JAYNE'S EXPECTORANT.

We publish the following, as among the many evidences which we are constantly receiving of the increasing popularity of Dr. Jayne's Expectorant. We have no interest in "puffing" it—any further than we have a desire to promote the health and happiness of our fellow-creatures, who are wasting away with those complaints, for which this medicine is an absolute remedy. And in calling the attention of the public to it, we feel that we are in the faithful discharge of our duty.

New Portland, Nov. 4.

Mr. Pratt—Sir: I wish you to send me three bottles of Jayne's Expectorant, and in this connection, I would say, that I deem it an invaluable medicine, and an article that no family should be without a single day. I have used it for two years in my family, and have always found it a quick and efficient remedy for tightness of the lungs, produced by long protracted colds, which produce the short hacking cough, the premonitor of Consumption, in which it so frequently terminates in this climate. If properly and seasonably administered, it will effectually break up the most violent colds, and thereby prevent the many violent fevers, so frequently consequent upon them. I would most cheerfully recommend this medicine to the public in all cases of that nature, as invaluable.

UNITED KINGDOM LIFE Assurance Company OF LONDON.
Capital, £1,000,000 *Sterling.*

AGENT, ALEX. BALLOCH, SAINT JOHN.
MEDICAL OFFICER, LEBARON BOTSFORD, ESQ., M. D.
STANDING COUNSEL AND SOLICITOR, *None as yet required.*

THE high estimation in which this Company is held in Great Britain is evinced by the great increase of its Business, and the hitherto unprecedented *division of Profits granted the Assured,* whilst the *unprecedented numerous* highly respectable Persons in this City already participating in its success, bear ample testimony to its merits.

This Company possesses nearly all the advantages of a mutual Insurance, without making the assured liable for Losses, and invites comparison with other similar institutions, without fear of suffering by it in the estimation of the Public.

"The very essence of Life Assurance consists in its converting a contingency into a certainty of enabling a man to accomplish in a few days, or even hours, an object which he may never have realized in any other way during a long life.—Whilst in health is the time to insure, not when, or after, accidents or sickness occur, rendering the risk then liable to be rejected altogether, or charged at an increased rate of Premium."

The Proposals are forwarded by Steam Packet to Board of Directors in London, and the acceptance or rejection of the Risk advised by return mail *immediately following,* thereby affording the greatest possible despatch.

Rules of the Society, Blank Forms of Application, and all information connected therewith, furnished by the Agent, at his Office in Dunn's fire-proof Building, Prince William Street.

ÆTNA INSURANCE COMPANY *Of Hartford, Connecticut.*

THE subscriber, Agent for the above Insurance Company, continues to issue Policies and Renewal Receipts for Insurance on Dwelling Houses, Stores, Mills, Factories, Barns, Vessels and Cargoes while in Port, Vessels on the stocks, Household Furniture, Merchandise, and every other species of insurable personal property,—against

Loss or Damage by Fire,

at as low rates of premium as any similar institution in good standing.—Will give personal attendance to the survey of premises, &c. in the city and vicinity, on which insurance is desired, free of charge to the assured.—Applications in writing (post paid,) from all other parts of the Province, describing the situation of the property to be insured, will receive prompt attention; the correctness of which description shall on all occasions be binding on the part of the applicant.

The ÆTNA INSURANCE COMPANY was incorporated in 1819,—Capital, $200,000, with liberty to increase the same to half a million of dollars. The Capital has been all paid in, and invested in the best securities, independently of which a *Surplus Fund* of more than $25,000, has been set apart to meet the occasional claims for Losses, and the stock bears a high premium. The reputation the Office has acquired for promptness and liberality in the adjustment of losses requires no additional pledge to entitle it to a liberal share of public patronage.

JAYNE'S EXPECTORANT.

This medicine has already proved itself to be all that it has been recommended, by those who have given it a fair test in this country, and the demand for it increases daily. We have just heard of an important cure of Asthma, which has been effected by the use of it in a neighboring town—the case was that of a female who had for a long time been under the care of a physician, but had received no relief, and her case was considered hopeless. As a last resort she purchased a bottle of Dr. JAYNE'S EXPECTORANT, which caused her to expectorate freely, gradually eased her cough, and rapidly restored her to health. We have no hesitation in saying that this preparation of Dr. Jayne, for the cure of Coughs, Colds, Influenza, Asthma, Consumptions, &c., is the most valuable Medicine ever offered to the American public. There is no quackery about it—Dr. Jayne is one of the most skilful practising physicians in Philadelphia; and wherever his various preparations have been thoroughly tested, he is looked upon as a great public benefactor.—[Somerset (Maine) Journal.

