POETRY.

[FOR THE COURIER.]

LUCIUS—AN IMAGINATIVE POEM.

With a lyre slung on his arm, for many a morn,
Just as the sun beam'd gladly from the east
And bade all nature, joyful, greet the day,
Did Lucius wander; silent, solitary, and alone,
He trod the heavy swamp of pathless woods,
His head bowed down—though on the lofty trees
That form'd a portion of the forest wide,
The early birds of spring did gladly send
Their matin lays up to the gates of Heaven,
For him they had no music. Bright scenes around,
With all that Providence all-wise scatters
And bequeaths to earth, to him convey'd no charms:
His heart was blighted,—and his sparkling eye
Was dimm'd with grief—a sickly inward grief
That they alone can know who've borne the same
While thus he ponder'd on in melancholy,
A bright thought flitted thro' his dreamy mood—
An instant more, he seiz'd the lyre, and to the streams
That rippling sung across his silent path
He chaunted calmly this strange roundelay
Which show'd the canker worm that fed within.

"Where are now the bright blue eyes,
My soul so late adored—
The auburn hair—the dimpled chin—
The music spoken word?
They glance upon another,
Their smiles are not for me,
Yet still the sound of that sweet voice
Lives in my memory.

You cannot die so early—
Forgetfulness! begone—
I love thee still, yes, dearly,
Tho' with a silent moan;
You cannot die so early,
From off a steadfast mind—
I have thy image on my heart,
I know that thou art kind.

I see thee in my slumbers—
In many troubled dreams;
If but thy shadow I behold,
'Tis like the sun-lit beams
That glide along the meadows
When rain and storm are gone,
Which gleam around the peasant's cot,
And cheer him when alone.

Oh grief! beyond all other grief—
A young and des'late heart,
That was the ransom gave to me
When doom'd with thee to part;
I hear a voice upon the winds
Descending from above—
A langour weighs upon my soul—
Cold disappointed love."

COUNTY OF KENT.
WELLINGTON AND DUNDAS DISTRICT AGRICULTURAL SOCIETY.

At a Public Meeting called in accordance with a numerously and respectably signed requisition to the Magistrates of Wellington (John Bowser and Francis McPhelim, Esquires,) for that purpose, held on Friday the 5th inst. at the house of Monsieur Eloi L'Blanc in Buctouche, for the purpose of forming a District Agricultural Society—Colonel James Long being called to the chair, and Mr. McPhelim requested to act as Secretary; after some preliminary arrangements and a good deal of discussion respecting the true intent and meaning of the "Act" with regard to what amount may be drawn from the Treasury by a *District* Society, where a *County* Society's subscriptions amount to £50—Mr. J. McPhelim rose and moved the following Resolution, which was seconded and very ably commented upon by R. B. Cutler, Esquire:—

Whereas it is the opinion of this Meeting that the truest, most effectual, and most legitimate means of advancing the best interests and prosperity of this Province, will be best attained by affording proper encouragement to the development of its rich Agricultural resources; and whereas the prosperity and welfare of all other classes of this community are essentially contingent upon the extent and success of the industrial operations of its yeomanry; and whereas Agriculture in this District is not in that healthy, prosperous and thriving state, which, from its vital importance to the general welfare—the genial salubrity of the climate—the fertility of the soil—the rapidity of vegetation—and the persevering energy and industry of the inhabitants, it is evidently the intention of a beneficent Providence that it should be; and whereas the encouragement of a better and more systematic mode of tillage—the introduction of a superior breed of cattle—the diffusion of a more general knowledge of scientific Agriculture, would be largely conducive to the advancement of the welfare and prosperity of this District, and go far to remove the greatest impediments to its onward course; and whereas the liberal encouragement held out by the Provincial Legislature to the formation of Agricultural Societies, places this community in a position to avail itself of those most desirable advantages, which, for want of the necessary capital, it could not otherwise enjoy; and whereas, in Agriculture—unlike most other professions—the greater and more active the competition, the greater the advantages and benefits derived, not only by the Country in general, but by *each individual competitor in particular*, it becomes the duty of *all* who are zealously desirous of forwarding the upward and onward progress of their Country's improvement, to combine unanimously for the advancement and encouragement of a cause fraught with so much and such vital importance to its *independence*, welfare, prosperity and general happiness as that of Agriculture most unquestionably is;—*Therefore Resolved*, that this Meeting do forthwith proceed to the formation of a Society, under the title and designation of "The Wellington and Dundas District Agricultural Society"—that a Subscription List be immediately opened for that purpose, and that the subscription and payment of Five Shillings do constitute a Membership therein.

A subscription list was accordingly opened, and in less than fifteen minutes, notwithstanding there not being over fifty persons present, in consequence of the shortness of the notice, the handsome sum of £28 was subscribed—the following gentlemen leading on the list with their accustomed spirited liberality—

	£	s		£	s
John Coates,	2	0	Colonel Long,	1	0

followed by a number of others with equally liberal amounts.

