The far-famed Medicine!

HOLLOWAY'S PILLS.

SURPRISING CURE OF A CONFIRMED ASTHMA, AFTER FIVE YEARS SUFFERING.

The following testimonial has been sent to Professor Holloway, by a Gentleman named Middleton, of Scotland Road, Liverpool.

Sir,—Your Pills have been the means, under Providence, of restoring me to sound health after five years of severe affliction. During the whole of that period, I suffered the most dreadful attacks of Asthma, frequently of several weeks' duration, attended with a violent cough, and continual spitting of phlegm intermixed with blood. This so shook my constitution that I was unfitted for any of the active duties of life. I was attended by some of the most eminent medical men of this town, but they failed to give me the slightest relief. As a last remedy I tried your Pills, and about three months they affected a perfect cure disease, totally eradicated the cough, and rest... and vigour to the chest and digestive organ... TON.

Dear Sir,—In ... plaints I may mention the following ... more extensive of this town with whom I am per... cine before ... fainted, for years was a severe sufferer ... Liver and of the Liver and digestive organs; her ... attendant assured her that he could do nothing ... prove her sufferings, and it was not likely she could survive many months. This announcement naturally caused great alarm among her friends and relations, and they induced her to make a trial of your Pills, which so improved her general health that she was induced to continue them until she received a perfect cure. This is twelvemonths ago, and she has not experienced any symptoms of relapse, and often declares that your Pills have been the means of saving her life.

AN ASTONISHING CURE OF CHRONIC RHEUMATISM, AFTER BEING DISCHARGED FROM THE HOSPITAL INCURABLE.

Copy of a Letter from Mr. W. Moon, of the Square, Winchester.

To Professor Holloway.

Sir,—I beg to inform you that for years I was a sufferer from Chronic Rheumatism, and was often laid up ... by its severe and ... painful attacks. I tried every thing that was recommended, and was attended by one of the most eminent Surgeons in this town; but obtained no relief whatever, and fearing that my health would be entirely broken up, I was induced to go into our County Hospital, where I had the best medical treatment the Institution afforded, all of which proved of no avail, and I came out no better than I went in. I was then advised to try your Pills, and by persevering with them was perfectly cured, and enabled to resume my occupation, and although a considerable period has elapsed, I have felt no return of the complaint. I am, Sir, your obliged Servant,

AN EXTRAORDINARY CURE OF DROPSY, AFTER SUFFERING FOR EIGHTEEN MONTHS.

Copy of a Letter from Mr. G. Briggs, Chemist, Goole, dated February 15th, 1853.

To Professor Holloway.

Sir,—I have much pleasure in informing you of a most surprising cure of Dropsy, recently effected by your valuable medicines. CAPTAIN JACKSON, of this place, was afflicted with Dropsy for upwards of eighteen months, to such an extent that it caused his body and limbs to be much swollen, and water oozed as it were from his skin, so that a daily change of apparel became necessary, notwithstanding the various remedies tried, and the different medical men consulted, all was of no avail, until he commenced using your Pills, by which and a strict attention to the printed directions, he was effectually cured, and his health perfectly re-established. If you deem this worthy of publicity, you are at liberty to use it. I am, Sir, yours respectfully,

(Signed) G. BRIGGS.

ON THE

Philosophy of Marriage and the Secret Infirmities of Youth and Maturity.

With fifty Coloured Engravings on Steel.

In a Sealed Envelope, price 2s. 6d, sterling.

SELF-PRESERVATION: an Analytical Investigation of the Physiology and Functions of Marriage, in all the bearings in which that important subject affects the health and happiness of man, with its disqualifications, and impediments, tracing their origin to the effects of juvenile solitary habits, youthful excess, tropical climates, or close study; followed by practical remarks, founded on twenty years's experience in the treatment of impuissance, nervous delibity, local weakness, spermatorrhœa, syphilis, and all diseases of the urinary and generative system. Illustrated by fifty Coloured Engravings on the anatomy of the reproductive organs and their relative conditions in health and disease. By SAMUEL LA'MERT, M. D., No. 37, Bedford-square, London, Doctor of Medicine, Matriculated Member of the University of Edinburgh, Honorary Member of the London Hospital Medical Society, Licentiate of Apothecaries' Hall, London, &c.

