ÆTNA INSURANCE COMPANY
Of Hartford, Connecticut.

THE subscriber, Agent for the above Insurance Company, continues to issue Policies and Renewal Receipts for Insurance on Dwelling Houses, Stores, Mills, Factories, Barns, Vessels and Cargoes while in Port, Vessels on the stocks, Household Furniture, Merchandise, and every other species of insurable personal property,—against

Loss or Damage by Fire,

at as low rates of premium as any similar institution in good standing.—Will give personal attendance to the survey of premises, &c. in the city and vicinity, on which insurance is desired, free of charge to the assured.—Applications in writing (post paid,) from all other parts of the Province, describing the situation of the property to be insured, will receive prompt attention; the correctness of which description shall on all occasions be binding on the part of the applicant.

The ÆTNA INSURANCE COMPANY was incorporated in 1819,—Capital, $200,000, with liberty to increase the same to half a million of dollars. The Capital has been all paid in, and invested in the best securities, independently of which a *Surplus Fund* of more than $25,000, has been set apart to meet the occasional claims for Losses, and the stock bears a high premium. The reputation the Office has acquired for promptness and liberality in the adjustment of losses requires no additional pledge to entitle it to a liberal share of public patronage.

THE high estimation in which this Company is held in Great Britain is evinced by the great increase of its Business, and the hitherto unprecedented *division of Profits granted the Assured,* whilst the *unprecedented numerous* highly respectable Persons in this City already participating in its success, bear ample testimony to its merits.

This Company possesses nearly all the advantages of a mutual Insurance, without making the assured liable for Losses, and invites comparison with other similar institutions, without fear of suffering by it in the estimation of the Public.

"The very essence of Life Assurance consists in its converting a contingency into a certainty of enabling a man to accomplish in a few days, or even hours, an object which he may never have realized in any other way during a long life.—Whilst in health is the time to insure, not when, or after, accidents or sickness occur, rendering the risk then liable to be rejected altogether, or charged at an increased rate of Premium."

The Proposals are forwarded by Steam Packet to Board of Directors in London, and the acceptance or rejection of the Risk advised by return mail *immediately following,* thereby affording the greatest possible despatch.

NEW GOODS.

THE Subscriber has just received and has for sale, an extensive and varied Assortment of Gold and Silver WATCHES of every description, fitted up in the most approved style; also, a quantity of rich and fashionable JEWELLERY, Silver PLATE, Nautical Instruments, &c.—which, together with a large Stock on hand, are offered for sale low for Cash, or approved Paper at three or six months.

He would take this method of returning his sincere thanks to his friends for the liberal support that he has received during the last fourteen years in business, as well as to inform them that having visited London last winter, and Boston and New-York this summer, he has entered into new arrangements, by which he will be regularly supplied with every description of WATCHES, CHRONOMETERS, and all other Goods in his line, which will be sold lower than at any other establishment in this City.

Having purchased, when last in London, a splendid ASTRONOMICAL CLOCK, and one of Dent's DIPLIEDESCOPES, and other Apparatus suitable for correcting and rating Marine Chronometers and completing and adjusting Nautical Instruments, and having expended a large sum to make his establishment efficient and accommodating to the Public; he would now cherish the hope of receiving a continuance of that patronage and support which the nature of this enterprize would warrant him to expect. He is aware of the opposition that the plain honest trader sometimes meets with from unprincipled and designing men; but the same principle which has guided him through evil report and good report, will govern him in his future efforts to serve the Public and himself conjointly.

☞ Chronometers and every description of Watches and Clocks, Jewellery, &c. repaired on moderate terms. JAMES AGNEW, Watchmaker, &c. King-street.

NOVA-SCOTIA.

MEETING OF THE LEGISLATURE.
(From the Halifax Herald.)

At two o'clock, on Thursday, 21st January, the Legislative Session was opened with the usual formalities; when his Excellency delivered the following SPEECH:

Mr. President, and Honourable Gentlemen of the Legislative Council;
Mr. Speaker, and Gentlemen of the House of Assembly:

In addressing myself for the first time to the Legislature of Nova Scotia, I feel it to consist alike with my duty and my inclination to tender to it the assurance of my anxious desire to identify myself with all the interests of this ancient and most important portion of the North American Possessions of the British Crown, and to use my best endeavours to promote them,—and surrounded as I see myself by men of high enlightenment, sound patriotism and devoted loyalty, I am cheered with the conviction that from a body so constituted every suggestion proceeding from the Representative of our beneficent Sovereign, having the public good for its sole and single object, cannot fail of receiving a full, a fair, and respectful degree of consideration.

