The "DOUGLAS ARMS INN," ON THE NEREPIS ROAD.

As the Grand Trunk Line of the European and North American Railway must pass in this direction, and have a Station in the immediate neighbourhood of the Hotel, which has been built expressly for a large business, the *Douglas Arms* offers an excellent opportunity for a safe and profitable investment, to any person possessed of sufficient means, and who is qualified for the management of a respectable and genteel business. In the summer season, passengers by the Steamers from Indian Town, can be landed, twice daily, in from forty to fifty minutes, at Brundage's Point; and by carriage, in thirty minutes more, they may be comfortably seated in the Douglas Arms.—From the time of leaving the City it would only require about one hour and a half to reach the Establishment. The climate is delightful and remarkably healthy. The fog seldom reaches the valley of the Nerepis, even while this city remains for many days together enveloped in its cold and chilling embraces.

The Douglas Arms, being on the main road to Fredericton, which connects Saint John with the Seat of Government, has been long established both as a Summer and Winter Hotel: and is distant from the City eighteen miles by the land route and thirteen by the water. Its proximity to St. John renders it a most convenient and comfortable resort in the Summer season for private families and pleasure parties.

The country in the neighbourhood of the Douglas Arms offers many attractions to sportsmen and others. The House contains seven comfortable parlours, a large dining room, twenty-one bed-rooms, a grocery shop, or bar-room, a large brick and Roman cement tank for holding rain water, a well arranged kitchen, in which there are a brick oven, a large boiler, and an excellent cooking stove. On the same flat there are also a large hall stove, and a convenient frost proof cellar.

In addition to a sufficient number of Barns for the use of the Farm, a new one has lately been erected, forty feet wide by fifty feet long, for the accommodation of the summer and winter travelling.

The Douglas Arms has been re-built on a large and splendid scale, and is in every way suited to the situation and growing importance of that beautiful and picturesque part of the country. The Hotel will be let either alone or with the large and valuable Farm attached to it. For particulars apply to

The Subscriber having been appointed Agent to the above Company for New-Brunswick, begs to announce that he is prepared to receive Proposals for FIRE AND LIFE ASSURANCE. The large Capital of the Company, and the number and influence of its Proprietors, enable it to rank with the most eligible Offices, either in America or Europe, with respect to the advantages offered to the Public.

FIRE BRANCH.

Persons assured by this Company are not subject to any covenants or calls to make good losses which may happen to themselves or others, nor do they depend upon an uncertain fund or contribution, the Capital Stock of this Company being an unquestionable security to the Assured in case of Loss or Damage by Fire.

LIFE BRANCH.

In addition to the more customary methods of Insurance, the Company likewise Assures Lives on any of the following contingencies:—
For the term of One Year, Seven Years, or any other definite period.
For the whole continuance of Life.—The Premiums to cease, after a limited number of Annual Payments.
For Two Joint Lives.—The sum assured to be paid on the death of either.
On the longest of Two or Three Lives. The sum assured to be payable at the death of the last survivor; or,
On Survivorships.—To secure the payment of the sum assured, if a life A die before another life B.
For a sum to be payable at age 60, or at death.
Premiums on Credit.—A portion of the Premiums may remain on Credit. Assurances may be effected in various ways, not enumerated, to meet the convenience of parties.
The important advantages afforded by the Company in the Life Branch will include the following, viz:—
The Guarantee of an ample Capital, and Exemption of the Assured from liability of Partnership.
Moderate Premiums.
Large Participation of Profits by the Assured, amounting to Two-thirds of its net amount, which may be applied at the option of the party effecting the Assurance:—1st. By the immediate payment of the sum so apportioned.—2nd. By an equivalent reduction of the future Premiums.—Or, 3rd. By an equivalent increase of the sum assured.
Small Charge for Management.—The expenses of the Office being borne in due proportion by the two Branches.
Prompt Settlement of Claims.
Policies lapsed by non-payment of the Premium may be renewed within three months, by paying the Premium, with a fine of 10s. per cent., on the production of evidence to the satisfaction of the Directors of the good state of health of the life assured.
The Company will always be prepared to Purchase the Policies of this Office at their equitable value, or will grant a New Policy in lieu thereof, without any further payment of Premium, for a sum to be agreed on.
Extra Premiums, suitable to special circumstances, will be accepted, to enable a party possessing a Policy on the life of another to guard against the possibility of its being vitiated by the Life department going beyond limits, or by any other cause.
Thirty Days are allowed for the Payment of Premiums after the day on which they respectively become due.

