SUMMER TERM.

GORHAM COLLEGE, LIVERPOOL, NOVA-SCOTIA.

Under the sanction and controul of the Congregational Union of Nova-Scotia and New-Brunswick.

PRESIDENT:

REV. FREDERICK TOMKINS, M. A., University College, London.

SESSION 1851—52.

THE mode of instruction pursued in this Institution, and the Text Books employed, will be precisely the same as those used at University College, London.

Special regard will be paid to the future occupation of the Student in the classes that are recommended.

The Mathematical Classes will be conducted on the same plan as those in University College, London, under the Professorships of Augustus DeMorgan of Trinity College, Cambridge; and Richard [illegible], M. A., of Queen's College, Cambridge.

Classes are already formed in the Greek, Roman [illegible]h and German Languages; also in the English Language and Literature, and Composition in [illegible], Latin, German and French.

The Mathematical department classes are also [illegible]d for Geometry, Algebra, Trigonometry, [illegible]netic and Experimental Natural Philosophy.

[illegible] special feature of the next term is, that a [class] will be formed with a view to give full instruction in Practical Geodesy, comprising Railroad [Surve]ying, Chain Surveying, the use of Surveying [Instru]ments, Levelling and Trigonometrical Surveying. Students wishing to qualify themselves as Rail[road] Surveyors will find every practical information [given] in this course. Fee for the Session, £8.

[Board] and Lodging will be provided in the College [at the] rate of 8s. 6d. per week. Youths who have [passe]d their 16th year are expected to enter the [Colleg]e; after that age they are not admitted to the [Junior] School.

[The] Summer Term in both the College and the [School] will commence on the 20th April, 1852, and [end at t]he beginning of July.

JUNIOR SCHOOL.

[Pupil]s will be admitted to this School if they can [read a]nd write. The whole arrangements of the [Junior] School will be under the direction of the [Presid]ent of the College. The system pursued will [be a co]mbination of that pursued in University Col[lege S]chool, London, and the best Schools in New [Englan]d.

[The] course of instruction will comprise the usual [elemen]tary subjects taught in schools, with Classics, [French] and Mathematics; the whole of Wilheim's [system] of Vocal Music, as adopted by Hullah, and [sanction]ed by the Committee of Council on Education[, w]ill be gone through during the Session in the [Junior] School.

[Fee] for the Junior School, £4. Board and lodg[ing at] the rate of 7s. 6d. per week.

[A co]urse of Forty Evening Lectures to adults, on [Readin]g, Writing, Arithmetic, Algebra and English [Compo]sition, will be delivered forthwith. Fee, £2.

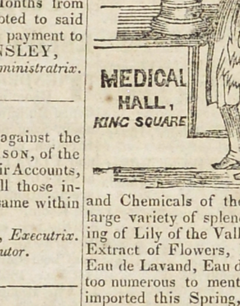
CARD.

Citizens of Saint John and Vicinity,



FEELING grateful to you all for the extensive patronage you have bestowed upon me since my commencement in business, I now beg to inform you that I have been enabled to add to my present stock a general and well selected assortment of DRUGS, MEDICINES, Patent Medicines, and Chemicals of the very best quality; also, a large variety of splendid PERFUMERY, consisting of Lily of the Valley, Jenny Lind, Jockey Club, Extract of Flowers, Pachouli, Lilac, Rondeletia, Eau de Lavand, Eau de Millefleur, and many others, too numerous to mention, all of which have been imported this Spring, from one of the best establishments in London, and on trial will be found to be of superior kinds.

STANDING RULE.

In order to avoid mistakes or accidents, all Medicines leaving this establishment will have the name of the article attached to the package or phial marked in plain English letters, the *London* and *Edinburgh* Dispensatory being my guide.

MOTTO.

I am determined, if possible, to give satisfaction to all, and, if in my power, to please every one.

TO PHYSICIANS.

If entrusted with your prescriptions, you may rely upon having them properly dispensed, and no ingredient but those of the very best shall be used. I therefore hope, by strict attention and personal attendance, still to retain that confidence which you have so long entrusted me with.

Remember—the Medical Hall, No. 2, Saint Stephen's Building.

PAUSE! READ! CONSIDER!

FELLOWS' Compound Fluid Extract of SARSAPARILLA.