I am happy in being enabled to offer you my congratulations upon the state of the Provincial Revenues, arising as well from Colonial Imposts and Imperial Duties, as from the increased and increasing value of the Crown Estate—a source of Public income, which, if wisely secured to the Provincial control, must, I conceive, have the effect, at no remote period, of placing the resources of Nova Scotia upon the most satisfactory footing as respects the future, and enable the Province at once to relieve itself from all claims as regards the past.

On this important subject I am happy to inform you that I am authorized by Her Majesty to tender to you a distinct proposition, which shall be communicated to you by Message, and I shall be happy to enter into full communications with you upon it whenever you may be prepared to engage in them. It will be seen that the proposition for the surrender to the Colony of the Revenues of the Crown in exchange for a Civil List is based upon proposals in which leading individuals of both parties in this Assembly formerly concurred.

I have observed with great pleasure the liberal appropriations which have at all times been made in this Province for the construction and repairs of Roads and Bridges; as well as for Educational purposes, and to meet the exigencies of the Poor; this I regard as a solid and satisfactory ground of congratulation, and the only suggestion which I could at present offer regards the mode of the expenditure of those Grants, and whether, as respects Roads and Bridges, the system adopted in some of the sister Colonies, of conducting these important duties under the superintendence of General Road Inspectors or Supervisors, under whose directions all Road Contracts are made the subject of public competition, might not be worthy of your consideration; and, with reference to Education, to repeat here what I have so often urged elsewhere, viz.: the great advantages that would attend the endowment of a Normal School for the instruction of Teachers, for which I understand peculiar facilities to exist in this Province.

Mr. Speaker, and Gentlemen of the House of Assembly:

I have directed that a detailed account of the Receipts and Expenditures of the Colonial Revenues, from whatever source derived, be laid before you; and I entertain no doubt that suitable provision will be made by you for the demands of the public service. I avail myself of this occasion to inform you that, owing to circumstances connected with the partial failure of the Potato Crops in certain parts of the Province, I have felt it to consist with my duty, as well towards the sufferers as yourselves, to assume the responsibility of administering such relief to these sufferers from this cause, as well settlers as Indians, as appeared to me to be called for by the reports laid before me, and as I believed that you would have afforded if in Session; it will rest with you to relieve me from the responsibility (if you should see fit to do so) which I have not hesitated in assuming, after the examination of the papers which will be laid before you.

Mr. President, and Honorable Gentlemen of the Legislative Council,
Mr. Speaker, and Gentlemen of the House of Assembly:

This Province has stood too prominent in the encouragement which it has at all times given to Agricultural improvements to warrant any allusions to this subject on my part with any other object than to record or rather to renew the declaration of an opinion which I have so often expressed, that in the cultivation of the soil far before any other sources of industry, consist the best interests of the Timber growing Colonies of British North America. That in many parts of Nova Scotia this pursuit must necessarily be regarded as merely auxiliary to its fisheries, in no respect weakens the force or the truth of this opinion, one which I believe to be sound, and therefore do I record my satisfaction at the encouragement to Agriculture which has been so steadily given by the Legislature of Nova-Scotia, and which, I am persuaded, will not be relaxed. Well knowing the great importance with reference as well to the interests of the Province, as to the comfort and well-being of the hardy and meritorious class of men engaged in the prosecution of that branch of its industrial pursuits, I rejoice in being enabled to offer you my cordial congratulations upon the prosperous result of the Coast and Bay Fisheries of Nova-Scotia during the last season.

The period at, and the circumstances under, which we meet, afford me the opportunity of recommending to your continued attention an undertaking second in its importance to none which has ever engaged the notice of any Colonial Legislature in any portion of the British Dominions. I allude to the projected Railroad between Halifax and Quebec, which will constitute the most important link in that great line of communication which may be destined at no remote period to connect the Atlantic with the Pacific Ocean; and to conduct to a British seaport, from those into which it is now forced, that vast stream of Trade, not of our own Western possessions alone, but of the rich and extensive Wheat and Grain growing Districts of all *Central America.*

This view of the incalculable advantages which the completion of this great work would confer on all the British North American Colonies, and perhaps more especially upon this, its natural Atlantic terminus,—this consideration alone should call forth our gratitude for the promptitude with which our appeal to the Home Government was met, on this all important topic.