SANDS' SARSAPARILLA,

For the Removal and Permanent Cure of all Diseases arising from an Impure State of the Blood or Habit of the System, viz.:

Scrofula or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Biles, Chronic Sore Eyes, Ring Worm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, Stubborn Ulcers, Syphilitic Symptoms, Sciatica or Lumbago, and Diseases arising from an injudicious use of Mercury, Ascites or Dropsy, Exposure or Imprudence in Life. Also, Chronic Constitutional Disorders.

THE value of this Preparation is now widely known, and every day the field of its usefulness is extending. It is approved and highly recommended by Physicians, and is admitted to be the most powerful and searching Preparation from the root that has ever been employed in medical practice.

It is highly concentrated for convenience and portability, containing nothing but the expressed essence, and is the representative of the Sarsaparilla Root, in the same manner as Quinine is of Peruvian Bark, or Morphine of Opium. It is an established fact, that a few grains of either Quinine or Morphine contains all the medicinal value of a large quantity of the crude substances; hence the superiority of these preparations—and no invalid would desire to drink a gallon mixture, when a half-pint contained the same medicinal value.

The following certificate is only another link in the great chain of testimony to its merits:

SOUTH BOLTON, Canada East, April 18, 1846.

Messrs. SANDS—Gentlemen: Exposed as we are to the attacks of disease, and so frequently disappointed in proposed remedies, we cannot but look upon the efforts of successful practitioners with interest and gratitude. This is true respecting your valuable preparation of Sarsaparilla. I have been severely afflicted for 33 years with a disease about which "Doctors disagreed," and their prescriptions were still more diverse.—I tried various remedies but found no relief until I commenced using your excellent medicine, at which time I was wholly confined to my bed.—After using it a few months, I am now able to walk about, ride out, and enjoy a comfortable degree of health, which I attribute entirely to the use of Sands' Sarsaparilla. Please accept my assurance of gratitude and regard.
JOHN M. NORRIS.

Being personally acquainted with the above statements, I hereby certify that the same are true. REV. T. M. MERRIMAN.

Farther testimony from Vermont:
The following testimonial to the value of the Sarsaparilla, is from the Rev. Luther Wright, aged 76 years, Congregational minister, residing at Woburn.

Messrs. Sands—Gentlemen—From what [illegible] have experienced, and from the [illegible] persons of recently received [illegible] have used your Sarsaparilla [illegible] have not the *least doubt* but that it is a most valuable medicine, and the numerous certificates you have received of its efficacy are fully sustained by *experience,* and although its reputation and utility are very extensive, and stand in no need of my humble efforts to increase them, I want all who are afflicted by disease to become acquainted with the *efficacy* and *power* of your valuable medicine. I am, gentlemen, gratefully and very respectfully your's,
LUTHER WRIGHT.

For further particulars and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of the Agents gratis.

ASTONISHING EFFICACY OF HOLLOWAY'S PILLS.

THE TESTIMONY OF A CLERGYMAN VOUCHING TO ELEVEN CASES OF CURES BY THESE WONDERFUL PILLS.

Extract of a Letter from the Rev. George Prior, Curate of Mevagh, Letter Kenny, Carrigart, Ireland, 10th January, 1846.

TO PROFESSOR HOLLOWAY.

SIR,—I send you a crude list of some *eleven cases, all cured* by the use of your Pills, I cannot exactly give you a professional name to the various complaints, *but this I know, some of them baffled the skill of Derry and this County.* In a previous letter this gentleman states as follows:—Within a short distance of my house resides a small farmer, who for more than twenty years has been in a bad state of health; Mrs Prior gave him a box of the Pills, which did him so much good that I heard him say, for twenty years past he never ate his food or enjoyed it so much as since taking your Pills.
(Signed) GEORGE PRIOR.

⁂ The above reverend and pious gentleman purchased some pounds' worth of the Pills for the benefit of his poor parishioners.

EXTRAORDINARY CURES BY *Holloway's Ointment.*

CURE OF A DESPERATE CASE OF ERYSIPELIS.

Copy of a Letter from Mr. Joseph Gildon, Jun., a Farmer, East Kenal, near Spilsby, Lincolnshire, 8th April, 1846.

TO PROFESSOR HOLLOWAY.

