The Portland Company have arranged with th... people of Bangor and other towns on that line, for an extension of the Telegraph to Calais. It only remains, therefore, for New-Brunswick to complete the last link of a perfect chain of Telegraphic communication from Halifax to New-Orleans!

Wherever Electric Telegraphs have been established in the United States, they have been found a profitable investment. On every ground therefore, we trust no time will be lost in securing this mode of communication, and by its means bring New-Brunswick into the focus of every great and important movement.—*New-Bruns.*

FIRE IN PORTLAND.—A fire broke out near Haws' Ship Yard, in Portland, between one and two o'clock yesterday morning, which consumed four buildings. We learn that they were owned by Messrs. Gallagher, Logan, Harrison, and Gordon. We understand that Mr. Logan was insured for 200*l.* and one of the other owners for 150*l.*—*Ibid.*

ST. JOHN WATER COMPANY.—At the annual meeting of the Stockholders in the Water Company, held on the 9th instant, the following Gentlemen were chosen Directors for the year:—Hon. Hugh Johnston, Hon. John Robertson, and John Boyd, M. D., John Ward, James Kirk, John Kerr, Isaac L. Bedell, Robert Jardine, William H. Street, George Young, Robert Keltie, Edward L. Jarvis, and Charles Ward, Esquires.

And at a meeting of the Directors, John Kerr, Esq. was chosen President of the Company, and Duncan Robertson, Esq. re-appointed Secretary.

An Inquest was held on the 17th instant, before the Coroner, on view of the body of John Mannel. Verdict—"Accidentally killed."

On Monday evening, a young man, named Winship, an apprentice on board the Barque *Independent*, was unfortunately drowned while engaged with others in taking a scow load of deals alongside that vessel, lying at anchor off Sand Point.

We are glad to hear that the Mission of the Rev. Mr. Gallaway has been so successful in procuring Ministers for this Province and Nova Scotia. Two have already been obtained for New Brunswick, and one for Halifax. The Rev. Mr. Hunter, of the Glasgow University and Theological Academy, who was induced to relinquish his charge of the Congregational Church in Ayr, arrived here last week in the Brig Magog, from that place. We understand that the Rev. Gentleman has been appointed to look out a suitable settlement for a considerable number of enterprising Scottish families from Ayrshire, who intend soon to remove to this Province.—*Com.*

CHLOROFORM.—An operation was performed on Wednesday by Mr. Rowland Bunting, on a Colt belonging to B. Robinson, Esq. in presence of that gentleman and several of the medical profession. Chloroform was used with the most perfect success; the animal lying completely quiet while under its influence, until brought to by a pail of cold water being thrown over him.—*Chron.*

But to suggest practicable and efficient remedies for great political evils is one of a more serious character; one which requires great experience, allied to an extensive knowledge of the various stages of the world's progress; to the possession of neither of which do I make any pretension.

I trust, Sirs, I shall not be accused of following a vain phantom, when I refer for a vivid exemplification of the correctness of this assumption even to the comparatively narrow compass embraced by the limits of this Province, or to our public press in general. When we extend our view over the civilized world, the proposition becomes self-evident.

The constitutional history of the Province, from its separation from its older sister, will not be void of interest to the future historian; and to him must be left the labour of recording it for the benefit of posterity. But a passing glimpse at the gradual developement of constitutional principles among us during the last few years, may contribute somewhat to the due appreciation of those inestimable principles recently conferred upon us as British subjects. And with this view I have written these letters.

Your readers are doubtless familiar with the difficulties which existed some years ago with reference to the Crown Land Department in this Province; and they cannot have forgotten the causes which led to the Delegations to the Throne; the refusal of the Commissioner of Crown Lands to recognize any Colonial responsibility; his determination to act in a spirit totally at variance with the expressed wishes of the people by whom he was paid. Neither can they entirely have lost sight of the unjustifiable conduct of the then Executive in appropriating to improper purposes considerable sums from the Crown Revenues, which had been transferred to the Province at the settlement of the Civil List. These were occurrences which, if they did not call into being, at least, urged onward, the growing desire for the introduction into the Province of British principles and British responsibility in all the departments of its Government. It will not be necessary for me, in these letters, to refer your readers to the corruptions which had grown up in Canada previous to the rebellion, nor to the outrageous conduct on the part of the Government which led to the recall of Sir Francis Head, and to the mission of Lord Durham, further than will be absolutely indispensible for the proper consideration of the tendency and effects of these circumstances—convinced as I am that although the rebellion was an outrageous movement on the part of the malcontents, the conduct of the Government at that time was almost equally unjustifiable. BRITANNICUS.

... the numerous remedies which stand ... table on the basis of an ancient name, are none perhaps which have acquired so great celebrity, and extensive use in so short a time as this invaluable article.—They have gained their high reputation, alone by their good works. Those who once try them, always use them again. They are grateful to the stomach;—they improve the functions of secretion, nutrition and circulation. They restore digestion and appetite, and create a natural warmth which glows through the whole system, giving it greater vitality and animation. —In BILIOUS *complaints, Costiveness, Indigestion, Dyspepsy,* and all other disorders of the stomach they produce the most happy results. For *Sores, Boils, Salt-rheum, Tetter, Erysipelas, Eruptions* of the *Skin, Scrofulous complaints,* and many other like diseases arising from IMPURE BLOOD, they have become highly celebrated. Hundreds of certificates have been received from individuals who after having taken them for a few weeks, (according to the directions which accompany the box) were cured of the most afflicting cases of *Scrofulous affections. They give* GOOD BLOOD FOR BAD, and renew the fluids and vital functions. Bottles of the boasted Sarsaparillas, contain less of the *true virtues* of that valuable plant, and are less effectual, than a single box of these extraordinary Pills. In *Colds, Coughs, Influenza, Sore Throat, Headache, Giddiness,* &c., they are recommended with entire confidence; the relief in these cases is quick and permanent. For *Fever and Ague, Fevers, Asthma, Piles, Loss of Appetite, Dropsy, Jaundice, Worms, Looseness, General Debility,* and many of the various other diseases to which the human system is liable, they have proved an infallible remedy. Their action on the bowels is of the mildest character, even *over doses* never cause griping or unpleasantness, yet they are searching and efficient. It is impossible by *words,* to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class; a *trial* only will explain the wide difference. The unhappy invalid after having tested but a single box of them, will with joy for the unexampled change wrought in his health, bear testimony to their uncommon virtues.
