FRAUD DETECTED!

Ross' Patent "Artificial Slate" FIRE-PROOF PAINT!

THE subscriber, Patentee and Manufacturer of the above article, having been informed by a respectable Merchant of this City, that his, "Ross' ARTIFICIAL SLATE," was used for covering the roof of the residence of the late Mayor, Thomas Harding, Esq., and now occupied by Mrs. Butters, and *proved a complete failure*. He (the subscriber) lost no time in investigating the facts—and which are as follows:—The commodity *said* to be "Ross' Artificial Slate" was bought of John Kinnear, Esq., and put on the roof by Mr. Calvert, painter. The article used is spurious and worthless, and calling it "Ross' Fire-Proof Paint," a fraudulent imposition—the genuine article is sold Wholesale only by J. W. M. IRISH, and is warranted to be what the certificates of highly respectable individuals testify, —*a sure protection against Fire and the corroding influence of the atmosphere.* JOHN ROSS, Patentee and Manufacturer.

St. John, August 21, 1852.—4†

False Statement Contradicted.

THE Subscriber having just returned from the United States, and having had his attention called to an advertisement headed "Fraud Detected," and signed "John Ross," hereby states that the imputations therein thrown upon him are utterly devoid of truth, and without foundation—on the contrary, he was not aware before this time of the existence of either Mr. Ross or his "Patent Artificial Slate Fire Proof Paint." He know that Mr. W. M. Irish sold an article so called, but he was quite ignorant of its value and of its being the production of Mr. Ross. As has already been stated to Mr. Frith, the Subscriber has sold Fire Proof Paint as such imported by himself from Hallowell, in the United States, and he now begs to give notice that he has always a supply of this article on hand, and will continue to sell it as he has hitherto done, so long as Painters and others shall continue to give him their custom.

REVIEWS OF THE WORK.

"MANHOOD, by J. L. Curtis.—We agree with the Author that, so far from works of this class being objectionable in the hands of youth, or difficulties being opposed, every facility should be given to their circulation; and to strengthen our opinion, we need but refer to the recent distressing events at our Military and Scholastic Academies at Carshalton and Woolwich."—*Naval and Military Gazette*, 1st *February*, 1851.

"We feel no hesitation in saying, that there is no member of society by whom the book will not be found useful—whether such person hold the relation of a parent, preceptor, or a clergyman."—*Sun*, Evening Paper.

"Curtis on Manhood.—Fortunate for a country would it be, did its youth put into practice the philanthropic and scientific maxims here laid down—one cause of matrimonial misery might then be banished from our land, and the race of the enervate be succeeded by a renewal of the hardy, vigorous spirits of the olden time."—*Chronicle.*

Published by the AUTHOR; who begs to inform Patients in the East and West Indies the Mediterranean and British Colonies that their cases can be successfully treated by correspondence only, if the usual fee be enclosed, and the most inviolable secrecy may be relied on.
