SHORE, for Dalhousie Church."

AGENCY NOTICE.

R. W. WINFIELD, Esq., *Hardware and Brass Manufacturer; Gas Fittings, Bedsteads, &c. &c. &c., Birmingham.*

GOODS from this Establishment imported in large or small quantities, at cost and charges.—Terms, &c. made known by applying to the Agent.

Messrs. W. & G. HARDING, *Earthenware Manufacturers, Burslem, Staffordshire.*

The Agent, not wishing to monopolize all the Trade in this branch of business, will import Wares from this Establishment for Country Traders and others, by the Crate, at cost and charges, and warrant it not to exceed 67½ per cent., his charge of 5 per cent. included. Traders will begin to find it to their advantage, if they want to compete with others around them, to have their Goods imported.—Terms—one-half the amount to go with the order; the balance, with the expence of importing, to be paid when the Goods arrive here, or a satisfactory arrangement with the Agent, at three months.

Messrs. WM. HOUNSELL & Co., *Lines, Twines and Net Manufacturers, Bridport.*

The Goods from this Establishment are as good, if not better, than any imported into this Province.—Terms—six months.

The Agent returns his sincere thanks to those parties who intrusted him with their orders last winter, and he takes this method of informing them and the country generally, that he expects to visit the respective Manufacturers again this winter, and will leave early in January. Any orders intrusted to his care, shall have his very best attention.—His charge is five per cent. commission, and none on the other side. WM. WARWICK,
Hastings' Brick Building, Water-street.
Nov. 12, 1853.

NOTICE.

THE subscriber takes this method of informing the Country Merchants and Traders generally, that a portion of the two last winters has been spent by him while in England, in finding out the cheapest and best markets for purchasing such Goods as are required for sale here. He intends leaving again in January next, for the same purpose; and any parties who may wish to get their Goods at a cheaper rate than they can by purchasing them here, can have them imported at cost and charges, by applying to the subscriber.

For Dry Goods, a credit of six months will be given for one half the amount, sterling, from the date of purchase. He intends again to visit Newcastle, North and South Shields, to look after Butter Crocks, Milk Pans, &c., &c., and, if possible, to charter a vessel before he leaves, as one cannot always be found there for this port, (which was the reason that last spring's ware was not forthcoming.) Parties requiring articles in this line can make arrangements with him before he leaves—or for any other goods that are required, and he will warrant that none shall be imported cheaper.—Security given for any amount, if required.

ON THE
Philosophy of Marriage and the Secret Infirmities of Youth and Maturity.
With fifty Coloured Engravings on Steel.
In a Sealed Envelope, price 2s. 6d, sterling.

SELF-PRESERVATION: an Analytical Investigation of the Physiology and Functions of Marriage, in all the bearings in which that important subject affects the health and happiness of man, with its disqualifications, and impediments, tracing their origin to the effects of juvenile solitary habits, youthful excess, tropical climates, or close study; followed by practical remarks, founded on twenty years's experience in the treatment of impuissance, nervous delibity, local weakness, spermatorrhœa, syphilis, and all diseases of the urinary and generative system. Illustrated by fifty Coloured Engravings on the anatomy of the reproductive organs and their relative conditions in health and disease. By SAMUEL LA'MERT, M. D., No. 37, Bedford-square, London, Doctor of Medicine, Matriculated Member of the University of Edinburgh, Honorary Member of the London Hospital Medical Society, Licentiate of Apothecaries' Hall, London, &c.

The essential object of this treatise is to point out the fearful consequences resulting from certain habits, irregularities and excesses, which have produced more misery in youth, degradation in manhood, and premature decay at all stages of life, than, perhaps, any other class of disease known to modern pathologists. Its perusal is particularly recommended to persons entertaining secret doubts of their physical condition, and who are conscious of having hazarded the health, happiness and privileges to which every human being is entitled. The contents embrace the origin, effects, prevention and treatment of the deplorable catalogue of maladies connected with nervous debility, exhaustion of the vital energies, prostration of mental and physical capacity local and general weakness, acute and chronic spermatorrhœa, and their endless modifications. The treatment adopted is founded on experience gained in the most celebrated schools of medicine, and by the most eminent practitioners, both in Great Britain and in Continental Europe. Every peculiarity relating to the physiology, pathology, and general treatment of the diseases incidental to the generative system is clearly explained, and the means of immediate relief and ultimate cure described in detail. The professional reputation of Dr. La'Mert, who has taken the most distinguished medical and academic honours, at home and abroad, is in itself a sufficient guarantee that those who may place themselves under his care will, in every instance, meet with that delicate consideration and inviolable secresy which are so requisite in the treatment of these cases.

CAUTION.—In consequence of the extensive sale of this work, which has now attained its sixtieth edition, several spurious and imperfect copies are in circulation. The genuine edition can be had only from the Author or his advertised agents.

The work may be had in St. John, of H. Chubb & Co., price 2s. 6d. stg.; Halifax, Messrs. Morton & Co.; Quebec, at the *Gazette* Office; Montreal, Mr. Dawson, bookseller. Nov. 12, 1853—6¶