A NEW and the most valuable Extract yet introduced, which is put up in Quart bottles, is cheaper, more pleasant, and warranted superior to any sold. It is prepared from the best

Honduras Sarsaparilla Root,

combined with Yellow Dock and other valuable productions, which from their purifying effects on the Blood render it the best

Spring and Summer Medicine

in the World, purifying and cleansing, giving tone and strength to the whole system.

This Extract is the result of numerous experiments, and the Proprietors feel confident that they have arrived at that perfection in preparing it which no other manufacturer has yet attained. Every person has heard of Sarsaparilla. All have heard of its uses.—And many Physicians in this City are conscious of the fact that our Extract is far superior to those sold under the names of Townsend's, Sands', Bristol's, Brown's or Bull's Sarsaparilla, inasmuch as it contains other prime remedies besides those used by the above named parties, is STRONGER, contains nothing but *Vegetable productions*, and is prepared *without boiling*, which causes it to retain all the volatile and active properties.

ENCOURAGE HOME MANUFACTURE.

We pledge our reputation on the truth of what we here state, that we believe it better in every sense than any other Extract of Sarsaparilla ever introduced.

Scrofulous Diseases, Cutaneous Eruptions, Rheumatic Affections, Syphiletic Disorders, Liver Complaints, Dyspepsia, Lung and Bronchial Affections, all diseases arising from the injudicious use of Mercury, Impure state of the Blood or habit of the system, are some of the many diseases which are cured by the use of this Sarsaparilla.

DR. FONTAINE'S Balm of a Thousand Flowers, For the Toilet, the Nursery, for Bathing and many Medicinal purposes;

HIGHLY perfumed by its own ingredients: recommended by the Faculty of almost every European city, and established under the patronage of almost every Physician in London and Paris, and thousands of individuals, who make daily use of it in New-York, Philadelphia and Boston. It is the greatest luxury a lady or gentleman could wish for the improvement of health, for comfort and personal embellishment, and its delicate soothing sensation, and the delightful softness it imparts to the complexion.

We give a few of the prominent properties of the

Balm of a Thousand Flowers!

already well established by actual experience.

FIRST:

This Balm remedies every defect of the complexion,

and establishes in its stead Beauty and Health, at the time when both, by the changes of age, or freaks of nature, or disease, have been obscured or undermined—it cleanses the skin, and draws to the surface all impurities, and every species of pimples and blotches; also removes tan, sunburns, sallowness, and freckles, imparting to the skin its original purity, and an unsurpassed freshness, rendering it clear, smooth, and white.

SECOND:

It promotes the growth and increase of the Hair—causing it to curl in the most natural manner.

It cleanses the head from dandruff, giving vigor, health and life to the very roots of the hair.

THIRD:

It is a superior article for Shaving, being superior to all descriptions of Soaps, Creams, Pastes, &c.

As a *Dentrifice for Cleansing the Teeth*, it is by far the most medicinal of any compound yet discovered, preventing decay, relieving pain, ulcers and cankers, and renders the teeth white as alabaster. For bathing, for suffering infants, and for adults, to promote sweetness of body, cleanliness, health and strength, and to prevent eruptions, &c., there is no article more suitable than this BALM. It may be used in cold or warm, hard or soft water.

Water Cure Establishment, Brattleboro, Vermont.

THE Proprietor, DR. R. WESSELHOEFT, begs to inform the public that he has recovered from his severe sickness, and is able again to attend to his professional duties. Former and new patients, therefore, may depend upon his giving due attention to their cases. They will find, also, comfortable and pleasant accommodation, both for themselves and friends, but will please to remember that the establishment is intended for *the cure of diseases by means of water*, and not for a Hotel at a fashionable watering place. Yet, to the lovers of Nature and a quiet Summer residence, the house has many attractions besides its water cure, for Nature has indeed been lavish of her gifts on the town, and the walks and drives in the vicinity.

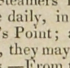
Apply to the undersigned.

Jan. 31. W. & E. JACK.

To be Let, for a Term of Years, at a moderate rent,

And immediate possession given:—

The "DOUGLAS ARMS INN," ON THE NEREPIS ROAD.



As the Grand Trunk Line of the European and North American Railway must pass in this direction, and have a Station in the immediate neighbourhood of the Hotel, which has been built expressly for a large business, the *Douglas Arms* offers an excellent opportunity for a safe and profitable investment, to any person possessed of sufficient means, and who is qualified for the management of a respectable and genteel business. In the summer season, passengers by the the Steamers from Indian Town, can be landed, twice daily, in from forty to fifty minutes, at Brundage's Point; and by carriage, in thirty minutes more, they may be comfortably seated in the Douglas Arms.—From the time of leaving the City it would only require about one hour and a half to reach the Establishment. The climate is delightful and remarkably healthy. The fog seldom reaches the valley of the Nerepis, even while this city remains for many days together enveloped in its cold and chilling embraces.

