DR. FONTAINE'S
Balm of a Thousand Flowers,
For the Toilet, the Nursery, for Bathing and many Medicinal purposes;

HIGHLY perfumed by its own ingredients: recommended by the Faculty of almost every European city, and established under the patronage of almost every Physician in London and Paris, and thousands of individuals, who make daily use of it in New-York, Philadelphia and Boston. It is the greatest luxury a lady or gentleman could wish for the improvement of health, for comfort and personal embellishment, and its delicate soothing sensation, and the delightful softness it imparts to the complexion.
We give a few of the prominent properties of the
Balm of a Thousand Flowers!
already well established by actual experience.
FIRST:
This Balm remedies every defect of the complexion,
and establishes in its stead Beauty and Health, at the time when both, by the changes of age, or freaks of nature, or disease, have been obscured or undermined—it cleanses the skin, and draws to the surface all impurities, and every species of pimples and blotches; also removes tan, sunburns, sallowness, and freckles, imparting to the skin its original purity, and an unsurpassed freshness, rendering it clear, smooth, and white.
SECOND:
It promotes the growth and increase of the Hair—causing it to curl in the most natural manner.
It cleanses the head from dandruff, giving vigor, health and life to the very roots of the hair.
THIRD:
It is a superior article for Shaving, being superior to all descriptions of Soaps, Creams, Pastes, &c.
As a Dentrifice for Cleansing the Teeth, it is by far the most medicinal of any compound yet discovered, preventing decay, relieving pain, ulcers and cankers, and renders the teeth white as alabaster. For bathing, for suffering infants, and for adults, to promote sweetness of body, cleanliness, health and strength, and to prevent eruptions, &c., there is no article more suitable than this Balm. It may be used in cold or warm, hard or soft water.

Important Caution.—The health of many persons having been seriously injured by spurious compounds of pease, beans, and oatmeal, under close imitation of name, such as "Arabian Revalenta," "Ervalenta," "Lentil Powder," "Patent Flower of Lentils," and "Arabica Food," it will be necessary to note Messrs. Du Barry & Co.'s name on each canister, in order to avoid being imposed upon by heartless knavery. These imitations are harmless to rustic stomachs and young pigs, but too irritating, heating, and flatulent for persons of weak digestion.

TAILORING ESTABLISHMENT.

THIS was the first place of the kind ever opened since Saint John contained twenty inhabitants, conducted upon the low price Cash system, and strictly carried it out.
It is now five years since the Proprietors, working Tailors, men who knew their business, and were regularly brought up to their trade in the Old Country, asked themselves, could a Merchant Tailor's business not be carried on, and make the customers pay cash down, allowing we charge them one-half of what we know to be usually charged where they are in the habit of crediting all who may patronise their system. In order to keep pace with the present day, we determined to deviate a little from those who had gone before us.
Some few friends—for be it known we had but few, save and except the man who pays for his coat before worn out—said you cannot expect to succeed, the place is too small, but you will soon know every body who is good and who is bad. We concluded that to discriminate, who was and who was not, was too nice a point for our experience, consequently we continued just as we commenced—namely, Cash on delivery, the course we adopted being entirely original with ourselves.
The man who gets his Clothes at this Establishment has not to pay for those who never pay.

THE Subscriber has just received from the Manufacturer, via New York, a few Cast Iron Well Pumps, with wood pipe in joints which screw together, suitable for wells of any depth under 25 feet. They are large, and, being made of Iron, are well calculated for an out-door pump; they throw water with great ease and rapidity, and are the most durable and desirable article for wells now in use. At the upper end of the cylinder is a small hole which allows the water to drain off, thereby preventing the possibility of freezing in winter.

POETRY.

THE HOME OF PEACE.

We are apt to grow a-weary
In this troubled world at times,
For even golden bells can ring
In melancholy chimes;
And let our human lot in life
Be what or where it may,
Dark shadows often rise, from which
Our hearts would turn away.
Full often do we sigh to taste
Some spirit-draught of joy,
And almost envy childhood's laugh
Above its painted toy;
When some great hope breaks under us,
Or loved ones prove unjust,
And, roused from starry dreams, we find
Our pillow in the dust.
Say, whither shall we turn to seek
The healing balm of rest,
And whence shall come the cheerful ray
To re-illume our breast?

Oh! let us go and breathe our woe
In Nature's kindly ear,
For her soft hand will ever deign
To wipe the mourner's tear;
She mocks not, though we tell our grief
With voice all sad and faint,
And seems the fondest while we pour
Our weak and lonely plaint.
Oh! let us take our sorrows
To the bosom of the hills,
And blend our pensive murmurs
With the gurgle of the rills;
Oh! let us turn in weariness
Toward the grassy way,
Where skylarks teach us how to praise,
And ringdoves how to pray;
And there the melodies of Peace,
That float around the sod,
Shall bring back hope and harmony
Upon the voice of God.

Commissariat Department.—It has been recommended that the Commissariat Office and the Establishment in Ireland should be immediately withdrawn, and that after so many years of peace it appears that the arrangements of the Commissariat are all based upon a state of war, which seem to be unnecessary, as from the best evidence that has been adduced to the select committee, no training in time of peace will fit a commissary for his duties in the field during war.—United Service Gazette.
