POETRY.

YOU ASK ME HOW I LIVE.

BY JOSEPH HOBBINS.

Living friendly, feeling friendly,
Acting fairly to all men,
Seeking to do that to others
They may do to me again,
Hating no man, scorning no man,
Wronging none by word or deed;
But forbearing, soothing, serving,
Thus I live—and this my creed.

Harsh condemning, fierce contemning,
Is of little Christian use,
One soft word of kindly peace
Is worth a torrent of abuse;
Calling things bad, calling men bad,
Adds but darkness to their night,
If thou wouldst improve thy brother
Let thy goodness be his light.

I have felt and known how bitter
Human coldness makes the world,
Ev'ry bosom round me frozen,
Not an eye with pity pearl'd;
Still my heart with kindness teeming
Glads when other hearts are glad,
And my eyes a tear-drop findeth
At the sight of others sad.

Ah! be kind—life hath no secret
For our happiness like this;
Kindly hearts are seldom sad ones,
Blessing ever bringeth bliss.
Lend a helping hand to others,
Smile though all the world should frown,
Man is man, we all are brothers,
Black or white or red or brown.

Man is man through all gradations;
Little recks it where he stands,
How divided into nations,
Scattered over many lands,
Man is man by form and feature,
Man by vice and virtue too,
Man in all one common nature
Speaks and binds us brothers true.

MISCELLANEOUS SELECTIONS.

IMPORTANT TO SHIP-OWNERS.—We have been shown an order of the Hon. the Board of Customs, No. 42, dated the 30th ult., to the Controller of H. M. Customs at St. Andrews, which directs him—"that, in the event of British Vessels being mortgaged to foreigners, such mortgages should be recorded when presented to" him "for that purpose."

This is certainly a most important concession, and is, besides, at variance with the letter of the Registry Law, which says,—and it is so expressed in the Register of every vessel:—"that no foreigner, directly or indirectly," shall have "any share or part interest" in British Shipping.

By this, certainly, new regulation, a fisherman may get all his supplies in an American port—the owner of a British ship in a foreign port, all the necessary repairs, under the law, and supplies for his ship, both having it in their power to present, to the party with whom they severally treat, a mortgage on their vessels as security for payment.

We lay this information before our readers, as we think it *must* be as new to them as it was to us but a short while ago.—*Charlotte Gazette.*

NEWFOUNDLAND.—The Revenue bills passed by the Legislature of Newfoundland having received the assent of the Home Government, a reduction of the Custom House establishment in the Island has taken place. The former Collector at St. John's, (Hon. Capt. Spearman,) retires on a pension, and Messrs. Mellersh, Prowse, Bethune, and Berkett have been placed on the redundant list. Mr. Lewin has been appointed a Landing Waiter at the Mauritius, and Messrs. Hindmarsh and Bennett, Clerks of the Customs at Jamaica.

Geo. J. Hayward, Esq. has been appointed Controller of Customs and Navigation Laws at St. John's, and E. E. Brown, Esq. at Harbour Grace. James Bayly, first clerk and searcher at St. John's, and Joseph R. Mullings, second clerk and searcher.

The office of Colonial Treasurer, rendered vacant by the death of the late incumbent, Mr. Morris, has been conferred upon the representative for the district of Bonavista, Mr. Robert Carter, who held the appointment of Supervisor of Streets; and the Supervisor has been succeeded in his office by Mr. James Dougles.—*Ledger.*

