficulties have attended the Administration of their respective governments. The attempts of the ablest and wisest politicians have been frustrated and defeated. The Earl of Gosford's conciliatory endeavours ended in rebellion and bloodshed.—Rebellion broke out under the energetic administration of Sir Francis Bond Head. Sir Archibald Campbell, the brave conqueror of the Burman Empire, was defeated in New-Brunswick. The Earl of Durham, one of the most intelligent noblemen of the age, was unsuccessful in Canada; and Sir Colin Campbell was unable to manage the people of Nova Scotia. In the midst of all this turmoil it might have been inferred, that the Colonists on this side of the Atlantic were so turbulent, and the seeds of insubordination so deeply rooted, as to render abortive the wisest endeavours of any Governor.—Fortunately we have one notable example to disprove this, for Sir John Harvey has succeeded in the Government of New-Brunswick, beyond the most sanguine expectations of all persons. Heart burnings and political animosities had excited and distracted the people, and almost disorganized the Government—Sir John arrived—strife and discord fled before him; peace and harmony followed in his train—contentment and unexampled prosperity crowned his Administration. He has now administered the Government nearly four years, and within that time has been placed in the most perilous and embarrassing circumstances; requiring all the courage of the soldier, all the wisdom of the sage—requiring in fact the exercise of powers and faculties of no ordinary character. The people of Maine were excited and rife for war—the valley of the Restook was filled with armed men—our own troops were marched up close to the border, and everything had the most warlike appearance. It was then that Sir John Harvey incurred a fearful responsibility, by adopting and pursuing a course not warranted by his instructions. He and his friend, General Scott (kindred spirits and brave soldiers both,) entered at once into a negotiation, and the hand of the destroying angel was stayed. The correspondence between the two generals is admirable; and on looking carefully at both sides thereof, it is impossible to tell which ought to have the preference. But so far from being blamed for this most fortunate and judicious stretch of power, Sir John not only received Her Majesty's most unqualified approbation, for the wisdom of his measures, and the congratulations of men high in office for his unexampled success, but his name, with that of his friend General Scott, has been lauded throughout the world, as one of the most eminent benefactors of mankind. Pursuing in this manner his brilliant career, diffusing happiness and contentment all around him, and holding up this beloved Province to the world as a pattern of order, loyalty, and prosperity, he is hurled at once from his proud eminence, his family separated and himself—the brave honest man ordered off, it is said, without promotion and without a hearing. It is indeed a hard case—a most unexpected event, and came upon the Province like a thunderbolt or an earthquake.

And pray what is the assigned cause? Was it the writing a conciliatory letter to the Governor of Maine? Yes—that was said to be the head and front of his offending. He knew that he had secured the communication from Halifax to Quebec, on a line which the Government would undoubtedly maintain. He knew that measures had been agreed upon between two countries for bringing the dispute to a close. He knew that in the mean time a little forbearance was necessary, for the preservation of the public peace; and that the occupation of any portion of the territory by the people of either country, would make no difference in the final settlement. He has indeed been mainly instrumental in averting from two kindred nations all the horrors of war—a war which if it had come, would in its progress have been dreadful and terrible—a war with our brethren speaking the same language, believing in the same God—hoping for salvation through the same Saviour, and looking back with honest pride upon the same illustrious ancestors, from whom the civil and religious liberties of mankind are derived. And now the man to whom, under Providence, we are indebted for the averting of those dreadful calamities, and under whose wise Administration the Province has been conducted with such harmony and prosperity, is suddenly recalled. What then shall be our duty as Members of this House? As Representatives of the people of this Province?—Shall we, under such circumstances, send our honoured friend empty away? No, by no means. —Let our farewell Address tell Her Majesty the Queen how highly we estimate his faithful services, and let that Address be accompanied with such testimonial, as shall stand before the world a complete demonstration of our sincerity.

---

The following are Addresses from the Counties of Sunbury and Northumberland, which were yesterday presented to His Excellency the Lieutenant Governor, together with His Excellency's Replies:—

To His Excellency Major General Sir JOHN HARVEY, Knight Commander of the most Honorable Military Order of the Bath, and Knight Commander of the Royal Hanoverian Guelphic Order, Lieutenant Governor and Commander in Chief of the Province of New Brunswick, &c. &c. &c.

*May it please Your Excellency;*

We, the undersigned Magistrates and others, inhabitants of the County of Sunbury, beg leave to approach Your Excellency with feelings of deep and unfeigned regret, at the unexpected removal of Your Excellency from the Government of this Province.

The principles which have ever regulated Your Excellency's administration, and which have been so productive of harmony and prosperity throughout the Province, are such as shall ever have our most cordial support and approbation.

The pacific course pursued by Your Excellency in relation to the recent difficulties on our frontier, which was so highly approved of by your Royal Mistress our Sovereign, and which was instrumental in averting the impending calamities of an unnatural and bloody war, must forever endear your name to every friend of humanity, and demands from us the expression of our warmest gratitude.

