The Courie

DEFECTIVE CHIMNIES.—[illegible]e propor-tion of the fires that have [illegible]ed this City [illegible]oss of property and caused such an imp[illegible]ed to have originat-from time to time, are [illegible]ses, owing in a great ed in the chimnies [illegible]ds and dangerous practice measure to the p[illegible] place of burning them out that exists in [illegible]ty. In many other cities where when they [illegible] built of stone and brick and the the houses [illegible] with slates, and consequently much roofs [illegible] to take fire than wooden houses with less [illegible] roofs, we are informed that such a dangerous custom as cleaning chimnies by burning them out is not allowed, and in the event of any chimney taking fire by accident even, after the expiry of the time stated by law for having it swept, say six weeks, the parties interested are not only fined, but have to pay the expenses of the Sweeps in extinguishing it. Some such law is much more necessary in this place where the chimnies are built so thin and generally speaking surrounded by so much combustible materials. If such a measure as that alluded to could be enacted here, combined with the admirable state of efficiency in which our Fire Department is now kept, and a plentiful supply of water obtained, we think we might have little to fear from the effects of the devouring element, and might reasonably expect a considerable reduction on our premiums for Insurance.

TELEGRAPH OPERATORS.—We often hear parents asking what business they can send their boys to learn, in order that they may earn for themselves an honest living, and having recently ascertained that there is a good prospect for active young men of industrious habits as operators in the Telegraph Offices, we are of opinion that there is every probability of this being an excellent science or craft for some of our young men to acquire, as the demand for operators is increasing every day in proportion to the number of lines erecting and the increasing communications transmitted by them.

We learn that respectable young men of steady habits and fair education, will be admitted as pupils in the Telegraph Office in this City, and that a person of ordinary capacity may acquire a sufficient knowledge of the system in six months to enable him to take upon himself the charge of a station. Of course there are many situations connected with this business of a superior description, such as superintendents, who are much better remunerated than mere operators, and which are open to competition for talent and efficiency.

RIVER STEAMERS.—The Head Quarters says that another trial of speed took place between the *Forest Queen* and *Reindeer*, from Fredericton to Woodstock on Wednesday sen'-night, in which the Reindeer did not maintain the superiority gained in a former contest—the Queen having this time beaten her by an hour and a half.

It is also added that "the Steamer Madawaska took her *fling* at the Reindeer on Saturday last, and got to Woodstock first;" but we think the long-legged animal will, at another time, again shew them her heels.

The Forest Queen has this week commenced running as a night boat between St. John and Fredericton—leaving Indian Town on Tuesday, Thursday and Saturday evenings, and Fredericton on the intermediate week evenings; thus, with the St. John, giving a boat from either place every week evening.

TROUBLE IN CANADA.—*Toronto, May 25th.*—The debate in the Assembly to-day on amendment to send an address to the Queen, declaring it inexpedient to make the Legislative Council elective, developed strong tendency to organic changes, and brought on general discussion. The right to freely discuss the annexation question was insisted on by ex-Solicitor General Bagley and several others; and the Ministry was strongly condemned for making the dismissal of Col. Prince. He defied the Colonial Secretary and the Provincial Attorney to prosecute him or any one advocating independence. The spirit of the debate was hostile to England, and to the stability of English institutions in Canada. The motion for election of Legislative Council was negatived 51 to 13.—*Boston Atlas.*

BUSINESS PROSPECTS IN CALIFORNIA.—The following is an extract of a letter from one of the leading commercial houses in San Francisco, dated April 18, to a merchant in Boston:

"We consider you quite as wild at home as we are here, and expect to see as great a reaction as there was after the speculation in Maine Land. If it happened that a gross of pins paid a large profit, we should expect to see two or three ship loads sent out—this being the scale on which you are doing things in the United States. Business has somewhat improved since our last, except in lumber, which must continue dull until shipments have entirely ceased, and sometime longer.

