The Courier.

SATURDAY, NOVEMBER 20, 1847.

In our last week's impression we were enabled to give the leading features of the news by the American steamer *Washington*, which left Southampton on the 24th October. We have since received our English papers by her, and also the accounts brought by the French steamer New-York, which left Cherbourg on the 24th ult. and arrived at New-York on the 12th inst. *via* Newport, (Rhode Island,) where she put in for a supply of fuel, being entirely out of coal.

Willmer & Smith's European Times of the 23d October, in referring to the Timber Market, says—"The trade of this port partakes of the general depression in business, without, however, any failures. The arrivals are moderate, and the cargoes are now principally stored on importers' account. The last sale of a cargo of Quebec Pine was at 15d. per ft.; a small parcel of fresh and good sized Birch brought 19½d. per ft."

The intelligence by the New York, being only a day later from the continent, adds but little to our former advices.—Pope Pius had promulgated a decree, establishing a Council of State, agreeably to the design expressed in his famous circular of the 19th April last. In Tuscany, the punishment of death had been abolished by proclamation of the Grand Duke.

We are without any intelligence of the English Mail which would leave Liverpool on the 4th inst. in the Steamer Acadia. It was understood that she had not arrived at Halifax last Thursday at noon then fourteen days from her time of sailing.

The Weather.—A week of very changeable weather is about closing upon us with a certain indication of winter's near approach—the mud being hard frozen in the streets to-day, and the air cold. River navigation is, to all appearance, near its close with us.

The adjourned Circuit Court will open in this city on *Monday* next, the 22d inst.

Provincial Appointments.—Jacob Allan and Robert Jardine, Esquires, to be Commissioners [illegible] section of the Act 10th Vic. cap. 72, for incorporating the South Bay Boom Company. William O. Smith and Henry Chubb, Esquires, to be Special Commissioners of the Orphan Asylum in the City of St. John.

Emigrant Hospital.—Report for the week ending Friday, 19th instant:

In Hospital, Friday, 12th instant,	485	
Admitted since,	23	
		518
Discharged, 79; Died, 11,		90
Remaining in Hospital,		428

Of the above deaths, six were children, some a very short time in Hospital.

Mechanics' Institute.—The opening Lecture of the season was delivered on Monday evening last by M. H. Perley, Esq.; but owing to the unfavorable state of the weather, the audience was not as numerous as usual upon such occasions. Before the commencement of the Lecture, the President of the Institute, (I. Woodward, Esq.) made a very gratifying statement respecting the state and prospects of the Institution—communicating the important facts that the Institute was now clear of debt—that the property now owned by them including the building, was valued at £3000—that several valuable contributions had been made both to the Museum and the Library during the year, and that the Gesner Museum had, through the liberality of the shareholders, now become almost entirely the property of the Institute.

Mr. Perley's Lecture was upon his favorite topic—the Province of New Brunswick—his "native land." In an *extempore* address of about an hour he imparted much valuable information respecting the resources of the Colony, with which he is known to be very familiar. The *NewBrunswicker* says—

In discussing the industrial resources of the Province, Mr. Perley stated "that no real progress could be made without genuine labour," and that the prosperity of England was based upon stern, hard-handed, persevering work. The people of New Brunswick were able and willing to work; but they required to know what were the resources of the country to which their labour could be profitably applied; and Mr. Perley therefore proceeded to point out those resources in Fuel—consisting of coal, wood and peat in abundance—in an unlimited amount of water-power, the various modes of using which were described—next, the Iron Ore, distributed in various parts of the country, excellent in quality and abundant in quantity—then, the other minerals and mineral productions, stated to be numerous and valuable. After these, the Agricultural industry, the Fisheries, and the Manufacture of Timber were each briefly adverted to; and with reference to all the resources mentioned, whose developement depended in a great degree [illegible] water, the roads, inland navigation and proposed Railways of the Province, were described.

It was stated that the Surveyors on the line of the proposed Railway from Halifax to Quebec, had found a good and practicable route for the trunk line, the precise course of which had not yet been officially announced; and the lecturer concluded with an earnest appeal to the members of the Institute and others generally to promote a stronger interest in the developement of the abundant resources and capabilities of the Province, some of which had been hitherto greatly neglected.

On Monday evening next, the Rev. Mr. Wishart will lecture on "Recent Sciences."

Mutual Insurance Company.—Mr. Joseph Fairweather has been chosen a Director of this Institution in the room of Mr. Charles Adams, appointed President of the Board.

A Public Tea Meeting of a deeply interesting character was held in the School-Room of Union-Street Church on Wednesday evening last. All the tables were well filled.

