SUMMER TERM.

GORHAM COLLEGE,

[L]IVERPOOL, NOVA-SCOTIA.

[Und]er the sanction and controul of the Congregational Union of Nova-Scotia and New-Brunswick.

PRESIDENT:

[R]EV. FREDERICK TOMKINS, M. A., University College, London.

SESSION 1851—52.

[T]HE mode of instruction pursued in this Institution, and the Text Books employed, will be [preci]sely the same as those used at University College, London.

[Sp]ecial regard will be paid to the future occupa[tion] of the Student in the classes that are re[comm]ended.

[Th]e Mathematical Classes will be conducted on [the sa]me plan as those in University College, Lon[don, u]nder the Professorships of Augustus DeMor[gan, o]f Trinity College, Cambridge; and Richard [Potte]r, M. A., of Queen's College, Cambridge.

[Cla]sses are already formed in the Greek, Roman [Fren]ch and German Languages; also in the English [Lang]uage and Literature, and Composition in [Gree]k, Latin, German and French.

[In] the Mathematical department classes are also [forme]d for Geometry, Algebra, Trigonometry, [Arith]metic and Experimental Natural Philosophy.

[A] special feature of the next term is, that a [class] will be formed with a view to give full in[struc]tion in Practical Geodesy, comprising Railroad [Surv]eying, Chain Surveying, the use of Surveying [Instr]uments, Levelling and Trigonometrical Survey[ing.] Students wishing to qualify themselves as Rail[road] Surveyors will find every practical information [impart]ed in this course. Fee for the Session, £8. [Board] and Lodging will be provided in the College [at the] rate of 8s. 6d. per week. Youths who have [attain]ed their 16th year are expected to enter the [Colle]ge; after that age they are not admitted to the [Junio]r School.

[Th]e Summer Term in both the College and the [Schoo]l will commence on the 20th April, 1852, and [end at] the beginning of July.

JUNIOR SCHOOL.

[Bo]ys will be admitted to this School if they can [read] and write. The whole arrangements of the [Junio]r School will be under the direction of the [Presi]dent of the College. The system pursued will [be a c]ombination of that pursued in University Col[lege] School, London, and the best Schools in New [Engl]and.

[Th]e course of instruction will comprise the usual [eleme]ntary subjects taught in schools, with Classics, [Frenc]h and Mathematics; the whole of Wilheim's [Meth]od of Vocal Music, as adopted by Hullah, as [sanct]ioned by the Committee of Council on Educa[tion], will be gone through during the Session in the [Junio]r School.

[Fe]e for the Junior School, £4. Board and lodg[ing] at the rate of 7s. 6d. per week.

[A c]ourse of Forty Evening Lectures to adults, on [Readi]ng, Writing, Arithmetic, Algebra and English [Com]position, will be delivered forthwith. Fee, £2.

W. H. ADAMS,

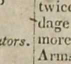

May 1. Corner Dock-street and Market Square.

To be Let, for a Term of Years, at a moderate rent,

And immediate possession given:—

The "DOUGLAS ARMS INN,"

ON THE NEREPIS ROAD.

As the Grand Trunk Line of the European and North American Railway must pass in this direction, and have a Station in the immediate neighbourhood of the Hotel, which has been built expressly for a large business, the *Douglas Arms* offers an excellent opportunity for a safe and profitable investment, to any person possessed of sufficient means, and who is qualified for the management of a respectable and genteel business. In the summer season, passengers by the Steamers from Indian Town, can be landed, twice daily, in from forty to fifty minutes, at Brundage's Point; and by carriage, in thirty minutes more, they may be comfortably seated in the Douglas Arms.—From the time of leaving the City it would only require about one hour and a half to reach the Establishment. The climate is delightful and remarkably healthy. The fog seldom reaches the valley of the Nerepis, even while this city remains for many days together enveloped in its cold and chilling embraces.

The Douglas Arms, being on the main road to Fredericton, which connects Saint John with the Seat of Government, has been long established both as a Summer and Winter Hotel: and is distant from the City eighteen miles by the land route and thirteen by the water. Its proximity to St. John renders it a most convenient and comfortable resort in the Summer season for private families and pleasure parties.

The country in the neighbourhood of the Douglas Arms offers many attractions to sportsmen and others. The House contains seven comfortable parlours, a large dining room, twenty-one bed-rooms, a grocery shop, or bar-room, a large brick and Roman cement tank for holding rain water, a well arranged kitchen, in which there are a brick oven, a large boiler, and an excellent cooking stove. On the same flat there are also a large hall stove, and a convenient frost proof cellar.

