The Bands are made of canvass, one inch in breadth, with two strong cords wove therein, and are sewn in reversed angular directions on the fore and aft part of the sail, the ends being spliced into the bolt-rope; thus confining destruction within the limit of the diamond formed (about forty-six inches), causing the sail to wear much longer, with but little increase of weight, and equalizing the strain over all parts. The Bands can be applied to the sails of all vessels, from a schooner to the largest ship, and supplied to sail-makers at two-pence, currency, per yard. Testimonials from Masters sailing out of Saint John, as well as other ports, can be seen on application at the Agent's Office, Prince William Street, St. John.