With respect to the Survey which, in compliance with your request in the last Session, has been commenced, by order of her Majesty, for ascertaining the best line through which to carry the projected Railroad, although it may have unavoidably experienced some temporary interruption, from the unfortunate loss of one of the distinguished Officers to whose superintendence it was confided, I am nevertheless enabled to inform you that it is proceeding energetically, and that the operations will be renewed as soon as the season may permit.

In reference to this subject extracts of several Despatches from the Right Honorable the Secretary of State will be laid before you, as well as the copy of one from the Right Honorable the Earl of Cathcart, respecting the prolongation to this place of a line of Electro Telegraphic communication, now understood to be in actual operation in Canada, from Toronto westward,—and, although this is a project which would appear to connect itself with individual enterprise, in which I am convinced that the mercantile community of this City will evince no reluctance to engage, I should nevertheless be happy to receive and to communicate to the Governor General, any expression of your views upon the subject.

Circumstances have occurred to bring under my notice the sad state of destitution to which some of the aboriginal inhabitants of this Province have been reduced by the failure of the crops, on which mainly depends their winter's supply of food, and without in the slightest degree imputing any want of due consideration for those poor people in past years, for whom, on the contrary, I know that no appeal to the Local Legislature has ever been made in vain, I nevertheless deem this a fitting occasion upon which to seek to interest your sympathies in respect to the actual condition to which these former possessors of the soil have been reduced, by the advance of that civilization, in the benefits of which, until they can be educated, which can only be in succeeding generations, they must be incapable of fully participating, but by which, in the mean time, they find themselves deprived of the resources formerly afforded to them by those primæval forests, over which they once ranged the free and sole possessors.

I therefore submit to you whether it would not consist with the feelings of humanity and Christian charity, if not of justice and of sound policy, to place a moderate fund at the disposal of the Executive, to be applied to the relief of these poor people in cases of extreme distress, and thereby relieve the head of the Government from the necessity of making any unauthorised appropriation of the Public Revenues for such purposes. I offer these observations chiefly for the purpose of suggesting, that as by their unsettled and migratory habits, these poor people are necessarily excluded in a great measure from any participation in Parochial relief, some further provision should be made for the sick, infirm, and destitute among them, than appears hitherto to have been granted, and with this object, I am ready to concur in the appropriation of an adequate sum to be placed in the hands of the Executive, and of Commissioners appointed by it to be applied to this humane purpose, an account of its expenditure being regularly laid before the Legislature previous to the annual renewal of the Grant.

There is another matter which has constituted to me a subject of the most painful interest in all the Colonies with which I have hitherto been connected, and which presents itself to me in a no less distressing aspect in this. I allude to the absence of suitable arrangements for the reception and treatment, with a view to relief or cure, of that class of unhappy beings which I grieve to believe is rapidly increasing in these Colonies, owing to the causes to which I have adverted, viz: the want of those means of effectual application to the disease in its incipient stages which I regard as the solemn duty of the Legislature of every Colony to provide for its *Pauper Lunatics.* I accordingly earnestly recommend this subject to your serious and compassionate consideration, in connexion with a very able and satisfactory Report, which will be laid before you, from the Commissioners appointed by my Predecessor in the Administration, to select the best site for the proposed Building.

With these observations, and with an earnest hope that our United Legislative labours in this final Session of the present Provincial Parliament, may result in the advancement of our common object, namely, the Peace, Happiness, and Prosperity of Nova Scotia, I leave you to your deliberations.

From the Halifax Recorder, January 23.

ARRIVAL OF THE GOVERNOR-GENERAL.—At about noon, yesterday, it was announced that the Steamer from England, after a long and stormy passage, had arrived, and had borne to our shores Lord Elgin and his suite. His Lordship was received on the wharf with military honors, and duly escorted to Government House.

The necessary previous arrangements having been made, at one o'clock, the Members of the Legislative Council, and of the House of Assembly, directed their steps towards Government House, to address the noble Representative of Majesty. His Lordship is a middle-sized, dignified personage, probably some five feet seven in height, rather inclined to corpulency, apparently under 46 years of age, and getting considerably grey. His countenance beams with intelligence and firmness, and he evidently enjoyed the scene to which he had been suddenly and unexpectedly introduced.