In addition to a sufficient number of Barns for the use of the Farm, a new one has lately been erected, forty feet wide by fifty feet long, for the accommodation of the summer and winter travelling.

The Douglas Arms has been re-built on a large and splendid scale, and is in every way suited to the situation and growing importance of that beautiful and picturesque part of the country. The Hotel will be let either alone or with the large and valuable Farm attached to it. For particulars apply to

WM. LIVINGSTONE,

50 BRLS. New BEEF and PORK. *Also*—13 barrels Bright VARNISH, SPERM OIL, and SPIRITS TURPENTINE.—For sale at lowest Market rates.

JOHN WALKER,

May 1. *Corner Peters' Wharf and Ward-street.*

Water Cure Establishment,

Brattleboro, Vermont.

THE Proprietor, DR. R. WESSELHOEFT, begs to inform the public that he has recovered from his severe sickness, and is able again to attend to his professional duties. Former and new patients, therefore, may depend upon his giving due attention to their cases. They will find, also, comfortable and pleasant accommodation, both for themselves and friends, but will please to remember that the establishment is intended for *the cure of diseases by means of water*, and not for a Hotel at a fashionable watering place. Yet, to the lovers of Nature and a quiet Summer residence, the house has many attractions besides its water cure, for Nature has indeed been lavish of her gifts on the town, and the walks and drives in the vicinity.

Brattleboro, Vermont, March 9, 1852.—3m.

DR. FONTAINE'S

Balm of a Thousand Flowers,

For the Toilet, the Nursery, for Bathing and many Medicinal purposes;

HIGHLY perfumed by its own ingredients: recommended by the Faculty of almost every European city, and established under the patronage of almost every Physician in London and Paris, and thousands of individuals, who make daily use of it in New-York, Philadelphia and Boston. It is the greatest luxury a lady or gentleman could wish for the improvement of health, for comfort and personal embellishment, and its delicate soothing sensation, and the delightful softness it imparts to the complexion.

We give a few of the prominent properties of the

Balm of a Thousand Flowers!

already well established by actual experience.

FIRST:

This Balm remedies every defect of the complexion,

and establishes in its stead Beauty and Health, at the time when both, by the changes of age, or freaks of nature, or disease, have been obscured or undermined—it cleanses the skin, and draws to the surface all impurities, and every species of pimples and blotches; also removes tan, sunburns, sallowness, and freckles, imparting to the skin its original purity, and an unsurpassed freshness, rendering it clear, smooth, and white.

SECOND:

It promotes the growth and increase of the Hair—causing it to curl in the most natural manner.

It cleanses the head from dandruff, giving vigor, health and life to the very roots of the hair.

THIRD:

It is a superior article for Shaving, being superior to all descriptions of Soaps, Creams, Pastes, &c.

As a *Dentrifice for Cleansing the Teeth*, it is by far the most medicinal of any compound yet discovered, preventing decay, relieving pain, ulcers and cankers, and renders the teeth white as alabaster. For bathing, for suffering infants, and for adults, to promote sweetness of body, cleanliness, health and strength, and to prevent eruptions, &c., there is no article more suitable than this BALM. It may be used in cold or warm, hard or soft water.

FELLOWS'

Compound Fluid Extract of SARSAPARILLA.

A NEW and the most valuable Extract yet introduced, which is put up in Quart bottles, is cheaper, more pleasant, and warranted superior to any sold. It is prepared from the best

Honduras Sarsaparilla Root,

combined with Yellow Dock and other valuable productions, which from their purifying effects on the Blood render it the best

Spring and Summer Medicine

in the World, purifying and cleansing, giving tone and strength to the whole system.

This Extract is the result of numerous experiments, and the Proprietors feel confident that they have arrived at that perfection in preparing it to which no other manufacturer has yet attained. Every person has heard of Sarsaparilla. All have heard of its uses.—And many Physicians in this City are conscious of the fact that our Extract is far superior to those sold under the names of Townsend's, Sands', Bristol's, Brown's or Bull's Sarsaparilla, inasmuch as it contains other prime remedies besides those used by the above named parties, is STRONGER, contains nothing but *Vegetable productions*, and is prepared *without boiling*, which causes it to retain all the volatile and active properties.

ENCOURAGE HOME MANUFACTURE.

We pledge our reputation on the truth of what we here state, that we believe it better in every sense than any other Extract of Sarsaparilla ever introduced.

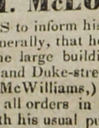

Scrofulous Diseases, Cutaneous Eruptions, Rheumatic Affections, Syphilitic Disorders, Liver Complaints, Dyspepsia, Lung and Bronchial Affections, all diseases arising from the injudicious use of Mercury, Impure state of the Blood or habit of the system, are some of the many diseases which are cured by the use of this Sarsaparilla.