PHILLIP'S FIRE ANNIHILATOR.—On Friday last a number of very interesting experiments were made at the London Gas Company's works Vauxhall, with this ingenious and remarkable invention. These were preceded by an explanation from Mr. Phillips of the manner in which he was led to the discovery, and of the principles upon which its success depends. He stated that while watching a volcanic eruption on the Mediterranean, he observed that the huge body which was discharging from the crater did not extinguish the flame which accompanied it, while the smoke of a brushwood fire swept by the wind put out another brushwood fire near it. He exemplified the little power of water in extinguishing flame by several simple experiments, and he then introduced the "fire annihilator," and at once put out very large fires fed with the most combustible materials. The extraordinary speed, ease and certainty with which this invention acted, in all the trials to which it was put, excited the warm admiration of many gentlemen of high scientific attainments who were present; and there can be little doubt that the "patent fire annihilator" is a very valuable addition to the discoveries of the age. In construction and application it has the great advantage of being placed where it would be most accessible in cases of emergency. The gases which it evolves, and which are found so efficacious in extinguishing flame, are produced from a compound of charcoal, nitre, and gypsum, which again is ignited by breaking a glass bottle containing sulphuric acid. The acid drops upon chlorate of potass and sugar, and instantly a large body of vapour is evolved with great force from a tube connected with the copper or metal chamber in which the whole materials are enclosed. This vapour extinguishes flame with a rapidity which is truly marvellous, and by it Mr. Phillips appears to have arrived at the simplest and most certain means of effecting a large saving in the immense annual loss of property and life by fire in this country. That loss is calculated to have amounted in property to £2,000,000. A company has, we understand, taken up the invention, and we have no doubt that it will soon supersede the long rows of buckets, filled with water, with which the corridors of our public buildings are now often garnished.—*London Times.*

ANOTHER FIRE KING.—M. P. H. Boutigny, whose beautiful experiments on the spheroidal condition of water created so much interest at the meeting of the British Association at Cambridge, has lately been pressing his researches on heat in a somewhat novel direction. He has now proved that metals in a melted state have, in a remarkable manner, the repulsive force of incandescant surfaces, and that the tricks of fire-eaters and conjurors belong to a high class of physical facts. He says, "I have made the following experiments:—I divided or cut with my hand a jet of melted metal of five centimetres, which escaped by the tap. I immediately plunged the other hand into a pot filled with incandescant matal, which was truly fearful to look at. I involuntarily shuddered, but both hands came out of the ordeal victorious. By taking some precaution, we may become truly invulnerable.—The following succeeds best with me:—I rub my hands with soap, so as to give them a polished surface: then, at the instant of trying the experiment, I dip my hands into a cold solution of sal-ammoniac saturated with sulphurous acid." The experiment has been tried by Boutigny with melted lead, bronze and cast iron.—*London Athanæum.*

HER MAJESTY AND HER IRISH GALLANTS.—*Saunders's News Letter* states that when the assembled multitude broke through the barrier of military and police which surrounded the Queen after their review in the Park, one of the boys cried out with stentorian lungs,—"Blood alive, madam, get rid of the horses and we'll carry you home ourselves." Another brawny son of the sod having seized hold of the Queen's arm with the most rapturous delight, her Majesty turned round to the royal consort and exclaimed, "Albert, I fear these good natured Irishmen will take me away from you."

AN IRISH JACK SHEPPARD.—A letter from Roscommon of Monday's date gives the following almost incredible particulars of the escape from the county gaol of a malefactor under sentence for conspiracy to rob and murder. The pages of the *Newgate Calendar* might be ransacked in vain for a feat of more daring dexterity:—"Michael Hanelly, one of a desperate gang (some of whom were convicted at last Roscommon assizes,) charged with conspiring to rob and murder Mr. M. C. Browne, J. P., effected his escape out of the above gaol on Friday night last, under circumstances fully displaying what a cool and determined character he is. He was confined in the solitary cell for bad conduct, out of which, at midnight, he made his escape, breaking through two doors by smashing the locks. This brought him into the chapel, to get to the door of which he had to climb over an iron-spiked railing 14 feet high. Having effected this, the next obstacle was the huge door of the chapel. He wrenched the four massive nuts off the lock, and appears to have failed in his attempt to get the lock off, as he got out by breaking the heavy hasp into which the bolt of the lock shot. This opened the way into an enclosed passage between two of the day yards. Here he mounted a fixed ladder, leading up to the cistern, and by a drop of about 16 feet on hard paving, landed on the other side. This is an enclosed corridor, into which all the day yards open, as also the cook-house and bread store. The latter he broke into, and took thereout one loaf of white bread. Out of this enclosure he got over a wall about twelve feet high, into the governor's yard, out of which he took a ladder about 15 feet long, and a 1½-inch thick board, and, unlocking the gate of the yard, the key being merely turned, he proceeded round the inner grounds of the gaol to where the store-yard ends, and where he would have only one wall to cross. Here he tied the ladder and board together, and thus got over the boundary wall, which is about 25 feet high. Having got on the wall he pulled up the ladder, and let himself down at the other side."