The Addresses of the Legislative Council, and House of Assembly, congratulating him on his safe arrival in British America, &c. were read by the Hon. Mr. Robie, and the Speaker of the Assembly.

His Lordship having heard the Addresses with considerable attention, drew from his pocket and read his reply to them both from one document.—His manner is very easy and free, his voice melodious, and his tones eloquent. His reply to the portion of the Assembly's Address touching the late Earl Durham, was pathetically and emphatically pronounced.

Having finished his official reply, his Lordship delivered a short address extempore; saying that he had not been at all prepared for the very kind manner in which he had been received on these shores, and that he really had not had time to obtain copies of his Address for the two bodies to whom he spoke, to whom they should be forwarded as soon as possible. He added that he had intended to stay here a few days, and to have proceeded to Montreal by way of New-Brunswick, but the long and rough voyage, and the state of the roads, had led him to determine to take the most direct route. He hoped, however, that the intercourse now so happily commenced, would be continued and perpetuated.

Each Member of the two bodies having been introduced to his Lordship, after a short conversation between him and the Honorable Speaker, the pleasing interview was brought to a close.

(From the Morning Post.)

THE ADDRESS OF THE LEGISLATIVE COUNCIL OF NOVA-SCOTIA TO THE GOVERNOR GENERAL.

May it please Your Excellency,—

The Legislative Council hasten to tender a cordial welcome to Your Excellency, and their congratulations upon Your Excellency's elevation to the supreme command in British North America.

They regard the appointment of Your Excellency as another mark of the solicitude of our Gracious Queen for the welfare of Her Majesty's faithful subjects in these valuable appendages of the C[illegible]. And they fervently hope [illegible] administration of your high [illegible] you the approval of our Sov[illegible], and th[illegible] tion of a grateful and loyal people.

ADDRESS OF THE HOUSE OF ASSEMBLY.

May it please Your Excellency,—

We, the Representatives of Her Majesty's loyal subjects, the people of Nova Scotia, cannot permit Your Lordship to visit the shores of this Province, though but for a passing moment, when on your route to Canada, to assume the government of British North America, without tendering to Your Lordship our cordial welcome, and our sincere congratulations upon your accession to the important office with which you have been honoured by our Gracious Sovereign.

When we advert to the talents for administration which distinguished your government of the Island of Jamaica, we cannot but anticipate for Your Lordship a successful executive career in Canada.

Before we say farewell, we beg leave respectfully to offer our warmest wishes for the future happiness of your Lordship and the illustrious Lady with whom you have lately connected yourself by marriage, and we regard the union which you have thus formed with the daughter of a departed Nobleman whose high statesmanlike qualities, ardent love of liberty, and warm interest in the happiness of Her Majesty's North American Subjects, entitles his memory to the gratitude of these colonies, as affording bright auspices for your Lordship's future administration.

THE GOVERNOR GENERAL'S REPLY.

Mr. President, and Honourable Gentlemen of the Legislative Council;
Mr. Speaker, and Gentlemen of the Assembly of Nova Scotia:

I beg that you will accept of my most grateful acknowledgments for the cordial addresses with which you have welcomed me on my arrival in British North America, and for your congratulations on my appointment to the high and important office of Governor General.

Had time permitted, I had intended to have passed some days in this Province, and to have proceeded to Montreal by way of Fredericton, in the hope of obtaining by personal observations, and communication with the intelligent inhabitants, a better knowledge of the capabilities and requirements of these valuable possessions of the Crown, than can be supplied by correspondence; but the unfavourable passage which we have made, and the uncertainty which prevails with respect to the condition of the roads, renders it, I fear, my duty to adopt the more direct route.

Our Gracious Sovereign has much at heart, the happiness of Her Subjects in this portion of Her Dominions. See is earnestly desirous that they should prosper in their undertakings—that their connection with the Mother Country should be an advantage and a blessing to them, and that every exertion should be made for the development of the great natural resources of the land in which they dwell. With these views, I am charged as Her Representative to watch over the welfare of all the Provinces, and to bestow special attention on subjects of policy or general utility in which they have a common interest.