Additional Advantages offered to Lives Assured with this Company at St. John, N. B.

I.—RESIDENCE.—Persons assured for the whole term of life will have permission, without the payment of extra Premium, to reside in any part of Europe, or in any place in North America to the north of 38 degrees of North Latitude, but not to the westward of the Mississippi River.
II.—VOYAGES.—They will also, if not seafaring by profession, be allowed, without any extra charge—
To cross and re-cross the Atlantic Ocean, in steamers or first-class sailing-vessels;
To pass from any part of Europe to any other, or from any part of North America to another, within the limits above specified; also,
To pass to and from, but not to reside in, any place which shall not be further south than 35 degrees of North Latitude, but not to the westward of the Mississippi River.

REVIEW OF THE WORK.
Marriage requires the fulfilment of several conditions, in order that it may be really the cause of mutual happiness. Could the veil, which hides the origin of domestic wretchedness, be raised, and its true source in every instance disclosed, in how many could it be traced to physical disqualification and their attendant disappointments. Excesses are always injurious; the gift, which when used with moderation is fraught with advantage, becomes when abused, the prolific source of mischief, and more or less injury to the constitution and mind follows. The particular excesses, on the nature and consequences of which this Treatise professes to treat, are productive of greater misery to the human race, than any other to which it is subject.
This Work contains an accurate and explicit account of the Anatomy and Physiology of the Reproductive Organs, and of their relative connexion with health and disease. Nor are these the sole features of the work, the means of escape, as well as the nature of the danger, are pointed out in plain and intelligible language. It deservedly requires the closest attention and study, for what subject can be of more importance than the preservation of health and of the physical capabilities of which man should be possessed. It unfortunately happens that the unhappy victim of excessive indulgence or vicious habits, whether acquired in early life from the follies of advanced age, while suffering from their invariable consequences, unwisely refrains from fear of applying to a qualified physician for relief. Shame and the dread so frequently felt of complaints are entertained that those complaints are beyond the reach of art, alike restrict him, and prevent him from seeking for assistance where alone it can be found. In acting thus, he forgets that accurate information in ascertaining the causes of disease, sympathy with the sufferer, and above all, secrecy, should characterize the intelligent and practical physician; and to the medical man, who can prove himself in possession of the requisite legal qualifications, the patient is entitled to esteem and respect in his honorable pursuits the utmost confidence should be reposed. DR. LA'MERT has obtained the highest medical honours as his diplomas testify, and the nature of his practice for many years is a guarantee of his professional experience, which has been devoted solely to the treatment of these diseases.
The work may be had in St. John, of ... & Co., price 2s. 6d. Stg.; Halifax, ... TON & Co.; Quebec, Mr. NEILSON.

HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND STOMACH...
Copy of a Letter from Mr. R. W. K..., 7, Prescot Street, Liverpool, dated ...
To Professor HOLLOWAY.
Sir,—Your Pills and Ointment stand the highest on our sale list of Proprietary Medicines for some years. A customer, *to whom I can refer* any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the last occasion, however, the virulence of the attack was so alarming, and the inflammation set in so severely, that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and although she used only three boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above, from the severity of the attack, and the speedy cure, I think, speaks much in favour of your astonishing Pills.

From Messrs. Thew & Son, Proprietors of the ... Advertiser," who can vouch for the ... ment.—August 2nd, 1851.
To Professor HOLLOWAY.
Sir,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath, that prevented me from walking about. I am 84 years of age; and notwithstanding my advanced state of life, these Pills have so relieved me, that I am desirous that others should be made acquainted with their virtues. I am now rendered, by their means comparatively active, and can take exercise without inconvenience or pain, which I could not do before. (Signed) ...
