DR. FONTAINE'S
Balm of a Thousand Flowers,
For the Toilet, the Nursery, for Bathing and many Medicinal purposes;

HIGHLY perfumed by its own ingredients: recommended by the Faculty of almost every European city, and established under the patronage of almost every Physician in London and Paris, and thousands of individuals, who make daily use of it in New-York, Philadelphia and Boston. It is the greatest luxury a lady or gentleman could wish for the improvement of health, for comfort and personal embellishment, and its delicate soothing sensation, and the delightful softness it imparts to the complexion.

We give a few of the prominent properties of the

Balm of a Thousand Flowers!

already well established by actual experience.

FIRST:
This Balm remedies every defect of the complexion,

and establishes in its stead Beauty and Health, at the time when both, by the changes of age, or freaks of nature, or disease, have been obscured or undermined—it cleanses the skin, and draws to the surface all impurities, and every species of pimples and blotches; also removes tan, sunburns, sallowness, and freckles, imparting to the skin its original purity, and an unsurpassed freshness, rendering it clear, smooth, and white.

SECOND:
It promotes the growth and increase of the Hair—causing it to curl in the most natural manner.

It cleanses the head from dandruff, giving vigor, health and life to the very roots of the hair.

THIRD:
It is a superior article for Shaving, being superior to all descriptions of Soaps, Creams, Pastes, &c.

As a *Dentrifice for Cleansing the Teeth*, it is by far the most medicinal of any compound yet discovered, preventing decay, relieving pain, ulcers and cankers, and renders the teeth white as alabaster. For bathing, for suffering infants, and for adults, to promote sweetness of body, cleanliness, health and strength, and to prevent eruptions, &c., there is no article more suitable than this BALM. It may be used in cold or warm, hard or soft water.

TAILORING ESTABLISHMENT.

THIS was the first place of the kind ever opened since Saint John contained twenty inhabitants, conducted upon the low price *Cash system*, and strictly carried it out.

It is now five years since the Proprietors, working Tailors, men who knew their business, and were regularly brought up to their trade in the Old Country, asked themselves, could a Merchant Tailor's business not be carried on, and make the customers pay *cash down*, allowing we charge them one-half of what we know to be usually charged where they are in the habit of crediting all who may patronise their system. In order to keep pace with the present day, we determined to deviate a little from those who had gone before us.

Some few friends—for be it known we had but few, save and except the man who pays for his coat before worn out—said you cannot expect to succeed, the place is too small, but you will soon know every body who is good and who is bad. We concluded that to discriminate, who was and who was not, was too nice a point for our experience, consequently we continued just as we commenced—namely, *Cash on delivery*, the course we adopted being entirely original with ourselves.

The man who gets his Clothes at this Establishment has not to pay for those who never pay.

GRAND JURY PRESENTMENT.

The Grand Jury for the City and County of Saint John, at the Session of December, 1851, beg to make the following General Presentment to the Court:

A Bill was read before the Grand Jury, "To secure to the holders of certain outstanding Debentures of the City and County of Saint John, payment of the principal, money and interest thereon," by assessment on the City and County, and the opinion of the Grand Jury was requested on the same.

The Grand Jury having no information before them on the mode of expenditure for the erection of the House of Correction, by which the alleged deficiency was caused, and knowing no reason why the Province, which now owns the Building, should not defray the cost of it, decline to express an opinion on the Bill, but recommend that a further appeal be made to the Legislature.

The Grand Jury having been requested to examine into the apportionment of County Taxation on the several Parishes, procured from the Clerk of the Peace a statement of the value of real and personal property in the County, as estimated by the Assessors of Taxes in the several Parishes, of which the following is a copy:

City of Saint John, 1850,	77 6-10 -	£2,392,825
Parish of Portland, ...	14 1-10 -	436,162
" Lancaster, ...	2 5-10 -	70,608
" Simonds, ...	3 8-10 -	117,575
" St. Martins, ...	2 -	61,625
		£3,078,795

The Taxes are levied at present in the following proportions:—

City of Saint John,	78 per cent.
Parish of Portland,	14 "
" Lancaster,	3 "
" Simonds,	2½ "
" St. Martins,	2½ "
	100

According to the above valuations, the proportions should be nearly thus in future:—

City of Saint John,	77½ per cent.
Parish of Portland,	14 "
" Lancaster,	3 "
" Simonds,	4 "
" St. Martins,	2½ "
	100

And the Grand Jury recommend that if, on a careful revision of the Assessment Books, and the calculations derived therefrom, the above statement is found correct, the taxes be apportioned accordingly.

The Grand Jury visited the Provincial Lunatic Asylum, and found it in a condition as satisfactory as it is possible to be in its present crowded state.

THE MAIN BUILDING.

The front flat is devoted to the accommodation of the Officers, and to the business of the House. The Grand Jury observed particularly the extent of the apartments and the furniture of the Superintendent, and it affords them satisfaction to state that, in their judgment, both are on a moderate and economical scale.

The arrangements on this flat appear to be all judicious.

The basement accommodates twenty-one patients, who appear to be as comfortable as they can well be made in apartments under ground.

The second flat at present accommodates sixteen patients, while in the South corner there are three rooms, and in the North corner, there is one room still vacant. These rooms could not be made available, for the class for whom they are intended, for more than three additional patients.

The rooms formerly occupied by the Medical Superintendent in this flat are now in use: two occupied by a first class male paying patient, and the other two by females.

On the third flat there are fifteen patients, making in all in the main building, fifty-two patients.

THE LODGE.

In the basement and first flat, one ward, there are twenty-seven males, and in the second and upper flats, also one ward, there are twenty-three female patients, making fifty in all.

The building may be said to be crowded from the upper flat to the basement, and in the opinion of the Jury, it only requires a glance at the description of patients in this building, to arrive at the conclusion that it is utterly hopeless to expect that the fulness here can be relieved by removing the inmates to the centre one.

The Jury have learned that there has been an increase in the average number of patients this year over last of ten, and it is the opinion of the Superintendent that that number at least may be calculated on as a permanent annual increase.

The Jury are therefore forced to the conclusion, that unless increased accommodations are provided, a legal provision should be made to restrict the number of patients.

The Jury would, however, most earnestly recommend that a grant be made by the Legislature of a sum sufficient for the immediate completion of the original design.

The institution, even as it is, is highly creditable to the Province, and it would be a matter of deep regret if a false economy were allowed to interfere with the health and means of cure of this unfortunate class of our fellow creatures.

The Grand Jury visited the Alms House and found the whole establishment in excellent condition; the bedding in every room, and the rooms themselves, very clean, and the whole reflecting the highest credit on the keeper and matron.

The Grand Jury present the state of the Jail as demanding the immediate and earnest attention of the Sessions. The heating apparatus, from being ill-contrived and improperly executed, does not serve the purpose, and is injuring the building from leakage. The stench, from want of ventilation is insufferable, and must produce disease and premature death amongst the unfortunate inmates of the prison.

The Grand Jury cannot abstain from expressing their disapprobation at the removal from office, without cause, of the person who so long held the situation of turnkey and jailor, and the substitution of a person who, in the opinion of the Jury, is, from his age, incompetent to perform the duties of so important an office.

The Grand Jury visited the Marine Hospital and found it in its usual satisfactory and efficient state.

The Grand Jury have again to call attention of the Court to the inadequacy of the room now in use as a Register Office. The vault and the room itself are quite too small for the purpose, by which the public are subjected to inconvenience, and the books and deeds liable to be lost.

The Grand Jury understand that some years ago each County was empowered to erect a Register Office