CURIOUS CASE OF INSANITY.—There is a man in Cincinnati, who is quite insane in every point but one; he fancies he can understand the hog language, and insists that he has even heard them concocting plans to seize the city. He has repeatedly called at the Mayor's office and surprised him by the earnest and serious manner in which he made the communication, as he had known the singular being to have once been a worthy and respectable citizen. —This man owned property near these hog-pens, and his business being of a public nature, it suffered in consequence of its vicinity to an offensive nuisance. Inquiry and subsequent facts proved that the annoyance so worked upon his weak mind as to entirely derange his reason.

CHOLERA AT BARRANQUILLA (CUBA).—Capt. Hull, of the brig Creole, arrived at New-York on Sunday last, after a long and tedious passage of twenty-nine days, states that 600 had died of the cholera out of a population of 5000 or 6000, at Barranquilla, (Cuba,) near Savanilla.

THE CUBAN INSURRECTION.—The Washington correspondent of the Baltimore Sun makes the following statements in relation to this subject:

"Despatches, we understand, have been received from the American Consul at Havana, confirming, in a great measure the rumored insurrection in Cuba. A soldier in the cantopian Regiment, while on parade, was heard to shout "Viva la Republica!" "Viva Gen. Lopez!" The officer in command immediately drew his sword and advanced to cut him down, when at that instant another soldier levelled his musket and shot the officer through the heart. General Lopez, for whom the soldier shouted, is the Spaniard who has already made some noise in New-York, and is believed to be one of the principal movers in the late "secret expedition." If proof were necessary to show that the object of the expedition was a descent upon Cuba, this would go far to prove it. The Cuban Government were seriously thinking of letting the slaves loose against the insurgents; and if this horrible plan is put into operation, we may look for a repetition of the frightful scenes of St. Domingo.

The Consul, it is understood, wrote for a vessel of war to protect American citizens in Cuba, as there was a strong feeling against the Americans, upon the supposition that they were inciting the disturbances. Fortunately for the safety of our citizens there, the Government had despatched, several days ago, the fine frigate Germantown to Havana, which place probably reached a short time after the date of the Consul's despatch.

Avon Bridge Company.

A DIVIDEND of Ten Shillings per Share on the Stock of the AVON BRIDGE COMPANY was declared, payable on demand, for the half year ending first August, 1849.

By order of the Board of Directors.
H. KING, *Sec'y.*
Windsor, 31st August, 1849.—4w

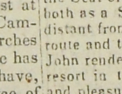
FELLOWS & CO., *Manufacturers.*

N. B. Any choice SYRUP made to order in its proper season at short notice. F. & Co.

September 8—6‡

To be LET, for a Term of Years,
IMMEDIATE POSSESSION GIVEN.
The "Douglas Arms" Inn,
on the Nerepis Road.



THE above Establishment has been re-built on a large and splendid scale, within the last two years, and is in every way suited to the situation and growing importance of that beautiful and picturesque part of the country. The HOTEL, together with the valuable FARM attached to it, will be Let for a period of from three to five years.

The "DOUGLAS ARMS" being on the main road to Fredericton, which connects St. John with the Seat of Government, has been long established both as a SUMMER and WINTER HOTEL; and is distant from this City eighteen miles by the land route and thirteen by water. Its proximity to St. John renders it a most convenient and comfortable resort in the summer season for private families and pleasure parties.