After tea, the Rev. J. C. Gallaway, A. M. took the chair, and proceeded to open the business of the meeting. The company united in singing the Hymn which begins with—

"Not for a favourite form or name,
But for immortal souls we care," &c.

Prayer was then offered by the Rev. Mr. Daniel, Superintendent of the Wesleyan Missions in this Circuit. The Chairman then intimated that the present was the Annual Tea Meeting in connection with the above place of worship, and held a few weeks sooner than usual, in consequence of his intended early departure for England. Mr. G. then briefly alluded to the state of the Building Fund, from which it appeared, that, by the ordinary income of the Church, by the payment of monies already due, and by a moderate measure of assistance from England, the debt would be reduced by next spring to One Thousand Pounds—*i. e.* to an amount considerably less than one-third of the entire cost of the property, and that reduction to be effected before the arrival of the third anniversary of the opening of the Church. The Chairman then stated that he was led to leave his pastoral charge, for a visit to England, sooner than he originally intended, in consequence of the claims of the College about to be erected in Liverpool, N. S. and of the urgent calls for further ministerial help, from the Colonial Society, which some old Congregational Churches in these Provinces, and several new settlements, pressed upon his attention. The responsibility which Mr. Gallaway felt for these other places, is enhanced by the circumstance, that, in addition to the Pastorship of the Church in St. John, he has sustained, since his arrival in this City, the further office of Agent of the Congregational Colonial Society, for the two Provinces of New-Brunswick and Nova-Scotia.

The meeting was then addressed by the Rev. Messrs. Irvine, Robinson and Busby, who expressed some valuable sentiments on the vast importance of an increased attention being given by the Churches at home to the spiritual condition of the Colonies; who further hoped that the visit of Mr. Gallaway to England, at this time, would have the effect of impressing more deeply these views upon the Churches in our father-land; and that, after a brief absence, he might return with renewed energy, to labour in this important field of Missionary enterprise.

The Senior Deacon then presented to the Chairman the following letter, agreed to by the Members of the Church, and requested him to read it to the meeting:

St. John, November 15th, 1847.

TO THE REVEREND CHARLES MACKAY.

Rev. and Dear Sir,—We, the undersigned members of this Church, having received several very satisfactory testimonials respecting your Christian character, and your devotedness as a labourer in the vineyard of Christ, and having been favoured with several opportunities of hearing you ourselves, and having, on these accounts, good reason to believe that your ministerial labours will prove very acceptable to the attendants in Union-street Church, hereby respectfully request you to take the oversight of us in the Lord, during the six months which our Pastor is expected to be absent on his important mission to his native land;—the six months commencing on the 21st instant. Should this absence extend for a longer period than six months, our earnest hope is that such may be the general acceptance of your ministry and such its happy results, that we may be willing to extend the invitation till that further period, and that you may be willing to comply with our request.

In the meantime, our earnest effort will be, by a humble and teachable spirit, by fervent prayer and cordial co-operation, to render your ministry among us for the period specified, happy and prosperous. We remain, Rev. and Dear Sir,

(Signed by the Members of the Church.)

Mr. Gallaway expressed his cordial concurrence with the invitation thus extended to Mr. Mackay; and his earnest hope and prayer that the Ministry of his respected Brother in this City, would be attended with the richest tokens of Divine grace. This call was duly acknowledged, and publicly accepted by Mr. Mackay.

The Senior Deacon then presented a letter from the Church to the Pastor, and requested Mr. Mackay to read it to the meeting. The following are some extracts from this letter:

"However much, dear Sir, we may regret, as a matter of personal interest, your temporary absence from amongst us, we would not forget that you are emphatically a missionary—that you were sent out, and have been heretofore supported by a Missionary Society,—that you came at the request of that Society, to promote missionary operations; not in this locality only, but throughout these two important and improving Provinces—and that you took the pastoral oversight of us in the Lord with the distinct understanding at the time that the more general cause would occasionally call you away from your labours here, and demand your temporary services elsewhere.

"Believing, dear Sir, that you are deeply imbued with the missionary spirit—knowing that you have travelled extensively in these Provinces—and confiding in your judgment as a minister of Christ, we are willing publicly to admit, that you ought to be, and that you are, the best judge as to what is most likely to further the work of God in these lands, and having decided in your own mind, after (we are persuaded) much prayer and serious deliberation, that a visit to England, in present circumstances, is the best service that you can render to the common cause, shall we do anything to retard or forbid the movement? No, dear Sir; with our whole heart we say—Go, and the God of grace go with you. Go, and interest the churches of our father-land in behalf of *Colonial Missions*. Go, and beg imploringly for more men and means for these Provinces. Go, and plead in all earnest for means to assist in the erection of a College, to which we may hereafter look with hope, for the supply of our Congregational pulpits when you, dear, Sir, and others that are now bearing the 'burden and heat of the day,' shall be called to finish their work, and rest from their toil. Go, and in your absence (we were about to say) do not forget us—but we need not prefer such a request. You have already given us the assurance that not a single day shall we be absent from your mind—that, though separated from us in body, you will be present with us in spirit, 'joying and beholding our order, and the steadfastness of our faith in Christ.'

