POETRY.

[FOR THE COURIER.]

NATURE.

Nature, if our philosophers be right,
Is a magnificent machinery,
Moved by its own inherent energy;
All independently of other might.
With bards, whose ravings half a realm delight,
'Tis e'en an object that may worshipped be—
Both make Jehovah's works their deity,
And Him, from his own world, dispense with quite.
Nature, in heaven's philosophy, unfolds
The never slumbering agency of Him
Who form'd all creatures, from the seraphim
To the minutest insect: who still moulds
The dew-drop; does the sun's lamp daily trim;
And whose strong arm the universe upholds.

St. John, Jan. 1850. FTZ.

AN ACROSTIC.

Son of promise—son of power—
Ashdod's terror—Israel's tower—
Mighty man, where now thy might?
Shorn of strength, and robb'd of sight—
O'er thee, woman's arms prevail:
None so powerful—none more frail.

St. John, Jan. 15, 1850. J. REDFERN.

"That they all may be one."—John XVII, 20—22.

And will the time come, when envy and strife
Shall have a perpetual end?
When discord and hatred (common to life)
Shall cease to exist among men?

Will Jealousy, now that fiend-like exists,
Give place to a spirit of love—
And Self, with its dark-rolling vapours and mists,
Be scattered by light from above?

Will the banners of Prejudice, lifted high
By the cunning of crafty men,
Be cast to the dust of the earth, and lie
Too low to be raised again?

Yes! it shall come; God himself has declared
That in time divisions shall cease;
Man's wisdom shall fail; nay, shall be despised,
But God's cause on earth shall increase!

Yes! it shall come; let us speed on the time
When falsehood and error shall fall—
When nations, so long benighted and blind,
Shall receive the true Gospel call!

Yes! it shall come; oh, how glorious then,
When, all envy and hatred done,
Christian devotion shall reign among men
And all the disciples be one!

Saint John, January, 1850. N. McL.

Baldness and Grey Hair.

OF the numerous compositions constantly announced for promoting the growth or reproduction of the Hair, few arrive even in name, beyond a very limited period, while BOGLE'S HYPERION FLUID, with a reputation unparalleled, is still on the increase in public estimation. The singular virtues of this successful invention, for restoring, preserving, and beautifying the human Hair, are too well known and appreciated to need comment. The very fact of the high and distinguished patronage it enjoys, its general use in all countries, together with numerous testimonials constantly received in its favour, are authorities which stamp its superior excellence and title over all attempts of a similar nature. Being universally preferred, its consequent success causes a host of imitations to start up—which are both deleterious and hurtful to the hair. *Bogles Hyperion Fluid* may be had of the proprietor, No. 277 Washington street, and his agents throughout the United States, Canada, and New-Brunswick. ANDREW SCOTT,
Dec. 22.—3¶ *Agent for New-Brunswick.*

☞ The Hyperion Fluid is also for sale by FELLOWS & CO. Druggists, King-st., St. John.

THIS preparation has now been before the public nearly twenty years. Its great intrinsic merits have steadily advanced the sale and use of it, and it now enjoys a prominent position in the public favour.

The unexampled success which has attended its administration in every case where the patient was really afflicted with Worms, and the fact, that it is not a 'nostrum' or 'cure all' but a specific for one disease only, certainly renders it worthy of the attention of Physicians; a great many of whom having seen in the course of their practice the good and remarkable effects resulting from its use, have had the magnanimity to surrender their professional scruples and prescribe it as the best remedy known.

☞ Every Druggist or Physician who has had any curiosity to enquire into cases where the Vermifuge has been made use of, can furnish abundant evidence of its efficacy in expelling Worms, and the good effect produced on the general health of the patient.

It is mild in its operation, contains no calomel nor other dangerous ingredient, and can be given with perfect safety to the most delicate infant.

St. Andrews, Province of New-Brunswick, October 18th, 1845.

