The New-Brunswick Almanac

AND REGISTER,

FOR THE YEAR OF OUR LORD

1849,

Prepared under the Superintendence of the
FREDERICTON ATHENÆUM.

THE Contents of the prepared Work will be arranged under the following general heads, viz:—Preliminary Notes, Astronomical and Nautical Information, Provincial Register, Miscellaneous Register, and Useful Tables.

The Astronomical Calculations are entirely new and carefully adapted to the Province: much local history is introduced, and many Papers and Tables now published for the first time, will give additional interest to the work.—The Composition of the Literary and Scientific Association with whom it originated, ensures access to the best sources of information, and is a guarantee for the authenticity and accuracy of its contents.

The work having been got up with a view to supply some of the deficiencies of the Provincial Almanacs heretofore in use, it is hoped that the attempt to elevate their character towards the standard now maintained in other countries, will be favourably received by the public, and accepted as evidence of a sincere desire to aid in disseminating sound information under a cheap form throughout the country.
