By balance due, brought down, - - £13 19 7

This balance has also been paid over to the Chamberlain, and the amounts charged as paid to the Chamberlain are credited by that officer in his accounts.

Your Committee would here remark, that no Accounts have been filed in the Chamberlain's Office from the Collector of Taxes on the Western side of the Harbour, since the year 1847; the Committee therefore recommend that the necessary steps be taken to compel the said Collector to render his Accounts forthwith.

In closing the Report upon the Accounts for the past year, your Committee are pleased in being enabled to state, that the receipts from the Rent Roll for 1849 have exceeded those of 1848 upwards of £800.—That the Corporation Lands continue in requisition and thereby, a steady addition is made to this source of City income; and your Committee are satisfied that so soon as the present depression shall have passed over, the Rents will be still greatly increased.

The Revenues leased at auction have fully maintained their former rates, and the receipts from the Markets have exceeded that of any former year.

The building of a spacious Market upon the lot of ground leased from William Scovil, Esquire, will be found a great accommodation to the Farmer, and convenience to the public, and the leasing of a part of the ground for buildings, has produced a sum nearly equal to the rent paid, thereby leaving the greater part as a Market at a trifling expence to the Corporation.

The Dividend of five per cent. interest has been promptly paid to the Bond Holders from the legitimate funds of the Corporation; and all claims against the City, not secured by Bond, have been duly paid in full.

The Accounts in detail are herewith, and your Committee recommend that they be published in Pamphlet form for distribution.

On a general review of the financial state of the Corporation—Your Committee feel warranted in observing that, by a continued prudent management of the affairs of the Board, the credit of the Corporation will be maintained, and the Creditors have cause to be satisfied that their investments with the City are among their best securities.

All of which is respectfully submitted.

W. H. NEEDHAM,

G. VANHORNE, } *Committee.*
J. FAIRWEATHER,
W. H. A. KEANS,

Saint John, January 29, 1850.

Whaling Enterprise.—*A Remarkable Voyage.*—We are indebted to a friend for the following account of the whaling cruise just completed by the ship Junior, Capt. Silas Tinkham, owned by Messrs. D. R. Greene & Co. of this city, which for daring adventure and persevering effort is perhaps unparalleled in the annals of the Whale Fishery:

The Junior sailed from this port Dec. 15, 1847, and after an unsuccessful cruise in the Indian Ocean, touched at Van Dieman's Land for recruits, having obtained only 100 bbls. of sperm oil, sixty of which was sold at that place for payment of refreshments and other necessaries for an antarctic cruise, where Capt. Tinkham had been informed that whales were abundant. Sailed from Hobart's Town Nov. 27, 1848, without a consort, for the Southern Polar Seas, and in lat. 65 S. fell in with the icy barrier and cruised along its margin until the 5th of Feb., during which time the Junior was probably more than one thousand miles distant from any other vessel and cut off from any hope of assistance in case of accident. The cruise, however, proved entirely unsuccessful; humpbacks and finbacks were numerous, with other indications of whales, but not a single sperm or right whale was fallen in with. The weather was fine. On the 15th of March, 1849, touched at Wangaroa Bay, New Zealand, and sailed thence 20th March for the North Polar Seas, and reached Behring's Straits, where they took eleven whales, making 1900 bbls. of oil—the first on the 5th day of June and the last on the 15th of July. Just four months from the time of leaving New Zealand the Junior completed her cargo by purchase of 700 bbls. of oil from the wreck of the ship Richmond, Capt. Winters, of Cold Spring, N. Y., and also purchased the wreck as it lay stranded in St. Lawrence Bay, and saved from it chains, anchors, and other articles, which were taken to Honolulu Sept. 28th, and sold. A part of the officers and crew of the Richmond also took passage to Honolulu in the Junior, and sailed thence for home on the 21st of November.

After the unsuccessful cruise in the Southern hemisphere the Junior passed from 65° S. to 66° N., thus making in seven months and 20 days a run of more than ten thousand miles, exclusive of the distance in cruising for whales, and obtaining in the meantime a full cargo of oil and bone;—accomplishing the distance from the South polar circle to the North polar circle and taking 1900 bbls. oil in five months and 10 days.

We are not aware that a similar achievement has been performed by a ship of any nation; and it certainly affords a striking illustration of the indomitable energy and perseverance which attends our hardy New England whalemen in the pursuit of the monsters of the deep through every sea, bringing them into communication with all nations,—at one time, with the Japanese, by relieving their junks when in distress and restoring them to their country, at another, paying their respects to the Khan of Tartary and the Manchoos, and anon astonishing by their wonted freedom and independence the oppressed subjects of the Czar at Petro Polauvski, or as in the past year holding council with their new friends the natives of Behring's Straits—the last of whom, to their credit be it spoken, have evinced a warm friendship towards our hardy adventurers in their dominions, and cordially rendered effective assistance, as in the case of the unfortunate ship Richmond in aiding the efforts to get her again afloat and in saving her cargo. We trust that the good feeling in which the intimacy with our arctic friends has commenced may continue unimpaired by any unkind or dishonorable treatment of them by our vessels which may hereafter visit their ungenial but hospitable coast.—*New Bedford Mercury.*
