DR. FONTAINE'S
Balm of a Thousand Flowers,
For the Toilet, the Nursery, for Bathing and many Medicinal purposes;

HIGHLY perfumed by its own ingredients: recommended by the Faculty of almost every European city, and established under the patronage of almost every Physician in London and Paris, and thousands of individuals, who make daily use of it in New-York, Philadelphia and Boston. It is the greatest luxury a lady or gentleman could wish for the improvement of health, for comfort and personal embellishment, and its delicate soothing sensation, and the delightful softness it imparts to the complexion.

We give a few of the prominent properties of the

Balm of a Thousand Flowers!
already well established by actual experience.

FIRST:
This Balm remedies every defect of the complexion,

and establishes in its stead Beauty and Health, at the time when both, by the changes of age, or freaks of nature, or disease, have been obscured or undermined—it cleanses the skin, and draws to the surface all impurities, and every species of pimples and blotches; also removes tan, sunburns, sallowness, and freckles, imparting to the skin its original purity, and an unsurpassed freshness, rendering it clear, smooth, and white.

SECOND:
It promotes the growth and increase of the Hair—causing it to curl in the most natural manner.

It cleanses the head from dandruff, giving vigor, health and life to the very roots of the hair.

THIRD:
It is a superior article for Shaving, being superior to all descriptions of Soaps, Creams, Pastes, &c.

As a *Dentrifice for Cleansing the Teeth,* it is by far the most medicinal of any compound yet discovered, preventing decay, relieving pain, ulcers and cankers, and renders the teeth white as alabaster. For bathing, for suffering infants, and for adults, to promote sweetness of body, cleanliness, health and strength, and to prevent eruptions, &c., there is no article more suitable than this BALM. It may be used in cold or warm, hard or soft water.

TAILORING ESTABLISHMENT.
THIS was the first place of the kind ever opened since Saint John contained twenty inhabitants, conducted upon the low price *Cash system,* and strictly carried it out.

It is now five years since the Proprietors, working Tailors, men who knew their business, and were regularly brought up to their trade in the Old Country, asked themselves, could a Merchant Tailor's business not be carried on, and make the customers pay *cash down,* allowing we charge them one-half of what we know to be usually charged where they are in the habit of crediting all who may patronise their system. In order to keep pace with the present day, we determined to deviate a little from those who had gone before us.

Some few friends—for be it known we had but few, save and except the man who pays for his coat before worn out—said you cannot expect to succeed, the place is too small, but you will soon know every body who is good and who is bad. We concluded that to discriminate, who was and who was not, was too nice a point for our experience, consequently we continued just as we commenced—namely, *Cash on delivery,* the course we adopted being entirely original with ourselves.

The man who gets his Clothes at this Establishment has not to pay for those who never pay.

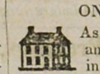
To be Let, for a Term of Years, at a moderate rent,
And immediate possession given:—
The "DOUGLAS ARMS INN,"
ON THE NEREPIS ROAD.



As the Grand Trunk Line of the European and North American Railway must pass in this direction, and have a Station in the immediate neighbourhood of the Hotel, which has been built expressly for a large business, the *Douglas Arms* offers an excellent opportunity for a safe and profitable investment, to any person possessed of sufficient means, and who is qualified for the management of a respectable and genteel business. In the summer season, passengers by the Steamers from Indian Town, can be landed twice daily, in from forty to fifty minutes, at Brundage's Point; and by carriage, in thirty minutes more, they may be comfortably seated in the Douglas Arms.—From the time of leaving the City it will only require about one hour and a half to reach this Establishment. The climate is delightful and remarkably healthy. The fog seldom reaches the valley of the Nerepis, even while this city remains for many days together enveloped in its cold and chilling embraces.

The Douglas Arms, being on the main road to Fredericton, which connects Saint John with the Seat of Government, has been long established as a Summer and Winter Hotel: and is distant from the City eighteen miles by the land route and fifteen by the water. Its proximity to St. John renders it a most convenient and comfortable resort in the Summer season for private families and pleasure parties.

