## POETRY.

### WHAT IS THAT, MOTHER?

What is that, mother?—
The Lark, my child,—
The morn has but just looked out, and smiled,
When he starts from his humble, grassy nest,
And is up and away with the dew on his breast,
And a hymn in his heart, to you, pure bright sphere,
To warble it out in his Maker's ear.
Ever, my child, be thy morn's first lays
Tuned, like the lark's, to thy Maker's praise.

What is that mother?—
The dove my son,—
And that low, sweet voice, like a widow's moan,
Is flowing out from her gentle breast,
Constant and pure by that lonely nest,
As the wave is poured from some chrystal urn,
For her distant dear one's quick return.
Ever, my son, be thou like the dove,—
In friendship as faithful, as constant in love.

What is that, mother?—
The eagle, boy,—
Proudly careering his course of joy,
Firm in his own mountain vigour relying,
Breasting the dark storm, the red bolt defying;
His wing on the wind, and his eye on the sun,
He swerves not a hair, but bears onward, right on.
Boy, may the eagle's flight ever be thine,
Onward and upward, true to the line,

What is that, mother?—
The swan, my love.
He is floating down from his native grove,
No loved one now, no nestling high;
He is floating down by himself to die;
Death darkens his eye, and unplumes his wings,
Yet the sweetest song is the last he sings.
Live so, my love, that when Death shall come,
Swan-like and sweet, it may waft thee home.

## VARIETY.

THE LATE HURRICANE AT ANTIGUA.—The *Antigua Weekly Register* says—"The desolation which prevails throughout our Island we can scarcely describe, each moment brings us some new and authenticated account of buildings levelled, and Mills overthrown, with serious loss of life. Nearly all the Churches and Chapels are seriously injured. We regret to state that the most disastrous accounts have reached us from English Harbour, and the south side of the Island. English Harbour and Falmouth are represented to be nearly overthrown; Dows Hill to have suffered materially, and much of his Excellency's private property to have been destroyed. The fine buildings in the Dock Yard are said to present one melancholy mass of ruin: as also Middle Ground and all the Commissariat stores and buildings.

It is supposed, says the *Observer*, that throughout the Island there have been two thousand buildings unroofed, and seven hundred totally destroyed. By far the larger portion of these are the cottages of the labouring classes. An arrival from Barbados, announces, of the entire loss of life, there are various rumours. The number is said to exceed thirty. Immense numbers of stock and cattle of all kinds have been destroyed. The destruction among the shipping has been considerable. The brig Ruth Eliza, of Halifax rode out the gale.

H. M. ship Trincomalee, parted two cables in English Harbor, but fortunately hooked the moorings and held on. The Denison, in St. Johns Harbor, cut away her masts; the Wave, and Mary Frances, and Ocean Bride, are on shore, and the Chancellor, and Sarah Malone sunk at their moorings; the Antigua, and James Hunt escaped entirely. It is supposed that more injury has occurred to property, than from the hurricane of 1835, or earthquake of 1843.

At St. Kitts, both Churches are seriously injured, several estates and private dwellings overthrown, and considerable damage to property throughout the Island. The "Catherine Green," Laws, cut away masts in the Roads to save the ship; several small vessels were driven on shore.

The French Islands, and the Dutch Islands of St. Croix suffered very severely. A letter from Antigua states that salt gathering had ceased, and owing to the rainy season, prices advanced, and were still advancing. The hurricane was felt severely at St. Martins, but no mention is made of serious damage.

At St. Thomas, the Company's packets Medway and Eagle rode out the storm by dropping two anchors, one being made fast to the buoys.—Many houses in the town damaged.—One French ship wrecked near the light house, and subsequently sold for *eighty-five dollars!*—the crew was saved.

A French schooner left Martinique with twenty-two passengers, bound to St. Thomas, for Europe and New-York, on the morning of the storm; the schooner, passengers, and crew were all lost.

