AGRICULTURAL FAIRS IN ALBERT COUNTY, FOR 1849.

Messrs. Editors,—The following is an account of the proceedings had at the Fairs held under the direction of the *Albert County Agricultural Society*, which the Directors have ordered to be enclosed to you for publication in the Courier.

This being the first thing of the kind in our County, it had been determined this year to have two Fairs, one in Hillsborough, and the other in the lower part of Hopewell, and the requisite notices thereof had been published in the County in July or August last. The Fairs in both Districts were numerously attended, and the competitors for Prizes in every article named in the Advertisement, were more numerous than the most sanguine expected to see.

I am, Gentlemen, your obedient servant,
S. G. MORSE, Secretary, Albert County Agricultural Society.

Hopewell, County of Albert, 19th October, 1849.

MISCELLANEOUS EXTRACTS.

Mosquito Troubles.—The American papers, for some weeks past, have made frequent reference to a correspondence between Mr. Crampton, the British Minister, at Washington, and Mr. Clayton, the United States Secretary of State, relative to affairs at Mosquito. The Boston Traveller furnishes us with the following explanation of the subject of the reported disagreement :—

"It will be recollected that the British Government has adopted, so to speak, one of the wild savages of Central America, and set him up as a king, claiming for him the territory in the vicinity of the San Juan river, the outlet of the Nicaragua, including the exclusive right of navigating that river. The real cause of this interest suddenly taken by the British Government in the affairs of an ignorant savage, is perfectly transparent. The most feasible route for a ship channel across the Isthmus exists at this point, to the success of which project, the navigation of the San Juan river is essential. The British Government, as the "*guardian*" of the Mosquito king, now exercises jurisdiction over the territory, and denies the citizens of any other nation the privilege of navigating the San Juan.

The Republic of New Grenada, to whom this territory rightfully belongs, has recently signed a contract with a company from the United States, granting them the exclusive navigation of the San Juan river for the term of fifteen years, on the condition that the company commence cutting a canal from the lake of Nicaragua to the Pacific ocean, within a year from the date of the contract. The affair, which has been pending for nearly two years, is thus brought to a crisis. The American Government has probably refused to acknowledge the puppet set up by the British Government, as "King of the Mosquito Territory," and has recognised the jurisdiction of the Republic of Nicaragua, over the territory, and asserted the right of our citizens, under grant from that Government to navigate the San Juan.

Riot at Trinidad.—The Jamaica Despatch of the 20th ult. contains the subjoined account of an alarming riot which took place at Trinidad, on the 1st of October :—

"It is our painful duty to record, to day, an event wholly unparalleled in our peaceful annals. Law and order have been, for the last two days, in abeyance. Government House has been pelted by a mob; its windows broken, and stones and brickbats hurled at the Council whilst assembled in the discharge of its legislative duty. The police, in exerting themselves to maintain order, have been stoned, cruelly beaten and overpowered, so as to necessitate the calling out of the military. The military have also been stoned, and forced to fire in self-defence. Two deaths and one or two gunshot wounds have been the consequence. The Government buildings have been converted into a temporary barrack, and are at this moment occupied by the 88th, by the company of the 2d West India regiment stationed here, by the artillery detachment, and by the men of Her Majesty's sloop *Scorpion*, now in harbour. Upwards of 300 special constables have been sworn in, and a volunteer horse patrol formed, at least, seventy strong. On the other hand, the mob, finding the force in town too strong for them, have sent off a portion of their numbers to the eastward, to burn and lay waste the sugar estates in that direction. The [illegible]ass-houses of Dinsley, Macoya and El-Do[illegible] estates, have been already fired and burnt [illegible] ground. Such is the state of things at the [mo]ment we write. The immediate and osten[sible] object originally brought forward as the cause of the outbreak, was the regulations recently passed for the Government of the Royal jail of Port of Spain, which regulations, amongst other things, provided, that debtors committed under the petty civil courts ordinance should have their hair cropped close, and wear a prison dress, and be liable to be called upon by the jailor to assist in any work going on in the jail.

Horrible Murder in St. Louis—Several Persons Shot by two Insane Frenchmen.—St. Louis, Oct. 30, 1849.—An awful tragedy occurred last evening, at Barnum's Hotel, the particulars of which are as follows :—A few days since, two young French gentlemen, calling themselves Gonzales de Montesque, and Count Raimond de Montesque, arrived in this city from Chicago, and took lodgings at Barnum's Hotel, stating that they were on a hunting excursion through the West. Nothing particular was observed in their manner until last evening, when, about 11 o'clock, as Mr. Barnum, a nephew of the proprietor, and J. J. Macomber, steward of the house, were retiring to bed, one of the French gentlemen came to the window on the gallery, and tapped lightly on the same. Mr. Barnum pushed the curtain one side, when the man outside fired a gun—the ball from which passed through Mr. Barnum, and two buckshot lodged in the arm of Macomber. At the report of the gun, Mr. Albert Jones, a coachmaker, residing in Third Street, but who had a room adjoining, rushed to the door to see what was the difficulty. He had scarcely passed the same when he received a shot which felled him to the floor, and he died in a few moments after. A couple of gentlemen who had also entered the gallery, were struck with buckshot ; their names were H. M. Henderson, wounded in the forehead, and W. H. Hubble, of Liberty, wounded in the arm. The assassin was immediately pursued to his room, where, after a desperate struggle, he was secured. He is the younger of the two brothers. Both of them were arrested, and affected to be insane. Mr. Barnum is still living, but is very weak. A few days since, the same fellows made a similar attempt on the landlord of a public-house, at Alton, Ill.