The country in the neighbourhood of the Douglas Arms offers many attractions to sportsmen and others. The House contains seven comfortable parlours, a large dining room, twenty-one bedrooms, a grocery shop, or bar-room, a large brick Roman cement tank for holding rain water, well arranged kitchen, in which there are a brick oven, a large boiler, and an excellent cooking stove, on the same flat there are also a large hall stove, and convenient frost proof cellar.

In addition to a sufficient number of Barns for the use of the Farm, a new one has lately been erected forty feet wide by fifty feet long, for the accommodation of the summer and winter travelling.

The Douglas Arms has been re-built on a larger and splendid scale, and is in every way suited to the situation and growing importance of that beautiful and picturesque part of the country. The Hotel will be let either alone or with the large and valuable Farm attached to it. For particulars apply to

SELF-PRESERVATION:
A MEDICAL TREATISE ON THE PHYSIOLOGY OF MARRIAGE, and Debility of Youth and Maturity usually acquired at an early period of life, which enervate the physical and mental powers, diminish and enfeeble the natural feelings, and exhaust the energies of Manhood. With practical observations on the Treatment of Nervous Debility and Indigestion, whether arising from these causes, close study or the influence of Tropical climates; Local and Constitutional Weakness, Syphilis, Stricture, and all Diseases and Derangements resulting from Indiscretion. With Fifty Coloured *Engravings,* illustrating the *Anatomy, Physiology, and Diseases of the Reproductive Organs,* explaining their structures, uses and functions, and the various injuries that are produced in them, "by solitary habits, excesses and infection."

BY SAMUEL LA'MERT, M. D.
No. 37, BEDFORD-SQUARE, LONDON,
Doctor of Medicine, Matriculated Member of the University of Edinburgh, Licentiate of Apothecaries' Hall, London, Honorary Member of the London, Hospital, Medical Society, &c.

CHAPTER II.—On the Anatomy and Physiology of the Generative Organs, their functions, structures, and secretions, proving that health and Physical power are dependent on their healthy action.
CHAPTER III.—On Solitary Habits; their effects on the Animal Economy: the ... cause of Debility of the functions of the ... Lungs, and Brain, and general Weakness of the Mental Faculties.
CHAPTER IV.—On the Secret Disorders of Youth and Maturity, and the Treatment of Nervous and Local Weakness, Mental Debility, and ... Decay.
CHAPTER V. and VI.—On the Disorders arising from indiscriminate Excess, Gonorrhœa, ... Strictures, and other Diseases of the Urethra.

REVIEW OF THE WORK.
Marriage requires the fulfilment of several conditions, in order that it may be really the source of mutual happiness. Could the veil, which covers the origin of domestic wretchedness, be raised, and its true source in every instance disclosed, in how many could it be traced to physical disqualifications and their attendant disappointments. Excesses are always injurious; the gift, which when well considered is fraught with advantage, becomes, when abused, the prolific source of mischief, and more or less injury to the constitution and vital powers. The particular excesses, on the nature and consequences of which this Treatise professes to treat, are productive of greater misery to the human race than any other to which it is subject.

This Work contains an accurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and of their relative conditions of health and disease. Nor are these the only parts of the work, the means of escape, as well as the nature of the danger, are pointed out in plain and intelligible language. It deservedly requires the closest attention and study, for what knowledge can be of more importance than the preservation of health, and of the physical capabilities of which man should be possessed. It unfortunately happens that the unhappy victim of excessive indulgence, or vicious habits, whether acquired in early youth or from the follies of advanced age, while suffering from their invariable consequences, unwisely shrinks, from fear of applying to a qualified physician. Shame and the dread so frequently but wrongly entertained that these complaints are beyond the reach of art, alike restrict him, and prevent his seeking for assistance where alone it can be found. In acting thus, he forgets that accurate discrimination in ascertaining the causes of disease, secrecy with the sufferer, and above all, secrecy, are characterize the intelligent and practical physician and to the medical man, who can show possession of the requisite legal qualification, is entitled to esteem and respect in his professional pursuits the utmost confidence should be placed. DR. LA'MERT has obtained the highest honours as his diplomas testify, and the ... of his practice for many years is a guarantee of professional experience, which has reference solely to the treatment of these diseases.

The work may be had in St. John, of H. Chubb & Co., price 2s. 6d. Stg.; Halifax, Messrs. ...ton & Co.; Quebec, Mr. NEILSON.
December 6, 1851.