The Douglas Arms, being on the main road to Fredericton, which connects Saint John with the Seat of Government, has been long established both as a Summer and Winter Hotel: and is distant from the City eighteen miles by the land route and thirteen by the water. Its proximity to St. John renders it a most convenient and comfortable resort in the Summer season for private families and pleasure parties.

The country in the neighbourhood of the Douglas Arms offers many attractions to sportsmen and others. The House contains seven comfortable parlours, a large dining room, twenty-one bed-rooms, a grocery shop, or bar-room, a large brick and Roman cement tank for holding rain water, a well arranged kitchen, in which there are a brick oven, a large boiler, and an excellent cooking stove. On the same flat there are also a large hall stove, and a convenient frost proof cellar.

In addition to a sufficient number of Barns for the use of the Farm, a new one has lately been erected, forty feet wide by fifty feet long, for the accommodation of the summer and winter travelling.

The Douglas Arms has been re-built on a large and splendid scale, and is in every way suited to the situation and growing importance of that beautiful and picturesque part of the country. The Hotel will be let either alone or with the large and valuable Farm attached to it. For particulars apply to

MISCELLANEOUS SELECTIONS.

Capt. Wade, of the ship Great Britain, at Montreal, in a note addressed to the editor of the Montreal Gazette, on the 10th inst., relative to the ships reported to have been seen on the ice, near the Banks of Newfoundland, in the spring of 1851, states that his second mate, (who had accompanied Capt. Penny in the search for Sir John Franklin,) assured him that he had frequently seen like appearances, and that a bucket full of cinders on a floe of ice, when some four or five miles off, will appear like a ship of 500 tons, full rigged, and sometimes like a steamer, and will even deceive a whole ship's crew with a good spyglass. The cause is refraction—a subject on which we have but little data.

VILLAGE DESTROYED.—The pleasent village of Cooksville, on the great Western road, about sixteen miles west of Toronto, Canada, was nearly destroyed by fire on Saturday last. The number of houses and other buildings burned is said to be thirty-five.

The *Quebec Chronicle* of the 31st ult. states that on the night of the 26th ult. there was a very severe frost in that neighbourhood. Ice half an inch in thickness was formed on standing water. Indian Corn and a great deal of garden plants were destroyed.

The distance from Montreal to New-York—500 miles—is now travelled in twenty-four hours. Fare, only $5.

AID TO THE COLLINS LINE.—The United States Senate, yesterday, settled the question of granting additional aid to the Collins' line of steamships, by voting an appropriation of $33,000 per trip, with the proviso that the arrangement may be terminated after the 21st of Dec. 1854, by giving six months' notice.

Gloucester has suffered severely during the last eight months, in her fishing fleet, having lost eleven vessels—seven of them with their crews consisting of sixty-three men! Some three or four men have also been lost from other vessels this spring. These facts show the precarious and dangerous nature of the fishing business, and that those who engage in it do so at great risk of life.—*Gloucester Telegraph.*

CATHOLIC MOVEMENTS IN THE UNITED STATES.—The Council of Catholic Bishops at Baltimore have decreed that eight or ten new Bishoprics shall be added to the Church in the United States, and also that the mass shall henceforth be said or sung in English. These decrees must, however, be endorsed at Rome, by the Pope, before they have any validity.

FROM THE WEST INDIES.—The steamer Merlin, arrived at New York from St. Thomas on Saturday last. She left the latter on the 25th. The crop of sugar this year at Barbados is likely to be the largest ever made in that Island. The difference between the governor and the House of assembly of Dominicans resulted in a dissolution of the House. The drought continues very severe at St. Lucia.

THE AUSTRALIA MINES.—The latest accounts from Australia, received in England previous to the sailing of the Arctic, furnish continued confirmation of the supposition that both in New South Wales and Victoria the supply of gold in various forms is virtually inexhaustible. Fresh districts, extending over several hundred miles, were found to be more or less rich, but the success of the workers at the mines already opened was too great to allow of any ardor in testing the resources of new localities. The tide of emigration from England is constantly increasing, and remittances from the miners are beginning to be received to enable large numbers of their friends to join them. A great many of the clerks in the London houses are making arrangements to go.

