PROSECUTOR ASKS REVOLUTIONISTS BE SHOT TO DEATH

Thirty Socialists on Trial in Moscow — Death Penalty Urged.

(Canadian Press)

Moscow, July 31—Death by shooting of thirty of the social revolutionists on trial here, including four women, was demanded by the prosecutor, M. Krylenko, in an address early today. The prosecutor occupied eighteen hours in summarizing all the testimony and evidence against the defendants, and at times became so dramatic as to arouse the ire of the prisoners, who shouted their defiance in answer to his accusations.

Analyzing, in great detail, the accusations brought by the State, he said there had been shown, link by link, the connections of the defendants with the various plots charged to them, including the assassination of M. Volodarsky and Uritzky, Soviet leaders in Petrograd in 1918, and attempts to kill Premier Lenine and War Minister Trotzky.

When M. Krylenko reached the climax of his speech, and in a high pitched voice demanded the supreme penalty for the welfare of the Government, the audience of several hundred persons applauded, the hand clapping continued for seven minutes. The defendants were not in the least taken aback by the prosecutor's demand—one Ivanova, a woman, actually smiling in his face.

Being without counsel, the principal defendants will make addresses in their own behalf, beginning tomorrow. The trial will probably be concluded within ten days.

BRITISH TROOPS MOVE ACROSS THE BOSPHORUS

Precautionary Move to Be Prepared to Oppose Any Violation of Neutrality of Constantinople.

(Canadian Press)

Constantinople, July 31—The precautionary movement of British troops across the Bosphorus to reinforce French forces on the Topatalja line, thirty miles west, continued throughout the day. This measure is being taken in order to be prepared to oppose any possible violation of the neutrality of Constantinople by Greek troops wishing to cross into Asia Minor to oppose the Turkish Nationalists.

Additional British reinforcements are expected from Malta to be on hand in case of any threatening move on the part of the Greeks.

Yesterday's conference of Allies generals sealed a definite agreement of the Allies to forcibly prevent any possible attempt by the Greeks to take Constantinople. The real danger, however is believed to arise not from the possibility of an order to advance from the Greek high command, but from the exalted feeling among Greek troops whose advance of their own accord is considered possible.

The Allied fleet has been ordered to keep up steam in readiness for any eventuality.

HEAVY ELECTRIC STORM DAMAGES SIMCOE, ONT.

Four Inches of Rainfall Causes Washouts—Lightning Destroys Buildings.

(Canadian Press)

Simcoe, Ont., July 31—During the day almost four inches of rain has fallen here, according to readings at the local meteorological station. There was a shower after midnight and at 10.40 a violent electric storm, without wind, brought down torrents until the water ran running-board high on automobiles caught in the country. The electric discharges were terrific and early in the downpour the farm barns of Charles Woolley of Charlotteville were burned with all contents. A large pine tree in Lynnwood Park was also struck. Officials expect reports of washouts on highway outside. Intermittent showers continue. The rain found Norfolk's spring crop in the stock, or ready for the sickle, and considerable delay in garnering will result but compensation comes through the value of the rain to corn and root crops, apple orchards and pastures.

HUNGER STRIKES BECOME POPULAR IN BELFAST JAIL

Sentences of Flogging Delayed by Men Who Joined Strikers.

Belfast, July 31—A hunger strike, on the part of some of the men now awaiting flogging in the Belfast jail, is delaying the punishment of the prisoners. Nine sentences of this character have been imposed recently, in addition to long terms of imprisonment given several of the defendants, for having revolvers or bombs in their possession. Three of the men have begun hunger strikes.

In the cases of the nine men affected the sentences aggregated twenty-six years and 115 lashes.

AEROPLANES--NOW AND THEN

Do you remember back 13 years, when Orville Wright thrilled the world by demonstrating to the U. S. government that two persons could be carried in a sustained airplane flight?

That was at Fort Myer, Va., in 1909, and marked the entry of the United States into the airplane business.

Take a look at the middle picture, above. It was in this machine that Wright convinced a skeptical world that airplanes had more than suicidal possibilities as passenger carriers. With Lieutenant Frank P. Lahm, Signal Corps, as a passenger, he made a flight of 1 hours 12 minutes, traveling 50 miles at an average speed of 40 miles an hour. A day or two afterwards he carried Lieutenant Benjamin D. Foulis over the 10 mile course from Fort Myer to Alexandria, Va., at a speed of more than 42 miles an hour.

Wright's triumph at Fort Myer was the outcome of continuous experimenation since 1903, the year when man was first lifted into the air by a power-propelled airplane. The man was Orville Wright. The flight, which lasted 59 seconds, was made at Kitty Hawk, N. C., in a biplane. A speed of 30 miles an hour was attained.

But since that first astounding passenger flight of 1909! Take a look at the upper picture. It is a Verville racer, seven of which will be entered in the airplane races this fall. Its powerful motor is expected to drive it at more than 200 miles an hour.

In the lower picture is shown one of the three planes which make daily flights between Cleveland, O., and Detroit, Mich., on a regular passenger line operated by the Aeromarine Airways Company. These planes carry 14 persons, and cover the 110-mile journey in approximately an hour and a half. Since the inauguration three years ago of air-passenger service by this company, it has transported thousands of persons without an injury or fatality.

Also consider the record of the U. S. air mail service. With not a fatality scored against it during the past year, planes have covered more than 1,750,000 miles on the various divisions between New York and San Francisco, carrying mail matter weighing 1,224,500 pounds—a total of more than 49,000,000 letters.

MAROONED ON AN ISLAND WITHOUT FOOD OR SHELTER

Seventy-Two Year Old Trapper Suffered Many Hardships Twenty-Two Days Before Rescued.

(Canadian Press)

The Pas, Man., July 31—After being marooned on an island without food or shelter for twenty-two days, Frank Reynard, a 72 year old trapper, has been rescued, according to word received here from Mile 32, on the Hudson's Bay railway.

Reynard, who has a shack on Cormorant Lake, went out some three weeks ago in his canoe looking for ducks eggs. He landed on a small rocky island, and during his search a storm blew up and his canoe blew away. The trapper was entirely isolated on a spot seldom visited by travellers. There was no fuel for building a fire and no protection from the elements. The only means of sustaining life was some half dozen duck eggs, water snails, small crawfish, wild mint and the roots of reeds. He was conscious when found by a local trapper but very weak. He is, however, recovering rapidly and states it was the heating and strengthening properties of the wild mint that kept him alive.

BATHERS CHASED FROM THE BEACH

Lachine Police Drove B. V. D. Artists and Attenuated Skirt Wearers to Cover.

Montreal, July 31.—The Lachine police swooped down upon the lakeshore yesterday afternoon in a raid against persons in immodest bathing garments, as a result, twenty-five men, women, boys and girls were ordered from the cool water to the blistering wharf, and sternly told to dress and to dress quickly. The bathers, on emerging from the lake, formed a weird parade in B. V. D.'s, shorts and attenuated bathing suits. They were warned that a further offence would mean the lock-up.

TIPPERARY WAS CAPTURED BY FREE STATE TROOPS

London, July 31—The town of Tipperary was captured by Free State troops Sunday morning, says a despatch to the Times from Dublin.

The attack was commenced Saturday by troops from Dublin.

No progress was made for some fire hours, owing to the absence of artillery. The irregulars were well fortified and commanded the main road with machine guns.

The firing died away just before midnight, but was renewed at five o'clock in the morning and the Free Staters succeeded, eventually, in getting around the town and turned the positions of the irregulars.

Sharp house-to-house fighting followed, but the town was won and forty four prisoners were taken. Cleve's factory was badly damaged by