"With these sentiments of approval of your intended visit to England, it only remains to assure you of our earnest hope and prayer that God may soon permit you to return, to resume your pastoral duties among us as you have hitherto done."

(Signed by the Members of the Church.)

Immediately this letter was read, Moses H. Perley, Esq. rose at the request of several Seat-holders present, responded to the sentiments thus expressed, and stated his conviction, that, so far as he knew, such were the sentiments and wishes of the Congregation generally.

These two addresses were suitably acknowledged by the Pastor, who thanked the members of the church and congregation for all the help they had afforded to him in his efforts at usefulness in this City, and for all the kindness which they had shown to him and his family.

This reply was immediately followed by the annexed address, which was read by the Rev. Robert Irvine—

To the Rev. J. C. Gallaway, A. M. Pastor of the Union-street Church, in the City of Saint John, New-Brunswick.

Reverend and Dear Brother,

We, the Ministers of different Evangelical denominations in the City of Saint John, understanding that you purpose to leave this place for a time, on matters connected with the interests of Evangelical Religion, cannot allow the opportunity to pass without some expression of our respect for you as a gentleman, a pastor, and a brother.

Your demeanour, sir, since your settlement in this City, has been in all respects highly creditable to your character as a gentleman, and has gained for you the respect and esteem of all who have met you in the private circles of life;—in such circles your intercourse with all denominations of Christians has uniformly proved that you never failed to carry the bearing of the Christian Minister from the pulpit into society.

We believe that your labours as a pastor have been much felt by souls in this community, and that they bear the obvious marks of the Divine approval.

As a Christian brother, we have all felt great pleasure in your valued society, having always found in you an able and unflinching advocate of Evangelical truth, of Christian union, and of perfect religious freedom.

While we feel the loss which your absence from the City will occasion, we rejoice to think that it will be amply supplied by your best efforts being exerted on behalf of the cause of our common Lord in these Provinces—and we are quite sanguine in the hope that your visit to the Mother Country at this time, will tend to subserve the interests of Evangelical Religion in the Colonies of British North America.

And now, dear brother, we commend you to God, hoping that his gracious providence may protect you by the way, and restore you to us again in the fulness of the Gospel of Christ.

We are, dear Brother,
Your affectionate brethren in the bonds of [illegible]

ROBERT IRVINE,
Pastor of the First Free Presbyterian Church.
SAMUEL ROBINSON,
Pastor of the First Baptist Church.
SAMPSON BUSBY,
Wesleyan Missionary, Portland.
HENRY DANIEL,
Wesleyan Minister.
INGHAM SUTCLIFFE,
Wesleyan Minister.
EDWARD D. VERY,
Pastor of Baptist Church, Portland.

Saint John, N. B., 17th Nov. 1847.

Mr. Gallaway duly acknowledged this very affectionate and seasonable address of his Ministerial brethren,—specifically alluded to one or two points contained in it,—urged an increasing dependence on the Spirit of God in all Christian exertions,—and closed with an allusion to that gathering together of true believers from all sections of the visible Church, and that perfect and everlasting union which awaited such in the heavenly world.

Militia Inspection.—That loyal body, the Third Battalion King's County Militia, was inspected last month, in four Divisions, by its zealous commanding officer, Lieut. Colonel Caleb Wetmore, and mustered 1408 strong. We are informed that this battalion turns out more numerously than any other in the Province, a fact, which when its recent formation is considered, says much as well for the rapid settlement of that part of King's County comprised within its limits, as for the alacrity with which the inhabitants comply with the requirements of the law. It is expected that a new battalion will soon be formed of the men now belonging to the Third who reside on the N. W. side of the Kennebeckasis, which will comprise Bellisle and the adjacent flourishing settlements.

A warrant published in the London Gazette of the 19th Oct. directs certain alterations in the rates of postage, and among others orders that on every letter not exceeding half an ounce in weight transmitted by packet between the Islands of Martinique and Guadaloupe and British North America, a uniform rate of four pence shall be charged; and that a local rate of one penny shall be charged on all letters transmitted through the post between any two places in the Island of Hong Kong. These rates are widely different from the exhorbitant charges at present exacted in the North American Provinces.

Her Majesty's Steamer Columbia Capt. Owen, from this port via Yarmouth, arrived at Halifax on the 11th inst. on her way to England.