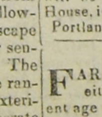
The country in the vicinity of the *Douglas Arms* offers many attractions to sportsmen and others. The House contains seven comfortable Parlours, and one large Dining Room, with franklins in each—twenty-one Bed Rooms—a Grocery Shop, or Bar Room—a large brick and Roman cement Tank for holding rain water—a well arranged Kitchen, in which there are a Brick Oven, a large Boiler, and an excellent Cooking Stove. On the same flat there are also a large Hall Stove, and a convenient Frost Proof Cellar.

In addition to a sufficient number of Barns for the use of the Farm, a new one has just been finished, forty feet wide by fifty feet long, for the accommodation of the Summer and Winter travelling.

The Douglas Arms Inn having been re-built expressly for the business of a Hotel, affords an excellent opportunity for a safe and profitable investment to any person possessed of sufficient means, and who is properly qualified for the management of a respectable and genteel business.

For particulars apply to
WM. LIVINGSTONE,
Sept. 8. Apothecaries' Hall.

VALUABLE FARM FOR SALE.



FOR SALE, a lot of LAND containing 200 acres, in the Greenfield Settlement, Parish of Burton, County of Sunbury. There are about sixty acres of the land under cultivation, and there are two dwelling houses, with outhouses on the premises. The land is of excellent quality, with a good growth of wood upon it.

If not sold previous to the 1st of November, it will be offered at Public Auction at the Court House, in Burton. For further particulars apply to

Portland, Sept. 8, 1849.—1℔p. S. SHANKS.

Apprentices.

FARMERS and others desirous of having either male or female apprentices of sufficient age to be of service, are requested to make early appplication to the Commissioners of the Alms House. A number of fine healthy children will be bound out to proper persons, on immediate application.

Alms House, St. John, 9th June, 1849.

April 28.

Offley, Webber, Forrester & Cramp, OPORTO,
6, St. Helen's Place, LONDON;
Lancaster Buildings, Liverpool,

HAVING successfully introduced into England the system of supplying consumers of Port WINE, directly from their own Cellars, with their well-known Vintages, beg respectfully to acquaint the Gentlemen of Saint John, that, for the purpose of offering their Wines to them, they have appointed as Agents

Messrs. Colley & Webster,

who alone are authorised to supply the same.

PAUL CLOSSMAN, & BOYES, Bordeaux and London,

THROUGH the present medium, have pleasure in announcing that they have appointed Messrs. COLLEY & WEBSTER sole Agents for the Sale (in the North American Provinces,) of their fine flavoured and carefully selected FRENCH and RHENISH WINES.

Colley & Webster,
Wine and Spirit Merchants,
PRINCE WILLIAM-STREET,

WITH reference to the foregoing announcements, beg respectfully to inform their friends and the public generally, that they are opening the Premises lately occupied by Messrs. UNITED KINGDOM
LIFE ASSURANCE COMPANY, OF LONDON.
Capital £1,000,000 Sterling.
The Annual Income exceeds £94,000 Sterling.
Division of Profits in 1841 and 1848.

IN 1841, the Company added a Bonus of £2 per Cent. per Annum on the Sum Assured, to all Policies of the *participating class*, from the time they were effected to 31st December, 1840; and from that date to 31st December, 1847, £2 5s. per cent. per Annum was added at the General Meeting on 6th July, 1848, without reference to the age of the Assured.

The plan of Distribution of Profits being different to that adopted by *some other* Companies, the following Table is submitted for the information of the *many* persons Assured by the Company in this Province, and of the Public in general:

Age.	Annual Premium per cent. paid by the Assured.	Bonus per cent. added to the Policy per Ann.	Bonus equal to the undermentioned per cent. on the Annual Premium.
15	£1 14 1	£2 5 0	£132 0 7
20	1 18 8	2 5 0	116 7 7
25	2 2 11	2 5 0	104 17 1
30	2 8 2	2 5 0	93 13 0
35	2 14 8	2 5 0	82 6 4
40	3 3 4	2 5 0	71 1 1
45	3 14 9	2 5 0	60 4 0
50	4 10 7	2 5 0	49 13 7
55	5 10 10	2 5 0	40 12 1
60	6 17 9	2 5 0	32 13 4