To the performance of this very important duty, I am prepared to devote my utmost energies; and I shall receive with respectful consideration, any suggestions which you may from time to time see fit to make to me for the advancement of the prosperity of this Province, and for establishing between it and the neighbouring colonies, relations which may be productive of mutual advantage.

Of the responsibility which attaches at this interesting and critical moment to the situation which I occupy, and of the hopelessness of any endeavors on my part to promote the well-being of the Provinces, unless I am cordially supported by the inhabitants and the several Legislative bodies, I am deeply sensible. I accept, therefore, with much thankfulness, the expression of your confidence; and I observe with heartfelt satisfaction, the indications of union among yourselves, and of a generous desire to advance the interests of the Country, which the proceedings of this day afford.

I cannot doubt that these Colonies, which are inhabited by an intelligent and enterprising people, and which possess in the produce of their fertile soil, their extensive forests, their mines, and their fisheries, so much to give in exchange for the luxuries and comforts procurable from other countries, will, under the blessing of Providence, make rapid progress in wealth and prosperity under a system which leaves their industry free to follow its natural channels of employment.

Your kind allusion, Gentleman of the Assembly, to my connexion by marriage with the family of the late Earl of Durham, has deeply affected me. That his memory should be held in grateful remembrance by you, is a further inducement for me to labour zealously in your service, and will prove an encouragement under any difficulties or trials which I may encounter in the discharge of my duties.

[illegible] This is no idle romance—it is fearful reality—almost every day occurrence, in that ill-fated locality, which has become in those sad times, a pl[illegible] of unenviable notoriety.—*Tipperary Constitut[illegible]*

Two shillings a stone is asked for the for[illegible] potatoes in the hands of merchants at Lime[illegible]. Not a single bag of home potatoes at market [illegible]

MALICIOUS BURNING.—FOURTEEN HEAD OF CATTLE LOST.—On the night of the 8th instant, the cow-house of Mrs. Ross, Sappagh, containing her whole stock of black cattle, fourteen in number, was burned to the ground.—*Derry Sentinel.*

On Saturday night, six sheep, the property of Mr. Osborne were killed at Newtown, Tipperary, and the carcases carried off by some persons unknown.

Of the £88 acknowledged at the Repeal Meeting, last week, about seven-eights were sent up from the most distressed parts of the country, by priests, who wrote despondingly of the famine—which prevented the remittances from being larger.

On Thursday, a very large and respectable meeting was held in the Town Hall, Belfast, in pursuance of a requisition calling upon the Mayor to convene such a meeting, for the purpose of memorialising the government to suspend the distillation of grain during the present season of distress.

The Shannonvale mills at Clonakilty, near Cork, were destroyed by fire on Sunday week. A part of the stock of wheat, and all the flour, meal &c., were consumed. It is feared that the total suspension of this large mill in the manufacture of flour, meal, &c., will affect the price of those articles, as the stock was the only large supply of food in that part of the country. The casualty will be severely felt.

Two people, an old man and a child, who were deck passengers in a steamer from Londonderry to Greenock, have perished from the inclemency of the weather; no one during the passage having noticed how much the cold affected them.

REPEAL ASSOCIATION, MONDAY.—The usual weekly meeting of the Repeal Association was held on Monday 21st Dec. Mr. John O'Connell presented a report on the financial position of the two countries, and he thought, he said, he could show that, in justice, this country ought not to be subjected to a rigorous exaction of any part of the present advances, but that, on the contrary, all, or nearly all, should be retained in the country. Mr. O'Connell then read an abstract of his report, and moved its adoption. Mr. Cornelius MacLoughlin seconded its adoption which passed. Mr. O'Connell, after the reading of some correspondence, rose to make his address of the day. He dwelt upon the miserable condition of the country, and spoke of the horrors of Skibbereen, and this, said he, occurs in the forty-sixth year of the union with England. The *post hoc* was the *propter hoc* on this occasion, for the misery was the effect of the union. The learned gentleman condemned the national committee as afraid of their own shadow, for they ought to compel relief. He again repeated his demand of the thirty millions, and although he had been called "impudent" for making it, he did not care, for he would be impudent whenever he could be of use in Ireland. They had now time to attend to these things as the live battle of Young Ireland was over. The little party might machinate against him—he defied them. The rent for the week was announced to be £53.
