The Courier.

From the Fredericton Head Quarters, June 5.

THE LATE RECTOR OF MAUGERVILLE AND BURTON.—The mortal remains of this respected and beloved Clergyman were, by his own last request, brought for interment to the little Church at St. Mary's, three miles from Fredericton. The funeral procession, which consisted of about twenty of the late Rector's sorrowing parishioners, proceeded, partly by water and partly by land, to the spot. Truly if a day had been selected from the whole year, one could not have been chosen more heavenly, nor a spot more pleasing to the mind than the little knoll on which the pretty cruciform Church stands. Many, both rich and poor, who loved and respected their former pastor, when curate of Fredericton, and many of the parishioners of St. Mary's, hastened to the place. The funeral rites were thus performed: The Lord Bishop, the Venerable Archdeacon Coster, and the Rev. Messrs. Jaffrey, Black, Ketchum, Shore, Stuart, Lee, Coster, and Bliss, proceeded from the Vestry in order, in their surplices, to meet the corpse at the gate, the Bishop beginning the sentence "I am the Resurrection," &c., and the rest of the clergy preceding him to the Church door, the corpse and mourners following. After all had taken their seats, the members of the Christ Church and St. Ann's Choir, who were arrayed in the Church, outside the rails, chanted the alternate verses of the 90th psalm to Purcell in G Minor, very solemnly and devotionally, the Bishop intoning the other verse. The lesson was read by the Archdeacon. The Bishop then briefly addressed the congregation from the last verse of the lesson. He pointed out to them the soothing and elevating character of the Burial Service, as not intended to excite violent transports of emotion, but a deep and holy sorrow, mixed with joy derived from the promises of a risen and interceding Redeemer. In a few words, he spoke of his own knowledge of the character of the deceased as one "always abounding in the work of the Lord," ever ready at the call of sickness and sorrow, "a father to the poor, and one that made the widow's heart to sing for joy." His own heart was full and he spake to those whose hearts were full also. At the conclusion of the address, the mourners, bearing the remains, preceded the Bishop, Clergy, Choir, and others to the grave. The Choir then sang a part of that wonderful and almost inspired composition—Croft's Burial Service—beginning with the words "Man that is born of a woman," with Purcell's glorious verse, "Thou knowest Lord the secrets of our hearts," the Bishop reading the intervening sentences. The Anthem, though difficult, especially without an instrumental accompaniment, was well and feelingly sung, and the effect in the open air was more impressive and solemn than can be conceived by those who have never heard it. How sad it is to think that so little is known of the musical compositions of those great men, who were evidently raised up by Providence to do the work of the Church. There is something peculiarly and mournfully interesting in this service. Purcell composed his part at the funeral of Queen Mary, consort of William III, who died in 1694, and it was sung the next year at his own funeral, on the anniversary of Queen Mary's death; Purcell being only 37 years old, and having composed near one hundred anthems and sacred pieces, besides his secular music. Croft who succeeded him, died in 1727, and most modestly inserted Purcell's verse (with his name) into his own burial service, saying "The reason why I did not compose the verse anew, is obvious to every artist," a striking proof of the modesty and sweetness of his own disposition. After this Anthem, the Rev. Mr. Jaffrey read the concluding part of the ordinary burial service. The Rev. Mr. Stirling has left four young children to mourn their father's loss, thus early called to rest. May God be their protector, guide, and friend.—*Com.*

FROM CANADA.—The Inspector-General of Canada, in a debate in the Assembly at Toronto, last week, said, that it was not the intention of the Government to permit American vessels to navigate the St. Lawrence, until commercial reciprocity with Canada was granted by Congress. The Queen has assented to the act of '49, granting 1,000,000 acres of public lands in the Province to establish a permanent fund for the support of common schools in Upper and Lower Canada.

The Government propose to relieve the fisheries by repealing the Salt duty. Bills of the following purport are before the Assembly:

To abolish the usury laws, to regulate general assessments; to alter the rate at which certain silver coins shall be made a legal tender; to better establish and maintain common schools in Upper Canada; and to facilitate reciprocal free trade between this and the adjoining British American Provinces.

A challenge last week passed between the Solicitor-General, Mr. Drummond, and Colonel Prince, growing out of politics. Colonel Prince was arrested for having accepted a challenge. The police sought to arrest Mr. Drummond also, but he was not found. The matter was afterwards settled.

It is said that Sir John Hobhouse is about to retire from the presidency of the Board of Control; that Mr. Labouchere will succeed him in that office; and that Mr. Cobden will then be appointed President of the Board of Trade.

Public curiosity, in Paris, is excited to a high pitch in consequence of a note addressed by the Russian Government to Lord Palmerston on the Greek affair. It is said the concluding phrase is, in substance, as follows:—"As the manner in which Lord Palmerston understands the protection due to English subjects in foreign countries carries with it such serious inconvenience, Russia and Austria will not henceforth grant the liberty of residence to English subjects except on condition of their renouncing the protection of their Government."