Two or three days before the Medway left St. Thomas, (1st Sept.) a vessel arrived from Porto Rico with the information of an outbreak among the black party at Cape Francois, Hayti—that Mr. Thomson, Her Majesty's Consul, in giving protection to the whites and colored people, was killed. The greatest alarm prevailed at Jacmel.

The Antigua Observer of the 17th August, contains copies of Despatches received by His Excellency Governor Higginson, from the Commissaries General of the new Republic of the Islands of Martinique and Guadaloupe, recalling to their homes persons who have been banished from either of these Islands, or who have fled from slavery whilst it existed there and also granting free pardons to all "officers—brigadiers (sergeants) corporals, and soldiers, who have deserted from the army to foreign countries."

Sir William Colebrooke, Governor Reid's successor as Governor General of the Windward Islands, was expected to arrive at Barbados on the 7th or 8th of this month.

FIRST OUT OF PORT.—The fine new propeller, *Western Miller*, left Toronto on Wednesday last, having on board 6000 bushels of new Wheat, and 550 barrels of new Wheat Flour, for the Port of Montreal, direct without transhipment. This being the first shipment, of what may be termed the Fall Work, naturally excited considerable interest.

At seven o'clock, P. M., on the same day the three-masted Schooner *Scotland*, sailed for Montreal direct with a full cargo of Wheat, she is to be towed down and up the river, and is the second Lake going sailing vessel which has attempted the voyage.

FROM CHICAGO TO LIVERPOOL.—We learn from the Montreal *Transcript*, that an application has been made to the Government on behalf of a commercial house at Chicago, to allow a vessel from that port, *bound direct to Liverpool*, to proceed through our inland waters. "We do not know," says the *Transcript*, "how the application has been received; but, under any circumstances, it offers a practical proof of what has been often said respecting the course of the Western trade."

HENRY ST. GEORGE TUCKER, half brother of the late John Randolph of Roanoke, died at his residence in Winchester, Virginia, on the 28th August. Mr. Tucker has filled the offices of Deputy Paymaster General to the forces in Nova-Scotia and New Brunswick, Chief Justice and Administrator of the Government of Newfoundland, Provincial Secretary of Upper Canada, Member of the House of Representatives of the United States, Professor of Law in the University of Virginia &c. &c. He was cousin to Mr. Tucker, the Registrar of this Province.—*Quebec Gazette.*

BISHOP DEMERS, of Vancouver's Island, arrived in Montreal on Tuesday last, after a journey of six months from Oregon, having gone out of his way to visit Bishop Provencher and the missionaries at Lord Selkirk's Settlement on the Red River. The Right Reverend gentleman brought no later news from Oregon, but found on his arrival in Montreal a letter directed to him from Wallywete, of the 2d April, informing him that the Cayuses, being persuaded that the Americans only wished to avenge the Wellatpou murders, were going to cease making war on them, and that the missions in the diocese of Walla-Walla would soon be re-established. The catholics of Wallamette, who had greatly contributed to the victory, were bent upon this measure.

Bishop Demers is a Canadian, as well as Bishop Provencher of Red River, Archbishop Blanchet of Oregon City, and his brother the Bishop of Walla-Walla. He visits Canada with a view of obtaining assistance for the missions of Oregon.

FROM OREGON.—Right Rev. Dr. Meis, Bishop of Vancouver, in Oregon, arrived at Dubuque, Iowa, on the 22d ult. He left Walla Walla on the 20th of March last, and crossed the Rocky Mountains alone and on foot. In many places, he says, the snow was twenty feet deep. He is on his way to Europe.

The Yellow Fever was stated to be on the decrease at New Orleans. On the 7th instant, the deaths were twenty, and on the 8th, seventeen.

The U. S. ship-of-the-line Vermont, was launched on the 14th inst. from the stocks in Charleston Navy Yard, on which she has rested twenty-nine years.

*Perilous Accident at Boston.*—On Thursday afternoon as the passenger train of cars for Fall River was about to cross the bridge at South Boston, the engineer perceived that the draw was off, and gave orders to back steam, but not in time to prevent the engine, tender, and one baggage car from being precipitated off the bridge into the water. No lives were lost. The engineer and fireman succeeded in jumping off, and two men who were on the baggage car escaped with wet jackets. The fastening of the passenger cars breaking, prevented their being dragged into the water, and thus probably many lives were saved.