On motion of Mr. Cutler—Colonel Long having left the chair, and J. Bowser, Esq. being called thereto, the thanks of the Meeting were presented to Colonel Long for the gentlemanly and dignified manner in which he had acquitted himself of the duties of its Chairman. The thanks of the Meeting were also presented to Monsieur L'Blanc for his kindness in allowing the use of his house, and for the politeness, courtesy and attention of himself and family to all present.

A meeting of the members of the Society was then held, when the following gentlemen were elected Officers for the present year, viz:

President—Colonel Long; *Vice-Presidents*, Francis McPhelim and A. B. Smith, Esquires; *Treasurer*—Peter L. Smith, Esq.; *Recording Secretary*—Robert Douglas, Esq.; *Corresponding Secretary*—Mr. J. McPhelim; and the following gentlemen were appointed *Directors*, with the Officers:—John Coates, Placide Bastrash, Ira Hicks, N. Beckwith, Francis Cormear, M. Atkinson, Gabriel Herbert, Abram Chase, Peter Robishaux, Jos. Doherty, R. B. Cutler, Peter Nowlan, and Eloi L'Blanc.

On motion of Mr. McMillan—Resolved, that the Secretary be directed to prepare and forward reports of the proceedings to the Miramichi *Gleaner*, the St. John *Courier*, and the *Morning News*, for publication.

J. McPHELIM, *Corresponding Secretary*.
Buctouche, 10th April, 1850.

THE EXPENSES OF THE WEBSTER TRIAL.—It is estimated that the expenses of the late capital trial will not be less than $8,000.

The $8000 Reward paid to Littlefield.—On Saturday, the Hon. Robert G. Shaw, brother-in-law of the late Dr. George Parkman, voluntarily paid to Ephraim Littlefield, janitor of the Medical College, the reward offered by the family of Dr. Parkman for the detection and conviction of the perpetrator of any injury done to him.

THE MEDICAL STUDENT STORY.—A rumour has been for some time in circulation, that a medical student saw Dr. Webster standing over the dead body of Dr. Parkman, in the Medical College in Grove street. The story has found its way into many of our newspapers, connecting with it the name of Dr. Edward Beecher, of this city. We have made inquiry of him, and learned that he accidentally came into possession of the following fact, under an injunction of secresy: A gentleman residing in the vicinity of the Medical College, saw a light in Prof W.'s room on Friday night, the 23d of Nov. It being unusual, he took his spy-glass, and saw a man cutting up a human body; but supposing it to be an anatomical dissection, (it being previous to the news of Dr. P.'s disappearance,) he took no further notice of it. Dr. Beecher, not feeling at liberty to conceal any thing that might be of importance in the case, interrogated the Attorney General upon a hypothetical case, and learning that the testimony would be inadmissible, pursued the matter no further.—*Bos. Trav.*

A snow storm was experienced in New-York, on Friday night and Saturday morning last, which is stated to have been the heaviest there in the month of April during the last twenty years. The drifts were two or three feet deep in some places.

The New Orleans Picayune says that a snow storm occured on the Red River, on the 27th ult., which was followed by a hard frost, and it is feared that the cotton section has been materially injured.

Most of the old town of Chagres was destroyed by fire on the 23d ult.

A GREAT DEFAULTER.—The loss sustained by the Globe Assurance Company, England, from the recently discovered defalcation of one of the clerks, will, it is said, amount to $250,000 or $300,000.

INTERFERENCE OF ENGLAND WITH THE SLAVE TRADE OF CUBA.—By the Europa, accounts are received to the effect that Lord Palmerston has addressed an energetic note to the Spanish Government complaining of the scandalous manner in which the Slave trade is carried on in Cuba, and threatening to blockade the Island if his representations are not attended to.

A COUPLE OF MURDERS BY A MANIAC.—At a village about five miles from Edinburgh, on March 17th, a physician named Wilson, aged about 50, and his mother aged 90, were barbarously murdered by a person named Pearson, who had lately been discharged from a Lunatic Asylum. It appears that at a late hour on Sunday night, Pearson called on Dr. Wilson for medical assistance. The next morning the bodies of both the Doctor and his mother were found. They had apparently been killed with the kitchen tongs and poker. Pearson was found in one of the beds, and was conveyed to jail.

John O'Grady, a wealthy farmer in the county of Limerick, has been convicted of the murder of his wife and maid servant, and sentenced to be executed. The murder was particularly remarkable for the total absence of all apparent provocation. The prisoner first murdered the servant in the stable by stabbing her with a bayonet fixed on a stick, and then killed his wife by discharging two pistols at her while she was in bed. The defence was temporary aberration of mind, but this was not sustained by any evidence.

There has been the conviction, at Maryborough, of a young woman, named Catherine Moore, for the murder of her husband, the prisoner's mother being convicted as an accessary after the fact. The former has been sentenced to be executed, and the latter to be transported for life. The wife, it appears, did not live with her husband, but she sent to him to visit her. She met him in the garden, made him drunk, and cut his throat. The body she took away in a donkey-cart, and pitched it into a boghole. Her brother and sister were the principal witnesses against her. She confessed to the murder, but alleged that it was done in self defence, the husband having attempted to kill her. The whole case was pitiable and horrible: she confessed, and her brother and sister gave evidence against her for the purpose of saving the mother; and the whole family appear to have had the minds of infants and the brutality of demons.

