He says, "The size of trees in California, as is also the case on the more northerly coast, is occasionally quite incredible. One tree is mentioned by Humboldt as being 118 feet in girth; but this is a walking-stick to another tree at Bodega, described to me by Governor Etholine, of Sitka, as being 36 Russian fathoms of seven feet each, in span, and 75 in height; so that even if it tapered into a perfect cone, it must have contained nearly 22,000 tons of bark and timber."

And having had his workmen employed for the last two months in making up WINTER CLOTHING suitable for all classes, and cut by a first rate Foreman according to Barnett & Good's latest style of fashion, he can with confidence offer them to the public as being the best and cheapest assortment of Clothing ever offered for sale in St. John—and he is particularly desirous that parties wishing to purchase anything in the above line, and more so those that are in the habit of trying elsewhere, should call and examine the above stock of Goods.

SEAFARING MEN will find it much to their advantage by calling at the above Store, as the Proprietor keeps constantly on hand a large supply of SAILORS' CLOTHING, made up in a substantial manner—and as every article is marked in plain figures he runs no hazard in paying two prices for an article, which is too frequently the case in this City.

Persons wishing to have their Clothes made to order can have them done so expeditiously, and in a superior manner, as the Subscriber keeps constantly in his employment the best of workmen.
