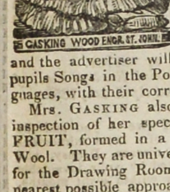
Mrs. Letitia Gasking



Has the pleasure of informing the Ladies of St. John and vicinity that she proposes to give Lessons on the SPANISH GUITAR. She would briefly state that her knowledge of this elegant and fashionable instrument was acquired in London, under the tuition of the celebrated Portuguese Guitarist, Madame Bonomi; and the advertiser will place at the service of her pupils Songs in the Portuguese and Spanish Languages, with their correct pronunciation.

Mrs. Gasking also requests the honour of an inspection of her specimens of FLOWERS and FRUIT, formed in a peculiar manner of Berlin Wool. They are universally admired as ornaments for the Drawing Room, being in appearance the nearest possible approach to Nature—an essential requisite in Fancy Work. Ladies can be instructed in the above with celerity and ease.

Terms may be known of the Advertiser, from 11 to 3 o'clock, west side of Queen's Square.

IN the government and discipline of the School, due regard is had to the health, happiness and improvement of the pupils; and while every reasonable indulgence is granted, the great objects of education are kept constantly in view, viz.:—the full development and proper training of all the physical, intellectual and moral energies, and the formation of habits of industry, punctuality, good order and strict economy in the use of time.

The Educational and Domestic arrangements offer unusual facilities for elder pupils. There is also a separate preparatory department for younger pupils.

A CARD.

MR. JOHN NELSON, Daguerreotype Artist, would respectfully announce to the inhabitants of the City of St. John, that he has leased the entire flat of the building situate on the adjoining the "Custom House." The premises have been fitted up under the immediate direction of Mr. N., at great expense. The Operating Room is constructed upon the latest and most approved principle, with sky lights so arranged as to throw the rays at an angle of forty-five degrees, thus giving the true angles of light and shade, and without which it is impossible to produce a durable or perfect Likeness. Mr. Nelson has no hesitation in saying that he has procured a Camera, which for size and finish is not equalled by any in the Province, and with which he is satisfied he can produce the *fac simile* of the human face in a degree of perfection heretofore unwitnessed.—The public generally are invited to call and examine the specimens now exhibiting, and judge for themselves. To afford an opportunity to *all*, Mr. N. has concluded to take Likenesses equal to those formerly taken by him at a charge of 7s. 6d., for the moderate sum of Five Shillings; those of a superior description and finish will be taken at a price correspondingly low.
