TAILORING ESTABLISHMENT.

THIS was the first place of the kind ever opened since Saint John contained twenty inhabitants, conducted upon the low price *Cash system,* and strictly carried it out.

It is now five years since the Proprietors, working Tailors, men who knew their business, and were regularly brought up to their trade in the Old Country, asked themselves, could a Merchant Tailor's business not be carried on, and make the customers pay *cash down,* allowing we charge them one-half of what we know to be usually charged where they are in the habit of crediting all who may patronise their system. In order to keep pace with the present day, we determined to deviate a little from those who had gone before us,

Some few friends—for be it known we had but few, save and except the man who pays for his coat before worn out—said you cannot expect to succeed, the place is too small, but you will soon know every body who is good and who is bad. We concluded that to discriminate, who was and who was not, was too nice a point for our experience, consequently we continued just as we commenced—namely, *Cash on delivery,* the course we adopted being entirely original with ourselves.

The man who gets his Clothes at this Establishment has not to pay for those who never pay.

DR. FONTAINE'S
Balm of a Thousand Flowers,
For the Toilet, the Nursery, for Bathing and many Medicinal purposes;

HIGHLY perfumed by its own ingredients: recommended by the Faculty of almost every European city, and established under the patronage of almost every Physician in London and Paris, and thousands of individuals, who make daily use of it in New-York, Philadelphia and Boston. It is the greatest luxury a lady or gentleman could wish for the improvement of health, for comfort and personal embellishment, and its delicate soothing sensation, and the delightful softness it imparts to the complexion.

We give a few of the prominent properties of the

Balm of a Thousand Flowers!

already well established by actual experience.

FIRST:
This Balm remedies every defect of the complexion,
and establishes in its stead Beauty and Health, at the time when both, by the changes of age, or freaks of nature, or disease, have been obscured or undermined—it cleanses the skin, and draws to the surface all impurities, and every species of pimples and blotches; also removes tan, sunburns, sallowness, and freckles, imparting to the skin its original purity, and an unsurpassed freshness, rendering it clear, smooth, and white.

SECOND:
It promotes the growth and increase of the Hair—causing it to curl in the most natural manner.
It cleanses the head from dandruff, giving vigor, health and life to the very roots of the hair.

THIRD:
It is a superior article for Shaving, being superior to all descriptions of Soaps, Creams, Pastes, &c.
As a *Dentrifice for Cleansing the Teeth,* it is by far the most medicinal of any compound yet discovered, preventing decay, relieving pain, ulcers and cankers, and renders the teeth white as alabaster. For bathing, for suffering infants, and for adults, to promote sweetness of body, cleanliness, health and strength, and to prevent eruptions, &c., there is no article more suitable than this BALM. It may be used in cold or warm, hard or soft water.

OFFICIAL NARRATIVE
Of the Wreck of the Transport Phillis,
On the Coast of Newfoundland, in 1795.

Great Jervis, in the Island of Newfoundland, December 2, 1795.

DEAR SIR,—A small vessel, which sails by the first fair wind, for England, gives me the opportunity of sending you (for the information of General Pattison,) the following melancholy account of the detachment of the Royal Artillery, which embarked for Quebec on board the ship *Phillis,* in August last.

On Sunday the 11th of October, which made exactly the ninth week of our voyage, we had only got as far as the Island of St. Peters, about forty leagues to the Eastward of the Southern entrance of the Gulf of St. Lawrence, during which time we suffered every hardship which could arise from bad weather and a scarcity of fresh provisions. It is necessary to mention, that on the Thursday which preceded, in a very severe gale of wind, a heavy sea broke both our boats from their lashings upon deck, a circumstance which greatly contributed to our future misfortunes, as, in securing them again, we were obliged to lash them with their bottoms upwards, the shocks having been lost.

On the night of Sunday the 11th, a gale of wind sprung up from the Eastward, which continued till four o'clock on the afternoon of Monday the 12th, when in an instant it fell quite calm. Between six and seven, in the evening, the chief mate of the ship came into the cabin and called out the captain, in a very mysterious manner, and soon after, some of us going upon deck, heard very plainly the noise of breakers; that noise increasing every instant, we were soon convinced we had got into a strong current, which set us tow