I, Michael Croney, aged 55 years, hereby certify, that for three years previous to May, 1844, I was afflicted with worms, so as to be completely prostrate in strength, and unable to labor, during which time I was constantly under the hands of a physician, with little effect; that, at the time mentioned, I was induced to try one bottle of B. A. Fahnestock's Vermifuge, which produced such extraordinary effects that I was at once relieved from all the pains and spasms I was before afflicted with, and in one week I was restored so as to be enabled to resume my labor; and up to the present time, have enjoyed uninterrupted good health. MICHAEL CRONEY.

Dracutt, Middlesex Co., Mass. Dec. 24th, 1846.

This certifies that I administered one dose of B. A. Fahnestock's Vermifuge to my child 18 months old, which brought away 250 worms at an operation. They were of different sizes, from two to six inches in length. Before I administered the medicine the child was in very poor health and declining; but since then she has been wonderfully improved and is now hearty and well. I shall be happy to state these facts to any one who will call at my place, as I consider this medicine truly valuable. JOS. R. TIBBITS,
Mount Pleasant.

TAPE WORMS,

And other worms in ADULTS, can be removed by the administration of

B. A. Fahnestock's Vermifuge.

The following are but a few of hundreds of those cases where it has effected a cure.

East Brooklyn, L. I. Feb. 10th, 1847.

This is to certify, that I took three vials of B. A. Fahnestock's Vermifuge, which had the effect to bring away fifteen yards of tape worm and a number of smaller worms. I would, therefore, recommend this medicine to the public as a safe and speedy cure for worms.

TESTIMONIALS.

Copy of a letter from "COLONEL HAWKER," (the well known Author on "GUNS & SHOOTING.")

Longparish House, near Whitchurch, Hants. October 21*st,* 1846.

SIR,—I cannot resist informing you of the extraordinary effect that I have experienced by taking only a few of your LOZENGES. I had a cough for several weeks, that denied all that had been prescribed for me; and yet I got completely rid of it by taking about half a small box of your Lozenges, which I find are the only ones that relieve the cough without deranging the stomach or digestive organs.
I am, Sir, your humble servant,
P. HAWKER.
To Mr. KEATING, 79, St. Paul's Churchyard.

Medical Warehouse,—Halifax, Nova Scotia, August 15, 1846.

SIR,—In mentioning the receipt of your last letter, with second consignment of Lozenges, by the "Racer," we are gratified in being able to inform you that they have given very general satisfaction here, (having proved singularly efficacious in the removal of COUGHS AND COLDS) of which the increasing demand is a sufficient evidence. We shall probably require for the winter a further supply of FORTY OR FIFTY DOZENS, which you can forward at first convenience by one of the Cunard Steamers, via Liverpool, for Your's respectfully,
MORTON & CO.
To the Proprietor of Keating's Cough Lozenges, 79, St. Paul's Church Yard, London.

FROM MR. MURLEY, LATE A PRACTITIONER IN CHELTENHAM.

Huntley, Gloucestershire, 3d Nov. 1848.

DEAR KEATING.—It affords me much pleasure to learn that the sale of your Cough Lozenges is so extensive. Being acquainted with their composition, I am fully persuaded of their efficacy for promoting gentle expectoration, and allaying pulmonary irritation. In cases of Catarrhal disorder, it is most desirable to combine a class of medicines which may calm without the deleterious effects of Opium, and this desideratum is, I believe, effected by the ingredients in your Cough Lozenges. I well remember the very high opinion which a late eminent surgeon of one of our London Hospitals had of this preparation; he frequently told me that it was the only medicine which afforded relief to his wife, who had suffered for many years from Asthma.

If you consider the testimony of a retired Practitioner, (after thirty-six years of extensive practice,) of any advantage, you are quite welcome to avail yourself of this recommendation.

With best wishes, believe me, dear Keating, faithfully yours, S. H. MURLEY.
To Mr. KEATING, St. Paul's Church Yard.

BLAKE'S Patent Fire Proof Paint.