The Victoria House.—We have much pleasure in referring our readers to an Advertisement in another column from the spirited proprietors of this rising establishment, which has undergone vast improvements, the old Store fronting on Prince William-street having been completely remodelled, and an extensive two story Brick building erected on the rear, which combined, form a very splendid concern, reflecting much credit on the contractors, Messrs. W. F. Smith, Langan and Wisdom, for the excellent arrangements and perfect style with which they have completed this great addition to the mercantile establishments of this City.

The new Store will be opened on Tuesday next, with an entire fresh stock of Goods adapted for the present season, and we heartily wish that the heretofore good success which rewarded the industry of the enterprising owners, may crown their labours in their new concern.—*New-Bruns.*

York Circuit Court.—At a late hour last Saturday night, the jury returned into Court finding fourteen of the persons accused of riot at Fredericton on the 12th of July last, guilty, and acquitting seven. On Monday morning His Honor Judge Carter, after a suitable address to the prisoners, passed sentence on them as follows:—

Daniel Sullivan, James Linihen, John Burke, Lawrence Sullivan—Twelve months' imprisonment in the Provincial Penitentiary, with hard labour.

James Mullins, James Hogan, Michael Dooly, Jeremiah Mahony, Michael Kennedy—Six months imprisonment in the Provincial Penitentiary, with hard labour.

Daniel O'Leary, Edward Corbet, Jeremiah Sullivan, Thomas Griffin, Lawrence Gallagher—Four months' imprisonment in the Common Gaol of this County, with hard labour.

Those sentenced to the Penitentiary arrived in town on Tuesday last.

Providential Escape from Death.—We learn, by a private letter from Woodstock, that John Grant, Esq., of the Crown Land Department, of this Province, one of the gentlemen employed in conducting the survey of the Halifax and Quebec Railroad, came very near losing his life in that service, under the following circumstances.—It appears that about noon on the 5th instant, Mr. Grant left the party of which he was in charge, on the line somewhere near the Tobique mountains, for the purpose of ascending a hill in the neighbourhood to make some observations on the face of the surrounding country, telling his party that he would return in about an hour. Hour after hour passed away until the party became alarmed for his safety, when they proceeded to search for him, which search they continued from day to day until they were at last compelled to give him up for lost. It seems that Mr. Grant had left unattended and without a morsel of food or even a pocket compass, expecting to be gone only a short time, when a fog overtook him in which he lost his way, and continued to travel from the fifth up to the tenth instant without a particle of food. On the morning of the 10th he had become so completely exhausted that he could go no further, but even in this dreadful situation he had presence of mind to take his handkerchief from his pocket and hang it up as high as he could reach on a tree, on the bank of the stream which he was following down, in the seemingly vain hope that it might attract attention to the spot where he laid himself down to recruit his exhausted strength or die. Most fortunately a party of three men were out in the wilderness exploring for lumber berths, when one of them, whose name we did not learn, observed the handkerchief and said to his companions that as it appeared to be a good one he would take the canoe and cross the stream and get it. He accordingly did so, and found, to his astonishment, its owner lying insensible at the foot of the tree. He immediately procured the assistance of his companions, and these hardy and good hearted woodsmen used every means in their power to restore the sufferer, and finally succeeded in conveying him to a house on the Tobique river. Medical aid was immediately sent for to Woodstock, and we are happy to learn that Mr. Grant is now doing well, and that Dr. Rice expected that it would be practicable to remove him to comfortable quarters at the mouth of the Tobique on Monday last. Captain Henderson, of the Royal Engineers, left Fredericton for the Tobique immediately on hearing of the accident which happened to Mr. Grant.—*Fredericton Head Quarters.*

Emigrants at Quebec.—By the return of the Chief Emigration Officer in Canada, we learn that the whole number of emigrants arrived at Quebec and Montreal in 1847 is 98,106, being an increase of 65,353 over the number arrived in 1846.

Among the emigrants of this year, the deaths on the voyage, in Quarantine and at the Hospitals, after landing, amount to the enormous number of 13 365.

The "Richard Watson," from Sligo, with 230 of Lord Palmerston's wretched cottiers, has arrived at Quebec. The Quebec Morning Chronicle of the 11th inst. says, "the landing of these poor creatures on our shores, at this season of the year, to use the mildest language possible can only be styled cruelty, as the greater part of them will have to eke out a miserable subsistence during our inclement winter, and many may perish of cold and want."

Mr. Mills, the Mayor of Montreal, who has been unceasing in his exertions to ameliorate the condition of the emigrants, has fallen a victim to the Emigrant fever. So also has Dr. Clarke, one of the Physicians at the Marine Hospital. Mr. Buchanan, the Chief Emigration Officer, has recovered from a severe attack of the fever; but Mr. McElderry the Emigration Officer at Toronto has fallen a victim to the disease.