"The prices of provisions are maintained, but there will apparently be a great overstock, and purchasers take hold sparingly. The tendency is downward."

The steamship Pacific, the second of the American line of Liverpool steamers, sailed from New-York on Saturday afternoon with a large number of passengers. She is commanded by Captain Nye, an old and experienced packet-master.

The Spanish Steamer Cetro arrived at New-York from Havana on Friday afternoon, for repairs. She is the first steamer of a line about being established between Havana and Liverpool.

Official information was received at Washington on Monday, of the release of General Lopez at Savannah, on Saturday evening last, under a writ of habeas corpus, and of his departure for the South. Orders have been transmitted to the United States district Attorneys at Mobile and at New-Orleans to put the law of 1818 in force against him.

The accounts in relation to the flood on the Mississippi are not encouraging. There are numerous crevasses between New-Orleans and Vicksburg, which have laid most of the plantations on the river under water, and the prospects of the planters were gloomy.

GREAT FRESHET ON THE KENNEBEC.—The Portland Advertiser of Monday morning states, that the great quantity of rain that has fallen for two or three days past has swollen the Kennebec river to an alarming height, so much so that on Saturday, Water streets in Augusta and Hallowell were overflowed to the depth of several feet, and fears were entertained that great loss of property must be the result. The storm continued at Portland through Saturday night and Sunday, and the rain continued to fall rapidly and almost without cessation during that time. In consequence of the numerous logs adrift in the river, the steamers did not leave Augusta on Saturday morning, and no passengers from the lower Kennebec arrived at Portland till the afternoon train of cars. Passengers report that several bridges and mills had been carried away, and that the river was covered with drift stuff.

An English paper says, that in punching the eyeholes of needles by hand, children, who are the operators, acquire such dexterity as to be able to punch a human hair, and thread it with another, for the amusement of visitors.

On the baptism of the infant Prince he will take the Christian names of "Arthur Patrick Albert;" the first in compliment to the noble and gallant Field Marshal, the Duke of Wellington, the second in compliment to Ireland, and as commemorative of her Majesty's visit to the sister country, and the last after his illustrious father, the Prince Consort.

The large sum of £686 has been received in the Parish of Ballinakill, County Galway, as remittances from forty-four persons who have emigrated to America, and who now desire their friends and relatives to join them.

In a "clearance" lately, in the estate of Mr. Henry (encumbered) in the County of Limerick, no less than 336 human beings were cast houseless and homeless on the world. Many of these poor people have sown their crops.

Mr. Henry Berkeley, M. P. has given notice, that he will move a resolution in the House of Commons, "that it is expedient that the yeomanry force of Great Britain and Ireland should be disarmed and abolished."

FROM RIO JANEIRO.—Captain Ellis, of brig Sylvina which arrived at Boston on Sunday, from Pernambuco, states, that a Brazilian steamer arrived on the 15th of April, from Rio Janeiro, with advices to the 5th, at which time the fever was raging badly, and many commercial houses had been closed. There had been 10,000 or 12,000 deaths.

Rich Dress Vests—Morning & Walking do.
Black Doe Trowsers—best quality;
Blue Plaid Trowsers;—All descriptions of Walking and Riding Trowsers;
Driving and Box Coats;
A great variety of BOYS' CLOTHES.

IN drawing attention now, at the commencement of the Spring trade, to our large Establishment, corner of King and Cross Streets, we wish briefly to enumerate the advantages which we offer to our customers and the public. We have always studiously avoided claiming to ourselves any power of selling at thirty or forty per cent. under others in the trade, but simply rested our claims on our extensive experience—buying our Goods direct from the best Manufacturers at Cash Prices.

In commencing the Clothing Business some time ago, in St. John, in addition to our large Custom Trade, we introduced a scale of prices little known previously to the respectable class of the public; this we were enabled to do, by entirely rejecting the long credit system and supplying first rate articles at a moderate scale of profit for Cash.

Our theory has invariably been, that improvements can always be introduced. This year we endeavor to do better than last.