Some of the English papers are fearful that this gold excitement will have a ruinous effect upon the Australian wool and tallow trade, which within a few years has grown up to the amount of nearly £3,000,000 sterling per annum. The colonies have sent home £175,000 to defray the expences of sending out labourers to fill the place of the shepherds who have left their flocks for the mines.

The *London Weekly News* says.—"The wealth of Australia is in her flocks. Year by year the Australian fleeces have been gradually supplanting all others in our markets, and most wearers of English broadcloth are more indebted than perhaps they are aware to the sheep that range the wildernesses of the antipodes. The squatters of New South Wales and Victoria are frequently the masters of from 30,000 to 40,000 head of sheep. To guard these flocks from the ravages of the native wild dog of the bush; to prevent their straying off into the solitudes of the untravelled interior; above all, to conduct the operations of shearing, cleansing and packing the fleeces, must obviously require a considerable amount of labor. Hitherto this labor has been obtainable at fair and moderate wages; wages sufficient amply and abundantly to remunerate the man without impoverishing the master. The gold discovery has changed all; no man who may possibly earn by light labor as a miner from £1 to £3 a day, will continue to work as a shepherd or stock-keeper at 5s or 10s. We have not yet witnessed the full extent of the evil, but its effects have already been ruinously felt by the sheep owners."

A fire broke out in the Portsmouth Dock Yard on Monday, and caused great alarm, but it was finally extinguished without serious damage. On Sunday, the village of Manea, in Cambridgeshire, was almost totally destroyed by fire.

The first ship of the steam line between England and Australia, sailed from Southampton on the 15th inst. She is named the Chusan, and will speedily be followed by others.

The town of Whydah (Western Africa) has been recently burnt. In the ruins were found the charred remains of 150 slaves, who had been chained together by the neck, ready for shipment, and had been unable to escape.

Accounts from Dobridga, in Turkey, state that owing to the fall of snow of 22d, 23d and 24th of March, 250,000 head of cattle that were on the plains, perished.

Count Demidoff, one of the richest Russian noblemen, has arrived in Rome, from Florence, to present the Pope with a malachite cross, value 30,000 francs (£1200), extracted from his Siberian mines.

In consequence of the death of a lady in Madrid, the other day, from canine madness, a general *battue* has been made against dogs, and upwards of 700 carcases of those animals were carried out of the city in one day.

FAST SAILING.—The splendid clipper ship Challenge, Capt. Land, arrived at San Francisco in the unprecedented time of 34 days from Hong Kong. She left that port on the 19th of March —the coast of Japan on the 4th of April—so that she has actually crossed the Pacific from Japan to San Francisco in 18 days. Her greatest log distance in one day was 360 miles; greatest net gain in one day, 335 miles; greatest speed per hour, 16 miles; average log the whole time per hour, 10 miles; average, on through time, per hour, 9 miles. She comes in ballast, and brings 553 Chinese passengers.

The clipper ship Eclipse, Capt. Hamilton, arrived at San Francisco in 104 days from New-York. She made the trip from New-York to Valparaiso in 65 days, and from the latter place to San Francisco in 39 days. Her best day's run was 325 miles.

A TIGER STORY.—The following remarkable escape has been mentioned in private letters by the last mail from India. Two young officers, Lieut. Hugh Elliot, of the Bombay cavalry, son of Capt Charles Elliot, Governor of Bermuda, and Lieut. Rice, of the 25th, were out shooting, when they fell in with a tigress and two cubs. One cub was immediately killed, and the tigress wounded. They tracked her for half an hour into the jungle, when she suddenly sprang out, knocked over Mr. Elliot before he had time to cock his gun, and, seizing him by the left arm, dragged him away.—Mr. Rice had already discharged one gun when they attacked the tigress. He quickly got his second gun, but, from the extreme difficulty of firing without killing his friend, could only aim at the body of the tigress, and though he wounded her again, did not wound her mortally. With admirable resolution he then seized a third gun, and, watching his opportunity till he could see Elliot's head apart from that of the tigress, shot her dead through the head, with his friend in her mouth.—The officers were thirty miles from camp, and did not reach it for twenty hours. It is impossible to give too much credit to the skill and coolness of Lieut. Rice. Mr. Elliot's arm is badly wounded by the bite, as well as by the stones and rocks over which he was dragged, but no fear is entertained for his life or his limb.