The published returns of the Kingston Immigrant Hospital, up to 18th Oct., show that there were patients admitted, 1959; discharged, 831; died, 707; and remaining in Hospital, 431.

In the Toronto Immigrant Hospital to 22d Oct., there were patients admitted 3300; discharged, 1993; died, 757; and remaining in Hospital, and in the convalescent establishment, 739.

His Excellency the Governor General has been pleased to commute the sentence of death passed upon Timothy and Mary Burke, at the last Assizes, at Kingston, for the murder of their children, to imprisonment for life.

Niagara Falls Suspension Bridge.—The Suspension Bridge Companies have lately been several days in session at the Falls, and have decided on the construction of the bridge for the passage of railroad trains. The strength of the supporting cables is to be not less than 6500 tons. The cost is not to exceed $190,000; and the work to be completed by the first of May 1849. The bridge will be in sight both on the cataract and whirlpool, and span the gorge by an arch of 800 feet, suspended 230 feet above the surface of the river.—Chas. Ellett, Jr. of Philadelphia, has been appointed engineer.

Newfoundland.—Papers from St. John's to the 10th inst. brought to Halifax by the Steamer Unicorn, came to hand by the Eastern Mail last evening. From various parts of the Colony, painful accounts continue to be received of destitution among a considerable portion of the inhabitants. From Placentia Bay, St. Mary's Bay, Ferryland District, Conception Bay, Trinity Bay and Bonavista Bay, appeals were pouring in for assistance from the Government, which the crippled resources of the Treasury would prevent being afforded to the extent desired, and appeals were in course of preparation to be forwarded to the Home Government.—Upwards of seventy individuals had arrived at St. John's from Burin, for the purpose of throwing themselves upon the bounty of the Government for shelter during the winter; but it is resolved to send them back again, and afford them such assistance in the district as the public means would al[illegible]

Fire at St. Thomas.—This island was visited by a fearful fire on the 26th ult. which destroyed property, to the estimated amount of £12,000 sterling, and would have laid the entire town in ashes but for a sudden change of the wind which providently occurred when the flames were at their highest, and arrested their progress. Drinking water was selling at one shilling per gallon.—*Bermuda Herald, Oct. 21.*

Dominica.—Several shocks of earthquake had been felt in this island. One continued considerably longer than the shocks usually experienced.

The Colonist reports that a shock was felt at Marie Galante, which destroyed a church and did much additional injury.

From Mexico.—General Scott's despatches detailing his successes in Mexico, up to the taking of the capital, have at length reached Washington, and are being published in the American papers.

Intelligence of much later date has since been received, which shews that the American army are much harrassed in their marches through the country.—Capt. Walker of the Texan Rangers, is among the number of American officers recently killed.

A letter, represented to come from a very respectable house in the City of Mexico, states that Mr. Trist has again invited the Mexican Government to new conferences, and adds, "May God grant that the result of them may be peace, which we so much desire."

A large majority of the Mexicans are said to be in favor of peace, but parties differ as to the means of bringing it about—some being anxious that the Church and Military establishments should be broken down before peace is restored.

Senor Pena y Pena has taken a firm hold of the reins of government, and has called around him a much more intelligent class of men than had honored the cabinet of Mexico for some time. Bustamente, it is expected, will be appointed commander in chief of the army.

New York Market, Nov. 9.—Western Flour, $6, 12 to $6, 25, steady; 1300 bushels mixed Corn sold at 73 cents; other grain as before. Common Butter drooping, and large operations feel the money pressure and the disposition to retrench.—150 brls. mess Pork sold at $15.—The market has been swept of Sterling Bills, and some at sixty days have gone as high as 10 per cent premium; the fair rate is 9½ to 10.—Freights to Europe are much depressed—lower than before. Corn is taken to Liverpool at 6d. per bushel; cheese, 20s. per ton; to London, apples, 3s. per brl; turpentine, 2s. 6d. to 3s.; heavy goods, 25s. to 32s. per ton.

The Rev. R. Irvine, of this City, will preach in the Portland Market House, on Sabbath (to-morrow) evening, the 21st inst., at 6 o'clock.

☞ The Mail for England to meet the sailing of the Steamer *Acadia* from Halifax on the 3d proximo, will be closed at the Post Office in this City on Saturday next, the 27th instant, at three o'clock in the afternoon.

AGRICULTURAL SOCIETY.