The essential object of this treatise is to point out the fearful consequences resulting from certain habits, irregularities and excesses, which have produced more misery in youth, degradation in manhood, and premature decay at all stages of life, than, perhaps, any other class of disease known to modern pathologists. Its perusal is particularly recommended to persons entertaining secret doubts of their physical condition, and who are conscious of having hazarded the health, happiness and privileges to which every human being is entitled. The contents embrace the origin, effects, prevention and treatment of the deplorable catalogue of maladies connected with nervous debility, exhaustion of the vital energies, prostration of mental and physical capacity local and general weakness, acute and chronic spermatorrhœa, and their endless modifications. The treatment adopted is founded on experience gained in the most celebrated schools of medicine, and by the most eminent practitioners, both in Great Britain and in Continental Europe. Every peculiarity relating to the physiology, pathology, and general treatment of the diseases incidental to the generative system is clearly explained, and the means of immediate relief and ultimate cure described in detail. The professional reputation of Dr. La'Mert, who has taken the most distinguished medical and academic honours, at home and abroad, is in itself a sufficient guarantee that those who may place themselves under his care will, in every instance, meet with that delicate consideration and inviolable secresy which are so requisite in the treatment of these cases.

CAUTION.—In consequence of the extensive sale of this work, which has now attained its sixtieth edition, several spurious and imperfect copies are in circulation. The genuine edition can be had only from the Author or his advertised agents.

The work may be had in St. John, of H. Chubb & Co., price 2s. 6d. stg.; Halifax, Messrs. Morton & Co.; Quebec, at the *Gazette* Office; Montreal, Mr. Dawson, bookseller. Nov. 12, 1853—6m

MANUFACTURERS OF THE

Improved Salamander Safes,

BOSTON.

THE Certificates and Premiums given to our manufacture and the decided preference shown to it by all who regard the subject unbiassed by interest or unprejudiced in any way, surely warrant us in urging upon the community, with strong emphasis, its acknowledged if not unequalled merit. Considering the cheapness of the article, it is surprising so few of our merchants and business men provide themselves with Safes. The cost is very trifling compared with their value—the interest on the price of a medium one being but four or five dollars a year—yet hundreds of persons who are doing an extensive business, and who would not for a day suffer their buildings or other property to be uninsured, have no hesitation in risking the loss of their Books and Papers, often far more valuable. We never knew the owner of a Safe, however, who would part with it for ten times the cost, provided he could not get another. Our Safes have been repeatedly tested in the hottest fires, and in every instance the contents have been found unscathed.

Safes of all sizes manufactured, to suit any desired location. The interior arrangement can be constructed in any way that the purchaser may require. We have appointed

THE Subscriber offers his FARM, on the Post Road leading from Annapolis to Digby, and 1½ miles from the Town of Annapolis, for sale. The Farm contains 330 acres, consisting of tillage, pasture and wood land, with 20 acres of marsh, and there is upon the Premises an extensive Orchard of Apple trees, the most of which are grafted with the best kinds of fruit. The Buildings, which are mostly new, consist of a comfortable Cottage, three large Barns, sheep sheds, wood-house, piggery, &c. &c.; all of which are in good repair, and have been during the past summer covered with fire-proof paint.

The situation is remarkably fine, and commands a most extensive view of the surrounding country. The soil consists of rich red loam, produces heavy crops, and is not easily affected by drought. There is upon the premises, and within 100 rods of the barns, a Peat Bog, from which any quantity may be taken for the preparation of composts, and the river flats along the whole front of the farm afford an inexhaustible supply of marsh mud, an excellent manure for grain and grass. REVIEWS OF THE WORK.

"MANHOOD, by J. L. Curtis.—We agree with the Author that, so far from works of this class being objectionable in the hands of youth, or difficulties being opposed, every facility should be given to their circulation; and to strengthen our opinion, we need but refer to the recent distressing events at our Military and Scholastic Academies at Carshalton and Woolwich."—*Naval and Military Gazette, 1st February*, 1851.

"Curtis on Manhood.—Fortunate for a country would it be, did its youth put into practice the philanthropic and scientific maxims here laid down—one cause of matrimonial misery might then be banished rom our land, and the race of the enervate be succeeded by a renewal of the hardy, vigorous spirits of the olden time."—*Chronicle.*

"We feel no hesitation in saying, that there is no member of society by whom the book will not be found useful—whether such person hold the relation of a parent, preceptor, or a clergyman."—*Sun*, Evening Paper.

Published by the AUTHOR; who begs to inform Patients in the East and West Indies the Mediterranean and British Colonies that their cases can be successfully treated by correspondence only, if the usual fee be enclosed, and the most inviolable secrecy may be relied on.

At home for consultation daily, from 10 till 3, and 6 to 8.