PRICES THE LOWEST,
Quality the best—and Workmen superior.

And by thus continuing to progress during the few years we have been in business, we apprehend we have now brought our business to a point surpassed by none.

The superiority of our style of Cutting is well known. The newest Paris and London Styles are introduced as early as in New York or Boston, and every improvement is at once adopted. In alluding to the large stock of Clothes in our Establishment, we may merely state that it comprises the best assortment of French and German Twilled Cloths and Doeskins of every shade and colour to be found.

Having thus alluded to the general arrangement of our business, as far as regards the Order Department, we wish particularly to draw attention to the very large and increasing branch of our business, viz:—

The Extensive Ready-Made Department!

Of this branch we may say that every article in our Establishment is made up as carefully as if ordered. No workman is too good to be employed by us. We make all descriptions of Garments, up to the highest priced Coats. Numbers have proved and acknowledged the value of being at once fitted.

Some idea may be formed of the system pursued, when we state that in Coats we keep thirty-six sizes, so that all shapes and heights may feel a certainty of being fitted.

To enumerate the varied Stock would far exceed the limits of an advertisement, but our Customers will find, on visiting the **PANTECHNETHECA,** that all their expectations will be fully realized.

HEALTH WHERE 'TIS SOUGHT.

HOLLOWAY'S PILLS.

CURE OF A CASE OF WEAKNESS AND DEBILITY, OF FOUR YEARS' STANDING.

Extract of a Letter from Mr. William Smith, of No. 5, Little Thomas Street Gibson Street, Lambeth, dated December 12th, 1849.

To Professor HOLLOWAY.

SIR,—I beg to inform you that for nearly five years I hardly knew what it was to have a day's health, suffering from extreme weakness and debility, with constant nervous headaches, giddiness, and sickness of the stomach, together with a great depression of spirits. I used to think that nothing could benefit me, as I had been to many medical men, some of whom, after doing all that was in their power, informed me that they considered that I had some spinal complaint beyond the reach of cure, together with a very disordered state of the stomach and liver, making my case so complicated that nothing could be done for me. One day, being unusually ill and in a dejected state, I saw your Pills advertised, and resolved to give them a trial, more perhaps from curiosity than with a hope of being cured, however I soon found myself better by taking them, and so I went on persevering in their use for six months, when I am happy to say they effected a perfect cure.

(Signed) WILLIAM SMITH.
(frequently called EDWARD.)

CURE OF A DISORDERED LIVER AND STOMACH WHEN IN A MOST HOPELESS STATE.

To Professor HOLLOWAY.

SIR,—Your valuable Pills have been the means, with God's blessing, of restoring me to a state of perfect health, and at a time when I thought I was on the brink of the grave. I had consulted several eminent Doctors, who, after doing what they could for me, stated that they considered my case as hopeless. I ought to say that I had been suffering from a Liver and Stomach complaint of long standing, which during the last two years got so much worse, that every one considered my condition as hopeless. I as a last resource got a Box of your Pills, which soon gave relief, and by persevering in their use for some weeks, together with rubbing night and morning your Ointment over my chest and stomach, and right side, I have by their means alone got completely cured, and to the astonishment of myself and every body who knew me.

(Signed) MATTHEW HARVEY.

Sold at the Establishment of Professor HOLLOWAY, 244, Strand, (near Temple Bar,) London, and by most all respectable Druggists, and Dealers in Medicines throughout the civilized World; by S. L. TILLEY, *Provincial Agent*, No. 2, King Street, Saint John, N. B.; James F. Gale, Fredericton; W. T. Baird, Woodstock; Alexander Lockhart, Quaco; James Beck, Bend of Petitcodiac; O. K. Sayre, Dorchester; John Bell, Shediac; John Lewis, Hillsborough; John Curry, Canning; and Jas. G. White, Bellisle; at the following prices—1s. 9d., 4s. 6d., and 7s. each Box. There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of Patients in every Disorder are affixed to each Box.