The regular Monthly Meeting of the Agricultural Society will be held at Mr. Perley's Office, Market Square, on Thursday next, at 12 o'clock.—Punctual attendance is requested, as the Accounts have to be audited and a report drawn up, preparatory to the Annual Meeting. Nov. 20.

RURAL CEMETERY.

THE Subscription List of Stock for the Rural Cemetery being filled up, the Provisional Committee beg to intimate to the Stockholders that 25 per cent. of the amount subscribed, or 12s. 6d. per Share, is required to be paid in to the Commercial Bank on or before 20th Nov. instant.

Also, that a Meeting of Stockholders will be held at the Office of the Marine Assurance Company on Wednesday, 1st December next, at 3 o'clock, for the purpose of electing Directors and enacting bye-laws.

The Plan for laying out the grounds adopted by the Committee may be seen at the Marine Office.

Saint John, Nov. 3d, 1847.

Terms of the Institute.

MEMBER Tickets, to admit a Member and two Ladies, 15s., with privilege of Library and Reading Room.

Non Member Tickets to Lectures, 15s.
Ladies' Tickets, - - - 5s.
Youth's Tickets, - - - 7s. 6d.

Apprentices of Mechanics, on recommendation of their Master, will be furnished with a Ticket free, for the Friday evening Lectures—and the use of the Library on payment of 5s. per annum, if required.

Family Tickets, to admit to the Museum, 5s. for Members.

Non-Members, 7s. 6d. Single Admission, 7d.

The Museum is open on Monday, Wednesday, and Friday evenings, from 7 to 8 o'clock, during Lecture season. Reading Room open every evening, Saturday excepted.

Tickets to be had at the Reading Room of the Institute during the evening.

Nov. 20. J. W. LAWRENCE, *R. Sec'y.*

Return of Money and Effects of deceased Emigrants, received at this Office during the Season of 1847.

Name of Emigrant.	By what Ship.	Town whence.	Amount, Sterling.	Remarks.
John Kennedy,	Bloomfield,	Galway,	£1 7 0	With a chest containing a few articles of clothing, to be sent to Cornelius Pelly, Shop-keeper, Galway, for brother of deceased.
Michael Foley,	Trafalgar,	Cork,	4 1 0	Remitted to Lt. Friend, Gov't Emigration Officer at Cork, and by him paid to Rev. Thos. O'Sullivan, P. P. Killarney, for the father of deceased.
Hugh Boyce,	Sir C. Napier,	Londonderry,	43 0 0	Claimed by Hugh Boyce, only surviving son of deceased,—the Rev. Robert Irvine, Trustee.
Daniel Cleary,	British Merchant	Cork,	2 15 6	Claimed by two daughters of deceased, who was a widow.
Ellen Dreslin,	do.	do.	8 4 0	Claimed by only daughter of deceased.
John Corney,	do.	do.	11 10 6	Remitted to Michael Corney, brother of deceased, at Kinsale.
William Pine,	Seraph,	do.	19 5 0	Claimed by Mary Lonergan, sister of deceased. —Also, a chest with Carpenter's Tools, (12 pieces,) sent up from Partridge Island, to be delivered to an emigrant in Nova-Scotia, when called for.

Government Emigration Office, Saint John, N. B. 15th November, 1847.
M. H. PERLEY, *H. M. Emigration Officer.*

Return of emigrants who have died on Partridge Island, from 24th September to 1st November, 1847, with the names of the vessels in which they arrived, and the ports from which they sailed:—

Ambassadress, from Liverpool,—Edward Lann, aged 42.

Bethel, from Galway,—Bridget Deering, aged 3; James Deering, 2; Ellen Fallasy, 9; Michael Jackson, 53; William Kirby, 22; John Kenny, 52; Richard Morley, 50; Mary McCormack, 7; Edward Welsh, 9 months.

British Merchant, from Cork,—Bartholomew Crowley, aged 24; Mary Corcoran, 33; Thomas Crowley, 2; Mary Donovan, 1; Pat. Donovan, 3; Charles Donovan, —; Mary Duen, 26; Thos. Kerley, 53; Catherine McCarty, 27; Ellen McCarty, 22; John McCarty, 56.

David, from Galway,—Pat. Connor, aged 18 mos.; Mary Naughten, 3 mos.; Pat. Nathen, 39.

Envoy, from Londonderry,—Pat. Bourke, aged 24; Phelim McElroy, 60.

Lord Fitzgerald, from Galway,—Michael Henehey, aged 8; Peggy Laughlin, 26; Thos. Malone, 11 mos.; Patrick McLaughlin, 31; Patrick Sexton, 55; Mary Walsh, 27.

Gowrie, from Cork,—Jerry Bryan, aged 10.

Hannah, from Sligo,—Margaret O'Gara, aged 32; John O'Brien, 50.