We heartily commend Your Excellency to the favour of our beloved Sovereign, who has been pleased to recall you from the Government of this her loyal and devoted Province. And may a gracious Providence mercifully protect you and your amiable Lady and family from the perils of the great deep, and may you and they be long spared to enjoy the full measure of happiness, prosperity, and honour.

[Signed by 182 of the principal inhabitants.]

The following is His Excellency's Reply:

To the Magistrates and other Inhabitants of the County of Sunbury.

GENTLEMEN,—Among the first to welcome me on my arrival in New Brunswick, I have the satisfaction of finding the inhabitants of Sunbury, after several years' acquaintance, again among the foremost in the expression of kindly feelings upon my departure.

The assurances which your Address gives me of your regret upon this occasion are equally gratifying and consoling to me and will long be remembered with feelings of unfeigned gratitude and satisfaction.

Your expressions of approbation of the principles upon which the administration of your affairs has been conducted by me, I regard as a confirmation of my recent declaration to the Provincial Legislature that in keeping steadily in view as the first and soundest principle of Government, the "true interests" of the community committed to my charge, I had the satisfaction of finding myself acting in accordance with their wishes.

The having been instrumental, however humbly and remotely, in the preservation of the peace of two great and kindred nations, at the period to which you have adverted, will ever constitute one of the most delightful recollections of my public life.

For your affectionate good wishes for the future happiness and prosperity of myself, Lady Harvey and my family, I beg you to accept from myself and from them our warmest acknowledgments and thanks; and cordially and sincerely do we pray that all those blessings which a beneficent Providence delights in conferring upon a moral, an industrious, a loyal and deserving people, may be the lot of the inhabitants of Sunbury.

Government House, April 2, 1841.

---

To His Excellency Major General Sir JOHN HARVEY, K. C. B. and K. C. H., Lieutenant Governor and Commander in Chief of the Province of New Brunswick.

*May it please Your Excellency;*

We, the Magistrates, Merchants and other inhabitants, of the County of Northumberland, at a public meeting held this day at Newcastle, beg leave respectfully to make known to Your Excellency the very deep regret with which we have heard that Your Excellency's administration of the Government of this Province will shortly cease.

Although the Province of New Brunswick had for some years been making rapid advances in prosperity and in its importance as an integral part of the British Empire, it was reserved for the brief period of Your Excellency's Government, to develope many of its most valuable resources—to harmonize its political differences—and to give a greater impetus to its trade and commerce, and more contentment to its people than it had ever before known.

That Your Excellency's Government has been distinguished by these advantages, and by wisdom, energy and prudence in the prosecution of those great public measures, of which they are the offspring, is manifest as well in the unqualified confidence with which Your Excellency is regarded throughout the Province, as by the universal regret which will accompany your departure.

We take leave of Your Excellency with a sincere hope that higher honours await Your Excellency at the hands of our Most Gracious Sovereign, and with a most fervent prayer, that Your Excellency, and Lady Harvey, and family may long continue to enjoy every blessing which can contribute to your and to their happiness.

By order and on behalf of the meeting,
J. M. JOHNSON, *High Sheriff.*
Newcastle, Northumberland, March 27, 1841.

The following is His Excellency's reply:

To the Magistrates, Merchants, and other Inhabitants of the County of Northumberland.

GENTLEMEN,—This expression of your regret at the termination of my administration of the Government of New-Brunswick, is as welcome and grateful to my feelings, as is the declaration with which you have been pleased to accompany it, of satisfaction with the manner in which that administration has been conducted. I can aspire to no higher praise than that which is conveyed in the assurance of your conviction, that my earnest endeavours to aid in the development of the resources of this rising Province, to harmonise political differences, to give an impetus to trade and commerce, and to diffuse contentment among the people have not been altogether unsuccessful. To do equal justice to all classes of Her Majesty's subjects in this Province has ever been my most anxious desire, and if any are found who may entertain a doubt on this subject, they do me less than justice.

Gentlemen,—Such declarations as the present, voluntarily and affectionately tendered by an independent, an intelligent and a loyal community, must ever constitute one of the highest meeds which can reward the labours of a public man; in that light this address is most gratifying to me, and will form one of the proud records of my connexion with New Brunswick, long after that connexion has ceased.

Lady Harvey, myself and my family, gratefully accept and cordially return to you and your families the kind wishes which you have been pleased to express for our welfare and happiness.

Government House, April 2, 1841.