The King of Prussia was fired at by an ex-sergeant of artillery, on the 22d instant. The pistol bullets inflicted a slight injury to the arm. His Majesty is doing well. The assassin was arrested.

We are to have a new Congress at Frankfort, and the friends of German unity promise us that great results will flow from the new League. We have very slender hopes ourselves. The negotiations going on between Denmark and Prussia do not seem to us, as far as we can penetrate the intrigue, to be sincerely promoted by Prussia. At present it is difficult to judge; but there is a want of straightforward honesty in the proceedings which makes us fear, unless a Russian fleet appears in the Sound, that Prussia will only amuse Denmark until she is sufficiently strong to defy her once more. Prussia pursues her own schemes of aggrandisement with inflexible ambition.

The news from India by the Overland Mail tells of fresh disasters on the frontiers. The most interesting news is of the rising of the Affreedees, in consequence of the excessive and iniquitous salt-tax imposed by the East India Company. Dr. Healy, of the Bengal army, lately posted to the 1st Punjab cavalry, now stationed at Kohat, was proceeding to join that regiment by the eastern pass, which was supposed to be still open, when, on the 20th March, within a few miles of Kohat, he was set upon by the hillmen, his groom and grass-cutter killed on the spot, and himself so severely wounded that he died immediately after reaching Kohat. Sir Charles Napier seems harassed, and scarcely knows how to deal with these barbarians. The removal of the frontier to the Sutlej to the Indus has not brought with the tranquillity that was hoped for. Our outposts are now continually harassed by marauders, whilst the interior of the Punjaub requires the most constant attention. The Governor-General has again proceeded to Simla.

From China we learn that the Emperor of China died on the 25th of February, and was succeeded by his fourth son, Tih-Chu, who is described as a youth of nineteen, brought up in principles very hostile to foreigners. The foreign consuls at Shanghae received from the authorities there, on the 20th of March, an official notice that his Majesty the Emperor "had departed upon the great journey, and had mounted upwards on a dragon to be a guest on high."

An insurrection has broken out in Bantam, in Batavia. The Cape papers bring no further news.

Rich Dress Vests—Morning & Walking do.
Black Doe Trowsers—best quality;
Blue Plaid Trowsers;—All descriptions of Walking and Riding Trowsers;
Driving and Box Coats;
A great variety of BOYS' CLOTHES.

IN drawing attention now, at the commencement of the Spring trade, to our large Establishment, corner of King and Cross Streets, we wish briefly to enumerate the advantages which we offer to our customers and the public. We have always studiously avoided claiming to ourselves any power of selling at thirty or forty per cent. under others in the trade, but simply rested our claims on our extensive experience—buying our Goods direct from the best Manufacturers at Cash Prices.

In commencing the Clothing Business some time ago, in St. John, in addition to our large Custom Trade, we introduced a scale of prices little known previously to the respectable class of the public; this we were enabled to do, by entirely rejecting the long credit system and supplying first rate articles at a moderate scale of profit for Cash.

Our theory has invariably been, that improvements can always be introduced. This year we endeavor to do better than last.

PRICES THE LOWEST,

Quality the best—and Workmen superior.

And by thus continuing to progress during the few years we have been in business, we apprehend we have now brought our business to a point surpassed by none.

The superiority of our style of Cutting is well known. The newest Paris and London Styles are introduced as early as in New York or Boston, and every improvement is at once adopted. In alluding to the large stock of Clothes in our Establishment, we may merely state that it comprises the best assortment of French and German Twilled Cloths and Doeskins of every shade and colour to be found.

Having thus alluded to the general arrangement of our business, as far as regards the Order Department, we wish particularly to draw attention to the very large and increasing branch of our business, viz:—

The Extensive Ready-Made Department!

Of this branch we may say that every article in our Establishment is made up as carefully as if ordered. No workman is too good to be employed by us. We make all descriptions of Garments, up to the highest priced Coats. Numbers have proved and acknowledged the value of being at once fitted.

Some idea may be formed of the system pursued, when we state that in Coats we keep thirty six sizes, so that all shapes and heights may feel a certainty of being fitted.

To enumerate the varied Stock would far exceed the limits of an advertisement, but our Customers will find, on visiting the

PANTECHNETHECA,

that all their expectations will be fully realized.

HEALTH WHERE 'TIS SOUGHT.

HOLLOWAY'S PILLS.

CURE OF A CASE OF WEAKNESS AND DEBILITY, OF FOUR YEARS' STANDING.

Extract of a Letter from Mr. William Smith, of No. 5, Little Thomas Street, Gibson Street, Lambeth, dated December 12th, 1849.

To Professor HOLLOWAY.

SIR,—I beg to inform you that for nearly five years I hardly knew what it was to have a day's health, suffering from extreme weakness and debility, with constant nervous headaches, giddiness, and sickness of the stomach, together with a great depression of spirits. I used to think that nothing could benefit me, as I had been to many medical men, some of whom, after doing all that was in their power, informed me that they considered that I had some spinal complaint beyond the reach of cure, together with a very disordered state of the stomach and liver, making my case so complicated that nothing could be done for me. One day, being unusually ill and in a dejected state, I saw your Pills advertised, and resolved to give them a trial, more perhaps from curiosity than with a hope of being cured, however I soon found myself better by taking them, and so I went on persevering in their use for six months, when I am happy to say they effected a perfect cure.

