SELECT SCHOOL For Young Ladies,

Conducted by MISS THOMSON, assisted by her father, Elder Thomson, M. A., in the Brick House, lately occupied by the Mayor, facing the Sea, and within three minutes walk of Queen's Square, St. John, N. B. The House in St. James' street, and is well adapted for a School, containing some of the largest rooms in the City, and being replete with convenience of every character,

"To make amusement and instruction friends,
Some lessons in the guise of play she sends."

Miss Thomson informs her friends and the Public that she will be ready to receive her boarders immediately after the Christmas recess, and as she will be assisted by her Father *in the higher branches of Study*, and by her Mother in the *domestic arrangements*, she hopes to render her School in every respect one of the first order.

The objects aimed at are—1st, To ensure a thorough scriptural (not sectarian) and lady-like education; 2nd, By means of familiar conversational lectures, to teach the *principles* as well as the common *facts* of knowledge; 3rd, To treat the pupils as members of the family, providing them liberally with domestic comforts.

In the Government and discipline of the School, due regard is had to the health, happiness, and improvement of the pupils; and while every reasonable indulgence is granted, the great objects of education are kept constantly in view, viz.:—the full development and proper training of all the physical, intellectual and moral energies, and the formation of habits of industry, punctuality, good order and strict economy in the use of time.

Instruction in the Classics, Mathematics, the Continental languages, English Composition, General History, Pure and Descriptive Geography, Use of the Globes and Maps, Arithmetic, Mental Calculations, Principles of Book-Keeping, General Accounts, Stenography, and Facility in Writing a current hand, Geometry, Algebra, and General Science; with instruction in the French, which is constantly spoken in the School. Great pains taken in communicating elementary knowledge. The word of God constantly read—its doctrines opened—its morality inculcated.

Entrance and removal are unfettered by the usual conditions; and the month commences from the day the pupil enters. A vacation of a month given at Midsummer, and three weeks at Christmas.

The Terms, *with Board and Washing*, including instruction in any or all of the above branches, $12 per month. The only extras are for Music and Drawing, for which $2 each are charged per month. Each Young Lady is expected to bring with her two pair of Sheets, two Pillow cases, and four towels, which will be returned on her leaving the School; and it is particularly requested that all linen should be marked in full.

Day Pupils $2 per month. Arrangements will be made to accommodate those Pupils who may wish to dine with the family—terms for such, $4 per month.

References to Clergymen and Parents of great respectability, who have now Children as Boarders with Miss Thomson.

N. B.—By the request of friends Mr. T. will form two Short-hand classes, during the Christmas recess. He engages to teach his system in twelve lessons. He has given lessons to some gentlemen since he has been in the city, who now constantly correspond with him in Short-hand. Any Lady or Gentleman who wishes to join the class will inform him before the 22d of December, that the first lesson may be taken on Monday, Dec. 28th. Terms for the twelve lessons, $3. Dec. 4.

Real Salamander Safes.

THE Subscriber begs to call public attention to the following Certificate respecting the quality of the Salamander Safes manufactured by Messrs. Denio & Roberts, of Boston, many of which are now in use in this City. He considers it his duty to state that one of the Safes referred to by Mr. Minot, and marked "Patent," was of the same kind, made in a similar way, and filled with the identical same stuff as those lately advertised here as the best fire-proof and only genuine Safes made in the United States. Those in want of *real Salamander Safe*, in which full confidence can be placed, and property kept *safe and dry*, will please call at the Agency, 8, North Market Wharf, and examine other certificates, as also a bank-note which was in the Safe made by D. & R. referred to by Mr. Minot at the Concord fire.

Messrs. Denio & Roberts.

Gents,—The Safe purchased of you for this Office was most severely tested during the late great fire in this place, and we are pleased to be able to say that it proved itself fully equal to your recommendation.

It was situated upon the second floor of the Exchange, a building surrounded by large and combustible wooden buildings, all on fire at the same time, without any protection from the full force of the fire. It fell some twenty feet into the cellar, where it was entirely covered by the burning rubbish, heating it excessively hot, and it so remained for more than ten hours before any effort was made to cool it.

There were several other safes in the same building, two of which, made by other manufacturers, (one marked "Patent," were entirely destroyed, with all their contents.

From the great heat to which ours had been subjected, we supposed that it must have shared a similar fate, but were happily disappointed, on opening a few days after the fire, to find all our books and papers perfectly safe and unharmed.

We have to-day sent the Safe to the Depot, directed to you, supposing that you might wish to retain it for the inspection of those wishing to purchase a Safe. Please make us another like it, for our future use.

Respectfully,
GEORGE MINOT, Treasurer.