CARD.

Citizens of Saint John and Vicinity,

FEELING grateful to you all for the extensive patronage you have bestowed upon me since my commencement in business, I now beg to inform you that I have been enabled to add to my present stock a general and well selected assortment of DRUGS, MEDICINES, Patent Medicines, and Chemicals of the very best quality; also, a large variety of splendid PERFUMERY, consisting of Lily of the Valley, Jenny Lind, Jockey Club, Extract of Flowers, Pachouli, Lilac, Rondeletia, Eau de Lavand, Eau de Millefleur, and many others, too numerous to mention, all of which have been imported this Spring, from one of the best establishments in London, and on trial will be found to be of superior kinds.

STANDING RULE.

In order to avoid mistakes or accidents, all Medicines leaving this establishment will have the name of the article attached to the package or phial marked in plain English letters, the *London* and *Edinburgh* Dispensatory being my guide.

MOTTO.

I am determined, if possible, to give satisfaction to all, and, if in my power, to please every one.

TO PHYSICIANS.

If entrusted with your prescriptions, you may rely upon having them properly dispensed, and no ingredient but those of the very best shall be used. I therefore hope, by strict attention and personal attendance, still to retain that confidence which you have so long entrusted me with.

MADRAS INDIGO, superior quality, for sale by (May 1.) EDMUND KAYE.

The Courier.

EDINBURGH REVIEW.—The April No., reprinted from the original by Messrs. Leonard Scott & Co., of New-York, has been transmitted to us by Messrs. McMillan, of this City. It consists of a collection of articles which, although perhaps of a somewhat "heavy" character in the estimation of some few literary epicures, will, on perusal, prove peculiarly *apropos* of the times in which we live, and of the events which loom portentously on the future. The contents of the No. are as follows:—Tronson du Coudray; National Education; Farini's Stato Romano; Athenian Architecture; Investments for the Working Classes; John Knox's Liturgy; Mallet du Pau; Roebuck's Whig Ministry of 1830; Squier's Nicaragua; Lord Derby's Ministry and Protection.

THE PROVINCIAL.—The June No. of this hitherto deservedly prosperous publication has been courteously forwarded to us by its spirited printers and publishers, Messrs. J. Bowes & Son, of Halifax, N. S. It is quite equal, if not superior, to the preceding Nos., and, in addition to numerous articles interesting to the general reader, it contains several of a valuable local character, thus proving that the *Provincial*, as its Editors profess, "is devoted to all that can promote a more intimate acquaintance with the beauties, the resources, and the capabilities of the North American Colonies."

In alluding to the defeat of the European and North American Railway Bill, in the Massachusetts Legislature, the Portland *Advertiser* of 19th ult. remarks as follows:—For years past an alleged jealousy and hostility towards Maine has been charged upon Boston and denied by many of her people. It was fully admitted on the floor of the House on Monday, and the bill "to aid in construction of the European and North American Railway" was rejected through Boston influence, on the express ground that the construction of the lines of railway proposed by Maine, connecting Portland with Montreal and with Halifax, threatened a withdrawal of the Cunard steamers and the most alarming consequences to the future growth and prosperity of Boston.

Fire in King, and Four Lives Lost.—On Saturday morning last, about 2 o'clock, a fire broke out in the house of John Watson, Jr., a respectable farmer, on the 9th Line of King, near Lloydtown, and so rapid was the fire that Mr. W. and his wife, with three or four of his children had barely time to make their escape with nothing but their night clothes, before the whole house was enveloped in flames. Two of Mr. W.'s children, girls, eight and ten years of age, and two hired men, Samuel Bateman and Michael Burke, were consumed in the ruins! In the morning the charred remains were found, and an Inquest was held by Dr. Bull, and a verdict returned of "accidental death." The barn and stables were also burned, together with all the produce—100 bushels of wheat, 200 bushels of oats, &c. Not an article from house or barn saved.—*Toronto Colonist, May 24.*

HIGHLAND EMIGRATION, AND THE AUSTRALIAN CROPS.—Mr. Trevelyan, Chairman of the Highland and Island Emigration Committee, in a forcible letter to the *Morning Herald*, with respect to the extreme distress in Skye, and urging the necessity of emigration, says, "A vast amount of property in Australia is now perishing for want of hands. A commissariat officer, just arrived from Victoria, saw, in several districts of that colony, sheep and cattle turned into the corn-fields to eat down the crops, it being impossible to obtain labourers to reap them. The capital invested in sheep, whose number is estimated at 7,000,000 in New South Wales, 7,000,000 in Victoria, and 6,000,000 between Western Australia, Southern Australia, and Van Dieman's Land, or 20,000,000 of sheep in all, is also in imminent danger. The flocks have already, in great tracts of country, been doubled up, in numbers beyond the power of one man to attend to them, and it will be impossible to save the next clip of wool without a large additional supply of labour."

