NEW-BRUNSWICK SOCIETY
For the Encouragement of Agriculture, Home Manufactures, Commerce, &c.
GREAT PROVINCIAL EXHIBITION

To be opened at Fredericton on Tuesday the 5th October next, under the auspices and patronage of His Excellency THE LIEUTENANT GOVERNOR and LADY HEAD.

TO THE PUBLIC.

The Legislature having passed a grant of Five Hundred Pounds in aid of the funds of the Society, to provide for the expenses of getting up and managing the proposed Exhibition, and thereby showing their approval of the same, upon the plan and contemplated arrangements contained in the resolutions of the Society passed at the general meetings held on the 15th October and 7th January last, which have all been heretofore published and widely circulated throughout the Province—the Executive Committee are now actively engaged in the preparations requisite for carrying out the scheme; and all local committees for the different Counties in the Province; the general committee, (consisting of the Legislative Council and Members of the House of Assembly, in their private capacities, in their respective Counties;) the several County Agricultural Societies, and Mechanics' Institutes in the different parts of the Province; Manufacturing Companies, and all Agriculturists, Horticulturists, Manufacturers, Mechanics, Artizans and Artists throughout the country, and all other persons taking an interest in its welfare and prosperity, are now called on to be up and doing, in aid of this great work; as no time is to be lost in preparing articles to be brought forward for competition, and in raising subscriptions in aid of the funds necessary to provide for the large expenses that must be incurred.

It will be seen by the schedule and classified list of the objects for the Exhibition, already published, that it will be opened to all the natural productions, both mineral and vegetable, of the Province; to all kinds of Agricultural produce; to all articles of Home Manufacture of every description; to cattle, horses, sheep, pigs, poultry, and cured meats of all kinds, and to specimens of all the different branches of the Fine Arts.

Farmers, gardeners, manufacturers, musical instrument makers, jewellers, watch and clockmakers, carpenters, weelwrights, blacksmiths, whitesmiths, founders, mill-owners, carriage-builders, boot and shoemakers, saddle and harness makers, and indeed all descriptions of mechanics, artisans and artists, are therefore strongly invited to come forward with the respective productions of their industry, labour, skill, ingenuity and ability in their different callings, for a generous competition with each other for excellence, and thus shew what the resources of the Province are, and what the people in it can do.

The Ladies of the Province are also solicited to exert their talents and ingenuity in fancy and ornamental works for the show.

Liberal prizes will be awarded to the victors in this praiseworthy rivalship, a list of which will be hereafter published as soon as it can be prepared and arranged. Pecuniary assistance to a limited amount, so far as the funds will permit, will be placed at the disposal of the respective local committees for Counties at a distance from Fredericton, to afford aid to such persons as may be in need of the same in the expenses of transmitting their articles for competition to the Exhibition; and the more liberal the subscriptions from such Counties are, the greater will be the amount to which such aid can be extended to them.

The Exhibition will be opened by His Excellency the Lieutenant Governor in person, on Tuesday the 5th October next, and closed on Saturday the 9th, during which time a Fair will be held with the Exhibition, at which Ploughing Matches, Regattas, and various kinds of public amusements and sports will be provided for, according to a programme that will be hereafter published; as the object is to make this great Exhibition and Show not only highly beneficial to the Province at large, and thus carry out the most important object of the Society, but also instructive and amusing to all who attend it.

The use of the Province Building has been kindly granted to the Society for the occasion, in which all articles of a nature to require great care, safe keeping, and protection from the weather, will be placed.

Every exertion will be made to provide the means of comfortable accommodations in Fredericton and its immediate vicinity, for visitors to the Show.

It is hoped and trusted that the Public Press of the Province, that powerful engine for promoting all great undertakings, will be exerted in behalf of this good cause, and that the Editors of Newspapers in the several districts of the country will give insertion in their respective papers to this Communication, and exert themselves to give general information on, and keep the public attention alive to all matters connected with the scheme, which may tend to its success, and excite an extensive spirit of enterprise and desire for excellence among the people.

G. F. STREET,
President of the Society.

Fredericton, 8th April, 1852.

PAUSE! READ! CONSIDER!

FELLOWS' Compound Fluid Extract of SARSAPARILLA.