THE subscribers have received per schooner "Columbine," from New-York, a further supply of this singular and valuable substance. In addition to the slate color, they have a beautiful chocolate or brown, resembling the sand stone now in use and so much admired for fronts of buildings.

Its principal ingredients are Silica, Alumina, and Prot. Oxide of Iron, which, in the opinion of scientific men, satisfactorily accounts for its fire-proof nature, the two former substances being non-conductors, and the latter acting as a cement to bind the whole together, and make an adhesive and durable Paint.

For use it is mixed with Linseed Oil, and applied with a brush the same as ordinary Paint to Wood Iron, Tin, &c. It hardens gradually and becomes Fire Proof. It is particularly recommended for roofs of buildings, steam boat decks, fences, &c. A roof coated with this substance is equal to one of Slate, at a vast saving of expense.

Specimens may be seen at the Office of the subscribers. The price is 3d. per pound.

We annex two of many certificates sent us.
ALLISON & SPURR.
St. John, Sept. 29, 1849.

"This may certify that we have been acquainted with "*Blake's Patent Fire Proof Paint*" for some years, and are well assured that it is really what its name indicates—FIRE PROOF.—We consider it a better Fire Proof than Tin or Zinc, and will insure buildings well covered with it at a much lower premium than those covered with the above mentioned metals.

MR. BLAKE.—*Dear Sir,*—We last Spring covered the roof of the "American" with your Fire Proof Paint. We now find that it has become as hard as slate; and the almost constant tread of the servants, (who use the top of the house for drying clothes,) does not affect it in the least, and it proves all that it was recommended.

HOLLOWAY'S PILLS.

CURE OF ASTHMA.

Extract of a letter from Mr. Benjamin Mackie, a respectable Quaker, dated Creenagh, near Loughall, Ireland, dated September 11*th,* 1848.

To Professor HOLLOWAY.

RESPECTED FRIEND,—Thy excellent Pills have effectually cured me of an Asthma, which afflicted me for three years to such an extent, that I was obliged to walk my room at night for air, afraid of being suffocated if I went to bed by cough and phlegm. Besides taking the Pills, I rubbed plenty of thy Ointment into my chest night and morning.
(Signed) BENJAMIN MACKIE.

CURE OF TYPHUS FEVER, WHEN SUPPOSED TO BE AT THE POINT OF DEATH.

A respectable female in the neighbourhood of Loughall, was attacked with Typhus Fever, and lay for five days without having tasted any description of food. She was given over by the Surgeon, and preparations were made for her demise. Mr. Benjamin Mackie, the Quaker, whose case is referred to above, heard of the circumstance, and knowing the immense benefit that he himself had derived from Holloway's Pills, recommended an immediate trial, and eight were given to her, and the same number was continued night and morning for three days, and in a very short time she was completely cured.

N. B.—From advice just received, it appears that Colonel Dear, who is with his Regiment in India, the 21st Fusileers, cured himself of a very bad attack of Fever by these celebrated Pills. There is no doubt that any Fever, however malignant, may be cured by taking, night and morning, copious doses of this fine medicine. The patient should be induced to drink plentifully of warm linseed tea or barley water.

CURE OF DROPSY IN THE CHEST.

Extract of a Letter from J. S. Mundy, Esq., dated Kennington, near Oxford, Dec. 2d, 1848.

To Professor HOLLOWAY.

SIR,—My Shepherd for some time was afflicted with water on the chest, when I heard of it, I immediately advised him to try your Pills, which he did, and was perfectly cured, and is now as well as ever he was in his life. As I myself received so astonishing a cure last year from your Pills and Ointment, it has ever since been my most earnest endeavour to make known their excellent qualities.
(Signed) J. S. MUNDY.

DR. LA'MERT

ON THE SECRET INFIRMITIES OF YOUTH AND MATURITY.

Fortieth Edition, with Forty Colored ENGRAVINGS.

Just Published, and may be had in French and English, in sealed Envelope, 2s. 6d., or post-free, from the Author, for forty-two stamps.