(Signed) WILLIAM SMITH,
(frequently called EDWARD.)

CURE OF A DISORDERED LIVER AND STOMACH WHEN IN A MOST HOPELESS STATE.

To Professor HOLLOWAY.

SIR,—Your valuable Pills have been the means, with God's blessing, of restoring me to a state of perfect health, and at a time when I thought I was on the brink of the grave. I had consulted several eminent Doctors, who, after doing what they could for me, stated that they considered my case as hopeless. I ought to say that I had been suffering from a Liver and Stomach complaint of long standing, which during the last two years got so much worse, that every one considered my condition as hopeless. I as a last resource got a Box of your Pills, which soon gave relief, and by persevering in their use for some weeks, together with rubbing night and morning your Ointment over my chest and stomach, and right side, I have by their means alone got completely cured, and to the astonishment of myself and every body who knew me.

(Signed) MATTHEW HARVEY.

Sold at the Establishment of Professor HOLLOWAY, 244, Strand, (near Temple Bar,) London, and by most all respectable Druggists, and Dealers in Medicines throughout the civilized World; by S. L. ☞ Agency, Prince William Street, Saint John. 21st April, 1849.

THIS preparation has now been before the public nearly twenty years. Its great intrinsic merits have steadily advanced the sale and use of it, and it now enjoys a prominent position in the public favour.

The unexampled success which has attended its administration in every case where the patient was really afflicted with Worms, and the fact, that it is not a 'nostrum' or 'cure all' but a specific for one disease only, certainly renders it worthy of the attention of Physicians; a great many of whom having seen in the course of their practice the good and remarkable effects resulting from its use, have had the magnanimity to surrender their professional scruples and prescribe it as the best remedy known.

Every Druggist or Physician who has had any curiosity to enquire into cases where the Vermifuge has been made use of, can furnish abundant evidence of its efficacy in expelling Worms and the good effect produced on the general health of the patient.

It is mild in its operation, contains no calomel nor other dangerous ingredient, and can be given with perfect safety to the most delicate infant.

St. Andrews, Province of New-Brunswick, October 18th, 1845

I, Michael Croney, aged 55 years, hereby certify, that for three years previous to May, 1844, I was afflicted with worms, so as to be completely prostrate in strength, and unable to labor, during which time I was constantly under the hands of a physician, with little effect; that, at the time mentioned, I was induced to try one bottle of B. A. Fahnestock's Vermifuge, which produced such extraordinary effects that I was at once relieved from all the pains and spasms I was before afflicted with, and in one week I was restored so as to be enabled to resume my labor; and up to the present time, have enjoyed uninterrupted good health. MICHAEL CRONEY.

TAPE WORMS,

And other worms in ADULTS, can be removed by the administration of

B. A. Fahnestock's Vermifuge.

The following are but a few of hundreds of those cases where it has effected a cure.

East Brooklyn, L. I. Feb. 10th, 1847.

This is to certify, that I took three vials of B. A. Fahnestock's Vermifuge, which had the effect to bring away fifteen yards of tape worm and a number of smaller worms. I would, therefore, recommend this medicine to the public as a safe and speedy cure for worms.

WRIGHT'S

INDIAN VEGETABLE PILLS,

SUGAR FROSTED!

THE Proprietor of this popular Family Medicine, thankful for the extensive and increasing favour with which it is received, and feeling desirous of making every improvement in his power, begs leave to announce, that he has added an *outside frosting* of pure white sugar, whereby everything disagreeable to the taste and smell is removed, without in the smallest degree affecting, in other respects, the excellent qualities of the medicine. The want of an innocent and convenient medium of disguising the Pills, so generally felt, is thus supplied, and it is confidently anticipated that the frosting will prove highly acceptable to the public.

The occasional use of medicine is a matter of necessity with the great majority of mankind. Whatever, therefore, is done to remove its disagreeable associations, is a public benefit. The value of *Wright's Indian Vegetable Pills* is well understood. Innocent and efficacious, free from minerals of every description, and adapted to all the circumstances and conditions of life, they are esteemed beyond all other remedies, as the greatest family medicine of the day. The frost-covering is an addition intended merely to conceal the taste and smell.

The Pills will also continue to be prepared *without the frosting*, as heretofore, so that all who prefer them in their original state, may still be accommodated.

GENERAL DIRECTIONS.—The ordinary dose for a grown person is from two to four Pills; but in cases of violent pain, in any part of the body, the medicine should be taken in large doses, and repeated every night on going to bed (or oftener, if the suffering is great), until pain or distress of every kind is removed; after which, the medicine should be taken merely with the view to keeping the bowels regular, which *will in a short time restore the body to a state of sound health.*