FROM CAMPEACHY.—*The City of Laguira destroyed by Fire.*—Accounts received at New Orleans, on the 4th April, from Campeachy, state, that the City of Laguira was destroyed by fire on the 18th ult. Only one house was left standing. Great distress was suffered by the inhabitants. Loss estimated at two millions.

Thirty soldiers died recently at Havana, it was thought from Cholera, but on examination it was found that they had been poisoned.

FROM THE SANDWICH ISLANDS.—Honolulu papers to the 26th of January have been received at New York.

A severe gale visited the different islands during the latter part of December. At Maui, 20 houses were blown down, 25 at Waihee, and a like proportion all around. It was equally severe at Kohala. At Makawao, a great quantity of cane has been prostrated. In Kula and Hamakua, seven or eight school houses, and some of them large and valuable, used occasionally as places of worship, were destroyed. The meeting-house, being old and weak, was prostrated with the rest of them. The houses of the natives, which were old, have disappeared.

No. 2, *White Lion Court, Cornhill.*

NOTICE is hereby given, that in pursuance of a Resolution passed this day, the Rules of this Society have been amended as respects the following matters relating to the building of Ships for the Commercial Marine, viz.:—

Ships built in the Colonies will be considered as "iron-fastened" in their centre lines, unless it shall be satisfactorily shown to the contrary, either by the exposure of some of the bolts, or by a certificate to be produced from the Builders.

Ships built in the Colonies, which shall have been classed A 1 for 4 years, will, on the termination of that period, be allowed a continuation of Character for Two Years, provided the requisitions of the Rules, Sections 54 and 63, shall be complied with, and the Owners shall agree to a strake in the Topsides, fore and aft, being also removed, and the Ships, specially surveyed in that state, shall be found to be in a sound and efficient condition.

Cuba Sabicu Timber, of good quality, will be inserted in the Table, No. 1, annexed to the Rules, as suitable for "Beams, Hooks and Knees," in Vessels of the 12 Years' grade. In the Tables, No. 2, it will also be inserted as suitable for the *outside* planking of Ships of the same grade, from the "Keel" to the "Light Water Mark," and also for "Waterways." It will likewise be allowed for the *inside* planking of Ships of this grade, *in all parts*. This description of timber will also be admitted as applicable *in all parts* of the frame and outside planking of Ships of the 10 years' grade.

Mahogany, of good quality, will be restricted in its use, in future, to the "Beams, Knees, and Hooks," of Vessels of the 12 years' grade. It will, however, be allowed for "Main Keelsons," and in all other parts, in Vessels of the 10 years' grade.

Spruce Timber and Plank, of good quality, the use of which has hitherto, in some respects, been limited to Vessels of the 4 years' grade, will be allowed for a term of 5 years, in all those instances in which the use of Black Birch is sanctioned in Vessels of the last-mentioned grade.

By Order of the Committee,
CHARLES GRAHAM, *Secretary*.

LLOYD'S REGISTER
Of British & Foreign Shipping.
ESTABLISHED 1834.

NOTICE is hereby given, that in pursuance of a Resolution passed on the 14th instant, the Rules of this Society, hereinafter referred to, have been amended as follows, viz:—

Rule, Section 46. As applicable to vessels of the 13 and 14 years grades, has been amended by the insertion of the following words in *Italics*:—"Ships otherwise entitled, *by their materials*, to stand higher than the 10 years grades," * * * shall be allowed the additional periods prescribed.

Rule, Section 52. It has been determined to frame the Rule thus:—Ships built in the UNITED KINGDOM under a roof, *which shall project at each end beyond the length, and on each side beyond the breadth, a quantity equal to half the breadth of the Vessel*, shall have one year added to the period prescribed for their continuing in the List of Ships of the First description of the First Class, provided they shall have occupied a period of not less than twelve months in their construction *and not less than nine months (as part thereof) after the Frames shall have been completed.*

Rule, Section 54 and 60. All vessels which may have been, or shall be classed Æ 1 in red, with the distinction of the ASTERISK, will, in addition to the Annual Survey to which they are liable under the Rule, Section 61, be required to undergo a SPECIAL RE-SURVEY, in conformity with the requisition of the Rules, Section 54, within a period (from the date of the last Special Survey) not exceeding *two-thirds* of the several terms of years originally assigned to them as Ships of the First description of the First Class; or earlier, if the judgment of the Surveyors, upon a careful examination of the Ship, the same shall appear to them to be necessary.

With respect to the MATERIALS proper to be used in the repair of Vessels, the Owners of which may apply for a Special Survey for the ASTERISK, it has also been determined that not any be permitted of a description inferior to those prescribed by the Tables for New Ships, for periods equal to *two thirds* of the several terms of years of original designation of the Ships undergoing repair, as the case may be. In the event of Materials of *less durability* being used, the period within which a Special Re-Survey will be required, will, upon their receiving the report of the Surveyors, be determined by a Committee.

By order of the Committee.