A NEW and the most valuable Extract yet introduced, which is put up in Quart bottles, is cheaper, more pleasant, and warranted superior to any sold. It is prepared from the best

Honduras Sarsaparilla Root,

combined with Yellow Dock and other valuable productions, which from their purifying effects on the Blood render it the best

Spring and Summer Medicine

in the World, purifying and cleansing, giving tone and strength to the whole system.

This Extract is the result of numerous experiments, and the Proprietors feel confident that they have arrived at that perfection in preparing it to which no other manufacturer has yet attained. Every person has heard of Sarsaparilla. All have heard of its uses.—And many Physicians in this City are conscious of the fact that our Extract is far superior to those sold under the names of Townsend's, Sands', Bristol's, Brown's or Bull's Sarsaparilla, inasmuch as it contains other prime remedies besides those used by the above named parties, is STRONGER, contains nothing but *Vegetable productions*, and is prepared *without boiling*, which causes it to retain all the volatile and active properties.

ENCOURAGE HOME MANUFACTURE.

We pledge our reputation on the truth of what we here state, that we believe it better in every sense than any other Extract of Sarsaparilla ever introduced.

Scrofulous Diseases, Cutaneous Eruptions, Rheumatic Affections, Syphiletic Disorders, Liver Complaints, Dyspepsia, Lung and Bronchial Affections, all diseases arising from the injudicious use of Mercury, Impure state of the Blood or habit of the system, are some of the many diseases which are cured by the use of this Sarsaparilla.

FELLOWS & CO., *Manufacturers.*

FRIENDS AND CUSTOMERS,

AFTER the FIRST OF MAY, the MEDICAL HALL will be removed to the SHOP known as No. 2, Saint Stephen's Building, next adjoining Mr. Breeze's, fronting on King's Square; and as my present landlord (Mr. James F. Secord, Grocer,) intends, after that time, opening a Business of a similar kind in the Shop I now occupy, I would request that persons sending for Medicines or other articles to be purchased from me, would observe, particularly that the name and address (R. D. McARTHUR, Medical Hall,) be attached to each bottle or package.

Expected to arrive from London, by first Spring Vessels—A full supply of DRUGS, MEDICINES, CHEMICALS, PAINTS, OILS, &c., &c., which will be disposed of at his usual low terms.

March 20. R. D. McARTHUR.

Water Cure Establishment, Brattleboro, Vermont.

THE Proprietor, DR. R. WESSELHOEFT, begs to inform the public that he has recovered from his severe sickness, and is able again to attend to his professional duties. Former and new patients, therefore, may depend upon his giving due attention to their cases. They will find, also, comfortable and pleasant accommodation, both for themselves and friends, but will please to remember that the establishment is intended for *the cure of diseases by means of water*, and not for a Hotel at a fashionable watering place. Yet, to the lovers of Nature and a quiet Summer residence, the house has many attractions besides its water cure, for Nature has indeed been lavish of her gifts on the town, and the walks and drives in the vicinity.

January 24th, 1852.

To be Let, for a Term of Years, at a moderate rent,

And immediate possession given:—

The "DOUGLAS ARMS INN," ON THE NEREPIS ROAD.

As the Grand Trunk Line of the European and North American Railway must pass in this direction, and have a Station in the immediate neighbourhood of the Hotel, which has been built expressly for a large business, the *Douglas Arms* offers an excellent opportunity for a safe and profitable investment, to any person possessed of sufficient means, and who is qualified for the management of a respectable and genteel business. In the summer season, passengers by the Steamers from Indian Town, can be landed, twice daily, in from forty to fifty minutes, at Brundage's Point; and by carriage, in thirty minutes more, they may be comfortably seated in the Douglas Arms.—From the time of leaving the City it would only require about one hour and a half to reach the Establishment. The climate is delightful and remarkably healthy. The fog seldom reaches the valley of the Nerepis, even while this city remains for many days together enveloped in its cold and chilling embraces.

The Douglas Arms, being on the main road to Fredericton, which connects Saint John with the Seat of Government, has been long established both as a Summer and Winter Hotel: and is distant from the City eighteen miles by the land route and thirteen by the water. Its proximity to St. John renders it a most convenient and comfortable resort in the Summer season for private families and pleasure parties.