SIR,—I have the gratification to announce to you a most wonderful cure wrought upon myself, by the use of your Ointment and Pills. I had a severe attack of Erysipelis in my right foot, which extended along my ancle, and was attended with swelling and inflammation to an alarming degree, insomuch that I was unable to move without the use of *crutches.* I consulted a very eminent Physician, besides other Medical men, but to no purpose. At last I tried your Ointment and Pills, when, strange to say, in less than two weeks the swelling and inflammation gradually subsided to such a degree that I was enabled to pursue my daily avocation, to the utter surprise and amazement of those who were acquainted with my case, seeing that I was cured so quickly. I and my family are well known here, as my father holds his farm under the Rev. J. Spence, Rector of our Parish.
(Signed) JOSEPH GILDON.

Holloway's Ointment *will cure any cases of Bad Legs, Ulcerous Sores, Bad Breasts, Sore Nipples, Cancers, Tumours Swellings, Contracted or Stiff Joints, Gout, Rheumatism, Lumbago, Burns, Scalds, Chillblains, Chapped Hands and Lips, Bunions, Soft Corns, Piles, the Bite of Moschettoes, Sand-flies, Chiego foot, Yaws, Coco-bay, and all Skin Diseases common to Europe, or to the East and West Indies, or other Tropical climes.*

PROVINCIAL LEGISLATURE.

HOUSE OF ASSEMBLY—FREDERICTON,
Friday, March 5.

CHAPEL OF EASE, NORTON.

On motion of Mr. Earle, the House went into a Committee of the whole, on a Bill to incorporate the Chapel of Ease, in the Parish of Norton, King's County.—Mr. Botsford in the Chair.

Mr. Carman had considerable doubts about the propriety of passing the Bill, which, although merely a local measure, might open a door to innovation, which would be most dangerous to the interests of the Church, generally, as it would give sitters in that Church, who had been hearers for six months, and had paid 15s. to the Church funds, a voice in the election of Church Wardens and Vestry for the whole Parish. This he did not think was fair to the Pew-holders in the Parish Church.

Dr. Earle mentioned that the petition in favor of the Bill had been signed by the Church Wardens and Vestry of the Parish Church, and by a large majority of the Churchmen in that Parish; he therefore hoped, as it was a local Bill, it would be allowed to pass, as he presumed the Churchmen in the Parish of Norton were the best judges of what sort of corporation would suit their own circumstances.

Mr. End wished to give all parties fair play, but he could see danger to parties interested by adopting the present Bill. These free sitters paying only 15s. a year, and they need not be communicants, had only to become sitters for six months, and pay that small sum to enable them to meet the other parishioners on Easter Monday, and by their votes swamp the pewholders in the Mother Church. He did not like that clause; he had no objections to the people of Norton having free sittings if they wished for them, but he wished these free sitters to let other people alone and not interfere with matters beyond their own Church.

Mr. Street referred the hon. mover to the Act which had passed last year, where the qualification of a voter for Church Wardens and Vestry was placed at 20s. per annum, and objected to the qualification being lowered in this case.

His Honor the Speaker said, that as it appeared the Church Wardens and Vestry as well as a majority of Churchmen in Norton, wished an Act of incorporation of this kind, he was disposed to give it to them.

Hon. Surveyor General was not disposed to introduce this principle even in a local Bill; if it were once adopted it might be difficult to refuse the same measure to other places. Such innovations he considered destructive to the Church of England, and if that Bill passed they might soon be called upon to give like privileges to the sitters in that *gew gaw* of a place which had been erected at the upper end of this town (oh, oh.) He thought if such innovations were allowed to go on without a check, they would end in the destruction of the venerable Church to which he belonged.

Mr. Vail saw no reason for refusing to the inhabitants of Norton the Bill which they prayed for.—They wanted and had prepared a Bill to suit themselves, and he would let them have it.

Mr. Street said that as the principle of the Bill had been recognized by a former Act, he was willing that the present Bill should pass, but would warn them that if they altered the qualification they might lose the Bill altogether.

A pretty animated discussion then followed which ended in the Bill being agreed to without amendment.

SAINT ANDREWS RAILWAY.

The House then went into a Committee of the whole, in farther consideration of the Bill to facilitate the making of a Railway from St. Andrews to Woodstock.