John S. Dewolf, from Killala,—Michael Kennedy, aged 15.

Lady Sale, from Sligo,—Ellen Barriston, aged 32; Catherine Bourk, 25; Thos. Conolly, 9 mos.; Henry Foley, 7; Mary Foley, 6; Edward Foley, 41; William Foley, 10; Theresa Gallagher, 24; Bridget Mitchell, 24; Mary McGloan, 40; James McGoldrief, 2; John McGowan, 34; Mary McGowan, 30; Ann Porter, 50; Mich. McGowan, 1.

Magnes, from Galway,—Judy Wallace aged 40.

Malvina, from Baltimore,—Matthew Shea, 44.

Midas, from Galway,—Pat. Badger, aged 31; Thomas Corcannon, 16; Laurence Foy, 57; Pat. Jennings, 5; Pat. Killigan, 32.

Pero, from Cork,—John Burt, aged 10 months; Judy Crowley, 15; Johanna Crowley, 6 months; Tim. Callaghan, 26; Thos. Crowley, 2; Patrick Golding, 22; Ellen Hammond, 53; Ellen Kerley, 22; William Kerley, 40; Catherine Mahoney, 7; Margaret Maginn, 22; Thady Quinlin, 27; Allan Ryan, 20.

Pekin, from Galway,—Mary Morrow, aged 5; Winifred Morrow, 3; Bridget Quinan, 1.

Sea, from Liverpool,—Ellen Barret, aged 3.

Yeoman, from Sligo,—James Cunningham, aged 44; Sally Connolly, 32; Lawrence Connolly, 7; Ann Carway, 13; Catherine Connolly, 41; Bdgt. Connolly, 10 months; Catherine Gorman, 30; Dennis Kerley, 59; John Murray, 24; George Motherwell, 9; Sarah Motherwell, 7; Pat. Rooney, 4; Dennis Sullivan, 53.

BEWARE OF COUNTERFEITS AND IMITATIONS.

The unparalleled and astonishing efficacy of DR. WISTAR'S BALSAM OF WILD CHERRY, in all the diseases for which it is recommended, curing many cases after the skill of the best physicians was unavailing, has effected a large and increasing demand for it. This fact has caused many unprincipled counterfeiters and imitators to palm off spurious mixtures, of similar name and appearance, for the genuine Balsam. Some are called "Syrup of Wild Cherry," "Balsam of Spikenard," "Wild Cherry Comfrey," &c. Another, "Wester's Balsam of Wild Cherry," mispelling the name, and forging certificates to resemble these of the true Balsam. "Dr. Wistar's Balsam of Wild Cherry," is the only genuine. The rest merely imitate the name of the original, while they possess none of its virtues.

LOOK WELL TO THE MARKS OF THE GENUINE.

The genuine Balsam is put up in bottles, with the words "Dr. Wistar's Balsam of Wild Cherry Phila." blown in the glass; each bottle bearing a label on the front, with the signature of H. WISTAR, M. D.

This will be enveloped hereafter with a new wrapper; copyright secured, 1844; on which will always appear the written signature of 'I. BUTTS.'

☞ For sale by Peters & Tilley, King-street, St. John.

HALSEY'S SUGAR-COATED PILLS.

One year has now elapsed since this great and good medicine was first made known to the public, yet within which time thousands have experienced its good effects. Invalids who have been given over by their physicians as incurable have found relief and been restored to sound and vigorous health by this wonderful remedy. *HALSEY'S PILLS are unlike all others!* They act directly on those vital organs of the stomach, liver, kidneys, &c. which secrete the fluids and separate the impurities from the blood. While they purge from the stomach and bowels all bilious and morbid matter, they cleanse and renew the blood, thereby destroying the seeds of disease. Halsey's Pills do not weaken, but give strength and animation to both body and mind. They neither cause griping or any inconvenience whatever. The patient is better able to attend to business while under their influence than before taking them. Their action is innocent, yet efficient; are mild in operation, yet powerful in restoring health. The great amount of good these Pills have done for the sick and afflicted have induced thousands to commend them to their friends and the public. Individuals of rank and integrity have testified to the world in favor of their extraordinary virtues.

Frankford, July 15, 1846.

Dr. G. W. Halsey:

Sir;—During the last ten years, I have been dreadfully afflicted with the Dyspepsia and habitual costiveness. I was so bad sometimes that for nearly a week nothing would pass my bowels, which caused headache, dizziness, and at times partial insanity. The doctors could do nothing for me. Their medicine gave me much pain and griping, and after weakening my system very much left me worse than before taking it. I was at last induced to procure a box of your Pills, as they were recommended to me by the Rev. Mr. Colburn of this town. I took them according to the directions which came round the box, and they affected me different from any medicine I had ever used. Their action was perfectly harmless and soothing, and appeared to animate my spirits. I had taken them but three times before my health began fast to improve, and by the time I had finished the box I was entirely restored from my protracted illness. It has now been four months since I left off taking them, during which time I have not had any symptoms of a return of the disease, and my health is as perfect as it was at the age of twenty, although I am now nearly forty.