*(From the Toronto Patriot, March 26.)*

GEOLOGICAL SURVEY OF NEW-BRUNSWICK.—We commence, in this impression, some extracts from Dr. GESNER'S able work. We cannot too strongly testify our sense of the vast importance of a scrutiny of this description, into a country so little known, and of resources so vast, yet so completely undeveloped. Every one of the British American Provinces should undergo a similar examination; and we trust, before the United Legislature is long in session, that a sufficient sum will be appropriated to make a complete Geological Survey of United Canada. Let the representatives of the people be certain that they never can devote four or five thousand pounds to greater advantage and that benefit will result to the country which will be felt down to distant generations, from the results of such an examination. We know that Canada possesses vast quantities of the most valuable minerals—that some of the richest and most inexhaustible iron and lead mines in the world exist within her; and that it only requires to be made known to capitalists, through the medium of scientific investigation, that such sources of wealth are in existence, to ensure their being promptly brought into profitable operation. Dr. Gesner speaks of one immense vein of Iron, sufficient to supply all America for a thousand years; and of the great New-Brunswick Coal-field, decidedly the largest in the world, occupying five thousand square miles! Now that the trade of the world bids fair to be soon completely carried on by steam, we may form some faint conception of the enormous value of such a coal deposit, close to navigable waters, and capable of supplying a continent.—Already some fifty or a hundred thousand pounds per annum, of British capital, are employed in the Sydney and Cape Breton coal mines; but the trade is only in its infancy. The Americans possess no coal fields near the Atlantic, from which fuel, at all equal to that of Sydney, can be procured.

We will again revert to this deeply important subject, and again remind the members of the new Parliament of the peremptory necessity of at once ordering a Geological Survey of the Province of Canada.

SINGULAR INCIDENT.—During the late election riot at Toronto, the first shot fired at Receiver General Dunn, one of the successful candidates, killed a person of the same name;—and the ball from the second gun lodged in the lungs of a servant of the Receiver General. From our personal knowledge of this gentleman, we did not suppose there could be an individual in Toronto who would raise a finger to his injury.—*N. Y. Com. Adv. April* 1.

STRANGE FORGERIES.—The Hon. Charles F. Mitchell, of Lockport, and a representative of the Niagara district in the late Congress, has been staying at the Astor House for some days, but left on Wednesday morning for Philadelphia. On Tuesday he was in Wall Street, and, having procured himself to be introduced to several brokers, passed upon them sundry checks, purporting to be drawn by the Bank of Orleans at Albion on the State Bank at Albany. They were all made payable to "the Hon. Charles F. Mitchell, or order," and by him endorsed. The amount was, as far as has been ascertained, $1400. The checks having been sent up to Albany, came back yesterday morning as forgeries. At the same time there came on from Philadelphia sundry checks of the Bank of Orleans on the Mechanics' Bank of this city, endorsed by Mitchell, which, on being presented at the Bank, were declared to be forgeries. The amount presented, so far, is $2300. The checks seem to have been sold to various brokers in Philadelphia on Wednesday. The whole affair seems to be the result of a thoroughly digested plan, and to have been carried out without exciting the least suspicion on the part of any of the individuals defrauded. Indeed we do not see how confidence is to be placed in men at all, if such negotiations are to excite suspicion. The checks on the Mechanics' Bank had a piece of unnecessary labor expended upon them, which increased the hazards of the operation. They were endorsed as good, and the endorsement signed with the name of the cashier, Mr. Edmonds, who is however now in Europe. Sundry letters and papers were found in the Hon. gentleman's chamber, in a condition indicating that his departure was hurried. The police are, of course, in hot pursuit.—*Journal of Commerce.*

In a letter addressed to the editor of the Courier and Enquirer, Mr. Mitchell gives a cool confession of his villainy. He acknowledges to have previously committed very great errors, but never before a crime, and concludes as follows:

"There were three alternatives presented to me; to remain and meet my fate in the eyes of all who know me, to commit suicide, or to flee the country. I have decided upon the latter, and for the single reason that I may possibly yet live to rescue my name from every stigma which rests or may rest upon it.

"I shall be pursued no doubt, but it will be useless. I shall not be brought back; for if I were to be overtaken I have provided myself with two *contingent friends*, either of which will spare me the mortification of being brought back like a felon. Death were under any circumstances preferable to that."

Mr. Mitchell married in Philadelphia, and being very generally acquainted in that city, the facilities for successful forgeries were as great there as in this. Mr. M. was a strong candidate for the office of navy agent in this city, and was powerfully supported by some of our political managers.

Mr. Mitchell is said to have proceeded to England in the steamer Caledonia.

### COMMUNICATION.

MR. CHUBB—

I wish you to insert in your valuable paper, the following Extract of a Law of the Province to protect the Fishery.

Refer to 50, Geo. 3d, cap. 21.—No person or persons shall use any drift net or nets for taking any Fish in any of the Harbours, Creeks, Coves, or Navigable Rivers of this Province or within the Harbour of Saint John, or within two miles around Partridge Island at the entrance of the same Harbour; and any person or persons so using any drift net or nets for the purpose aforesaid, shall forfeit and pay the sum of Ten Pounds upon due conviction thereof by the oath of one or more creditable witness or witnesses before any two of Her Majesty's Justices of the Peace in the County where such offence shall be committed, to be levied by warrant of distress and sale of the offender's goods, &c. &c.; and £20 for the second offence; £50 for the third and every subsequent offence;—which penalties, on conviction, shall be paid to the informer, &c. &c.

As it is intended that any breach of the Act above referred to will be noticed in future, and punished according to the nature of the offence; the writer wishes all the Editors of papers in the Province to give publicity to the above, that none may have to say that they were ignorant of the Law. I am, Sir, your obedient servant,

KING FISHER.