SELF-PRESERVATION:

A MEDICAL TREATISE ON THE PHYSIOLOGY OF MARRIAGE, and *Disorders of Youth and Maturity* usually acquired at an early period of life, which enervate the physical and mental powers, diminish and enfeeble the natural feelings, and exhaust the energies of Manhood. With practical observations on the Treatment of Nervous Debility and Indigestion, whether arising from those causes, close study or the Influence of Tropical climates; Local and Constitutional Weakness, Syphilis, Stricture, and all Diseases and Derangements resulting from Indiscretion. With FORTY Coloured Engravings, illustrating the *Anatomy, Physiology and Diseases of the Reproductive Organs,* explaining their structures, uses and functions, and the various injuries that are produced in them, "by solitary habits, excesses and infection."

BY SAMUEL LA'MERT, M. D.

No. 37, BEDFORD-SQUARE, LONDON, Doctor of Medicine, Matriculated Member of the University of Edinburgh, Licentiate of Apothecaries' Hall, London, Honorary Member of the London Hospital, Medical Society, &c.

CONTENTS OF THE TREATISE:

CHAPTER I.—On the Philosophy of Marriage, with its Hindrances and Obligations, and on Infelicitous and Unproductive Unions.

CHAPTER II.—On the Anatomy and Physiology of the Generative Organs, their functions, structures, and secretions, proving that great Mental and Physical power are dependant on their healthy action.

CHAPTER III.—On Solitary Habits; their various effects on the Animal Economy; the concealed cause of Debility of the functions of the Stomach, Lungs, and Brain, and general Weakness of the Mental Faculties.

CHAPTER IV.—On the Secret Disorders of Youth and Maturity, and the Treatment of Nervous and Local Weakness, Mental Debility, and Premature Decay.

CHAPTER V. and VI.—On the Disorders arising from indiscriminate Excess, Gonorrhœa, Gleet, Strictures, and other Diseases of the Urethra.

REVIEW OF THE WORK.

Marriage requires the fulfilment of several conditions, in order that it may be really the cause of mutual happiness. Could the veil, which covers the origin of domestic wretchedness, be raised, and its true source in every instance disclosed, in how many could it be traced to physical disqualifications and their attendant disappointments. Excesses are always injurious; the gift, which when used in moderation is fraught with advantage, becomes, when abused, the prolific source of mischief, and of greater or less injury to the constitution and vital powers. The particular excesses, on the nature and consequences of which this Treatise professes to dilate, are productive of greater misery to the human frame, than any other to which it is subject. This Work contains an accurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and of their relative conditions in health and disease. Nor are these the sole contents of the work, the means of escape, as well as the nature of the danger, are pointed out in clear and intelligible language. It deservedly requires the closest attention and study, for what subject can be of more importance than the preservation of health and of the physical capabilities of which every man should be possessed. It unfortunately happens, that the unhappy victim of excessive indulgence and vicious habits, whether acquired in early life, or from the follies of advanced age, while suffering from their invariable consequences, unwisely entertains a fear of applying to a qualified physician for relief. Shame and the dread so frequently but erroneously entertained that these complaints are beyond the reach of art, alike restrict him, and prevent his seeking for assistance where alone it can be procured. In acting thus, he forgets that accurate discrimination in ascertaining the causes of disease, sympathy with the sufferer, and above all, secrecy, invariably characterize the intelligent and practical physician, and to the medical man, who can show by his possession of the requisite legal qualification that he is entitled to esteem and respect in his professional pursuits, the utmost confidence should be extended. DR. LA'MERT has obtained the highest medical honours as his diplomas testify, and the great extent of his practice for many years is a guarantee for his professional experience, which has reference almost solely to the treatment of these diseases.

The work may be had in St. John, of H. CHUBB & Co., price 2s. 6d. Stg.; Halifax, Messrs. MORTON & Co.; Quebec, Mr. NEILSON.