Mr. Taylor in the Chair, [illegible] the Bill were [illegible]

Mr. Brown said, that the [illegible] Committee that it was so well understood by them [illegible] to go over the same unnecessary for him [illegible] been occupied the other day [illegible] ground which was under consideration. The objects [illegible] when the [illegible] in the first place to authorize the Government to grant a strip or belt of [illegible] and on which to erect a Railway. To secure the Company a small [illegible] distances, for the purpose of erecting depots. To grant the Company [illegible] 20,000 acres of land on the line of the said Railway in such positions as should be pointed out by the Surveyor General of the Province, to be laid out on the principle of the Crown owning each intermediate lot and the Company the other, and to pledge the faith and credit of the Province to the Company for a return equal to five per cent. on £100,000 for ten years, over and above the actual expences of working the line, no portion of such money to be drawn from the Provincial chest until the line is completed and in actual operation. The Bill had been originated by the Railway Committee, and had now been altered in its phraseology to prevent any risk of its being thrown out in another quarter.

Dr. Wilson thought the Committee should pause and consider well what they were about before they pledged the credit and faith of the people of this Province to the payment of so large a sum as £50,000. There could be no question whatever that if they passed the Bill they would be called upon to pay every shilling of the money. He was opposed to the principle of the Bill as well as all its details. It was neither more nor less than guaranteeing out of the public funds a premium for private speculation, to a private Company. This he did not think was a legitimate application of the public funds. It would be merely taxing the agricultural portions of this Province, for the benefit of the trade of a section of the country to the amount of £5000 a-year, and from which the Province generally would reap no kind of benefit. In his opinion the whole scheme might fall through, for he believed the whole inhabitants in the section of the country in which it was proposed to erect the Railway did not exceed forty thousand souls. Now, if all capable of travelling were to use the Railway much oftener than they ever could do, it would be but a mere trifle towards the support of such an undertaking. (An hon. member handed Mr. Wilson an estimate of the yearly income which would arise from the Railway when completed, which he read, and closed a long speech by stating his belief that no such advantages as were there contemplated could ever arise from the use of such a line of Railway, and contended it might retard the erection of the great Trunk Railway from Halifax to Quebec by preventing the Province from being able to give assistance to that national undertaking.

Mr. Barberie followed on the same side, pointing out that Railway schemes had frequently ended in bankruptcy and beggary to those engaged in them.

Dr. Thompson warmly supported the Bill, recapitulating the immense advantage which would accrue to the Province by the immediate employment of the large number of emigrants expected to arrive this spring, which would secure them as settlers in this Province, instead of compelling them to go to the United States to swell the power of a foreign Government, whose policy it might one day be to crush the institutions of this country.

His Honor the Speaker hoped they would not again go over the same ground; the subject had been already fully debated, and the principle of the Bill had been sustained, although not formally agreed to. The Bill could not be altered in another branch, progress had therefore been reported, to allow time to perfect the Bill, and it was now he believed, as perfect as they could make it. He thought therefore that they should proceed with the Bill, section by section, and fill up the blanks.

The Bill was then read section by section, and considerable discussion arose on the filling the blank fixing the width for the belt of the Railway which was finally agreed to at 200 feet on each side of the track, measuring from the centre, and the land for depots fixed at 500 feet along the belt, by 300 feet back, at intervals of not less than ten miles apart. A short discussion also took place on the rate of interest for which the faith and credit of the Province should stand pledged on the expenditure of £100,000, after necessary expences of working the line, which was finally carried at 5 per cent. for ten years, the first payment to commence after the Railroad had been certified to have been completed and in full operation. A rather animated debate likewise took place on a proviso introduced by Mr. R. D. Wilmot, requiring the repayment of the sums so granted by the Province, to make good the rate of interest to the company, at any time when the Railway should pay a greater rate of interest than 5 per cent.; the House divided on this proviso, which was lost by a large majority, on the ground that it might interfere with the disposal of Railway stock in England or in a foreign market. The remaining clause, granting to the Company 20,000 acres of Crown lands on the line of the Railroad in 100 acre lots, with 60 rods front, in intermediate lots, was also sustained after some discussion, and the Bill was reported as agreed to.

The House then went into Committee of the whole on a Bill relating to the office of Master of the Rolls. Mr. Hanington in introducing the Bill explained that his object in bringing it forward was to reduce the salary of the Master of the Rolls from £800 a-year to £600; but he had introduced a clause which prevented it from having any effect on the present incumbent in that office, its operation was merely prospective.

A debate followed, which ended in the Bill being sustained by a considerable majority, and the future salary of any Master of the Rolls, so far as the Assembly is concerned, is fixed at £600 a-year.
