
TO THE FREEHOLDERS OF THE CITY AND COUNTY OF SAINT JOHN.

GENTLEMEN,—I beg leave to announce my intention of coming forward again as a Candidate to represent the County of St. John, in the next General Assembly.

As to the period that I have had the honor to serve you as a legislator, I feel conscious that I have discharged my duties with strict integrity, and with zeal to promote the public good; and being at this time flattered by the solicitations of many highly respectable and influential Freeholders in this City and County to offer myself, I can only say that, should I be returned, no exertion on my part shall be wanting to render our fine Province prosperous, especially this portion of it, upon the welfare and prosperity of which, in my opinion, the success of the whole country very materially depends.

I have the honor to be, Gentlemen,
Your most obedient Servant,
June 8, 1850. JOHN JORDAN.

To the Electors of the City and County of St. John.

GENTLEMEN,—

AT the coming Election of Members for the House of Assembly, I shall become a Candidate for your suffrages, to be returned one of the four Representatives for the County—and it is proper that every man who offers should plainly state his views, as upon their correctness his utility must depend.

In order to ensure energy, responsibility and economy in the management of the internal affairs of the Province, I think the Initiation of the Money Grants should be at once yielded to the Executive, and Municipal Corporations established through out the several Counties, to look after and control their own local interests, as without these measures there can be no *effectual* retrenchment in the public expenditure.

I think the Legislature should give every encouragement to open rapid and frequent communications between the different sections of the Province, by means of Rail-roads and other public works—and the Provincial credit ought to be pledged without hesitation to raise the necessary funds to carry out such public works as can be demonstrated to be of public utility, and of a remunerative character. Rail-roads I believe to be essentially necessary at the present day for a country's advancement.

I fully agree with those who urge that the Legislative Council should be made elective.—The change is absolutely necessary to ensure harmonious working in that form of Government which has been conceded to, and adopted by the Colonies. The franchise should also be extended to Leaseholds, renewable—or with covenants for payment of improvements—which have been duly registered, and on which improvements to a certain extent have been made. This is particularly applicable to the City and County of Saint John where property of that nature to a very great and valuable extent is held.

Lastly—I think specific principles should be determined on by this and the other North American Colonies, as regards their internal and external relations. They possess within themselves all the elements of greatness—unbounded natural resources—and a hardy and industrious people. They have, in my opinion, the undoubted right to apply the monies raised from their own local revenues, and from their own local taxation, in any way they deem best for their own interests—to encourage their manufactures—their fisheries—their native industry, by bounties, by protective duties, or by any other legitimate course the people deem most advisable. They ought to have the right, and it would unquestionably be for their mutual advantage, to possess not only a free and unrestricted inter-colonial trade, but a fair reciprocal trade with the United States, and also the power conjointly of entering into such commercial arrangements with other countries as would lead to the revival of business. One serious preventative to their advancement in a ratio proportionate to the United States, is their unsettled position. Let their commercial, their political position be once clearly defined, and the great tide of emigration and wealth which now rolls towards the United States will centre here—because we have as good land to spare and a greater unoccupied seaboard to offer—with Institutions as free and resources as great.

I am, Gentlemen,
Your obedient servant,
St. John, June 8, 1850. J. H. GRAY.

Freemen and Freeholders of the City of St. John:

GENTLEMEN,—At the approaching Election for Members to represent you in the General Assembly of this Province, I, induced by the repeated solicitations of a great number of the Electors of this City, shall appear at the hustings, a Candidate for your suffrages. In doing so, I deem it my duty to put before you in plain unmistakeable language the principles which, if honored with your confidence, I pledge myself to advocate and support.

I shall advocate a party departmental Government, in opposition to the present or any future coalition Government, believing a coalition Government a species of corruption not to be tolerated.

I shall advocate that the Initiation of Money Grants shall be surrendered to such a Government, based upon the principles of pure responsibility, thereby closing the main flood-gate of corruption in the House.

I shall advocate the full and free introduction of Municipal Institutions among the people, that they may be taught the principles and art of Self Government.

I shall advocate vote by ballot, believing that mode the only sure preservative of the purity of Elections—with it a Registration of Votes.

I shall advocate a reduction in the Civil List Bill, consistent with the requirements of the Province—the Governor's salary to be £1000, and the rest in proportion.

I shall advocate the raising a Revenue not to exceed £50,000 per annum, to accomplish which I shall advocate a fair and reasonable protection to the Farmer, the Mechanic, and the Manufacturer

I shall advocate those measures which will develope the resources of this Province, railroads, &c.

I shall advocate Triennial Elections, and a Tariff of equal duration with the House.

I shall advocate that we have and possess the full controul over our own Provincial affairs; and in reference to our external relations, I shall advocate, that by delegations or petition we make known our wants to Great Britain, and remonstrate against the present ruinous policy pursued by her in reference to this Province; and should that policy not be changed, and no equivalent for our lost trade be granted, then the alternative separation must be insisted upon.

At the Hustings I will give my reasons for adopting the above principles, and will then and there, as I do now, pledge myself, if elected, to devote my talents and energies to carry out the same. Until I meet you at the Hustings,

I remain, Gentlemen,
Your obedient Servant,
June 8. W. H. NEEDHAM.

ENCOURAGE HOME MANUFACTURE!

Blacking! Blacking! Blacking!

D. McANULTY returns his most sincere thanks to the public, for the very liberal encouragement he has received since he commenced the Manufacture of the New Brunswick LIQUID and PASTE BLACKING. The increasing demand for this article is a proof that it is second to none in the market.

D. McA. begs to intimate that the business, &c. will in future be carried on jointly by himself and Mr. ALEXANDER STONE, co-partner in the business, &c.—Having made extensive arrangements for the manufacture of BLACKING—Liquid and Paste—they hope by attention to business and producing a superior article, to drive Foreign Blacking from the market, and thus by employment in the manufacture of said article, give many of our hitherto unemployed citizens the benefit of the large sums of money annually sent from our shores for the purchase of *Foreign Blacking.*

Wholesale and Retail Store removed from 13, Dock-street, to that Shop lately occupied by Mr B. Cochran, Prince William-street, opposite the Post Office.

N. B.—Liberal encouragement to agents and retailers. City and country orders punctually attended to.
DENNIS McANULTY,
ALEXANDER STONE.