The country in the neighbourhood of the Douglas Arms offers many attractions to sportsmen and others. The House contains seven comfortable parlours, a large dining room, twenty-one bed-rooms, a grocery shop, or bar-room, a large brick and Roman cement tank for holding rain water, a well arranged kitchen, in which there are a brick oven, a large boiler, and an excellent cooking stove. On the same flat there are also a large hall stove, and a convenient frost proof cellar.

In addition to a sufficient number of Barns for the use of the Farm, a new one has lately been erected, forty feet wide by fifty feet long, for the accommodation of the summer and winter travelling.

The Douglas Arms has been re-built on a large and splendid scale, and is in every way suited to the situation and growing importance of that beautiful and picturesque part of the country. The Hotel will be let either alone or with the large and valuable Farm attached to it. For particulars apply to

The Subscriber having been appointed Agent to the above Company for New-Brunswick, begs to announce that he is prepared to receive Proposals for FIRE AND LIFE ASSURANCE. The large Capital of the Company, and the number and influence of its Proprietors, enable it to rank with the most eligible Offices, either in America or Europe, with respect to the advantages offered to the Public.

FIRE BRANCH.

Persons assured by this Company are not subject to any covenants or calls to make good losses which may happen to themselves or others, nor do they depend upon an uncertain fund or contribution, the Capital Stock of this Company being an unquestionable security to the Assured in case of Loss or Damage by Fire.

LIFE BRANCH.

In addition to the more customary methods of Insurance, the Company likewise Assures Lives on any of the following contingencies:—

For the term of One Year, Seven Years, or any other definite period.

For the whole continuance of Life.—The Premiums to cease, after a limited number of Annual Payments.

For Two Joint Lives.—The sum assured to be paid on the death of either.

On the longest of Two or Three Lives. The sum assured to be payable at the death of the last survivor; or,

On Survivorships.—To secure the payment of the sum assured, if a life A die before another life B.

For a sum to be payable at age 60, or at death.

Premiums on Credit.—A portion of the Premiums may remain on Credit. Assurances may be effected in various ways, not enumerated, to meet the convenience of parties.

The important advantages afforded by the Company in the Life Branch will include the following, viz:—

The Guarantee of an ample Capital, and Exemption of the Assured from liability of Partnership.

Moderate Premiums.

Large Participation of Profits by the Assured, amounting to Two-thirds of its net amount, which may be applied at the option of the party effecting the Assurance:—1st. By the immediate payment of the sum so apportioned.—2nd. By an equivalent reduction of the future Premiums.—Or, 3rd. By an equivalent increase of the sum assured.

Small Charge for Management.—The expenses of the Office being borne in due proportion by the two Branches.

Prompt Settlement of Claims.

Policies lapsed by non-payment of the Premium may be renewed within three months, by paying the Premium, with a fine of 10s. per cent., on the production of evidence to the satisfaction of the Directors of the good state of health of the life assured.

The Company will always be prepared to Purchase the Policies of this Office at their equitable value, or will grant a New Policy in lieu thereof, without any further payment of Premium, for a sum to be agreed on.

Extra Premiums, suitable to special circumstances, will be accepted, to enable a party possessing a Policy on the life of another to guard against the possibility of its being vitiated by the Life departing beyond limits, or by any other cause.

Thirty Days are allowed for the Payment of Premiums after the day on which they respectively become due.

Additional Advantages offered to Lives Assured with this Company at St. John, N. B.

I.—RESIDENCE.—Persons assured for the whole term of life will have permission, without the payment of extra Premium, to reside in any part of Europe, or in any place in North America to the north of 38 degrees of North Latitude, but not to the westward of the Mississippi River.

II.—VOYAGES.—They will also, if not seafaring by profession, be allowed, without any extra charge—

To cross and re-cross the Atlantic Ocean, in steamers or first-class sailing-vessels;

To pass from any part of Europe to any other, or from any part of North America to another, within the limits above specified; also,

To pass to and from, but not to reside in, any place which shall not be further south than 35 degrees of North Latitude, but not to the westward of the Mississippi River.