ELUCIDATION:—A person aged 45 years, and who paid an annual premium of £3 14s. 9d. per cent. received an Annual Bonus equal to £60 4s. per cent. on the amount of premium paid. A person of 25 years, who paid an annual premium of £2 2s. 11d per cent. received an Annual Bonus equal to £104 17s. 1d. per cent. on the premium. And a person of 15 years, who paid an annual premium of £1 14s. 1d. received an Annual Bonus equal to £132 0s. 7d. per cent. on the premium paid.

Notwithstanding these *unprecedented* divisions of Profits, the Premiums are on the most moderate scale, AND ONLY ONE HALF NEED BE PAID FOR THE FIRST FIVE YEARS, when the Insurance is for Life.

The EXTRA heretofore charged for Passage from America to Europe, or from Europe to America, within the limits, by a recent vote of the Directors, has been RESCINDED. No extra charge made for Residence on this Continent North of 36 degrees North Latitude, and 50 and 85 degrees of West Longitude.

Information as to Rates of Premium, forms of proposals, &c. and Pamphlets, furnished gratis by application to A. BALLOCH,

Agent for New-Brunswick.

Agency, Prince William Street, Saint John. 21st April, 1849.

BRITISH AND CONTINENTAL PORTRAIT CLUB

Offices—Stoke, Devonport, England.

THE Managers beg to offer their grateful acknowledgements to those Ladies and Gentlemen who have so liberally patronised the above Association, and to apprise them that the distribution of Portraits of Race Horses, will comprise those entered for the "CAMBRIDGESHIRE STAKES," run at Newmarket, October 23d, 1849.

5,000 MEMBERS TO EACH CLASS;

First Class Membership £10. Second do. £5. Third do. £1.

Those Members who gain the portraits of the First, Second, and Third Horses, and the whole of the other Horses that compete in the Race, will be presented with the following Bonuses:—

	1st Class Bonuses	2d Class Bonuses	3d Class Bonuses
To the Member who gains the Portrait of Winner or first Horse,	£20,000	£10,000	[illegible]
Do. do. Second Horse,	10,000	5,000	[illegible]
Do. do. Third Horse,	6,000	3,000	[illegible]
To each of those who gain the portraits of the other Horses that start,	600	300	[illegible]

It is hoped that the above liberal scale of Bonuses will give to all parties the same satisfaction as that which has secured for the British and Continental Portrait Club so large a share of the patronage. Distant Subscribers are advised to make early application. Drafts, Bank Notes, or Coin, addressed and made payable to

Mr. FRANCIS HAMBLY, Treasurer.

Numbers forwarded on receipt of a remittance. Drafts payable at sight.

N. B.—The Allotment to be conducted by wholly disinterested parties, who are to be appointed by the Members present at the Meeting. Absent Members may rely upon having equally fair and legitimate chance of winning, and will have the result transmitted to them immediately after the decision. Five per cent Commission deducted on the presentation of Bonuses.

Aug. 7. GEORGE [illegible]

Veterinary Surgery. REMOVAL.

THE Subscriber respectfully informs his numerous friends and the public generally, that he has removed his Horse Shoeing and Veterinary Establishment (late of Union-street) to Duke-street, next door to the residence of Mr. McGuirk, where he is prepared by better arrangements to offer his services to the community in the most efficient manner, and with increased hopes of success in the various branches of his business. The various diseases incident to horses, whether on the limbs externally or seated in the internal organs of the system, will be treated in accordance with the nicest principles of modern art, refined and enlarged by a long course of professional experience in Scotland, the city of Dublin, where he has successfully practised Veterinary Surgery under the best masters of the day.

His Horse Shoeing, whether for ordinary purposes or for the turf, has often been pronounced by competent judges as performed in the first style of workmanship, as regards the comfort of the horse, and the preservation of the hoof. JAMES [illegible]