INCREASE IN BRITISH EXPORTS TO AMERICA.—The aggregate imports in 1850, from England and her dependencies to the United States, were 85,117,477 dollars; in 1851, they increased to $105,323,079, being an increase of $20,206,502.

PRINCE EDWARD ISLAND.—We extract the following item from the supplies recently voted to Her Majesty with a view of shewing the salaries of some official functionaries in that Island:—To the Chief Justice, £700; Colonial Secretary and Road Correspondent, £400; Treasurer, £400; Master of the Rolls and Assistant Judge, £500; Registrar and Keeper of Plans, £200; Attorney General, £150; Collector of Impost, Charlottetown, £200; Controller of Navigation Laws, £195; Post Master, Charlottetown, £350; Clerk of the Executive and Legislative Councils, £120; Master of the Central Academy £300; Adjutant General of Militia £25; Harbor Master and Wharfinger, Charlottetown, £68; Salaries of 30 Road Commissioners, £300; Pension to former Colonial Secretary, £200; Pension to former Attorney General, £200; Three High Sheriffs, £60; Messenger to Executive Council, £20; Crier of the Court, £20.

FOR AUSTRALIA.—The Brig Highland Lassie, Jordan, master, sailed from Baddeck, Cape Breton, on the 12th ult., for Australia, carrying out to the land of gold the Messrs. M'Kenzie, owners of the vessel, and about 130 passengers. Whilst we regret their departure from our shores, we most heartily wish them all a pleasant voyage out, and prosperity in their new home.—*Cape Breton News, May 29.*

Democratic Candidate for the Presidency.—The National Democratic Convention, which met in Baltimore, last week, nominated Gen. Franklin Pierce, of New-Hampshire, as their candidate for President, and William R. King, of Alabama, for Vice President.

On the 49th ballot, Gen. Pierce had the votes of 282 of the 293 members of the convention, and it was subsequently agreed that the candidates should be considered the unanimous choice of the convention.

Gen. Cass appeared to be the favorite candidate at the commencement of the ballotings, having on the first 116 votes, which increased on the 35th to 131 votes. The other leading candidates at the commencement were Buchanan, Douglas, and Marcy.

Congress completed six months of its session on Monday last; and thus far, it is stated, nineteen laws have been passed. The pay of the members of the two branches is about $2,500 per day.—*Boston Bee.*

A copper mine, the ore of which is estimated to be worth £20 a tun, has been discovered on the coast of Africa. Parties from Liverpool are about sending out to work it.

Miraculous Escape.—Two of the crew of the barque Fairmount, of Philadelphia, which vessel was recently run down in the Gulf Stream by the ship Tennessee, saved themselves by floating on planks for two days, when they were rescued at Key West. They state that they saw Capt. Whitney, of the Fairmount, clinging to some floating timber on the morning after the collision, but that he suddenly disappeared.

SIR JOHN FRANKLIN.—A letter from Hong Kong says that nearly all of thirty-seven whalers from the Arctic seas that have touched at that port the present season, believe that Sir John Franklin is safe. They think he has penetrated through the ice barrier into inner waters, where he will not be reached until a mild season arrives, which they say the present will be. Most of them have now departed. They give accounts of the Esquimaux vibrating from the American continent, and back again, carrying their boats on the ice and launching them when they meet open water. They all confirm the fact that the whales found in Behring's Straits and Baffin's Bay are the same species, as they have never been seen south of lat. 22°, thus proving the existence of a passage.—*Boston Journal.*

A NEW IDEA IN AGRICULTURE.—The steward on board a United States steamer in the Gulf of Mexico, has produced several crops of potatoes by the following novel mode of cultivation:—

"He procured a common 'crockery crate,' a bundle of straw, and a few eyes of the potato, and went to work farming it on board ship! The process for cultivating them is this: Fill your crate with alternate layers of straw and the eyes of the potato, commencing at the bottom with a layer of about six inches in depth of straw, and then a layer of the eyes—the eyes being placed about two inches apart over the surface of the straw—then another layer of straw on the top. Keep the straw always moist, and in about two months you will have about $14 worth of [p]ound, good potatoes of the 'first water.'"