Your's, &c. JAMES H. STONALL.

☞ For sale at the Store of the Subscriber, 8, Brick Buildings, North Wharf, at 1s. 3d. per box, and liberal allowance for wholesale purchases; and by the several Sub-Agencies in the Provinces—see Phœnix Advertiser, &c.

H. G. KINNEAR,
Sept. 5. *General Agent for the Provinces.*

[N. Bruns. and Obs.]

NAVIGATION!
Taught in its different Branches, by the Subscriber,

WHO respectfully announces that he is prepared to give instructions in Navigation during the ensuing Winter, to such young men as are desirous of acquiring a thorough knowledge of the various branches which are requisite to qualify them for the important duties of the sea. The house in which this important branch is taught affords a very desirable convenience for taking the meridian altitude, &c. and every care will be taken, connected with the science, which will be thoroughly explained to those who may be disposed to attend. From experience as a seaman, he pledges himself to give general satisfaction to any young men who may feel disposed to attend; and as a limited number of pupils, not exceeding eight, will be attended to at one time.

Form of Instruction—Trigonometry, and the various Sailings, Determined Latitude by Meridian, and Double and Single Altitude, &c., Variations in Compass by Amplitude, &c. Determined Longitude, by Chronometer, Lunar Observations, &c.

The subscriber respectfully solicits a share of patronage. Apply at his residence, corner of Germain and Queen-streets. ☞ Private instruction given. JOHN HARVEY.

☞ A few respectable Boarders can be accommodated. *November 20.*

Agent—ADAM JACK, Esq.

OF the various Institutions for the Assurance of Lives, which have been established in this country, none have been attended with such complete and decided success as those based upon the principle of Mutual Assurance, in which *all the accumulated Profits belong exclusively to the Assured.* The experience of nearly a century has proved, incontestably, that these Societies are perfectly safe, and do not require the aid of a *permanent subscribed Capital.* The same experience has shown that, when well regulated, they are capable of yielding large profits to Policy-holders, such as under no other system can be realized.

It is upon this tried and approved principle of Mutual Assurance, that the GREAT BRITAIN LIFE ASSURANCE SOCIETY has been established. The object of its founders has been—not only to present to the public an Institution for the Assurance of Lives, in which the Policy-holders may enjoy all the advantages offered to them by the best regulated of these Societies—but also, by extending the principle of Life Assurance to cases wherein its application has been hitherto deemed impracticable, to afford the means of providing for a surviving family to those by whom so inestimable a benefit could not otherwise be attained.

The extension in question is effected—

By giving Credit (without security) to persons effecting Assurances, either on their own lives or the lives of others, for *Half the Amount of the First Five Annual Premiums*;—thus enabling them to secure a provision for their Families, or the repayment of a Loan or Debt, *with the least possible present outlay*, and at the same time enjoy, ultimately, all the advantages they could have derived by paying the full amount of premiums in advance, in the usual way.

By this extension of its principle, it is assumed that Life Assurance will henceforth be much more frequently resorted to by all provident members of the community, and that the superiority of the plan of this Society will be at once admitted and appreciated.

The Rates of Premium of the "Great Britain" will be found not essentially to differ from the average rates of such Societies. They have been computed with great care and labour expressly for the use of this Establishment; and are sufficiently high to afford perfect *Security*, even under the most adverse circumstances, to the Policy holders; whilst, under ordinary circumstances, it is calculated that the *Profit* or *Surplus* (after setting apart the amount required to provide for all outstanding liabilities) will be sufficient to enable the Managers to recommend a reduction of at least 40 per cent. on the future premiums payable on each Policy, after it shall have been in force during five years. In comparing these rates with those of other Institutions, it must be constantly borne in mind, that *in every Life Assurance Office the ultimate security of the Assured must entirely depend on the sufficiency of the Rates of Premium*;—that, in order to be *safe*, the rates must always exceed the amount necessary to provide for the sums assured; and that this *excess*, which, in Establishments differently constituted, is either wholly or partially lost to the Policy-holders, is, in a Society constituted like the "Great Britain," set apart and eventually restored to them. The *Profits* of such a Society are, in fact, *savings* out of the contributions of the Members, and as such are accumulated *in the best possible way*, for their advantage. *Nov. 20.*—Obs & Chron.