St. Louis, Oct. 30—p.m.

Mr. Barnum is still alive, but it is certain that he cannot recover. The trunks of the French brothers were broken open this morning, and letters found, shewing them to be Parisians of wealth and family. They also contained some splendid accoutrements, and $4,500 dollars in German gold coin. They are evidently insane. Both of them fired fatal shots. They refuse counsel, and state that they will plead their own cause. Albert Jones, who was shot, was buried this afternoon. He was shot by an ounce ball and sixty-six large shot. The Mayor has ordered a strong police force to protect the jail—Lynch Law being threatened.

The New American Minister in London.—From the *Court Circular*, dated Osborne, Oct. 11, we learn that his Excellency Abbott Lawrence, Envoy Extraordinary and Minister Plenipotentiary to the United States, with his lady and family, has arrived in London, and entered upon his official duties. The London *Daily News* has a very complimentary notice of Mr. L., the fame of whose talents preceded his arrival. The Liverpool *Times* remarks, "that he will prove a discreet and accomplished ambassador, there can be no doubt. We cordially congratulate him upon the high diplomatic position he has attained, the discharge of the duties of which cannot fail to reflect honor and dignity on the great republic."

Apprentices.

FARMERS and others desirous of having either male or female apprentices of sufficient age to be of service, are requested to make early appplication to the Commissioners of the Alms House. A number of fine healthy children will be bound out to proper persons, on immediate application.
Alms House, St. John, 9th June, 1849.

THIS preparation has now been before the public nearly twenty years. Its great intrinsic merits have steadily advanced the sale and use of it, and it now enjoys a prominent position in the public favour.

The unexampled success which has attended its administration in every case where the patient was really afflicted with Worms, and the fact, that it is not a 'nostrum' or 'cure all' but a specific for one disease only, certainly renders it worthy of the attention of Physicians; a great many of whom having seen in the course of their practice the good and remarkable effects resulting from its use, have had the magnanimity to surrender their professional scruples and prescribe it as the best remedy known.

Every Druggist or Physician who has had any curiosity to enquire into cases where the Vermifuge has been made use of, can furnish abundant evidence of its efficacy in expelling Worms, and the good effect produced on the general health of the patient.

It is mild in its operation, contains no calomel nor other dangerous ingredient, and can be given with perfect safety to the most delicate infant.

The Proprietors have in their possession hundreds of Certificates of its good effects, which will be exhibited to any who wish to see them. The following are but a specimen of them.

CERTIFICATE OF THE MAYOR OF THE CITY OF LANCASTER, PA.
Lancaster City, July 3d, 1844.

Messrs. B. A. FAHNESTOCK & CO.

Gentlemen :—Several of the younger branches of my family labouring under symptoms indicating worms, induced the application of various remedies and I am happy to say that your Vermifuge had the desired effect of, in one instance, removing the almost incredible number of 151 of the large worms from one patient, which in addition to its other tested qualities in my family, establish the efficacy of your Vermifuge as a sure cure.

M. CARPENTER, Mayor, Lancaster City.

Washington, D. C. March 23d, 1846.

This is to certify, that I gave some of B. A. Fahnestock's Vermifuge, to a child of mine between three and four years old, and it passed 27 worms. I recommend it as a highly valuable medicine. D. HEPBURN.

HOLLOWAY'S PILLS.

CURE OF ASTHMA.

Extract of a letter from Mr. Benjamin Mackie, a respectable Quaker, dated Creenagh, near Loughall, Ireland, dated September 11th, 1848.

To Professor HOLLOWAY.

RESPECTED FRIEND,—Thy excellent Pills have effectually cured me of an Asthma, which afflicted me for three years to such an extent, that I was obliged to walk my room at night for air, afraid of being suffocated if I went to bed by cough and phlegm. Besides taking the Pills, I rubbed plenty of thy Ointment into my chest night and morning.
(Signed) BENJAMIN MACKIE.

CURE OF TYPHUS FEVER, WHEN SUPPOSED TO BE AT THE POINT OF DEATH.

A respectable female in the neighbourhood of Loughall, was attacked with Typhus Fever, and lay for five days without having tasted any description of food. She was given over by the Surgeon, and preparations were made for her demise. Mr. Benjamin Mackie, the Quaker, whose case is referred to above, heard of the circumstance, and knowing the immense benefit that he himself had derived from Holloway's Pills, recommended an immediate trial, and eight were given to her, and the same number was continued night and morning for three days, and in a very short time she was completely cured.

N. B.—From advice just received, it appears that Colonel Dean, who is with his Regiment in India, the 21st Fusileers, cured himself of a very bad attack of Fever by these celebrated Pills. There is no doubt that any Fever, however malignant, may be cured by taking, night and morning, copious doses of this fine medicine. The patient should be induced to drink plentifully of warm linseed tea or barley water.

CURE OF DROPSY IN THE CHEST.

Extract of a Letter from J. S. Mundy, Esq. dated Kennington, near Oxford, Dec. 2d, 1848.

To Professor HOLLOWAY.

SIR,—My Shepherd for some time was afflicted with water on the chest, when I heard of it, I immediately advised him to try your Pills, which he did, and was perfectly cured, and is now as well as ever he was in his life. As I myself received so astonishing a cure last year from your Pills and Ointment, it has ever since been my most earnest endeavour to make known their excellent qualities.
(Signed) J. S. MUNDY.