NEW MEXICO AND CALIFORNIA.—The New-York *Journal of Commerce* of Saturday last contains extracts from Major Emery's description of a tour from the Missouri frontier to Santa Fe, thence down the Rio Grande to near El Passo del Norte, thence Westward to the River Gila, and down that river to where it empties into the Colorado, and thence to the Pacific Ocean. The entire route of Major Emery, after entering New-Mexico from the ... must have been at least twelve hundred ... the exception of the narrow valley ... e, and some fertile patches along ... however, can only be cultivat-... tion may be summed up in two words—*barrenness and desolation.* It will be noted, remarks the Journal of Commerce, that his entire route, after leaving the Rio Grande, as well as a portion of the country previously traversed, was in the Southern part of the two territories which the "free soilers" have told us was by far the most valuable part of them. We now see how much they knew about it. The fact unquestionably is, that as a whole, the portion of California and New Mexico, lying South of lat. 36 30, is about the most worthless territory upon which the sun ever shone; while the portion North of that latitude, along with much poor land, comprises extensive tracts of most excellent soil, together with the best harbor in the world, that of San Francisco and mines of quick silver, gold, and other valuables, and withal an abundance of live oak and other timber, suitable for ships, and all the wants of a large and prosperous community. The largest of these fertile tracts is the Sacremento valley, which Col. Fremont describes as 50 or 60 miles wide by about 500 long, embracing an area of 25,000 or 30,000 miles, equal to two-thirds of the State of N. York. The Sacramento empties into the bay of Francisco, and so all this fine country is immediately connected with that wonderful harbor. Here are the principal American settlements in California, and here too must inevitably be the seat of enterprise, commerce and wealth, of North Western America. Monterey, the capital of California, which lies to the Southward of San Francisco, is also North of lat. 36, 30; and in short, so far as is yet known, the portion of California lying South of that latitude, is worthless compared with the Northern portion. Slaves would starve to death on a great part of it, and their masters with them.

FROM CAYENNE.—Papers to the 12th of August have been received at Salem by an arrival from Cayenne. Slavery was abolished by public decree in French Guiana on the 10th of the month, in virtue of a decree of the Republic, of the 27th of April, and in the name of the French people. The proclamation was made amidst much ceremony, and in the presence of a vast concourse, both civil and military. A solemn mass was celebrated on the occasion, and afterwards an immense number of the new citizens and their families celebrated the day with dances and other sports.

DEMOCRACY VS. ROYALTY.—We are bound to believe, that when a King is deposed and a Republic established, everything will be simple, purely republican, and an absence from the glare and glitter of royalty; yet it has so happened, that the most severe republicans in the late revolution in France, when placed in power, preferred a palace for a residence to a plain hotel, and Louis Blanc, who headed the working men, would not be content with a dinner unless served in silver and a dozen covers, when the little editor under Louis Philippe, could scarcely afford a *polage julien.* The fete of Mr. Editor Marrast, President of the Chamber, was one of the most gorgeous reunions that France has witnessed for some time. The display in his *saloons* was truly and regally magnificent. Gold glittered everywhere amidst the choicest paintings, the most recherche articles of furniture and virtu and the rarest plants and flowers, the whole being lit up by massive silver and crystal candelabras.—*Vive la Republique!*

BROTHER AGAINST BROTHER.—Smith O'Brien for whose arrest a reward of £500 has been offered by the Lord Lieutenant of Ireland, has a brother, Sir Lucius O'Brien in the House of Commons. The brother gave his vote in favour of the bill for suspending the *habeas corpus* act, knowing that his brother would be one of its first victims. He spoke on the occasion as follows: "At first I intended to vote against the bill, because it was likely my brother Smith would be one of its first victims,—but upon second thought, however, the prevention of bloodshed has weighed down such a fraternal feeling. Smith O'Brien, my brother, must take his chance. I must vote for the bill."
