NOTICE is hereby given, that in pursuance of a Resolution passed this day, the Rules of this Society have been amended as respects the following matters relating to the building of Ships for the Commercial Marine, viz.:—

Ships built in the Colonies will be considered as "iron-fastened" in their centre lines, unless it shall be satisfactorily shown to the contrary, either by the exposure of some of the bolts, or by a certificate to be produced from the Builders.

Ships built in the Colonies, which shall have been classed A 1 for 4 years, will, on the termination of that period, be allowed a continuation of Character for Two Years, provided the requisitions of the Rules, Sections 54 and 63, shall be complied with, and the Owners shall agree to a strake in the Topsides, fore and aft, being also removed, and the Ships, specially surveyed in that state, shall be found to be in a sound and efficient condition.

Cuba Sabicu Timber, of good quality, will be inserted in the Table, No. 1, annexed to the Rules, as suitable for " Beams, Hooks and Knees," in Vessels of the 12 Years' grade. In the Tables, No. 2, it will also be inserted as suitable for the *outside* planking of Ships of the same grade, from the " Keel" to the " Light Water Mark," and also for " Waterways." It will likewise be allowed for the *inside* planking of Ships of this grade, *in all parts.* This description of timber will also be admitted as applicable *in all parts* of the frame and outside planking of Ships of the 10 years' grade.

Mahogany, of good quality, will be restricted in its use, in future, to the " Beams, Knees, and Hooks," of Vessels of the 12 years' grade. It will, however, be allowed for " Main Keelsons," and in all other parts, in Vessels of the 10 years' grade.

Spruce Timber and Plank, of good quality, the use of which has hitherto, in some respects, been limited to Vessels of the 4 years' grade, will be allowed for a term of 5 years, in all those instances in which the use of Black Birch is sanctioned in Vessels of the last-mentioned grade.

ESTABLISHED 1834.

NOTICE is hereby given, that in pursuance of a Resolution passed on the 14th instant, the Rules of this Society, hereinafter referred to, have been amended as follows, viz:—

Rule, Section 46. As applicable to vessels of the 13 and 14 years grades, has been amended by the insertion of the following words in *Italics*:—" Ships otherwise entitled, *by their materials,* to stand higher than the 10 years grades," * * * shall be allowed the additional periods prescribed.

Rule, Section 52. It has been determined to frame the Rule thus:—Ships built in the UNITED KINGDOM under a roof, *which shall project at each end beyond the length, and on each side beyond the breadth, a quantity equal to half the breadth of the Vessel,* shall have one year added to the period prescribed for their continuing in the List of Ships of the First description of the First Class, provided they shall have occupied a period of not less than twelve months in their construction *and not less than nine months (as part thereof) after the Frames shall have been completed.*

Rule, Section 54 and 60. All vessels which may have been, or shall be classed Æ 1 in red, with the distinction of the ASTERISK, will, in addition to the Annual Survey to which they are liable under the Rule, Section 61, be required to undergo a SPECIAL RE-SURVEY, in conformity with the requisition of the Rules, Section 54, within a period (from the date of the last Special Survey) not exceeding *two-thirds* of the several terms of years originally assigned to them as Ships of the First description of the First Class; or earlier, if the judgment of the Surveyors, upon a careful examination of the Ship, the same shall appear to them to be necessary.

With respect to the MATERIALS proper to be used in the repair of Vessels, the Owners of which may apply for a Special Survey for the ASTERISK, it has also been determined that not any be permitted of a description inferior to those prescribed by the Tables for New Ships, for periods equal to *two-thirds* of the several terms of years of original designation of the Ships undergoing repair, as the case may be. In the event of Materials of *less durability* being used, the period within which a Special Re-Survey will be required, will, upon their receiving the report of the Surveyors, be determined by a Committee.
